CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, AUGUST 27, 1902 30

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.
22 Great St. Helen's, London, E.C.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

FOR SALE.

THE ENTIRE CUT OF 190 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

Wanted at Once

ONE CAR CULL SOFT ELM, BASS, PINE or Hemlock for making packing cases, any thickness from ½ inch up to 1 inch dead culls out; 2 cars No. 1 and 2 Dry Soft Elm, 1½ inch thick; also 1 car No. 1 and 2 White Birch or Maple, thoroughly dry, with a large percentage 10 inch and up in width. Quote best price f.o.b. shipping point or Markham. Address TAYLOR & LOUNT, Markham, Ont.

STANDING TIMBER FOR SALE.

600 ACRES OF CHESTNUT, WHITE-WOOD, Hard and Soft Maple, Red and White Oak, Black and White Ash, Basswood, Soft Elm, Beech; a little Hickory, Butternut and Cherry; two railroads running through property; 10M per day mill, 40x100 ft., planer and matcher, shingle machine and other machinery; large dwelling house and house for men; barn and sheds; large bearing orchard; plenty of water; splendid market for wood; best lot of hardwood in this western Ontario; good investment for enterprising man. Bismarck Station, M. C. R., West Lorne, P. O. I. C. SCHLEIHAUF.

SAWMILL MACHINERY FOR SALE

CAPACITY OF MILL 40 M. PER 10 HRS. Will fit up mill with band or circular saw, long timber or lumber mill, will cut from 5 to 6 ft. long, with large edger, slash table and lumber trimmer and jump-up saws, endless log chain and bull-wheel and drag-saw for sawing logs in water, also lath machines and trimmers and live rollers, turn tables, lumber cars and some track iron, with large powerful boiler and engine. Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 117.

FOR SALE

SAW MILL AND FLOUR MILL

FOR SALE AT VERNER, IN THE DISTRICT of Nipissing, Ont., on the C. P. R. line and located on the banks of the river Veuve, the following properties in first-class running order in every respect:

1. A Saw-mill, two stories high, 84x48 feet, well built and having a sawing capacity of 25,000 feet of wood per day. A 100 horse power engine works the mill. A planing machine is also attached to the above, with a capacity of 8000 feet per day. There is also a shingle mill capable of turning out 40,000 shingles a day.
2. A six miles square pine wood limit, located two miles from the saw-mill.
3. Two large houses in perfect order, sheds, etc.
4. A flour mill capable of preparing 300 bushels of bran per day and 150 bushels of flour.
5. 18 acres of land under cultivation.

Good reasons for selling. For terms apply to
W. LALONDE & CO.,
Verner, Ont.

WANTED—2, 3 and 4 inch White Oak. A. BRYCE & CO., 2 Toronto Street, Toronto.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

FOR SALE — First-Class Portable Saw and Shingle Mill; good locality; plenty of timber. For further particulars apply to GEO. A. PATRICK, Emo P.O., Rainy River District.

SITUATION WANTED AS BOOK-KEEPER in lumber office by man experienced in Canadian and British trade. State salary given. Answers to "BOOK-KEEPER," CANADA LUMBERMAN office, Toronto.

WE ARE IN THE MARKET AND WILL pay highest cash price for immediate shipment of Birch, Black Ash, Basswood, Red Oak and Soft Elm, any thickness; will inspect at mill LONDON LUMBER COMPANY, London, Ont.

WANTED.

LUMBER SALESMAN—YOUNG MAN WITH knowledge of Tonawanda grades preferred. Apply by letter to Box 34, CANADA LUMBERMAN, Toronto.

WANTED

INSPECTOR OF WHITE PINE AND NORWAY Deals for the English market—Resident Midland district preferred; state age, experience salary, Box 105, CANADA LUMBERMAN.

BOOM CHAINS FOR SALE.

A LARGE QUANTITY OF 9/16 AND 11/16 Wire, B B. grade, Cable Chain at second-hand. Lengths 10 to 16 feet. In quantities as desired. Write for prices. DETROIT LUMBER CO., Detroit, Mich.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

HARD MAPLE LOGS

ANY person able to supply us with from 10 to 25 carloads hard Maple logs, 50% to be large enough to turn 22" in diameter and 5% large enough to turn 27" in diameter, 10 to 12 ft. in length, not over 25% under 12 ft., to be free of knots, shake and seam, for immediate shipment, write us at once, quoting price and naming point of shipment. OTTAWA LUMBER COMPANY, Ottawa, Can.

Lumber Specialties Wanted

A BRITISH IMPORTER DESIRES TO communicate with Canadian manufacturers of wooden specialties, such as broom and tool handles, picture mouldings, back boards for pictures, etc. The party has been established in business for twelve years, and offers as references several of the leading banks of Europe. Representation upon a commission business is preferred. For particulars address, "T.M.W.", care CANADA LUMBERMAN.

Octave Blier, sash and door manufacturer, Fraserville, Que., is reported to have assigned.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade has been influenced by the assurance of good crops, and prices in one or two instances have further appreciated. While the better grades of pine lumber have been out of the market for some time, the same condition is now being experienced in respect to some of the lower grades. Such a situation at this season of the year, when stocks usually accumulate, is almost unprecedented and has created a very general opinion that lower prices will not be witnessed this year at least. Wholesale and retail dealers are buying for requirements and are not waiting in the expectation of obtaining better terms. It is said that preparations are being made for extensive operations in the woods this winter, but the excessive cost of labor and supplies is likely to prevent a large increase over the production of last season.

Manufacturers of flooring have advanced prices from $1 to $2 per thousand, to correspond with the higher values ruling in the United States. In Toronto retail trade is quite active, but prices on the best grades are lower accordingly than in any other market.

Among the hardwoods oak and basswood lead. Both kinds are in short supply and likely to advance in price. Shingles and lath are steady, with some manufacturers asking $1.85 for XX pine shingles at the mill.

MANITOBA AND BRITISH COLUMBIA.

Weather conditions are most favorable for harvesting operations in Manitoba and the North-west Territories, and the prediction of an abundant yield of grain is certain to be realized. This will mean much to the lumber business. The demand is gradually expanding and promises to be exceptionally large. The prosperity of the surrounding country is indicated by the volume of building operations in Winnipeg, where buildings representing a value of over $2,500,000 have been erected this year. Almost each day the announcement is made of the proposed erection of a large structure. Lumber and shingles are advancing in British Columbia, the mills being behind with orders. For Ontario delivery 6 to 2-inch cedar shingles are quoted at $2.90, and 5 to 2-inch at $3.30.

UNITED STATES.

Prospects are good for an immense demand for lumber in the United States.

The present movement indicates an active trade later in the season, to meet which retail dealers are now stocking up quite heavily. Green lumber is being shipped from Duluth, not only of the best grades, but of the poorer qualities also. The features of the past week have been an increased scarcity of piece stuff and an improved demand for low grade boards. At Buffalo cuts, barn boards and box are strong and moving in considerable quantities, with prospects of an advance in price before long. Dealers in Norway say that they are getting fully one dollar more than a month ago, and believe that the demand will be good enough to maintain it. Wholesale and retail dealers are stocking up for fall and winter and are contracting wherever they can find suitable stock almost regardless of price.

At a meeting of the price list committee of the North-western Hemlock Manufacturers' Association, held at Marshfield, Wisconsin, last week, all items of short piece stuff were advanced from fifty cents to $1 per thousand, 3 inch hemlock plank $1, and timbers 50 cents. A price of $3 was established on No. hemlock lath f.o.b. Wausau.

The hardwood trade continues steady. White ash is quiet temporarily, while on the other hand oak and birch are quick sellers at firm prices. A considerable quantity of timber is being used at Buffalo for piling.

Shingle prices have improved. The Duluth price for red cedar shingles is $2.50. There is a heavy call for white pine shingles, XXXX being quoted at $3.60 at Buffalo, where the stock is very light. Eighteen-inch hemlock shingles are selling at Pittsburg at $3.10. Pine lath are not so firm.

GREAT BRITAIN.

The tone of the British market is decidedly firm, and while all classes of Canadian lumber are in good demand, exceptionally favorable reports are heard regarding spruce deals. At a recent auction sale 3 x 9 third quality brought £9 15s per standard, and 3 x 6 unassorted £7 10s. A large firm of Irish importers recently made inquiry for a cargo of New Brunswick spruce deals and were asked £8 f.o.b. for 11-inch, 18 to 20 feet average. With freight added, the price delivered at a British port would be at least £10 per standard, an unusually high figure. Owing to the light import this season, higher prices are predicted for the fall months, with possibly a still higher range of values next year. First quality Quebec waney pine is almost unobtainable, and importers having any stock are asking fancy prices. It is probable that the production of square and waney timber in Canada during the coming winter will show an increase over last season, although on this point nothing definite is yet known. Should the production be greatly increased, it would prevent the advance which will otherwise take place.

It is reported that Hon. John Charlton, M. P., recently purchased from Hale & Booth, of Pembroke, extensive timber limits in the Wahnipitae district, paying therefor a price in the neighborhood of $300,000.

STOCKS AND PRICES.

A raft of 3,000,000 feet of hemlock logs left Parry Sound last week for Detroit, consigned to the Detroit Lumber Company.

A raft of 2,000,000 feet of pine logs, cut from deeded lands, has arrived at Saginaw, Mich., for the Palmerton Wooden-ware Works.

The Saginaw Lumber & Salt Company last week sold to Detroit parties 1,000,000 feet of common lumber cut at the Sandwich mill.

The New Brunswick Government will offer for sale on September 3rd two miles of timber lands on Rider's Brook, a branch of the Canaan River.

The steamer Holmlea sailed last week from Montreal for Hull, with a cargo of deals. The steamer Petunia is loading a cargo of deals for London.

Bucknam Bros., of Severn Bridge, Ont., have purchased a timber limit at Rock Lake from the Canada Land Company and are about to build a saw mill there.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Interest in local lumber circles is divided between the limits and the mills; perhaps the former obtain a shade the better of the situation. It is now a settled fact that the operations on the different limits during the coming autumn and winter will be more extensive than for several years past. It does not need a search-light to locate the reason for this. Stocks standing in the yards are sold close to the saws, and a study of economic conditions indicates a continued prosperity. Lumbermen have not been compelled to wander far from their offices in search of customers, indeed it has been but a question of making the supply meet the demand. A local dealer who recently returned from a trip through Ottawa Valley towns, remarked yesterday that he never before saw such active and extensive preparations for operations on the limits. A. & P. White, the Pembroke Lumber Company, and the Munro Estate, of Pembroke, Chas. McCool, M. P., Nipissing, McLachlin Bros., Arnprior, and Gillies Bros., Braeside, will all reinforce their gangs on the limits. Extra territory will in several cases be cut over. The Ottawa firms are following the aame lead and the probabilities in short point with satisfactory natural conditions to an increased log output.

Another feature is the increased attention being paid the production of square timber. On reliable authority it is estimated that fully 2,000,000 cubic feet of square timber will be taken out during the season just opened. This will be an increase of over 500,000 feet on last season's cut, the largest in years.

The following firms, amongst others, will engage in the square timber business: Robert Hurdman, Rideau Lumber Company, Chas. McCool, M.P., Hull Lumber Company, Shepard & Morse Lumber Company, Fraser & Company, J. R. Booth and Edward Moore, of Ottawa, and R. H. Klock, Mattawa. Several of these firms will enter the square timber line after an absence of several seasons from that business.

Considerable difficulty is being experienced in securing men capable of working on square timber. The decline in the demand in recent years has caused the bush and axe men to neglect the fine points of scoring, marking and hewing, and now that the services of experienced men are again in demand the number is reduced and wages have advanced accordingly.

While opinions conflict in some degree as to the state of the local lumber markets, it is agreed that prices have suffered no change with the exception mentioned in the last letter of hardwood. Ash and basswood have gained additional favor and prices have advanced a degree.

Although some of the dealers complain of vacation slackness, officials of both the Canadian Pacific and Canada Atlantic Railways report business good, the movement of lumber, lath and shingles from all mill points being large. The New York market is drawing heavily on the mills of the Ottawa district, and almost the entire output of lath is finding its way to points in Pennsylvania and Ohio. The prospects for the fall business are good.

Over $300,000 was involved in a recent deal whereby the W.C. Edwards Company purchased limits in the Temiscamingue country, previously owned by the Arthur Hill Company. The Edwards Company will conduct operations on the newly purchased limits this season. The limits are said to contain valuable timber, including large areas of pine, maple and spruce. The Edwards Company have an output for its hardwoods in its factory in Ottawa, where the finest lines of office furnishings are turned out.

As was predicted in a recent Ottawa letter in the CANADA LUMBERMAN, the Upper Ottawa Improvement Company has decided to extend its territory of operations from Des Joachims, above Pembroke, to the head of Lake Temiscamingue.

Heretofore this work has been done exclusively by the line of steamers owned and operated by Alexander Lumsden, ex. M.P.P., and run in connection with the Upper Ottawa Company's boats. If the latter concern cannot secure control of the Lumsden line, it will purchase and operate boats on a new line. It was at the request of the lumbermen that the company decided to extend its operations. Hereafter the work of handling the logs and supplies will be conducted with greater expediency.

Ald. Chas. D. Amour, of Hull, recently secured a large contract of supplying timber for use as "piling" in the Montreal harbor improvement work. He has disposed of over 6,000 telephone and telegraph poles this season. His latest sale was made to the Sydney, C.B., Electric Company, to whom he sold 1,500 poles.

OTTAWA, August 23rd, 1902.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

During the past six months a number of American lumbermen have had their cruisers in the unoccupied timber lands of British Columbia, presumably for the purpose of securing limits to supply the mills which they contemplated building on this side of the line or to provide a supply for their mills in Washington should the Provincial Government revoke the act prohibiting the exportation of logs from British Columbia. Although these cruisers found considerable areas of timber lands accessible to the water, very few limits were taken up or purchased, as there was no likelihood of the act above spoken of being revoked, and the mills now in operation in British Columbia are more than sufficient to supply the Canadian market. If new mills were built their product would for the most part have to find a market in the United States, and the tariff, now almost prohibitory, might in the future be raised and the mills would then be thrown out of business. If British Columbia manufacturers had free entry into the United States markets it is safe to venture the assertion that the number of mills in operation here would be quadrupled within two years, and plenty of accessible cedar would be found to supply them for many years.

By "accessible cedar" is meant that now adjacent to salt water and which can be put in the water under the present system of logging and the prices prevailing for logs. Under present prices which mill men are able to pay for logs, the latter must be so near the water that donkey engines and horses are sufficient plant to put them in at a profit. As prices advance railroads will be added to the plant and large areas of timber inaccessible under present conditions will become accessible. A large portion, in fact the greater portion of the best timber areas now accessible to the water, is held by the large mill companies here, and although there is a large amount of timber lands not taken up, they are individually of small area and scattered.

The statement recently published that American lumbermen were unable to find any quantity of accessible cedar in British Columbia is largely incorrect. The real

cause of their not erecting mills here was a lack of market for the Canadian product. It is true that at present Canadian mills cannot supply the immediate demand for shingles in Ontario and Manitoba, but they were unprepared for such a large demand and consequently had little stock on hand when the rush came, and many of them had made provision for a supply of cedar timber sufficient to run ten hours per day only. The mills here will likely stock heavily during the winter, and it is not probable that there will be a scarcity next year. If the crops had been a failure in the North-west Territories and Manitoba, it is doubtful if the mills now in operation would have had sufficient orders to keep them running more than ten hours per day.

The fishing season has almost closed, and labor will be more plentiful and at reduced prices for Oriental labor. Prices of lumber are firm and likely to advance still further within the next few weeks. The demand for logs is good, and prices high for this province, with no likelihood of weakening, owing to the increased cost of putting them in the water. Foreign shipments are brisk at fair prices.

VANCOUVER, August 20th, 1902.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 26th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,366,183	953,431	1,519,699
White pine	505,666	394,847	297,570
Red pine	60,796	06,435	59,947
Oak	429,302	371,305	505,742
Elm	586,031	828,137	527,884
Ash	81,227	127,565	68,438
Basswood	241	464	....
Butternut	142	850	....
Tamarac	71	22	....
Birch and Maple	392,149	298,193	9 ,41 0

THE BOSTON MARKET.

The demand for spruce lumber at Boston shows considerable improvement, with more inquiry. Prices are well sustained to firmer: Ten and 12-inch dimensions, $20 to $21; 9-inch and under, $18.50 to $19; 10 and 12 inch, random lengths, 10 feet and up, $20 to $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $18 to $18.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady, with offerings small: Boards, 12, 14 and 16 feet stock, $15 to $15.50 for good eastern; random eastern, $14 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

White pine continues very firm, with higher quotations the rule: Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $ 38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2 in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ and 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is in steady request and unchanged: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firm and unchanged: Extra cedar, $3.50 to $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are scarce and high: Clear, $38 to $40; second clear, $35 to $37; extra No. 1, $25 to $30.

Laths are firmer: One and five-eighths inch, $3.10 to $3.15; 1½ inch, $2.95 to $3.00.

The Nipissing Telephone Company desire to purchase a quantity of cedar poles.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, SEPTEMBER 3, 1902 31

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

150,000 thirty-inch elm meal barrel.
250,000 thirty-inch number two's
For immediate shipment. Correspondence solicited. T. H. DECEW & SONS, Fenelon Falls, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Two months ago it was predicted that prices of white pine lumber had reached the top notch for the present movement at least. Since that time the situation has steadily grown stronger, a few grades have advanced in price, and there promises to be witnessed a further appreciation in lumber prices generally. The flourishing condition of the country at large, and of manufacturing enterprises in particular, augurs well for a heavy consumption of lumber during the fall and winter months. This, coupled with the pronounced shortage of stock, is the basis of the present hopeful feeling in respect to the future of lumber. It would seem to be the wisest policy for buyers of lumber to anticipate their wants as far as possible for the balance of the year and place orders on the present basis of values, as a weaker market is extremely improbable. Western Ontario is now furnishing the bulk of the white pine lumber handled in the Saginaw valley, and dealers in that district are still in the market for stock. The demand for large blocks of lumber has this season been so heavy that dealers in car lots have found it extremely difficult to obtain the lumber required to supply their customers. Some Toronto dealers report that they have been compelled to refuse orders for this reason. There will doubtless be much activity in the woods this winter, with large blocks of stock taken out on contract for the purpose of supplying United States dealers.

Hardwood stocks are becoming reduced to a low point, and it is almost surprising that prices have not advanced to a greater extent. As the true situa-

tion becomes more generally recognized a sharp advance in some lines of hardwoods may be expected. The scarcity of basswood still continues.

QUEBEC AND NEW BRUNSWICK.

The spruce market is exceptionally strong. When the mills close down for the season they will be carrying very little stock that has not been contracted for. The low freight rates have enabled shippers to place lumber on the British market at a comparatively low figure. Prices of square and waney timber are unchanged. The figures showing the quantity which has reached Quebec this season will be found in another column. The proposed improvements to Quebec harbor, on which tenders have just been taken, will cost upwards of one million dollars, and will call for considerable large timber.

UNITED STATES.

The slight weakness incident to the summer months has passed away, and now that the harvest is almost over the demand for lumber is increasing and promises to assume large proportions during the fall months. The effect on the lumber trade of the abundant harvest of corn and the smaller grains overshadows all other features and assures another year at least of general commercial prosperity. It is evident from the volume of trade that this is the view taken by dealers and consumers. White pine leads all other classes of lumber. Sales are being made at the quotations last given, although a slight weakness has exhibited itself in low grade inch pine, and the better grades show a tendency to advance. It is not unusual for dealers to ask an advance of from $1 to $2 per thousand over list quotations on selects and uppers. At Toledo, Ohio, No. 4 boards show increased strength, while Norway is selling at an advance of $1, and some dealers have advanced hemlock prices 50 cents. There is a tendency on the part of buyers of hemlock to want special widths and sizes instead of buying it merchantable, as has been the rule in the past. It is expected that Buffalo and Tonawanda dealers will put out a list within a week making an advance of 50 cents on hemlock, the supply of which seems to be growing shorter every day. The base price will then be $15.50. Spruce continues in strong demand. Prices are unchanged, although the rush of orders now reported is likely to bring about an early advance. All grades of hardwood lumber are moving actively. A New York dealer reports that he is selling cull hardwoods at a higher price than ever before. Basswood and maple are holding the strong position they recently acquired, while there is less complaint of a shortage of oak than there was two months ago. The tone of the shingle and lath market is in line with lumber. The building trade throughout the Eastern States is exceptionally active and is consuming large quantities of shingle and lath as well as lumber. No. 1 white pine lath are quoted as high as $4 at Tonawanda. In Chicago the price is given as $3.50.

GREAT BRITAIN.

Steadiness characterizes the British timber market. Wet weather has interfered with house building and other outdoor operations, but the volume of business in lumber has been sufficient to maintain prices. Information recently received that prices of Swedish lumber had been advanced exerted a favorable influence upon the market. Prices realized at auction sales in August show conclusively that there is a strong demand for the better qualities of Canadian lumber. As imports for the balance of the season are expected to be light, it is believed that there will be no difficulty in holding the present range of prices throughout the year. Favorable reports are still chronicled regarding spruce lumber. Writing of the Liverpool market a correspondent of the Timber Trades Journal says: "The spruce market is still in the same firm position; some shippers are pretty well sold out, and what they possess they purpose holding until the autumn or winter shipments are to be made by the liners. Judging from advices we have from abroad and from the attitude here, the position of the spruce market is likely to be maintained for the remainder of the season, if indeed an advance is not made. This will certainly be the case for cargoes in sailing vessels as soon as the prohibition of carrying deck loads comes in vogue." In London the market shows signs of coming strength, current quotations for Quebec third quality spruce being £9 15s c.i.f., and for 3 x 7 and 8 £7 5s to £7 10s, according to specification.

STOCKS AND PRICES.

The retail price of pine shingles in the Buffalo market is $1.50.

The steamer Rap is about to load deals at Cape Tormentine, N. B., for the United Kingdom.

The barque Kohola has sailed with lumber from the Hastings mills, Vancouver, B. C., for Delagoa Bay, South Africa.

The Bryan Manufacturing Company, of Collingwood, Ont., are reported to have purchased 1,000,000 feet of lumber from the Holland-Graves Lumber Company, of Byng Inlet.

Frank I. Alliger, of North Tonawanda, N. Y., recently purchased 3,500,000 feet of box and other minor grades of white pine in the Georgian Bay district, to be shipped to Tonawanda.

The Millar-McCool Lumber Company has been formed in Pembroke. They have purchased a limit on the Georgian Bay which they will operate during the coming winter, taking out a quantity of square timber.

The statement was made last week that Hon. John Charlton had purchased timber limits in the Wahnipitæ district from Hale & Booth, of Pembroke. The limits purchased by Mr. Charlton were owned by Booth & Shannon.

The iron barque Weatherfield is loading a cargo of lumber at Montreal for Adelaide, Aus. The cargo will consist largely of pine from the Ottawa valley. The trip from Montreal to Australia will occupy over 100 days.

A Buffalo dealer furnishes the following prices of inch white pine in leading grades: Uppers, $75; selects, $79; fine common, $60; No. 1 cuts, $40; No. 2 cuts, $25; No. 1 moulding, $50; No. 1 shelving, 10 inches and wider, $42; No. 1 dressing, $35; shaky clear, 4 inches and wider, $35; box, 6 inches and wider, $17.50; 1x12 box $20; No. 1 barn, $26 to $32; No. 2 barn, $23.50 to $26; No. 3 barn, $19 to $23; mill culls, 4 inches and wider, $14 to $14.50.

A. S. Kibbee & Son and D. L. White & Company, of Albany, N. Y., have just closed one of the largest timber purchases in the history of the Upper Peninsula of Michigan with Ferguson Bros., of Munising. The amount involved in the deal is about $500,000. Ferguson Bros. are to cut the pine from a tract of timber of 20,000 acres on the Dead River, northwest of Marquette. It is estimated that there is about 50,000,000 to 60,000,000 feet of pine in the tract. The pine will be sawed at Marquette and distributed from there.

The following timber berths were sold at the Crown Lands Office, Fredericton, N. B., last week: S. W. of Crocker's Lake, parish of Derby, two miles, to Robert E. Parks, at $8 a mile; Cain's river, two miles, to Wm. Richards Company, at $8 a mile; Bass River, Gloucester county, three miles, to T. B. Winslow, at $104 a mile; North branch, Newcastle River, two miles, to Sayre & Holly Lumber Co., $9 a mile; East of Hazleton Settlement, S. W. Miramichi, two miles, to Thomas Parker, at $8 a mile; Dideguash River, two miles, to F. H. Todd & Sons, at $15 a mile.

Of the Barbadoes lumber market Messrs. S. P. Musson, Son & Company, in their report of August 16th, say: "There have been no arrivals of either white pine or spruce within the fortnight. The demand, as usual at this season of the year, is very limited, but a small cargo of suitable white pine would probably bring fair prices. Spruce will not be wanted to any extent until later in the year, but a small cargo might be placed at about late rates. The only arrival in shingles is 134,000 by the "Resolute" from Gaspe, Que., of which 79,000 of Spruce Laying were sold at $2.25½, and 55,000 Cedar Laying at same price.

SPRUCE IN NEW YORK.

The following reference to the spruce lumber market of New York is interesting: The spruce market perhaps more than any other is a shining example of present conditions in the wholesale market, while its prevailing features are based on actual conditions from sources of supply to consuming centres rather than on any outside causes. In conversation with a local Eastern Spruce house last week they said:

"Spruce is a bull situation from top to bottom and unless all signs fail we will see the highest price for spruce lumber and logs before snow flies that we have ever known. There is a short log supply at the mills, while conditions in the consuming markets are such that manufacturers and commission men are getting any price within reason for their lumber. It is not a question of price but simply of being able to furnish the material, and, even if the demand should fall off more than one half during the next three months, the conditions are such at producing sources that the highest average price will result just the same. We have had the biggest business this year that we have ever had. We have had the highest average price for our lumber that we have ever had, and yet with all this the market to all appearances, throughout all this season, has been a dull one and it has been necessary for us to go after the business as hard as in ordinary times, and yet we have had these results."

This is, indeed, a singular condition, but nevertheless a true one, and while the same conditions have been experienced in other lumber, they have not been so pronounced as in the spruce market. As a matter of fact the largest amount of business and the highest average price which has been obtained by the manufacturers cannot in reality be harmonius with a dull market, and yet that is just what has happened and makes the why and wherefore doubly hard to figure out.

The arrival of Eastern Spruce continues light, but what was arriving at last reports was selling promptly at $17 to $18.50 for narrow random, $18.50 to $21 for wide random, and $20 to $23 for special orders, with lath firm at $3 to $3.25, with an upward tendency. The arrivals of random cargoes from now on will be light, as those firms owning mills are sawing nothing but special orders and will continue to do so under present conditions, as the demand for this class of stock is brisk.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 29th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,366,183	984,375	1,591,600
White pine	505,666	412,132	298,600
Red pine	60,796	77,790	63,080
Oak	429,302	385,432	527,760
Elm	586,031	910,032	561,800
Ash	81,227	134,430	79,240
Basswood	241	464	....
Butternut	142	944	....
Tamarac	71	198	....
Birch and Maple	392,149	306,842	164,300

THE BOSTON MARKET.

The tone of the spruce lumber market at Boston is firmer, especially on vessel stock, which was especially low only a few weeks ago. Danger of a strike among the sawmill operatives in the Bangor section gives a firmer tone to the spruce market. Here trade shows some improvement: Ten and 12-inch dimensions, $20 to $21; 9-inch and under, $18.50 to $19; 10 and 12 inch, random lengths, 10 feet and up, $20 to $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $18 to $18.50; all other randoms, 9-inch and under, 10 feet and up, $16.50 to $18; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is about steady, with offerings small: Boards, 12, 14 and 16 feet stock, $1.450 to $15.50 for good eastern; Vermont, $13.50 to $14.50; random eastern, $13.50 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The white pine position is very strong, with prices high: Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2 in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ and 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is steady and unchanged: Quartered oak, $64 to $66; plain oak, $41 to $45; common and rejects, $20 to $25; red oak, no market; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firmer, with most shippers asking 10 cents advance: Extra cedar, $3.60; clear, $3.10; second clear, $2.55; extra No. 1, $1.95 to $2; Washington and British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are very firm and have just been advanced $2: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are firmer: One and five-eighths inch, to $3.15; 1½ inch, $3.00.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, SEPTEMBER 10, 1902 32

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

WANTED.

1 INCH AND 1¼ INCH BASSWOOD IN CARloads. State quantity, quality and lowest cash price. Apply Box 8, CANADA LUMBERMAN.

FOR SALE.

ONE-THIRD INTEREST IN WHOLESALE and Retail Yard in Sault Ste. Marie. Doing good business, saw mill and planing mill in connection. Apply Box 80, Soo, Ont.

FOR SALE.

THE ENTIRE CUT OF 190 OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

SAWMILL MACHINERY FOR SALE

CAPACITY OF MILL 40 M. PER 10 HRS. Will fit up mill with band or circular saw, long timber or lumber mill, will cut from 5 to 6 ft. long, with large edger, slash table and lumber trimmer and jump-up saws, endless log chain and bull-wheel and drag-saw for sawing logs in water, also lath machines and trimmers and live rollers, turn tables, lumber cars and some track iron, with large powerful boiler and engine. Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 112.

FOR SALE

SAW MILL AND FLOUR MILL

FOR SALE AT VERNER, IN THE DISTRICT of Nipissing, Ont., on the C. P R. line and located on the banks of the river Veuve, the following properties in first-class running order in every respect:

1. A Saw-mill, two stories high, 84x48 feet, well built and having a sawing capacity of 25,000 feet of wood per day. A 100 horse power engine works the mill. A planing machine is also attached to the above, with a capacity of 8000 feet per day. There is also a shingle mill capable of turning out 40,000 shingles a day.
2. A six miles square pine wood limit, located two miles from the saw-mill.
3. Two large houses in perfect order, sheds, etc.
4. A flour mill capable of preparing 300 bushels of bran per day and 150 bushels of flour.
5. 18 acres of land under cultivation.

Good reasons for selling. For terms apply to
W. LALONDE & CO.,
Verner, Ont.

FOR SALE—INCH ELM, COMMON AND better, also inch pine mill culls; we are open for offers. KNIGHT BROTHERS CO, Burk's Falls

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

FOR SALE — First-Class Portable Saw and Shingle Mill; good locality; plenty of timber. For further particulars apply to GEO. A. PATRICK, Emo P.O., Rainy River District.

SITUATION WANTED AS BOOK-KEEPER in lumber office by man experienced in Canadian and British trade. State salary given. Answers to "BOOK-KEEPER," CANADA LUMBERMAN office, Toronto.

WE ARE IN THE MARKET AND WILL pay highest cash price for immediate shipment of Birch, Black Ash, Basswood, Red Oak and Soft Elm, any thickness; will inspect at mill LONDON LUMBER COMPANY, London, Ont.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Hardwood Staves For Sale

THE UNDERSIGNED IS IN A POSITION to manufacture a large quantity of hardwood staves, and would be pleased to enter into correspondence with firms desiring to purchase such stock either in Canada or abroad. Address L. M. MAJOR, Bedford, Nova Scotia, Canada.

WOOD PULP MILLS.

AN OLD ESTABLISHED ENGLISH HOUSE with long and close connections with the British Papermakers is open for agency in either Sulphite, Soda or Mechanical. If desired will guarantee accounts and pay on shipments. Address "Pulp," care of CANADA LUMBERMAN, Toronto, Canada.

HARD MAPLE LOGS.

ANY person able to supply us with from 10 to 25 carloads hard Maple logs, 50% to be large enough to turn 22" in diameter and 50% large enough to turn 27" in diameter, 10 to 12 ft. in length, not over 25% under 12 ft, to be free of knots, shake and seam, for immediate shipment, write us at once, quoting price and oaming point of shipment. OTTAWA LUMBER COMPANY, Ottawa, Can.

Lumber Specialties Wanted

A BRITISH IMPORTER DESIRES TO communicate with Canadian manufacturers of wooden specialties, such as broom and tool handles, picture mouldings, back boards for pictures, etc. The party has been established in business for twelve years, and offers as references several of the leading banks of Europe. Representation upon a commission business is preferred. For particulars address, "T.M.W.", care CANADA LUMBERMAN.

BOOM CHAINS FOR SALE.

A LARGE QUANTITY OF 9/16 AND 11/16 Wire, B. B. grade, Cable Chain at second-hand. Lengths 10 to 16 feet. In quantities as desired. Write for prices. DETROIT LUMBER Co., Detroit, Mich.

STAVES FOR SALE

600,000 twenty-eight and one-half inch mill run ash and maple.
300,000 twenty-eight and one-half inch mill run basswood.
150,000 thirty-inch elm meal barrel.
250,000 thirty-inch number two's
For immediate shipment. Correspondence solicited. T. H. DECEW & SONS, Fenelon Falls, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

It may seem monotonous to repeat week after week that the lumber market is firm and exhibiting indications of further advances. Yet the conditions actually existing cannot be ignored. There is an underlying current of strength which bids fair to bring about higher prices in some grades at least as soon as increased activity shall develop. This is looked for in the near future, as already the fall movement has commenced in a slight degree. As new grain is marketed part of the proceeds therefrom will find its way to the lumber manufacturer. The upper grades of white pine have all season been scarce and in urgent demand. This condition still exists. Cull lumber has not been quiet, but the movement in it has not been in line with the higher grades. Within the past fortnight this class of lumber has commenced to move more freely in both the Canadian and United States markets. Some manufacturers claim that prices must advance, as wages are high, stumpage advancing, and men scarce and not disposed to work steadily. It is claimed that the stock of white pine lumber will not be sufficient to supply the demand from all sources until the cut of next year is ready for the market. This accounts in part for the strength of hemlock lumber and the recent advance of $1 in the price of long stuff.

All classes of hardwoods are firm and in good demand. The scarcity in birch and basswood is more pronounced than in other hardwoods. The hardwood market would seem to be almost entirely in the hands of the manufacturers, who, if they hold together, will probably be able to realize materially higher prices before the end of the year.

Shingles are very scarce and in great demand. For XXX 10-inch clear butts $2.75 at the mill is freely paid.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is remarkably strong. Inquiries for stock are coming in faster than the orders can be filled. A favorable factor is that the buying is not confined to any one market, the lumber being wanted for Great Britain, United States, West Indies and South America, as well as for home consumption. It is not anticipated that prices will advance materially, although certain grades may go higher. Clapboards have retained their recent advance to $40 to $42 for extras, Boston delivery. Large shipments of lath are being made to the United States. Shingles are firm at recent quotations.

MANITOBA AND BRITISH COLUMBIA.

The lumber demand throughout Manitoba and Western Ontario could scarcely be better. Mills are far behind with orders and the immediate future promises no relief. Naturally prices have advanced. British Columbia lumber has recently been advanced $1 on eastern shipments, $2 on foreign shipments and 15 cents on shingles. Freight rates are weak with a downward tendency, particularly for Australia and South Africa. Exporters are thus enabled to place lumber on foreign markets at the minimum of cost. A scarcity of freight cars has interfered with eastern shipments, but the railroad companies have promised to remedy this trouble.

UNITED STATES.

The white pine lumber situation has changed in one or two respects. Dimension and norway are exceptionally scarce and strong, while No. 4 and 5 boards are slightly weaker. There is a growing feeling that a further advance will take place in the price of all piece stuff, notwithstanding that dimension is probably selling higher than ever in the past. The weakness in the lower grades of boards is not such as to cause alarm, but is probably due to the fact that wet weather and delayed farming operations have combined to prevent a large movement of lumber in the agricultural districts, where the poorer class of lumber is consumed. The white pine market as a whole is very strong, and expectations justify the prediction that trade during the fall will be unusually active. It is reported that lumber is being shipped in large quantities to the striking coal regions, which is regarded as indicating an early settlement of the strike. Hemlock lumber is stronger. A new price list went into effect at Philadelphia on September 2 making an advance of from 50 cents to $1.50 per thousand and establishing a new base by excluding the 16 foot lengths, which are given a price $1 higher. The domestic demand for hardwoods has made up for the slackness in export trade. Prices remain firm and are expected to advance with the full advent of the fall demand, which is now exhibiting itself only in a moderate degree. The maple flooring market is again quieter. Shingles and lath are advancing. In the Saginaw Valley the best grade of pine shingles is held at $4.25 and 18-inch white cedar shingles at $3.90 for XXXX.

GREAT BRITAIN.

Further strength has been shown in lumber prices in Great Britain since our last report. The advance in spruce values has come sooner than was anticipated, and all grades have been marked up fully five shillings per standard at Liverpool. A few lots are still offering at £8 15s. c.i.f. London for 3x9 third quality, but most shippers are obtaining an advance on these figures ranging from 2s. 6d. to 5s. per standard. At the public sales £9 15s. has been realized. First-class pine in all dimensions continues scarce, whilst 3x9 third quality is commanding £11 15s. c. i. f. Liverpool. Importers who purchased early in the season have profitted thereby, and are likely to be further benefitted, as the chance of a decline in prices is very remote. Birch timber brought from 32s. to 35s. per load at a recent auction sale. Staves have declined from £3 10s. to £3, but it is predicted that this weakness will be only temporary.

STOCKS AND PRICES.

A raft of 6,000 logs containing about 4,000,000 feet recently arrived at Collingwood, Ont., for the J. & T. Charlton Saw Mill Company.

J. R. Booth, of Ottawa, will engage in the square timber business this winter and will take out about 150,000 cubic feet on his Mattawa limits.

The barque Hecla is loading lumber at Chemainus, B. C., for Australia. The barque Emma Louisa sailed last week from Chemainus for Valparaiso with lumber.

The Rathbun Company are reported to have purchased a block of timber in Burton township, Haliburton county, from the Canadian Land Company, which they will operato this winter.

Fire in the yard of Bradley, Miller & Company, Bay City, Mich., last week destroyed 1,000,000 feet of lumber, 3,000,000 pieces of lath, 200,000 shingles and several hundred feet of deckage.

Chas. Querengesser, of Brodhagen, Ont., has formed a syndicate to operate the timber limits which he recently purchased in New Ontario. A fortnight ago an additional 900 acres were purchased. It is understood that several portable mills will be operated on the limits this winter.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., will operate five camps in the woods this winter. They expect to take out 5,000,000 feet. Joseph Turner expects to take out a similar quantity, and the Moulthrop Lumber Company, of John's Island, will take out about 15,000,000 feet.

The Cleveland-Ohio price list on white pine, adopted a fortnight ago, makes several changes, including the following: $19 for 2 x 4, 6 and 8 inch, 16 feet and under; $20 for 2 x 10, 18 feet and under; $23 for 2 x 12, 18 feet and under. For hemlock $14.50 is named for 2 x 4 to 10, 14 feet and under; $15 for 16 foot same sizes; $17 for 2 x 4 to 2 x 12, 18 foot.

During the month there were received at Tonawanda by vessel 70,000,000 feet of lumber, as compared with 63,000,000 feet for the preceding month. Shipments of lumber from the Tonawandas by canal last month exceeded those of any previous month this season, being over 30,000,000 feet.

The following reference to the Barbadoes market is furnished by Clairmonte, Mann & Company: "Merchantable white pine is wanted, the last sale being at $26 per thousand. Second quality is in oversupply and sells at $17.50. The last sale of spruce was at $19.60. The "Lizzie Lindsay" arrived from Gaspe, Que., with 506,000 Long Gaspe cedar shingles. Sales were made at $3.67½ to $4.07 per M, quality ordinary. Laying shingles are quoted at $2.25½.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Mr. Charles McCool, M. P., of Nipissing, now a resident of Ottawa, and Mr. John P. Millar, of Pembroke, have formed a partnership to conduct lumbering operations. They have purchased from the estate of the late J. W. Munro, M. P. P., Pembroke, a limit in Whitman township near Sault Ste. Marie, Ont. The financial consideration is in the neighborhood of $150,000. Square timber operations will be conducted on the new limits. Another deal involving a large sum is under consideration. Other parties are interested in this.

Continued prosperity and a promising future have created a revival and an increased demand for good limits. From present indications the Ottawa and Ottawa Valley companies will work every foot of available territory this season.

Canadian lumbermen are turning their attention towards the States. Recently the Read Lumber Company was organized in Ottawa to operate in Southern California. Last week Mr. Charles Warren, of the Imperial Lumber Company, Toronto, returned from Kentucky. He is said to have secured 3,600 acres of hardwood lands in that State, which will be operated.

The last number of the Canada Gazette contained notice of the formation of a new lumber company with a capital of $500,000. The members are James H. Sanderson and Edward Moore, Prince Albert, N.W.T., and Kenneth McDonald and Hector McDonald, merchants, Ottawa. The seat of operations is not mentioned.

J. B. Giroux, of Lefebvre, a village on the Ottawa River, was yesterday committed for trial on two charges of "defacing and concealing saw logs."

It was Ald. Charles Desmaris, of Hull, not Ald. Charles D'Amour, as previously announced, who secured the contract for supplying timber for the new Montreal harbor works.

Ex-Mayor Bingham, who has charge of the log drives on the Gatineau, was in the city to-day. He reports the drives in point of number of logs contained ahead of last year's. Continued rains facilitated the work, and the logs were moved somewhat earlier this year than last.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN).

During the past week prices of umber have increased one dollar per thousand on eastern shipments, and fifteen cents per thousand on shingles. The price on foreign cargoes has also advanced two dollars per thousand. The increased demand has been the principal cause of the present rise in price, but it is not likely that further advances will be made for a period of six months unless something unusual happens.

The most serious handicap the mills have had for a number of years in filling orders is the scarcity of cars which has prevailed for the past two months. Some mills have not had over one-fourth the number of cars required to move shipments east. Much dissatisfaction now prevails, and the outlook for the future supply is far from encouraging. Unless more cars can be had some of the mills may have to shut down. The Railway Company claims to be doing everything possible to relieve the situation, but as yet little has been done. Some mills have established slips and are having Great Northern Railway barges bring around cars for Ontario shipments. This will in a small measure relieve the situation.

The weather continues fine for logging operations and some new camps are being established. Wages are still high for good men, but the supply is more plentiful since the fishing season has closed. Work could easily be found in the lumber camps of British Columbia for four or five hundred good reliable men, and eastern Canadians accustomed to such work can find work at wages ranging from $2.50 to $4.00 per day. Over fifty per cent. of the men employed with lumber camps of this province are very unreliable and are continually changing from one camp to another. With the introduction of a better class of men logging operations could be carried on more successfully.

Vancouver, August 28th, 1902.

E. C. Leblanc, planing mill, Mattawa, Ont., is reported to have assigned to D. A. Dunlop.

The Barker Lumber Company's saw mill at Burford, Ont., together with a quantity of lumber, was destroyed by fire on September 4. The loss is about $6,000.

TRENTON, CANADA

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 29th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine . .	1,366,183	1,324,723	1,591,600
White pine	505,666	555,740	298,600
Red pine	60,796	89,184	60,080
Oak	429,302	434,040	527,760
Elm	586,031	941,913	561,800
Ash	81,227	134,612	79,240
Basswood	241	464	. . . .
Butternut	142	944	. . . .
Tamarac	71	198	. . . .
Birch and Maple. . . .	392,149	307,039	164,500

THE BOSTON MARKET.

The demand for spruce lumber at Boston is better, with the position stronger: Ten and 12-inch dimensions, $20 to $21; 9-inch and under, $19; 10 and 12 inch, random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is about steady, with the supply small and in a few hands: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; random eastern, $13.50 to $14.50; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The white pine position does not lose a particle of strength, even firmer conditions being mentioned: Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $88; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ and 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is well held, with a fair demand. Quartered oak is still scarce. Whitewood is steady; ash unchanged: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are very firm, with shippers and some dealers getting 10 cents advance: Extra cedar, $3.60; clear, $3.10; second clear, $2.55; extra No. 1, $1.95 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards are very firm: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are firmer: One and five-eighths inch, $3.15; 1½ inch, $3.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, SEPTEMBER 17, 1902 33

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 2,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C.c mprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted througbout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner, one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to E. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W L. SCOTT,
Master at Ottawa.

FOR SALE FOR NEXT SPRING AND SUMmer delivery, Twenty Thousand and up Hemlock Railway ties. For particulars apply to W. THOMSON, Thurso, Que.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANT TO CORRESPOND WITH PARTIES that wish to open up a trade in all kinds of Hardwood Blocks for the English market. Specifications, prices, etc., obtained from E. D. G. PIDGEON, St. John, N. B.

WE ARE IN THE MARKET AND WILL pay highest cash price for immediate shipment of Birch, Black Ash, Basswood, Red Oak and Soft Elm, any thickness; will inspect at mill. LONDON LUMBER COMPANY, London, Ont.

BOOM CHAINS FOR SALE.

A LARGE QUANTITY OF 9/16 AND 11/16 Wire, B B. grade, Cable Chain at second-hand. Lengths 10 to 16 feet. In quantities as desired. Write for prices. DETROIT LUMBER Co., Detroit, Mich.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER Co., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Hardwood Staves For Sale

THE UNDERSIGNED IS IN A POSITION to manufacture a large quantity of hardwood staves, and would be pleased to enter into correspondence with firms desiring to purchase such stock either in Canada or abroad. Address L. M. MAJOR, Bedford, Nova Scotia, Canada.

FOR SALE.

THE ENTIRE CUT OF 190- OF SEVERAL mills on the Ottawa Valley of all number one white pine mill culls, strips and sidings, 1" to 3" thick, and also other grades. Shipments by water or rail. Write for particulars and quotations to A. F. BURY AUSTIN, Wholesale Lumber & Timber, Room 507 Merchants Bank Bldg., Montreal. Also spruce lumber of all grades.

SAWMILL MACHINERY FOR SALE

CAPACITY OF MILL, 40 M. PER 10 HRS. Will fit up mill with band or circular saw, long timber or lumber mill, will cut from 5 to 6 ft. long, with large edger, slash table and lumber trimmer and jump-up saws, endless log chain and bull-wheel and drag-saw for sawing logs in water, also lath machines and trimmers and live rollers, turn tables, lumber cars and some track iron, with large powerful boiler and engine. Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 112.

3/16 INCH BASSWOOD AND ELM

WE HAVE FOR SALE ABOUT 200,000 FEET 3/16 inch Rotary Cut Basswood, 35 to 42 inches long and 6 to 16 inches wide, a large percentage of which is clear; also about 300,000 feet 3/16 Elm, mostly 60 inches long, suitable for crating. Would sell this stock in bulk or would cut it to dimensions or strips ready for use. THE RIDER & KITCHENER CO., Limited, Lindsay, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

A Western Ontario manufacturer, referring to the lumber market, writes: "Conditions were never brighter in the lumber trade, and the consumption of lumber in Canada and the United States is enormous." This is the almost unanimous opinion of lumbermen, whether manufacturer or dealer. In some quarters there is an inclination to endeavor to prevent prices from going higher, on the ground that a further advance would be likely to check the consumption. That the conditions warrant higher prices, however, can scarcely be disputed. There will not be sufficient white pine lumber to meet the requirements of the market, nor is the log production of the coming winter likely to relieve the situation entirely, as the condition of the labor market renders it almost impossible to secure more than an average crop of logs. Present indications point to a heavy demand and advancing prices during the balance of this year. In the Ottawa Valley good wide strips are bringing $39 wholesale and are likely to go to $40 within two weeks. Cutting-up plank also is likely to advance. Norway has come into greater favor and sells readily at $13 at the mill. A few mills have a moderate stock of mill culls and the lower grades which have not been contracted for, but the entire production of good lumber may be said to have passed out of first hands.

Hardwoods are gaining in strength. Soft elm and maple stocks are more plentiful than other kinds, but red oak, black ash, birch and basswood are scarce and in good demand, with prospects of higher prices in the near future.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber prices have hardened during the past week. There is a heavy demand for spruce boards and South American stock, as well as for British deals. For spruce boards, 6 inches and up wide, $13 at the mill is being paid, while for deals of fair specification contracts have been placed at an equal to $38 delivered at British ports, with higher prices for a large percentage of 9 x 3.

Although the cut of spruce lumber this year has been, if anything, above the average, stocks at the present time are very light, and when the year's contracts are filled it is predicted that the stocks carried over will be the smallest in twenty years. Manufacturers are finding no difficulty in obtaining $3.60 for extra cedar shingles on Boston rate of freight.

There have been no recent sales of square or waney timber, and prices remain unchanged, but the tendency is towards firmness.

UNITED STATES.

Farmers have commenced to buy lumber liberally, and as during the summer months the demand was chiefly from the cities, increased activity has been caused by the buying throughout the agricultural districts. Most manufacturers have sold the greater portion of their cut and will go into the winter with very light stocks. The retail demand is expanding and indicates that a large consumption of lumber is expected during the fall and winter months. It is predicted that a marked shortage in several lines of white pine will be experienced. The present scarcity pertains especially to piece stuff. The shortage in dimension has already compelled some manufacturers to buy from others to fill orders. This condition is certain to result in higher prices for dimension. The strength of hemlock lumber is little less than remarkable, but is probably due to an appreciation of the scarcity of white pine. In New York last week an advance of 50 cents in the price of hemlock was put into effect, while Tonawanda dealers anticipate that an advance of from 50 cents to $1 on some of the longer lengths will be made very shortly. Buffalo retailers held a meeting a few days ago and adopted a new schedule for hemlock on the basis of a $3 advance over the wholesale price. Spruce is almost as firm as hemlock. Frames can hardly be bought in the Boston market at less than $19, with 10 and 12-inch at $21.

One of the most active hardwoods is basswood, for which there is a constant inquiry. The hardwood market as a whole is firm, with maple somewhat backward.

Red cedar shingles have advanced fifteen cents within the last ten days. This advance has been reflected in a stronger market for other kinds of shingles. White pine would be more in favor among dealers but for the scarcity and difficulty in obtaining a supply. Spruce lath was recently advancsd 25 cents in New York.

GREAT BRITAIN.

The lumber trade of Great Britain have watched with some interest the result of the wheat harvest. The prediction that it would be an exceptionally poor one has been confirmed, as wet weather throughout the summer prevented the wheat from properly maturing. It is not believed that the poor harvest will materially affect lumber prices, as the stocks held are not large and imports continue to be light. The decrease in the different classes of lumber held in the Surrey Commercial Docks at London on August 31st of this year, as compared with same date last year, is as follows : Pine deals, 209,207 pieces ; pine battens, 41,086 pieces ; spruce deals, 300,086 pieces; spruce battens, 249,808 pieces ; Baltic deals, 300,207 pieces; Baltic battens, 1,456,229 pieces; Baltic prepared board, 5,930,166 pieces ; slating battens, 2,922,707 pieces. Considering the wet summer the extent to which stocks have been kept down is quite satisfactory. Importers are discouraging further advances in shippers prices, but are placing orders at current quotations with some freedom. The key to the situation, so far as Canadian lumber is concerned, is the light stocks that all held on this side for shipment to Great Britain, the result of an increased demand at home and in the United States. The best grades of white pine deals are in splendid demand, prices ranging as high as $75 per thousand feet. For best quality spruce deals $38 per thousand feet is being paid by dealers for Quebec specifications, and $26 for New Brunswick specifications. Red pine is showing more life at slightly advanced figures. First-class rock elm, maple and oak meet with ready sale. Prices of birch have been maintained, but the stock is rather heavy.

STOCKS AND PRICES.

The steamer Ancud sailed from Montreal last week for Antwerp, calling at Three Rivers to take on a quantity of deals.

The steamer Kalford is about to load a cargo of deals at Quebec for Cork. The barque C. B. Whidden sailed from Montreal last week for Rosaria, with a cargo of lumber.

There will be offered for sale by public auction by the New Brunswick Government on September 24th three square miles of timber limits on the Eel river, Lower Bay du Vin, and 4½ miles on Mc Donald's Brook, a branch of the Green river.

The Sutherland-Innes Company, of Chatham, Ont., state that the only change in the cooperage stock market is for the better. They beleive that No. 1 staves will be a little scarce later on, and that the market for all classes of cooperage stock will advance considerably before the end of the year.

At the Crown Lands Office, Fredericton, N. B., the following timber berths were sold last week each, going to the applicants at the upset price of $8 a mile. Little Salmon River, Victoria, 2 miles to J. A. Patterson; head of North Pole, branch S. W. Miramichi River, 9 miles, to Timothy Lynch; between Cow Mountain and Serpentine Lake, 6 miles, to Timothy Lynch; head of Gaspereau River, 6 miles, to Sayre & Holly Lumber Co.

Clairmonte, Man & Company, under date of August 30th, say of the Barbadoes market : "There have been no arrivals of lumber during the fortnight. Merchantable white pine is wanted, the last sale being at $26 per M, while second quality is in over supply and brings $7.50 per M. Last sale of spruce was at $19.60. The "Lizzie Lindsay" arrived from Gaspe, Que., on 17th with 506,000 shingles. Sales were made at $3.67½ to $4.07 per M for Gaspe Long Cedar."

The Fredericton Boom Company had rafted upwards of one hundred million feet of logs of all kinds up to September 1 of this year. The quantity rafted up to same date last year was only 81,000,000 feet, and for the whole of 1901 the total was 91,399,515. The quantity rafted this season is made up as follows : 43,942 joints containing 566.40 tons of timber; 484,120 feet of hemlock; 6,498,870 feet of cedar; 3,343,310 feet of pine ; 93,919,988 feet of spruce; total 104,245,288 superficial feet.

The cut of timber in the Lake St. John district of Quebec promises to be larger during the coming winter than ever before. Already several large contracts have been given out. Elzs Tremblay, of Ste. Anne de Chicoutimi, has undertaken to cut 300,000 logs at Lake Kiskisink for the Belgo-Canadian Pulp Company, of Shawinigan Falls. Israel Morin, of Chicoutimi, has taken a contract for the same company for 200,000 logs, and John Trembly for 80,000 logs. A. Jonquiere will also take out a quantity of logs this winter.

THE GLASGOW MARKET

According to Edmiston & Mitchells' monthly timber circular, a fairly active business was done in Glasgow during the month of August, both on an "ex quay" and an "ex yard" basis, and values have been well maintained throughout. The consumption generally continues on a satisfactory scale, and, as the import to date has been very moderate, the market is strong all round. First quality white pine deals and sidings are in good demand, but for lower qualities there is not much enquiry. The housebuilding trade still continues in an active condition, and the prospects for the autumn and winter are fairly good.

WHITE PINE—The imports during the month consist of about 5000 loads, chiefly first-class waney. Some good lines of first-class waney deckwood have been placed "ex ship" at prices ranging from 3s 2d to 3s 5d per cubic foot, according to size. Square timber is difficult to move ; prices, however, are firm at 2s 6d to 2s 9d per cubic foot for 800 to 1000 feet per page.

RED PINE—The import consists of about 500 loads, and coming on a light stock it will meet with a ready sale, as there are some good enquiries at present in the market. Prices are firm at from 1s 9d to 2s per cubic foot, according to size.

OAK—There has been an import of about 2200 loads, chiefly on contract. There is a fair demand and prices are firm at 3s to 3s 6d per cubic foot, according to specification.

ELM—The import during the month has been about 1800 loads. A number of sales are reported at firm prices, and prospects for first-class rock elm are good, though inferior timber is difficult to sell.

BIRCH — Quebec — The imports for August amount to about 400 logs and 130 loads planks, some of which were sold "ex quay" at prices which could not be satisfactory to shippers, but the bulk of the import found its way into store. The stock is still heavy and is moving away very slowly. Lower Port—There have been no imports during the month, but there is still a considerable stock on hand which is in all probability sufficient to meet the market's requirements for some time to come.

ASH—About 600 logs have come forward during the month, part of which went away from the ships' side, the balance being stored. There is very little enquiry for ash, and there is an ample stock on hand.

DEALS, &C.—The imports during the month have been on a moderate scale, and prices still continue firm. First pine deals and sidings of all sizes are scarce, and some good lines of these could be placed at satisfactory prices if quality good. Spruce deals are moving off fast, and stocks of some sizes are low, especially 8 and 9-inch. Current values as under : Broad first pine deals, £26 to £31 ; 11-inch, £24 to £26 ; ends and non-dimensions, £18 to £22. Second pine deals—11-inch and up, £18 10s to £21 ; non-dimensions, £12 10s to £15. Third pine deals—11-inch and up, £12 to £13 ; ends and non-dimensions, £8 10s to £10 10s. Fourth pine deals—11-inch and up, £9 10s to £10 ; narrows, £7 10s to £8 5s. Red pine deals—9 and 11 inch, £10 to £12 ; narrows, £7 to £8. First pine sidings and strips—9 and 10-inch average, £18 to £20 ; 11 to 12 inch average, £21 to £24 ; 13 to 14 inch average, £25 to £26. Spruce deals—9-inch and up, £8 10s to £9 10s ; 7 and 8 inch, £7 5s to £8 5s. Lower port pine and spruce—9-inch and up, £8 10s to £9; 7 and 8 inch, £7 to £7 15s.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

TIMBER LIMIT TRANSACTIONS.

Several important transactions in timber limits have taken place during the past week. Munro Bros., of Pembroke, disposed of a large limit on the Jocko river, in the Mattawa district, to J. B. and W.H. Fraser, of Ottawa. The figure is given as $225,000. The limit was purchased by Munro Bros. two years ago for $150,000, and it is said that since that time they have taken off logs and square timber to the value of probably $230,000.

The Rideau Lumber Company last week disposed of their limits on the Dumoine river to the Pembroke Lumber Company, of Pembroke, Ont., for a sum in the vicinity of $200,000.

Edward Moore, of Ottawa, is reported to have sold a limit on the Black river to McLachlin Bros., of Arnprior, but the report is not confirmed.

A. B. Hunt, of Bury, Que., has sold to T. A. Vandyke and others, of New Hampshire, 2,500 acres of timber land located near Bury Village, the price being $13 per acre.

Allen Francis, of Renfrew, is reported to have recently purchased a timber limit in the Sault Ste. Marie district at figures said to approach the $200,000 mark.

Limits in townships of Jarvis and Anderson, estimated to contain 50,000,000 feet, have been purchased by James McFadden, of Ottawa, and a limit in the township of Chesley has been purchased by N. Dyment.

The sash and door factory of W. W. Harper, of Charlottetown, P. E. I., was completely destroyed by fire on September 9th. The loss is estimated at $3,000, with no insurance.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 29th August, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine . .	1,366,528	1,324,723	1,591,600
White pine	507,525	555,740	298,600
Red pine	61,102	89,184	60,080
Oak	452,,826	434,040	527,760
Elm	634 626	941,913	561,800
Ash	88,358	134,612	79,240
Basswood	241	464	. . . .
Butternut	142	944	. . . .
Tamarac	71	198	. . . .
Birch and Maple. . . .	457,154	307,039	164,3 0

THE BOSTON MARKET.

The demand for spruce lumber at Boston is very fair, and in face of the fact that the cut was a small one, leaving the mills rather short of logs, the tone of the market is firm. Quotations are fully sustained: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is in small supply, and in few hands, with the market firm, though quiet: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

The white pine position continues very firm, though trade is quiet: Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $88; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber continues generally firm, with a fair demand: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firmer, with shippers and dealers getting 10 cents advance: Extra cedar, $3.60; clear, $3.15; second clear, $2.55; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Clapboards continue very firm: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are firmer, under the fact that New York has advanced 25 cents: One and five-eighths inch, $3.15; 1½ inch, $3.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

The Lumberman Monthly Edition, 24 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, SEPTEMBER 24, 1902 34

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the umber and wood-working industries. Contains nterviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the 'Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in he current week's issue.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 23,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C, comprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District.

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted througbout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner, one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop.

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent. of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to E. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W L. SCOTT,
Master at Ottawa.

Hardwood Staves For Sale

THE UNDERSIGNED IS IN A POSITION to manufacture a large quantity of hardwood staves, and would be pleased to enter into correspondence with firms desiring to purchase such stock either in Canada or abroad. Address L. M. MAJOR, Bedford, Nova Scotia, Canada.

3/16 INCH BASSWOOD AND ELM

WE HAVE FOR SALE ABOUT 200,000 FEET 3/16 inch Rotary Cut Basswood, 35 to 42 inches long and 6 to 16 inches wide, a large percentage of which is clear; also about 300,000 feet 3/16 Elm, mostly 60 inches long, suitable for crating. Would sell this stock in bulk or would cut it to dimensions or strips ready for use. THE RIDER & KITCHENER Co., Limited, Lindsay, Ont.

SAWMILL MACHINERY FOR SALE

CAPACITY OF MILL, 40 M. PER 10 HRS. Will fit up mill with band or circular saw, long timber or lumber mill, will cut from 5 to 60 ft. long, with large edger, slash table and lumber trimmer and jump-up saws, endless log chain and bull-wheel and drag-saw for sawing logs in water, also lath machines and trimmers and live rollers, turn tables, lumber cars and some track iron, with large powerful boiler and engine. Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 112.

FOR SALE FOR NEXT SPRING AND SUMmer delivery, Twenty Thousand and up Hemlock Railway ties. For particulars apply to W. THOMSON, Thurso, Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

Stocking up for fall and winter trade is now in full swing. Assortments in the hands of retailers are broken and must be replenished if the requirements of customers are to be supplied. At the mills there is no surplus in any class of lumber. Hemlock and hardwoods, which were relatively quiet early in the year, gradually strengthened in sympathy with white pine, and are now equally as firm in price. The advances that have been put into effect in the distributing centres of the Eastern States have encouraged the mill men of this province to hold what little stock they have for still higher prices. The strong position held by white pine is shown by the fact that one hundred million feet of lumber has this season been shipped from Western Ontario to Saginaw and Bay City.

Many of the mills in Ontario will cease operations for the season this month, while others will discontinue night crews. Thus the quantity of stock manufactured from now on will be comparatively small. A dearth of white pine shingles is looked for this winter and prices are likely to advance.

QUEBEC AND NEW BRUNSWICK.

The strong position of spruce lumber is now recognized by both buyer and seller. There may not be sufficient stock to supply orders, and if prices should change it will be in the direction of an advance. Spruce clapboards are selling at $42 on Boston freight rate, and best quality cedar shingles at $3.65. The buying for fall trade has emphasized the scarcity which has existed nearly all season in certain classes of stock.

The timber market is unusually firm, notwithstanding that up to September 23rd of this year the quantity of waney pine culled at Quebec was 240,000 feet greater than for same period last year. The quantity of oak is about 40,000 cubic feet greater, but white pine, red pine, elm, ash, birch and maple show a decrease. It is expected that Quebec stocks will at the close of navigation this fall be lighter than ever before.

UNITED STATES.

The high prices of lumber are not regarded with favor by the agricultural community. The demand in the farming districts has shown a falling off during the past week, as farmers have been engaged

with their crop and are not much disposed to accept present prices excepting for such lumber as is urgently required. Apart from the country demand the lumber trade is in excellent condition. Throughout the Eastern States the activity is pronounced and the market exceptionally strong. One of the best indications of the prevailing strength are the advances that have been made in the Albany and Bay City price lists. Our Albany correspondent has marked up all good lumber about $5 per thousand, while in the Bay City and Saginaw list all grades down to barn boards have been advanced. The scarcity of white pine lumber is pronounced. The mills have much less stock than usual at this season of the year, and wholesale and retail dealers are not carrying more than an average supply. In Chicago prices are firmer than they have been since the opening of navigation. Sales of short pine piece stuff in cargo lots have been made at $16, and of hemlock piece stuff at from $11 to $11.50, with $12.50 for inch. Buffalo dealers are asking $20 for 12 inch box and $40 for inch No. 1 cuts. The recent advance in hemlock has not checked the demand. At Boston $17 is the base price on plank, with $18.50 for No. 1 and $15.50 for No. 2.

Hardwood salesmen find no difficulty in placing stock. Maple, elm and basswood are good sellers throughout the Eastern States. Shingles have stiffened in price.

GREAT BRITAIN.

There is no real change to record in the tone of the British market since our last report. Notwithstanding that at recent auction sales prices were not in all cases sustained, there is a widespread belief that prices for next year's shipments will show a further advance. The import of sawn timber to the United Kingdom for the eight months of this year is some 30,000 standards less than for the same period last year. Importers are endeavoring to discourage a further advance in prices, but so far as Canadian lumber is concerned, the conditions seem to favor a higher range of values. In the London market Quebec waney pine is unobtainable in any quantity, and there are numerous inquiries for stock from the various shipbuilding centres and around the coast generally. Quebec oak also is scarce and dear. First quality pine deals remain steady, after having advanced about £3 per standard during the season. The market for the lower qualities of deals is stronger, for the reason that the import has been lighter. Holders of spruce stocks are not pressing sales, as they believe that it will be impossible to replace their supply at lower prices.

STOCKS AND PRICES.

The steamer Mennon has loaded deals at Montreal and Three Rivers, Que., for Great Britain.

The John King Company, of Fort William, Ont., are taking out 50,000 ties along the English river.

David Argue, of Parry Sound, Ont., has contracted with the Holland & Graves Lumber Company, of Byng Inlet, to take out over 3,000,000 feet of saw logs at Sturgeon Bay.

J. & T. Charlton, of Collingwood, will operate their Killarney and White Fish timber limits during the coming winter. On the White Fish River they will cu both pine and cedar.

There is a better feeling in the slack cooperage trade than has been reported before. The apple crop is likely to be larger than it was expected to be. Following are latest quotations at Buffalo: Dry elm staves, first-class, $7.75 to $8; second-class, $4.25 to $4.50; basswood heading, 5¼ to 5½ cents for first-class, 3¾ to 4 cents for second-class; coiled hoops, $10 for 6-foot, $10 to $10.50 for 5½ foot; hickory hoops, $6 to $6.25. This being the off season for tight cooperage, business is quiet.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN).

Reports from time to time have appeared in the press as to the alleged combine which exists among the Pacific Coast saw mills in dealing with foreign shipments by water. It is true that there is an agreement among the mill-owners of the States of Washington, Oregon and California and those of British Columbia to sell by the recognized price list. During the past two years or more, prices were so demoralized that the average price of lumber for shipment by water was between $7 and $8, consequently many of the mills barely cleared expenses and some of them lost money. Had such a state of affairs continued, many of the mills would have been forced to the wall and a large number of men thrown out of employment.

During the spring a joint meeting of all the mills engaged in foreign shipping was held in Seattle to adjust affairs. It was estimated that the shipments by water during 1902 would total 300,000,000 feet. It was then agreed to have all orders apportioned among the different mills according to their cutting capacity and a schedule was struck for the different mills. It was also provided that any manufacturer wishing to cut more than his apportionment could buy of the cut of other manufacturers who did not wish to do the full amount. It was not compulsory for any one mill to cut not less than their apportionment, but any mill which cut more had to pay a certain percentage per thousand feet into the general fund, which will be distributed according to a ratio among the mills who did not cut their allotted share.

The agreement so far has worked very satisfactory and prices are now such that a reasonable dividend can be made on the capital invested. The mills are all running full time and labor is higher, with the consequent raise in the price of lumber. The agreement is more of a moral nature than anything else and it is overstepping the mark to state that a hard and fast combine exists in the general sense of the term.

The local and interior markets are good and shipments are moving more rapidly owing to a better supply of cars. The weather is exceptionally fine for this time of year and logging operations are progressing favorably, although logs are yet somewhat scarce owing to the large cut of the mills. There is a likelihood of some trouble arising among the mills catering to local trade and the Teamsters' Union of the City of Vancouver. The latter have delivered an ultimatum to the mills to the effect that a certain wage be paid and that no discharges be made of men without consulting the Union. The mills will fight the matter to the end, and have taken united action against what they term unfairness on the part of the unions.

Vancouver, B. C., Sept. 13th, 1902.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The demand for shantymen in Ottawa is greatly in excess of the supply, and agents have been forced to make a tour of outside towns to secure men. This week one agent went as far as Gaspe, Que., to secure men for Mr. J. R. Booth's Georgian Bay shanties. Nearly every firm, Canadian and American, operating within railroad distance of Ottawa, has commissioned local agents to secure men. The latter receive as a rule a dollar a man, and in their eagerness to secure the "one spot" they haunt the stations looking for eligible men who may run into Ottawa with the intention of hiring for work in the shanties. Wages have advanced and range from $28 a month and board upwards. On the limits cases have been known where men were tempted from one camp to another by the promise of higher pay.

The statement recently published in a local paper that over $2,000,000 has changed hands within the last year in the transfer of timber limits, caused considerable comment, but men in a position to know agreed that the figure was about correct. Further negotiations are pending and a deal or two may be announced this week.

Mr. Jas. Klock, ex-M. P., has bought out the interests of his brother in limits on the Quinze river, in the Temiscamingue district, and will operate there for square timber. Gordon Bros., of Pembroke, will also transfer their attention to the Temiscamingue country and operate there on a large scale.

While opinion is divided, it seems to be pretty well understood that with favorable natural conditions this season's output of logs will equal that of last year, despite the advance in wages, price of supplies, etc.

His friends in the lumber trade will sympathize with Mr. E. T. Smith, Collector of Revenue in the Public Works Department, in the death of his wife, who passed away after a brief illness a few days ago.

Ottawa, Sept. 22nd, 1902.

TIMBER LIMIT PURCHASE.

Timothy Lynch, of Fredericton, N. B., has purchased from James S. Fairley timber lands located on the north side of the Miramichi River, on Fall Brook, Little Dungarven, Rocky Brook and The Sisters, including in all 5,420 acres. The purchase price is said to represent a considerable sum.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 23rd September, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,369,428	1,353,666	1,591,600
White pine	597,525	558,995	298,600
Red pine	61,162	89,761	60,080
Oak	455,351	485,806	527,760
Elm	676,163	942,372	561,800
Ash	91,522	135,108	79,240
Basswood	241	464	....
Butternut	142	944	....
Tamarac	71	198	....
Birch and Maple	459,333	307,039	164,300

THE BOSTON MARKET.

There is a fair demand at Boston for spruce lumber, with the supply very short, whereby the market is kept strong. The shortage of logs is felt in most of the eastern mills. Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock lumber is very steady and unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine is very firm at quotations: Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is in fair demand and very steady: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are very firm, especially for extras: Extra cedar, $3.60 to $3.65; clear, $3 to $3.10; second clear, $2.55; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards are about out of the market, and nominally very firm: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

The still stronger position of laths in New York, with most of the cargoes going there, has made the Boston market very firm: One and five-eighths inch, $3.15; 1½ inch, $3.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, OCTOBER 1, 1902 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:
IMPERIAL BUILDING, MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 23,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C. comprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District.

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted througbout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner. one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop.

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent. of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to E. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W L. SCOTT,
Master at Ottawa.

WANTED—WHITE STRAIGHT GRAINED 1¾ Maple, both plain and quarter sawn, also 1¼ Red Birch. Box "Z," CANADA LUMBERMAN

WANTED AT ONCE—ONE CAR LOAD OF 1" Spruce firsts and seconds. Reply with full particulars to THE NEWCOMBE PIANO CO, LTD., Toronto.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED— WHITE OAK TIMBER, CAR Stuff and Plank. Large lot of Piling in any kind of wood. Hardwood Lumber, Pine and Hemlock sawn to order. G. ELIAS & BRO., Buffalo, N. Y.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

Hardwood Staves For Sale

THE UNDERSIGNED IS IN A POSITION to manufacture a large quantity of hardwood staves, and would be pleased to enter into correspondence with firms desiring to purchase such stock either in Canada or abroad. Address L. M. MAJOR, Bedford, Nova Scotia, Canada.

3/16 INCH BASSWOOD AND ELM

WE HAVE FOR SALE ABOUT 200,000 FEET 3/16 inch Rotary Cut Basswood, 35 to 42 inches long and 6 to 16 inches wide, a large percentage of which is clear; also about 300,000 feet 3/16 Elm, mostly 60 inches long, suitable for crating. Would sell this stock in bulk or would cut it to dimensions or strips ready for use. THE RIDER & KITCHENER CO., Limited, Lindsay, Ont.

Important to Lumbermen

AUCTION SALE

THE FOLLOWING WILL BE SOLD BY public auction at the Anderson Furniture Co.'s mill, Trout Creek, on WEDNESDAY, OCTOBER 15TH, sale to commence at 1 o'clock.

1. A timber limit containing about 11 square miles, on which is a lot of good hemlock, spruce, maple and birch timber. The G. T. R. runs through the centre of the limit.
2. A first-class Waterous band saw mill, (capacity 30,000 to 40,000 per day), complete with edger, trimmers, etc.
3. Shingle mill with saws, jointers, packers, etc.
4. Camp and mill chattels, consisting of horses, sleighs, wagons, chains, harness, trucks, saws, axes, cooking utensils and other articles too numerous to mention. Terms for chattels, cash.

Terms on mill and limit will be made known on day of sale.

For further particulars apply to the
ANDERSON FURNITURE CO.,
Trout Creek, Ont.

WANTED — A QUANTITY OF WHITE BASSWOOD. Box 6, CANADA LUMBERMAN.

RAILS AND CARS FOR SALE

FIFTEEN MILES 30 LB. STEEL RAILS IN good order, logging cars and locomotives; immediate shipment. For particulars apply to JOHN J. GARTSHORE, 83 Front Street W., Toronto.

SAWMILL MACHINERY FOR SALE

CAPACITY OF MILL 40 M. PER 10 HRS. Will fit up mill with band or circular saw, long timber or lumber mill, will cut from 5 to 60 ft. long, with large edger, slash table and lumber trimmer and jump-up saws, endless log chain and bull-wheel and drag-saw for sawing logs in water, also lath machines and trimmers and live rollers, turn tables, lumber cars and some track iron, with large powerful boiler and engine. Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 712.

Important Sale

—OF—

VALUABLE TIMBER LIMITS

UNDER INSTRUCTIONS FROM WM. HENDRIE, ESQ., of Hamilton, there will be offered for sale by Public Auction, at the Russell House, Ottawa, on WEDNESDAY, 17th DECEMBER, 1902, at 2 o'clock in the afternoon, the following valuable Timber Berths, under license from the Crown, subject to the regulations of the Crown Lands Department of the Province of Quebec, namely Upper Ottawa Limits, Nos. 591, 592, 593, 594, 597, 598, 599, 600, 601, 602, 603 and 604, containing in all about 272 square miles. The limits will be sold in one lot.

Terms and conditions to be made known on the day of sale.

For further particulars, apply to
MacCRAKEN, HENDERSON & McDOUGAL,
Central Chambers, Ottawa,
Vendor's Solicitors.

CURRENT TRADE CONDITIONS.

ONTARIO.

The close of September finds lumber prices steady after the several advances that have been put into effect during the season. With almost the entire season's production manufactured and ready for the market, it would not be surprising if prices should show a tendency to recede from their high point; but the only tendency in this direction is confined to one locality and to one class of trade. In Western Ontario some shading of prices on the lower grades of white pine in carload lots is reported, but it has not been of such an extent as to cause the trade much concern. There is really no reason to cut prices at the present time, as the demand is of average volume and a good trade seems assured throughout the fall and winter months. Of course, there will be quiet periods. In Toronto it has not yet been possible to advance prices on good lumber to a basis corresponding with

other markets. This is probably due to the fact that the manufacturers of sash, doors, blinds, and other woodwork have been working up their old stock and have not purchased much lumber at prevailing prices. They have, therefore, been in a position to sell their goods at a relatively low cost, but when they are compelled to replenish their stock of raw material it will be necessary to advance the prices of woodwork. Hardwood lumber has shown more strength of late than pine. Prices on all hardwood stock are strong, and in some kinds there will be a famine before next spring. Unless present indications are misleading higher prices will be the ultimate result.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber was never stronger than it is to-day. Any stocks for sale are rapidly picked up, the demand from the United States being so large as to consume almost the entire available supply for that market. Clapboards are entirely out of the market. Prices are fabulously high and promise to remain so throughout the winter. Most of the mills are still in operation. Every effort will be put forth to continue as late in the fall as possible, and it is probable that very few logs will be carried over until next spring. Operations in the woods this winter will be on an average scale—some operators may increase their output, but others, feeling that prices may not hold next season, will not operate as extensively as usual. A weakening in values would, in view of the excessive cost of logging operations, be a matter of serious consideration. Thus the more conservative lumbermen are disposed to proceed cautiously.

UNITED STATES.

The lumber market has lost none of its strength. Although in some districts trade has fallen off somewhat, stocks are so small that prices have not been affected, nor are they likely to be in the near future. East of Buffalo and Pittsburg there is an active demand for all kinds of lumber. Buffalo and Tonawanda dealers have advanced the price of barn boards 50 cents per thousand, while sales of No. 1 inch cuts are being made above $40, which was the price through the summer months. The high prices have met with some opposition from consumers, but as there seems no prospect of a break in the market it is anticipated that there will be active buying during the next two months. Chicago reports a steadily increasing volume of trade, much of the demand coming from the country. It would appear that farmers, having their crops safely housed, are now giving attention to farm improvements. Hemlock has shown wonderful strength of late. In the east the higher lists have been maintained and there is likely to be a still further advance. No doubt this class of lumber is being purchased for some purposes for which white pine would be used excepting for the abnormally high price. Hardwoods compare favorably in point of strength with pine and hemlock. Wisconsin reports a slow demand for inch soft elm and a scarcity of two inch rock elm, while at Buffalo good grades of hardwood lumber are in short supply and commanding high prices. The supply of basswood is still so short as to curtail the volume of trade. Fewer shingles are being received in the east from the Pacific coast. This has brought about a hardening of white pine shingle prices. Lath is about as scarce as ever, and brings $4.25 at Buffalo for first-class white pine.

GREAT BRITAIN.

There is a decided firmness in lumber prices throughout Great Britain. Trade is moderately active, stocks are not excessive, and it does not seem that anything is likely to occur to disturb the market. Spruce seems to be about the firmest class of lumber and c. i. f. quotations are now considerably higher than they were a few weeks ago. It is understood that shippers are asking £9 15s. c. i. f. London for regulars, 12 to 13 feet, 3x9 second quality, and £9 5s. for third quality. Spruce battens are quoted at £7 17s. 6d. c. i. f. for seconds and £7 7s. 6d. for thirds. Even at these prices shippers are refusing to contract excepting for immediate delivery, the tendency being towards a further advance. Some of the large importers of spruce at Liverpool are practically sold out for this season. Pine is almost as strong as spruce. First quality deals are exceptionally scarce. The complaint is again made that the grading of pine deals is not satisfactory to British buyers, and that much of what has been placed on the market as first quality is no better than second class. Third and fourth quality pine deals have been graded more satisfactorily, but the demand for them is only fair.

STOCKS AND PRICES.

In the Chicago market 8-inch extra white cedar shingles sell at $2.80, and 10 inch at $2.85 to $2.90 by water. Lath are holding up well. Sales of No. 1 mixed have recently been made by water at $3 and of No. 2 by rail at $3.75.

Prices of tight barrel cooperage stock have lately advanced. In Chicago lard tierces range from $1.15 to $1.17½ ; oak pork barrels, $1 ; ash pork barrels, 87½ cents ; tierce staves, $23 to $24 ; pork staves, $19 to $20 ; tierce heading, 16 to 16½ cents ; pork heading, 12½ cents.

The New Brunswick Government will sell by public auction on October 8th timber berths No. 21, south of Enoch Baker Lake, 3 miles; No. 22, Parishes of St. Francis and Clair, 7½ miles; No. 23, River St. Francis, 7½ miles ; No. 24, Cains river, 2 miles; and No. 25, head of Little River, 2 miles.

The Dominion Government is asking for tenders up to October 15th for a license to cut timber on Berth No. 309 in the Province of British Columbia, comprising two blocks. Block No. 1 was formerly known as Timber Berth No. 62 and contains an area of 3,638 acres. Block No. 2 contains an area of 2,080 acres. Offers will be received up to same date for a timber license on Berth No. 307, containing 80 acres.

A number of logs belonging to Hale & Murchie upon which the Boom Company's tolls had not been paid were sold by auction recently at Fredericton, N.B. There were first offered the logs now in the boom at Lincoln, and they were sold as follows : 79,036 feet of merchantable and 1,288 feet of batten spruce to J. R. McConnell at $11.05 per thousand ; 2,340 feet of pine to Hilyard Bros., at $7.75 per thousand. The next sold were those logs now at St. John, in the hands of James Holly & Sons, subject to their tolls, about 5 cents a thousand. The spruce, 16,248 feet of merchantable and 7,336 feet of battens, was bought by Hilyard Bros., at $11.75 a thousand, and the same firm bought 2,300 feet of pine at $7.50.

Messrs. S. P. Musson, Son & Company, under date of September 13th, say of the Barbadoes market : "We have placed for the Government 215,000 ft. white pine boards, about one half each shipping and seconds, at $24.25 and $18 respectively. The stock of shippers is moderate, but owing to the export demand being entirely checked, and that locally at this time of the year very small, there is no life whatever in the market. We confirm our previous valuation of $19 to $20 for a small cargo of spruce. No shingles have arrived, but a couple of cargoes of Gaspe are on the way. Stocks of Cedar Laying will be augmented, no doubt, by the lot in Government hands, some 1,500,000, for which tenders are invited.

BRITISH TIMBER SALE.

Only a small quantity of Canadian lumber was offered at the auction sale of Foy, Morgan & Company, London, on September 17th. The result was as follows:

PINE—Ex. Huelva, from Quebec—12-16 ft. 3x12-20 in. first quality, £15 10s per std. Ex. Forest Holme, from Botwoodville— 10 ft. 3x11 in. first quality, £19 5s; 9-11 ft. 3x12-16 in. second quality, £10.

SPRUCE—Ex. Belgian, from Quebec—12 ft. 3x9 in. third quality, £9 10s; 12-13 ft. 3x9, £9 10s. Ex. Norden, from St. John, N. B.—17-30 ft. 4x6 in. unassorted, £7 10s. Ex. Cresyl, from Quebec—6-22 ft. 2x8-12 in. unassorted, £7 10s.

BIRCH TIMBER—Ex. Carlisle City, from Miramichi, N.B.—9-7 ft. 4 1/5 5-15 inch, 1s 1d per cubic ft; 6-15 ft. 4x11-15, 1s 1d ; 5-18 ft. 4x9-10, 1s 2d ; 3-18 ft. 4x4-8, 1s ½d, 6-20 ft. 3x7-13, 1s 1d ; 3-18 ft. 2x8-14, 1s 2d; 3-17 ft. 2x7, 1s ½d; 3-17 ft. 2x4-6, 1s.

OAK TIMBER—6 logs, 13-20 inch, 22-28 ft. second quality, 62s per load of 50 cubic ft.

TIMBER LIMIT TRANSACTIONS.

Several important sales of timber lands along the line of Lake St. John and Quebec Railway, in Quebec, have lately taken place. Harold Kennedy, of Quebec, has purchased for $20,000 the property of Colin Campbell on the Jacques Cartier river.

George Gordon & Company, of Pembroke, Ont., have purchased from J. & T. Conlon, of Thorold, 108 miles of timber limits in Hawley, Appleby and Jennings townships. Much of the timber is along the Veuve river and convenient to the Cache Bay mill of George Gordon & Company.

St. Paul and Spokane capitalists have secured large timber limits on the Columbia river, in British Columbia, from the G. B. Wright Estate. This timber is held in fee simple and can be exported to the United States.

Theo. P. Burgess, president and general manager of the Burgess Sulphite Pulp Company, of Berlin Falls, N. H., has closed a deal with the Department of Lands, Forests and Fisheries, Quebec, for the purchase of six hundred square miles of timber limits on the Upper St. Maurice River. The Company intend bringing their pulpwood down the St. Maurice to the St. Lawrence, opposite Three Rivers, where they have secured two miles of deep-water beach, and will ship to their mills in Berlin Falls over the Grand Trunk Railway.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

TO SUBSCRIBERS.

A postal note for one dollar, unaccompanied by any name, has been received at THE LUMBERMAN office. The envelope and order are both postmarked "Ottawa". If this should meet the eye of the sender, will he please forward his name and address, so that proper credit may be given.

A saw mill at Chester, N. S., owned by John Stamford, was destroyed by fire last week.

The Government saw mill on Mill street, Montreal, was almost totally destroyed by fire recently, the loss being $10,000.

John J. Gartshore, 83 Front Street West, Toronto, has purchased the logging railway formerly operated by Holland & Graves at Wahnapitae, Ont., and is prepared to dispose of the same in quantities to suit customers. The material is all in good condition.

Carl, sailed Sept. 26th, for Bristol, 6,219 pcs. spruce deals by W. &. J. Sharples.

CANADIAN LUMBER IN ENGLAND.

Reviewing the market for Canadian lumber, the Timber Trades Journal, o London, Eng., makes the following significant remarks:

First quality pine deals have risen considerably in price during the season, and parcels have been disposed of at £30 c.i.f. to London for regulars; and on the Clyde we hear that for a shipment of broads £38 was recently paid. Second quality deals are just now rather dull of sale, and this is in some quarters attributed to the depreciated classification. Thirds are fetching good prices, say, £12 and over, but importers are purchasing with extreme caution. Fourth quality deals hold a better position, and sales are reported at £10 5s. c.i.f. London for regulars. It is stated that there is a good demand for third and fourth quality oddments, but these goods are unobtainable, the avilable stocks on the other side having been absorbed by the United States market.

Good pine sidings are in request, and during the last six months have advanced in price from £3 to £4 per standard in this market, which is also owing to the active demand from the States. For 2 in., 10/11 in. average, 12/16ft., £24 to £25 is quoted. Shipping cull sidings, 2in., are reported to have been sold at £12, and 1 in. at £10 10s. The latter is, however, for some reason not a favorite one in the English market. The increasing demand for good sidings of the shipping culls, and the increasing quantity of these goods manufactured year by year, would appear to indicate that they will have to replace to some extent the 3 in. deals. A tendency of the Canadian trade is the decrease of the manufacture

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

of deals for the European markets in favour of the board sizes to fill the ever-expanding United States demand.

It may be safely said that Quebec oak is scarce and very dear, and it is expected that little will be lying at the St. Lawrence port for spring shipment. For ordinary specifications 3s. 2d. per cubic foot c.i.f. is now quoted. Rock elm has maintained its value, but so many bastard kinds of elm are now put forward in place of the favorite rock elm that the market has become somewhat demoralized.

HARDWOOD DEMAND AND SUPPLY.

That there is a pronounced scarcity of hardwoods throughout the country is no longer a theory, but an undisputed fact, which can be substantiated with little difficulty by anybody interested. Not only are the wholesalers running short on total supplies, but their assortments of almost every variety, according to the American Lumberman, are low and considerably broken. Manufacturers are in as bad shape regarding quantity of dry stock on hand as they have ever been. Many of them are shipping their lumber green as it comes from the saw, wholesalers being so anxious to get hold of it that they will stand the difference in freight. There is very little dry lumber of any kind available excepting in the hands of wholesalers, and their supplies are not sufficient to last over the winter; in fact, there are many whose supplies are already so greatly reduced that they are practically out of business and can see no hope of replenishment before next spring.

There is a genuine famine in firsts and seconds basswood, and not much available in any of the other grades. What users of this staple wood are going to do between now and next May is an insoluble problem.

Manufacturers of Michigan maple are securing about the best prices for their stock that have ever ruled. Quotations are pretty nearly uniform at $20 for inch firsts and seconds, $14 for common, and $8 for culls, and not much for sale at those figures.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 30th September, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,449,003	1,353,666	1,815,920
White pine	564,444	558,995	383,600
Red pine	63,780	89,760	71,160
Oak	458,949	485,866	618,680
Elm	676,163	942,372	561,880
Ash	91,701	135,108	79,920
Basswood	241	464	....
Butternut	142	944	....
Tamarac	71	198	....
Birch and Maple	459,333	307,039	164,300

THE BOSTON MARKET.

Spruce lumber in Boston is firm, with a very fair demand. The provincial mills do not want extensive orders ahead, for the reason that they have so few logs. Quotations are unchanged: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock lumber is very steady. The country boards have been pretty well picked up and prices are firmer: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine is still very firm, with the supply short, and tendency upwards, Uppers, 1 to 2 in. $82.50 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is well sustained, witn the market pretty firm: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are well held on the best, but some of the makes could doubtless be shaded: Extra cedar, $3.60 to $3.65; clear, $3 to $3.10; second clear, $2.55; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards are in very small supply, with the mills not making them. The market is nominally quoted at: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are firmer, with the supply mainly going to New York and the Sound: One and five-eighths inch, $3.25 to $3.45; 1½ inch, $3 to $3.25.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of six 2 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—MACHINERY SUITABLE FOR A good circular mill that would have a capacity of 30,000 feet per day. Apply at once to Box 20, CANADA LUMBERMAN.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 23,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C, comprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District.

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted througbout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner, one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop.

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent. of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to R. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W. L. SCOTT,
Master at Ottawa.

WANTED—WHITE STRAIGHT GRAINED 1¼ Maple, both plain and quarter sawn, also 1¼ Red Birch. Box "Z," CANADA LUMBERMAN

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 712.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market remains steady. All grades of good lumber are so scarce that dealers are refusing orders, while some manufacturers have been obliged to purchase from other yards the stock required to supply the wants of their customers. Low grade lumber is more plentiful, although the supply is not excessive. Priees on the lower grades are a shade easier, due to the demand being somewhat less than was expected earlier in the season. Taking the entire white pine list, we find that a surprising degree of strength is shown, and that indications point to higher prices next season. It is reported that two of the largest manufacturers in the Ottawa Valley have already placed under contract their next season's production of British deals, at figures about 10 per cent. higher than were realized for their stock this season. This report, however, is not confirmed, although

we would not be surprised to learn that it is correct. In Western Ontario the movement of lumber is not as active as one month ago, although it cannot be that the fall demand has as yet been satisfied. Hemlock is a strong feature, selling in the Toronto market at $13. Few manufacturers have any supply of shingles and lath. Cedar shingles are selling almost as high as white pine and are steadily growing in favor. No. 1 lath is worth $3 in the Ottawa Valley.

QUEBEC AND NEW BRUNSWICK.

Several vessels with cargoes of lumber sailed from eastern ports during the past fortnight, being destined for Great Britain, France, Spain, South America and other countries. It is anticipated that a large business in lumber will be done with South Am ca next season, as shippers have rece ec several inquiries regarding stock. Lo ally the demand is quiet, but the heavy sh ments to foreign countries have cons almost the entire available supply. nswick cedar shingles are strong for Boston delivery. Some man- s are even holding their stock for predict that this figure will be before there is any slump in

UNITED STATES.

e dealers in the Eastern States re- that the market is more unsettled t n it has been for some time, and that w in the past week there has been a falling off in the volume of business. They attribute the situation to the indisposition of consumers to pay the high prices for lumber that are now ruling and to the depression in trade caused by the anthracite coal strike. On the other hand, not a few dealers report a continuation of active business, with the outlook quite encouraging. It is claimed that Chicago is a barometer of the lumber market, the supply for that city coming, as it does, from the Lake Superior, Lake Michigan, and Georgian Bay districts. It is significant, therefore, that dealers there last week advanced the price of good lumber, until thick pine uppers are now quoted at $77, with proportionate advances on everything else on the good lumber list. The small stock of lumber in the Lake Superior district is also an encouraging feature from a price stand-point. Conditions there have combined to reduce the output of lumber this season to much below what was expected.

Scarcity prevails throughout the hardwood list. In Michigan basswood and maple are held at strong figures. The birch trade is satisfactory, both in point of supply and demand, but oak is scarce and likely to advance in price. Prices higher than those recently quoted are predicted for hemlock. In New York city the recent advances seem to have stimulated the demand. Stocks at the mills are small and dealers are hesitating to book orders which they cannot fill promptly.

GREAT BRITAIN.

Recent developments have been favorable to holders of lumber in Great Britain. There has been an advance in freight rates, which has been reflected in higher spot prices for lumber in London and Liverpool. Contrary to expectations, the crops in the Argentine Republic have turned out satisfactorily and London dealers are receiving inquiries for stock for shipment to that market. The possibility of a shortage in the supply of lumber for the British market next year has also strengthened the hands of holders, and has removed the apprehension that the lumber they have purchased might not command a margin of profit. Financially, the lumber market is in a healthy condition, although the amount of business is not large. Buyers recognize that prices are likely to advance before next spring. It is reported that Baltic and White Sea shippers are arranging to make a substantial advance on this year's f.o.w. prices. Canadian pine and spruce is exceptionally strong. Consumers are being urged to supply their requirements at the market price, as higher prices are predicted and there is little stock left for future delivery. In Quebec goods first quality oak and waney and square pine are in steady request at firm prices.

STOCKS AND PRICES.

In the Buffalo market lath is scarce, but the price is variable. Some dealers are selling No. 1 white pine as low as $3,75, while others want $4.50.

William Setchel, of Nipissing Junction, has taken a contract to log this winter for J. B. Smith & Sons. Operations will be conducted at Setchel's Bay, on the southern part of Lake Nipissing.

At Albany inch uppers in pine were recently sold at $85 per thousand feet. Box lumber in that market is likewise very scarce, the supply being smaller than it has been at this season for many years.

The contract for the construction of the Temiscaming Railway has been awarded by the Ontario Government to A. R. Macdonell, of Glengarry. The contractor is to manufacture the ties, fence posts and telegraph poles from the timber along the right of way. A separate contract will be required, however, for an additional 200,000 ties.

At a meeting of the directors of the Spanish River Boom Company, held recently, it was decided to make some improvements for the purpose of holding safely a quantity of logs the company were unable to deliver this season. About 170,000,000 feet of logs were handled, nearly 40,000,000 feet of which are still in the booms and will be delivered next spring.

It is reported that the Hinckley Fibre & Paper Company, Hinckley, Ill., have just purchased from Dr. W. Seward Webb, 20,000,000 feet of spruce logs, one-half of which is to come out this year and one-half next year. The price paid is said to have been $15 in the Lake, which is probably a record price. To come out with a fair margin the above would mean a price of about $24 delivered in New York.

Slack cooperage stock is quoted in Buffalo at $7.50 to $7.75 for first-class dry elm flour barrel staves, and $6 to $6.25 for mill run fruit barrel staves; 5½ to 5¾ cents for first-class basswood heading, and 4 to 4¼ cents for mill run hardwood fruit barrel heading; $11 to $11.50 for 6-foot coiled hoops, $10.75 to $11.25 for 5½ foot. Tight stock is firm but inactive. Most of the cooperage shops in Chicago are shut down on account of the strike of journeymen coopers.

Regarding the Glasgow market an exchange says: "A fair volume of business has been done during the week, and among other things I hear of the sale of a line of broad first pine, at a price which illustrates the active demand existing for this class of wood at present. Spruce deals are also being inquired for somewhat extensively, 8 and 9 in. especially being ready of sale at firm prices, while in timber a good business is being done in sawn pitch pine, the stock of which has been moving off very freely of late."

From Vancouver, B. C., comes the report that an important deal was put through last week by which 121,000 acres of timber lands, held by a syndicate of which Mr. H. S. Strathy, a prominent banker of Toronto, is the head, has been bonded to a syndicate of American capitalists, resident principally in California. The lands in question are chiefly located on Vancouver Island, but the deal covers about 19,000 acres in the vicinity of Lillooet, and extensive areas at Grief Point, about 60 miles north of Vancouver, coastwise.

BRITISH TIMBER SALE.

At an auction sale held by Churchill & Sim, London, England, on September 25th, Canadian deals, etc., were sold at the following prices :

PINE.—Ex. Mexican, from Quebec.—12-16 ft. 2x6 in. unasserted red, £7 10s per std.; 12-16 ft. 3x7, £8 10s ; 10-17 ft. 2x5, £7. Ex. Kildona, from Quebec—9-18 ft. 2x4 in. unassorted red, £6 10s. Ex. Thor, from Quebec.—17-20 ft. 3x9 in. unassorted red, £11 ; 6-18 ft. 3x11-14, £10. Ex. Norge, from Montreal—16 ft. 4x11 in. first quality red, £7 15s ; 11 ft. 3x11, first quality white pine, £25. Ex. Forest Holme, from Quebec.—6-16 ft. 3x9 in. unassorted red, £9 10s ; 6-11 ft. 3x10-11, £9 ; 6-16 ft. 3x8, £7 15s ; 6-16 ft. 3x7, £7 10s and £7 5s. Ex. Montreal, from Quebec—3-5 ft. 3x11-18 in. second quality, £10 ; 3-5 ft. 3x9-10, £10 10s ; 3-5 ft. 3x6-11 in. third quality, £18 15s. Ex. Hackney, from Montreal—9-10 ft. 3x11 in. third quality, £11.

SPRUCE— Ex. Montezuma, from Quebec—10-16 ft. 3x9-11 in. first quality, £12 15s ; 10-16 ft. 3x4-8, £11 10s. Ex. Chicklade, from Quebec.—10-13 ft. 3x10 in. fourth quality, £8 ; 10-13 ft. 3x6, £7 5s ; 10-17 ft. 3x11 in. unassorted, £9 5s ; 12 ft. 3x7 in. third quality, £7 10s ; 5-17 ft. 3x6-11 in. fourth quality, £7 15s. Ex. Huntcliff, from Quebec—6-8 ft. 3x7-8 in. third quality, £12 10s ; 12 ft. 1¾x9 in. unassorted, £9 5s ; 9-12 ft. 2x8 in. third quality, £8. Ex. Axminster, from St. John, N. B.—3-8 ft. 3x9-11 in. first, second and third quality, £6 15s. Ex. Tampican, from Quebec—12 ft. 3x9 in. third quality, £9 15s ; 10-17 ft. 3x8, £8 5s ; 10-17 ft. 3x7, £7 15s. Ex. Dora, from Saguenay and Matane, Quebec—4-8 ft. 3x11 in. unassorted, £9 10s ; 4-8 ft. 3x10, £8 15s ; 4-8 ft. 3x9, £8 15s ; 4-8 ft. 3x7-8, £7 10s.

SPRUCE SLATING BATTENS — 7-17 ft. ¾x2 in., 1s 2½d per 144 ft. run.

BIRCH TIMBER—5 pcs. 22 inches and up, 50s per load of 50 cub. ft. ; 113 pcs. 20 inches and under 22 inches, 37s 6d to 40s per load.

OAK TIMBER—3 logs, 25-30 ft. 17x23 in., 77s 6d per load of 50 cub. ft.

CHICAGO PRICES

Recent price lists issued by Chicago dealers show that piece stuff has been advanced about 50 cents a thousand since the last revision was made. Timbers have also advanced from 50 cents to $1, and in some items slightly more. The greatest advance that has been lately recorded is on good lumber, which is now quoted on the basis of $77 for thick uppers ; $67 for 1¼, 1½ and 2-inch A selects ; $58 for the same thicknesses in B selects and $46 for shop, an advance of $1.50 on A selects and uppers and 50 cents on A and B selects and shop common. Inch lumber has been advanced $2.50 in uppers, A selects and B selects, as well as in thin clear and selects 8 inches and up. C selects were advanced 50 cents. Twelve inch stocks are now quoted at $78 for A, $71 for B, and $58 for C, which is an advance of from 50 cents to $3.50 on each item. The advances made are on good lumber, which it is difficult to obtain in any thickness or quality, and as a rule buyers show no hesitation in paying the price. Prices by cargo are exceedingly firm, piece stuff being quoted on the basis of $16 f. o. b. Chicago.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The stock of K. Finnson, general store and lumber, Icelandic River, Man., has been purchased by C. Finkleman, at 51 cents on the dollar.

AT THE HEAD OF THE LAKES.

The quantity of lumber which will be left on the docks at Duluth and Ashland at the close of navigation is estimated at 60,000,000 feet. The present stock is about 100,000,000 feet, three-fourths of which has been sold. Perhaps 70,000,000 feet will be sawn this fall. If shipments are maintained at the customary rate the quantity left on the dock will be the smallest ever known.

There is likely to be a sharp curtailment of the cut of the mills at the head of Lake Superior. Low water has prevented some mills from working for some time, lack of logs has done it for others, and inability to get logs out has been the difficulty elsewhere.

There is considerable inquiry for stock from eastern dealers. What has been sold is largely of coarse stock. Prices are stiffening gradually, the advance from the early spring being about $1.50 per thousand. Manufacturers of the Duluth district are of the opinion that the eastern yards are not well stocked and that they will be a considerable factor in the market this fall.

Lusty Bros., Rodney, Ont., are advertising their saw and planing mill for sale.

The firm of Scott, Cross & Company, builders and planing mill proprietors, Toronto, has been dissolved.

TRENTON, CANADA

WOOD FOR PAVING.

Premier Tweedie, of New Brunswick, has been notified by C. A. Duff-Miller, agent-general for New Brunswick in London, of the intended visit to the province of J. N. de la Parelle, who is coming to Canada with the object of obtaining suitable wood for street paving. Mr. Miller says that there is an enormous business done in that line in London and other great cities of the United Kingdom, and it appears that Scandinavian or Canadian wood is even more suitable than Australian, which is too hard and does not give sufficient foothold for horses in certain conditions of the weather.

THE BOSTON MARKET.

Spruce lumber in Boston is very steady, with a fair demand. There is scarcity of 10 and 12 inch, with the mills slow about taking orders for that class. As a well-known fact, logs are short with many of the manufacturers: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock continues steady: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine continues strong: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is well sustained: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firm for good to best: Extra cedar, $3.60 to $3.70; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards continue in very small supply: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are in small supply and very firm: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3 to $3.25.

The John Harrison & Sons Company, of Owen Sound, Ont., have a five year contract to supply ties for the C. P. R.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 23,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C, comprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District.

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted throughout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner, one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop.

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent. of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to E. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W. L. SCOTT,
Master at Ottawa.

WOULD LIKE A POSITION AS SALESMAN for large Lumber House. Seven years experience traveling east of Buffalo, N. Y., and Scranton, Pa.—taking in New Jersey and New York City. Can give the best of references and go anywhere. J. SMITH, Box 114, Dalton, Pa.

CURRENT TRADE CONDITIONS.

ONTARIO.

The demand for lumber has not been just as good as was figured on for early October. Fewer orders have been booked from the Eastern States, where business has been retarded by the coal strike. Locally trade is moderately active, the large volume of building in Toronto compelling retail dealers to keep constantly replenishing their stocks. Some uncertainty prevails as to the future demand for building lumber, as it is reported that the high price of lumber, brick, and materials generally has prevented the carrying out of certain proposed building operations. Nevertheless, we do not anticipate lower prices for lumber. There are light stocks at the mills and manufacturing is nearly at an end for this season. Some of the mills are shutting down earlier than usual in order to secure men for logging operations, while other mills have closed on account of a shortage of logs, due to the tie-up on the Spanish River. With favorable conditions for operations the production of saw logs and square timber this winter would probably be above the average, but the scarcity of labor is likely to considerably restrict the output. Red pine is strengthening and promises to command higher prices for the coming winter's production than were realized this season.

QUEBEC AND NEW BRUNSWICK.

The reports that sales have been made of spruce deals for next spring delivery at prices higher than ruled during the current year has created a feeling of hopefulness among manufacturers, who look for prices to at least continue firm. The United States is buying all the clapboards that can be found; in fact, the supply is practically cornered,

and extras are bringing $40 to $42 on Boston rate of freight. Cedar shingles are almost equally strong. Locally the demand is quiet, but the C. P. R. shops in Montreal and the harbor improvements about to be commenced at Quebec will call for a large quantity of material. It is yet too early to estimate the log production of the coming winter. A New Brunswick lumberman, however, gives it as his opinion that the cut of logs on the St. John river and its tributaries will be considerably less than last season, owing to the fact that the price of stumpage has been advanced by the New Brunswick Railway Company and that it is difficult to obtain men for work in the woods.

MANITOBA AND BRITISH COLUMBIA.

Activity characterizes the lumber trade of Manitoba and British Columbia. Manufacturers are unable to supply the demand, a large portion of which comes from the agricultural districts of Manitoba and the Territories. The scarcity of labor continues to be a great drawback. Some of the mills have been compelled to shut down temporarily. Loggers are paid as high as $4 per day, and Japs and Chinese are getting $1.35 per cord for shingle bolts, an increase of about 75 per cent. over last year.

UNITED STATES.

Satisfaction in not expressed in all quarters in respect to the volume of the fall trade in lumber. Doubtless the coal strike and the fear of further complications in labor circles has caused buyers to proceed with caution. A settlement of the strike would doubtless be followed by active buying of lumber. New York reports a large volume of business at satisfactory prices, and white pine has further strengthened in the eastern markets. Our Buffalo list this week shows an advance in all sizes of uppers, selects and fine common, as well as in 10 and 12-inch barn boards and 13-inch box lumber. In the Albany list shipping and 10-inch common are marked up one dollar. The shortage in white pine dimension has assisted to a further advance in the price of hemlock. Chicago yards have put into effect an advance of about 50 cents, some dealers claiming that they are getting $12. Spruce is probably the strongest lumber in the east. In Boston frames are selling at $19 to $21, and random at $17 to $17.50. There is little change in hardwoods. A Buffalo dealer who recently visited Michigan was asked $21 for log run basswood. This is probably the highest price which basswood has reached for some time, and it is predicted that other classes of hardwood lumber will witness a rise in price in the near future. Birch is selling freely and is being used in no small quantity as a substitute for oak and chestnut. Maple also has improved in tone. Shingles are strong. Within the past two weeks white cedar shingles have been advanced five cents a thousand in the Chicago market. Sales of several million have been made in that market at from $2.85 to $2.90 by water and $3 by rail, and of 8-inch by water at $2.80. Clear pine lath bring $3.50 in Chicago, and No. 1 mixed $3.

GREAT BRITAIN.

Importers who usually pursue a conservative policy are advising the purchase of lumber at present prices. They argue that lower values are not probable, and that the market is in a favorable position to advance before next spring. It is announced that third quality Quebec pine deals have already been contracted for at an advance of £1 per standard on present prices. The stock of good quality pine deals is below the average. There has been a marked appreciation in Canadian red pine, prices during the last two months having advanced 20 shillings a standard. Importers are offering £12 c. i. f. for 11x3 unassorted red pine deals, but shippers refuse to contract on this basis, apparently believing that they will be able to do better. Several orders have recently been booked for red pine for shipment to South Africa. The spruce market maintains its buoyancy. Writing of that lumber a correspondent says: "The one bright spot in an otherwise dull season has been the improvement in Canadian spruce, and this despite the threatened opposition from the Austria-Hungary, Roumanian, and Bosnian whitewood exports at the beginning of the year. During the season there has been a distinct rise of 10s. per standard in all qualities of deals. Third quality 3 x 9 opened at £8 5s. c.i.f., quickly advancing to £8 10s. and the movement since then has been gradually upward to the present contract price of £8 17s. 6d. c. i. f. It is possible to purchase these goods at £9 15s. per standard in the docks, but this quotation will not hold long." A fair demand exists for waney and square pine. Owing to the dullness in the furniture and cabinet-making trades, birch and ash are quiet. Elm is held in large supply at Glasgow and Liverpool, but the stock is chiefly of inferior grades.

STOCKS AND PRICES.

William J. Scott, of Springhill, N.B., has a contract to supply 600,000 laths to Boston dealers.

The steamer Coringa is about to load a cargo of deals at Montreal for Glasgow, on account of Dobell, Beckett & Company.

It is estimated that about 2,500,000 feet of lumber will be required for the proposed buildings of the Deering Harvester Company, at Hamilton, Ont.

The Wiarton Lumber Company, of Barrow, Ont., are prepared to let a contract for logging 1,000,000 feet of hardwood logs, including beech, maple, elm and basswood.

Johnston & Beveridge, of Parry Sound, Ont., have entered into a seven years' contract to log in the Algoma district. During the coming winter they will get out 7,000,000 feet of saw logs.

A. McArthur & Son, of South Lancaster, Ont., closed a contract last week whereby they obtained possession of 800 acres of timber land situated northwest of Martintown. The price paid was $42,000.

The Lake Superior Timber Company, of Port Arthur, Ont., have entered into a centract with the Michigan Sulphite Fibre Company, of Port Huron, Mich., to supply 8,000 cords of pulp wood per annum, commencing next year.

The total quantity of lumber rafted up to October 1st by the Fredericton Boom Company was 123,320,750 superficial feet and 68,640 tons of timber. There were 52,071 joints rafted, made up as follows: 573,600 feet of hemlock, 9,774,930 feet of cedar, 3,362,490 feet of pine, 110,610,730 feet of spruce.

The New Brunswick government will offer tor sale on October 22nd the following timber licenses: Three miles on Lower Otter Brook, Cain's river, J. S. Fairley, applicant; two miles on Mispec river, St. John county, A. E. Smye, applicant; two miles north-east of Gounamitz river, William Richards & Company, applicants.

The following timber berths were sold by the New Brunswick Government at Fredericton last week: South of Enoch Baker Brook, on the St. Francis, three miles, to R. A. Estey, at $8 a mile; Parishes of St. Francis and Clair, 7½ miles, to R. A. Estey, at $96 a mile; east side of River St. Francis, 7½ miles, to R. A. Estey, at $101 a mile; Cain's River, below North Branch, two miles, to Wm. Richards, at $126 a mile; head of Little River, two miles, to William Richards, at $100 a mile.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

An unusual circumstance was recorded in local lumber circles last week. One of the largest mill operators, presumably holding heavy stocks looking for buyers, was forced to go outside his own yards to secure stocks to fill orders which he was in duty bound forced to satisfy, and which in the rush of business he had not provided for. This will give an illustration of the scarcity of high grade lumber in Ottawa and the Ottawa Valley. Prices remain unchanged for the very good reason that there are practically no stocks on which to change prices. This applies to good pine sidings, strips and shorts in all dimensions. There are practically none of the above in the hands of the manufacturers, and the dealers are holding what little they have for their car trade. By means of this high grade lumber, which is about as much sought after as anthracite, and about as easily obtainable, they can dispose of other grades—more plentiful and less sought after—in the way of mixed cars.

The smaller mills throughout the surrounding country have been repeatedly canvassed for the high grade stock spoken of, but they have not been able to satisfy any reasonable percentage of the demand.

The season's steady run on lath and shingles has found the yards depleted of their stocks this fall, and as a consequence prices of some lines have experienced a slight advance. Despite the fact that cedar shingles now rule in equal favor as the pine—in some quarters even better—the dealers find it difficult to get stock to fill orders. The local demand has been but a fair one, but the outside requests have been growing in volume. The Ottawa district lath and shingles went into the Ohio and Pennsylvania districts in large quantities during the past summer, and this fact, coupled with the continued strong demand from New York points, has had a tendency to keep the piling grounds in a rather depleted condition. From these observations a future advance would seem to be a safe deduction.

No. 1 white pine lath is quoted on a conservative basis at $2.75 to $3, while other lines remain about the same. The demand for mill run red pine lath seems to have fallen off, it being quoted 25 cents lower at $2 to $2.25. Cedar shingles, XXXX, 16 inch, find ready purchasers at $2.25 to $2.50, and clear butt same length are firm at $1.65 to $1,90, with XX quoted at $1.20 to $1.25. In pine stock, clear butts, 18 inch, sell at $2.15 to $2.40, and XXXX same length at $3 to $3.25, with XX at $1.25 to $1.50.

The stock of medium grade and cull lumber is quite large, and as the demand is readily supplied prices have become a degree easier. Pine s.c. shorts are quoted at from $11 to $14, pine box boards at from $10 to $14.50, and pine mill culls at from $9 to $14 per M. These figures, of course, represent mill and wholesalers' prices.

The old trouble, shortage of cars, has broken out in the Ottawa district again, and it threatens to assume a serious form. One Valley mill is said to stand in need of hundreds of cars to move stock already sold. Be this as it may, there is no doubt but what stocks could be moved very much easier if more cars were on hand. The movement of western wheat has, at the dictates of the wheat king, deprived the lumber trade of a large percentage of the rolling stock it was wont to rely on. As the harvest is an unusually heavy one, there does not seem to be any prospect of a betterment of conditions as far as the lumber business is concerned. In this connection it may be remarked that the movement of lumber by water this season

was much less than it was in former years. The coal strike made impossible the arrangement of return cargoes from American points, and as the barges, Canadian and American, could not with profit be run light one way, many were tied up and the local lumbermen deprived of one important medium of transportation.

Since July over 5,000 men are said to have been hired and forwarded from Ottawa for work in the lumber camps, and still the demand has not been filled, over 2,000 more being required. The agents are hunting in all directions, and large numbers of men have been brought from points as far east as Gaspe, Que. The return of the western harvesters in about a fortnight's time, is looked for to solve the difficulty. A comparison with wages paid a few years back will give an idea of the advance in wages, which must of necessity be followed by an advance in next season's lumber prices, and which in all probability will, for lack of men, mean a shortage in this season's log output. Road cutters are receiving from $18 to $22 a month and board, where formerly the maximum figure was $12 and board. General hands and teamsters are in demand at $26 to $28 per month, classes that a few years ago received only from $12 to $15 and board per month. Log cutters are hiring at $28 to $30 and board, who were only able four years ago to command $14 to $17 and board per month. Hewers are receiving $30 per month, an advance of $10 in a few years.

OTTAWA, October 10th, 1902.

BIRCH SQUARES AND SEATS.

THE GLA GOW MARKET.

From Edmiston & Mitchells' monthly timber circular the following particulars of the Glasgow market are extracted:

In Quebec timber, the stock of waney and square pine logs is about 25 per cent. more than last year, while oak, elm, and ash are also in excess; but it may be pointed out that the stocks generally last year were abnormally low. In pine deals and sidings the amount on hand, with the exception of second quality, is very small as compared with previous years, while as regards spruce, the figures are 7063 standards, against 13,120 standard at 30th September last year.

A fair volume of business has been transacted during the month, notably in Quebec pine and spruce, and prices have been well maintained, and in the case of the high-grade white pine have considerably appreciated.

Correspondence Solicited

month has been about 1800 loads, and the stock is moderate, about 7800 loads. There have been no large transactions during the month, though there have been a number of sales of both first and second class waney, at prices ranging from 3s. 3d. to 3s. 6d. per cubic foot for first class, and 2s. 6d. to 2s. 9d. for second class, according to size. We hear of no transactions in square timber. Prices, however, are firm.

RED PINE.— There has been an import of 126 loads, and the stock on hand consits of about 550 loads. We hear of a good line having been placed during the month, and from other enquiries presently in the market the stock will all be required.

OAK.— The import during the month amounts to about 800 loads, and the stock consists of about 4200 loads, of which 3000 loads is Quebec and 1200 loads United States timber. The demand continues good, although railway companies are buying more sparingly than usual. Prices are firm.

ELM.—The import amounts to about 700 loads. The stock is heavy — about 4000 loads — the greater part being second class and soft wood. There has been a fair business done in first-class rock, at prices ranging from 2s. 11d. to 3s. 1d. per cubic foot, but other sorts are moving slowly.

BIRCH. — Quebec.— The import for the month amounts to about 240 loads log timber and 260 loads planks, which have come to a dull market, and had in most cases to bo stored. The stock on hand is not by any means large, but the continued dullness of the furniture trade necessarily considerably restricts the consumption, so that the quantity on hand is ample for the present market requirements. Prices have been unsatisfactory and show no signs of improving.

ASH. — The import for September amounts to over 1,000 logs Canadian and 400 logs States ash. Too much Canadian ash is being sent into this market in view of the extreme dullness of the cabinet-making trade, and the stock is now altogether too excessive. A few sales have been effected out of recent arrivals, but at miserable prices, as little as 1s. 5d. having been accepted for 13 inch average, and even at this price only a comparatively small portion was sold.

DEALS, ETC.—A good business has been done during the month, and deliveries from the public yards have been large. Owing to the moderate imports and the small stock, prices of first pine deals and first pine sidings show a marked advance. Red pine and spruce deals are also firmer. Current values are as under :—Broad first pine deals, £31 to 34 ; 11-inch, £26 to £27 ; ends and non-dimensions, $20 to £22 ; second pine deals, 11-inch and up £18 10s. to $21 ; non dimensions, £12 10s. to £15. Third pine deals, 11-inch and up, £12 to £13 ; ends and non-dimensions, £8 10s. to £10 10s. Fourth pine deals, 11-inch and up, £10 to £10 10s ; narrows, £8 to £9. Red pine deals, 9 and 11 inch, £10 to £12 ; narrows, £8 to £9. First pine sidings and strips, 9 and 10-inch average, £21 to £23 ; 11 to 12-inch average £24 to £26 ; 13 to 14-inch average, £27 to £28. Spruce deals, 9-inch and up, £8 10s. to £9 10s.; 7 and 8 inch, £7 5s to £8 10s. Lower port pine and spruce, 9 inch and up, £8 5s. to £9 5s.; 7 and 8 inch, £7 5s. to £8 5s.

TRENTON, CANADA

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 4th October, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,504,625	1,353,666	1,815,920
White pine	568,967	558,995	383,600
Red pine	63,780	89,76	71,160
Oak	459,938	485,806	618,680
Elm	683,998	942,372	561,880
Ash	91,701	135,108	79,920
Basswood	241	464	. . . .
Butternut	142	944	. . . .
Tamarac	71	198	. . . .
Birch and Maple	459,361	307,039	164,300

THE BOSTON MARKET.

Spruce lumber at Boston is steady, with a fair trade. The mills are pretty well ordered up, and slow about taking orders on 10 and 12 inch: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3,2x4, 2x5,2x6,2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is in steady demand, with the supply limited and prices unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No.1, $16 to $17.50; No. 2, $15 to $15.50.

The strong position of western pine is continued, with the market very firm. Trade is moderate with prices strong: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is steady at about full prices: Quartered oak, $66 to $68; plain oak,$42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $42 to $43; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple,$28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue firm for good to best: Extra cedar, $3.60 to $3.70; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards are in short supply and nominally very firm: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are in small supply and very firm: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

The saw mill of Peter Sayers in Nassageweya township, near Brockville, Ont., was destroyed by fire last week.

WANTED

SITUATED IN ONTARIO, OR WILL JOIN party in purchasing of limits. Address "AMERICAN," care CANADA LUMBERMAN.

WANTED—ANY PART OF FOUR MILLION feet of Hemlock or Pine Logs for Spring delivery. For information leading to purchase of any part of above, we are prepared to pay liberal commission. KEENAN BROS., Owen Sound, Ont.

In the High Court of Justice.

In the Matter of the

McLAREN-ROSS LUMBER CO., Limited

In the Matter of the Winding up Act (Dominion) and of the Acts amending the same.

Pursuant to a winding up order of the Court dated 6th September, 1902, made in this matter, there will be sold by and with the approbation of William Louis Scott, Esquire, the Master of this Court at Ottawa, at his Chambers, in the Court House, at the City of Ottawa, at the hour of two o'clock p.m. on the 12TH DAY OF NOVEMBER, 1902, the following real and personal estate, the property of the said Company, all situate in the Province of British Columbia, Canada.

PARCEL NO. 1—Lot No. 55, comprising 23,600 acres more or less in the Seyward District, Vancouver Island, Title renewable leasehold.

PARCEL NO. 2—Lot No. 439 G 2, comprising 9,280 acres more or less, situate in the District of New Westminster.

Lot No. 50 C, comprising 6,720 acres more or less, in the Chilliwack District.

Lot No. 55, comprising 15,900 acres more or less in the Chilliwack District.

Lot No. 83, comprising 1,042 acres more or less in the Chilliwack District.

The above four lots are held under renewable annual licenses.

PARCEL NO. 3—A tract of land comprising about 400 acres more or less, held in fee simple, including a mill site and farm lands en bloc situated on the north bank of the Fraser River about three miles east of New Westminster, B.C. About 200 acres of this land is cleared, graded and drained and has been under cultivation a number of years. The mill located upon this site is a frame mill about 455 ft. by 72 ft. with T across tail end of main building, about 176 ft. by 60 ft. The whole structure from foundation up is built in a most substantial manner, well timbered and braced with knees, metal roof, contains three steam engines of three hundred horse power each, and is fitted throughout with special machinery for working up B.C. timber of all dimensions as well as for working out the refuse into laths, pickets, etc., etc., also planers and matchers, with a large assortment of tools, plant and equipment; also one large refuse burner, one large stone boiler house, metal roof, containing ten large tubular boilers, steam pumps with all necessary and proper attachments, good frame office, boarding house, cottages, horse stables, blacksmith shop and machine shop, with good efficient and complete plant of tools and machinery in each shop.

Each parcel will be offered for sale separately, without reserve. All persons other than the liquidator are to be at liberty to bid.

The property will be sold subject to all rents, taxes, dues and rates accruing due subsequent to the 31st December, 1902.

The purchaser shall, at the time of sale, pay a deposit of 10 per cent. of their purchase money and shall pay the balance within one month of the day of sale. The purchasers shall have the conveyances prepared at their own expense and tender the same for execution. All expenses of and incidental to the inventigation of titles, including the abstracts therof, shall be borne by the purchasers. The vendor will be bound to produce only such title deeds as are in his possession. In all other respects the terms and conditions of sale shall be the standing conditions of this Court.

Further particulars may be had on application to E. S. Leetham, Esq., the Liquidator, or to Messrs. Christie & Greene, his solicitors, No. 110 Wellington Street, Ottawa.

Dated 11th day of September, 1902.

(Signed) W. L. SCOTT,
Master at Ottawa.

Will erect mill for anyone wishing to buy or would go partner with person who has a large pine or hardwood limit and convenient place for shipping. For further particulars apply to XAVIER BAECHLER, Sarnia, Ont., Box 712.

FOR SALE.

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED — A QUANTITY OF WHITE BASSWOOD. Box 6, CANADA LUMBERMAN.

WANTED

GOOD ALL ROUND MAN WITH FAMILY of boys to work in mill. Steady job. Can supply house at reasonable rent. JAS. I. HARRIS, Day Mills, Ont.

WANTED

A STOCK OF PINE LOGS, LONG AND short from two to three million feet. Will take them at any point on Georgian Bay where they can be rafted. Apply to MAITLAND, RIXON & Co., Owen Sound, Ont.

Harbor Commissioners of Montreal.

Pittsburg, Pa.

TIMBER LANDS FOR SALE

SEALED TENDERS WILL BE RECEIVED by the undersigned up to 1st December, 1902, at 6 o'clock p.m., for the purchase of the following timber lands, viz:—Lots Nos. 19, 2nd Con.; 18, 20, 24, 25 and 26, 3rd Con.; 10, 13, 24, 25 and 28, 4th Con.; 29, 5th Con.; 23, 24 and 26, 6th Con.; 24 and 25, 7th Con., and 23, 8th Con.; all East of the Bury Road, Township of Lindsay, County of Bruce, Ont. Total acreage about 1700. The lands are timbered with different kinds of Hardwood, Hemlock and large quantities of Cedar. The quantity has been estimated for all kinds at 3,500,000 feet. Easy access to Georgian Bay for shipment. Lands all patented except one Lot, which is paid in full.

Terms—10% Cash on advice of acceptance, balance within 30 days thereafter.

Highest or any tender not necessarily accepted.

For further particulars apply to the undersigned.

C. E. WATSON,
Manager, Union Bank of Canada.
Wiarton, Ont., 15th Oct., 1902.

WHITE PINE FOR SALE.

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

Important Sale

—OF—

VALUABLE TIMBER LIMITS

UNDER INSTRUCTIONS FROM WM. HENDRIE, ESQ., of Hamilton, there will be offered for sale by Public Auction, at the Russell House, Ottawa, on WEDNESDAY, 17th DECEMBER, 1902, at 2 o'clock in the afternoon, the following valuable Timber Berths, under license from the Crown, subject to the regulations of the Crown Lands Department of the Province of Quebec, namely. Upper Ottawa Limits, Nos. 591, 592, 593, 594, 597, 598, 599, 600, 601, 602, 603 and 604, containing in all about 272 square miles. The limits will be sold in one lot.

Terms and conditions to be made known on the day of sale.

For further particulars, apply to

MacCRAKEN, HENDERSON & McDOUGAL,
Central Chambers, Ottawa,
Vendor's Solicitors.

CURRENT TRADE CONDITIONS.

ONTARIO.

Nothing has developed during the past fortnight to weaken the lumber market. Fall trade is now in full swing, and of a volume which indicates the belief of buyers in the maintenance of prices. The optimistic feeling in the trade will doubtless result in every possible effort being put forth this winter to secure a large crop of logs, and many manufacturers are now offering to buy logs so as to ensure a supply for next season's operations. While we do not anticipate an excessively large production of logs, for reasons previously stated, the present is doubtless a time for conservatism, as it is not possible to predict what conditions shall rule next season, and a slump in prices would mean a loss on the operations of this winter, conducted as they will be at abnormal expense.

Considering the large building operations contemplated in Hamilton by the Deering Harvester Company and one or two other concerns, the high price of lumber has not yet exerted a deterrent influence. In Toronto building is also active and manufacturers of all kinds are working to their full capacity.

Hardwoods have shown remarkable strength of late, with a great scarcity of basswood. Orders are now being booked at advanced prices. The advance has been so steady and based on such sound conditions that little set-back, if any, is expected next season.

QUEBEC AND NEW BRUNSWICK.

As the production of this season has mostly passed out of first hands, the spruce lumber market is somewhat featureless. The strength previously referred to, however, continues in full force, very high figures being asked for first-open-water shipments next spring. The United States has taken such a large quantity of lumber this year that wintering stocks will be unusually light. For the quarter ending September 30th there was exported to the United States from the port of St. John, N. B., Canadian lumber to the value of $198,295.88, and lumber manufactured at St. John from American logs to the value of $249,793.49.

In Montreal interest is now centred on the timber requirements of the Harbor Commissioners, tenders for which close November 3rd. Among the items called for in the specifications are 832,000 feet of hemlock planks, 120,000 feet spruce planks, 71,000 feet pine planks, 20,000 feet maple planks, 10,350 feet elm planks, 236,230 lineal feet flat hemlock, 27,890 lineal feet round hemlock timber, 864,000 feet pine face timber, 148,920 feet square pine timber, 1,644 cubic feet oak timber, and 1,000 cubic feet elm timber. Delivery of the oak and elm timber is to be made by January 3rd, 1903; hemlock and spruce planks between April 15th and July 29th; pine planks between May 15th and August 21st; pine and hemlock timber between May 20th and September 2nd; and elm and maple planks not later than March 2nd.

MANITOBA AND BRITISH COLUMBIA.

The mills which supply the lumber requirements of Manitoba and the Territories are experiencing a very heavy demand. It has been necessary in some instances to refuse orders on account of the inability to make delivery when desired. It is estimated that the demand for shingles is greater now than ever before, the abundant grain crop having given a stimulus to the trade. The activity is likely to continue throughout the winter. Many shingle manufacturers of the Pacific coast have not benefitted materially by the advanced prices, for the reason that contracts were in many cases entered into last spring at the prices then ruling. Since that time shingle bolts have advanced and the manufacturer's profit has been almost entirely wiped out.

UNITED STATES.

Good business is reported in every branch of the lumber trade. Sash and door factories are busy, and the scarcity of No. 1 and No. 2 doors is as pronounced as ever. The demand for lumber from manufacturing industries is unusually heavy. White pine quotations are unchanged, although individual advances are being made in some districts where there is a pronounced scarcity of certain grades. Some lengths of piece stuff and all kinds of dimension, as well as 12-inch boards, are in short supply. In Chicago sales are being made at $16 for No. 1 pine piece stuff, $11 to $12 for hemlock piece stuff, $2.80 to $2.90 for white cedar shingles, and $3 for No. 1 mixed lath. Buffalo and Tonawanda dealers are making heavy shipments eastward and anticipate an increased trade as the result of the settlement of the coal strike. The most influential interests, however, are discouraging a further advance in prices on the ground that it may curtail the consumption. In Wisconsin and Minnesota $11 is being asked for No. 4 boards, while the price of No. 3 and better averages about $19. Norway piece stuff is practically out of the market. There is a considerable amount of lath on hand at Ashland, Wis., for which $3.25 is asked for No. 1 white pine and $2.50 to $2.75 for No. 2. Hardwoods generally are strong. Manufacturers report large orders booked in advance, with no prospect of lower prices in the near future. There is a disposition to use low grade hardwoods in place of pine wherever it is found practical. The supply of basswood has become a little more plentiful, although it is not yet sufficient to meet the demand. Ash and maple are not as active as elm, birch and basswood.

GREAT BRITAIN.

The British timber market has become quieter. Consumers apparently do not fear an immediate advance in prices, although this may be brought about by the higher figures that are being asked for the shipments of next year. Appearances point to a rise in "spot" prices of pine and spruce deals; in fact, very favorable reports are given concerning Canadian lumber of all kinds. According to the abstract of stock compiled by Foy, Morgan & Company, there is sufficient spruce in the London market to supply the requirements at present rate of consumption for 7.83 months, while one year ago there was a supply for 11.22 months. Of pine there is a supply for 8.54 months, as compared with 8.80 one year ago. Referring to the Liverpool market a writer says: "All pine deals, red or white, are moving off in a steady pace. The buyer of Canadian goods "for futures" will find out that he is adopting the ostrich-like attitude if he does not buy at the present prices. This does not apply to deals and boards only, but to every other kind of timber—oak, elm, etc. Waney board pine is at a price now that is unprecedented. Still buyers have got to face the situation, for there is no other class of pine equal to it for pattern and machine-making requirements". In Liverpool last week a line of third quality pine, 3x7-10, changed hands at £10 5s. per standard c.i.f. Liverpool, and 3x11 at £11 15s. Spruce, 3x11 and 3x9, brings £9 15s. per standard in the docks.

STOCKS AND PRICES.

The steamer Avona is loading a cargo of deals at Montreal for the United Kingdom.

S. W. Abel, of Potton, Que., has taken a contract to saw 1,000,000 feet of lumber for the Sutton Lumber Company.

The Harbor Commissioners of Montreal invite tenders in this issue for the supply of timber and planks for the year 1903. The lumber required will represent a value of about $100,000.

A timber berth of 2 miles, at the head of the Salmon river in New Brunswick, will be offered for sale at the Crown Land office, Fredericton, on October 29th. The applicant is Irving E. Murray.

The last raft of logs of the season for the J.& T. Charlton Saw Mill Company reached Collingwood, Ont., about ten days ago. The raft comprised about 3,500,000 feet of logs, and was brought from the Spanish River. The mill of the company will be kept running until well into November.

The schooner Canning Packet is loading lumber at Digby, N. S., for Lynn, Mass., the shipper being Capt. Melanson, of Port Gilbert, who has already shipped this season 2,800,000 feet of lumber to a Lynn firm. He has recently made arrangements to ship an additional 600,000 feet before the close of the season.

The report of the surveyor - general for the quarter ending September 30th shows that considerably more lumber was handled at the port of Bangor, Me., in the past three months than in the corresponding period of 1901. The figures are as follows:

	1901	1902
Dry pine, feet	4,538,386	4,963,391
Green pine	359,749	491,413
Spruce	24,724,784	30,967,404
Hemlock, etc.	7,020,588	6,591,140
Total	36,643,507	43,013,348

During the three months ending September 30th of this year, the lumber exports from St. John, N. B., to United States ports aggregated $442,689.37 in value, of which $192,895.88 was of native lumber and $249,793.49 of Maine lumber cut in St. John mills. Of the New Brunswick product pulp represented $55,020.57. Following is the statement in detail :

NEW BRUNSWICK LUMBER.

Lath	$78,644 15
Long lumber	40,429 77
Piling	6,797 80
Shingles	12,003 59
Pulp	55,020 57
Total	$192,895 88

AMERICAN LUMBER.

Clapboards	$ 4,404 00
Lath	41,029 16
Long lumber	171,726 35
Pickets	223 63
Shingles	32,050 35
Shooks	360 00
Total	$249,793 49
Grand total	$442,689 37

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

LONDON TIMBER STOCKS.

Messrs. Churchill & Sim give the following figures as showing the stock of timber in the public docks at London on September 30th for two years:

		1902	1901
Foreign deals	in pieces	2,215,000	2,351,000
Battens	"	4,102,000	4,848,000
Boards	"	14,071,000	14,521,000
Wainscot Logs	"	636	933
Oak Timber	in loads	2,780	2,530
Fir Timber	"	3,122	2,312
Colonial Pine Deals and (white	in pieces	1,067,000	1,326,000
Battens (red		227,000	
Spruce ditto	"	1,097,000	1,798,000
Oak Timber	in loads	1,516	2,003
Birch Timber and planks	"	4,823	5,755
Elm and Ash Timber	"	1,804	3,032
White Pine	"	543	1,330
Red pine	"	399	182
United States Pitch Pine Timber	"	21,292	24,541
" " Deals	in pieces	96,000	179,000
East India Teak	in loads	8,533	12,648

Of Canadian lumber they say: From the St. Lawrence the arrivals are: Pine deals, 1,119,000 pieces, against 1,361,000 pieces in 1901; spruce deals 2,004,000 pieces, against 2,972,000 pieces in 1901; birch planks, 95,000 pieces, against 94,000 pieces in 1901.

From New Brunswick: Pine deals, 254,000 pieces, againt 209,000 pieces in 1901; spruce deals, 337,000 pieces, against 424,000 pieces in 1901; birch planks, 108,000 pieces, against 161,000 pieces in 1901.

Rather more pine deals have arrived here in September than was the case last year, but the market was very bare and has taken off the required quantity with hardly any give from the high prices current. Of spruce the month's supply has been quite inadequate and prices have risen to a level to which we are quite unaccustomed, without, however, in any way satisfying shippers' ideas. So long as the Americans are eager for more than Canada can supply these conditions must continue. Birch, elm, ash and white pine timber have been in better retail demand than for some time past and values are improving. Birch planks have been shipped here too freely and want holding. Oak timber has been difficult to sell at shipper's valuation.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

Trade in all lines of lumber and shingles is still brisk and heavy shipments by rail and vessel have gone forward during September and early October. Although the mills have caught up to some extent on orders, there are still plenty on their books. A number of vessels are lying at Vancouver and Chemanius mills awaiting their turn for a cargo. Prices on foreign shipments are firm and rough lumber brings $12 per M at the mill's wharf. Prices on Manitoba and Eastern shipments remain about the same as quoted in former letters, rough lumber bringing $11 per M at the mill. Shingles are in good demand at $2.65 per M delivered at all points taking a 50 cent freight rate and $3 where the rate is 75 cents per 100 lbs. Logs and shingle bolts remain high in price, the former bringing $5 to $5.50 net at the camp, and bolts $4 per cord.

A number of lumber dealers from Ontario, Manitoba and the Territories are now on the Coast making contracts for next year. The dealers in the latter places contemplate stocking their yards during the winter months so as to be prepared for the early spring trade. They anticipate a much heavier demand during 1903 than has been the case during the present season.

Very few timber cruisers are in the field now, and few sales of timber lands have taken place during the past summer, although much has been offered.

The anticipated trouble with the Teamsters' Union has not materialized and the threatened strike which was to take place on October 1st unless the mills recognized the union has fallen through. The mills were willing to increase wages, but were unwilling to be dictated to from outside sources as to who they should employ.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to 14th October, 1902, as reported by the Supervisor of Cullers:

	Cu. ft. 1900	Cu. ft. 1901	Cu. ft. 1902
Waney white pine	1,504,625	1,353,666	1,815,920
White pine	568,967	558,995	383,600
Red pine	63,780	89,761	71,160
Oak	459,938	485,806	618,680
Elm	683,998	942,372	561,880
Ash	91,701	135,108	79,920
Basswood	241	464	....
Butternut	142	944	....
Tamarac	71	198	....
Birch and Maple	459,361	307,039	164,300

THE BOSTON MARKET.

Spruce lumber is firm in Boston, with the supply small and the demand for frames rather light. Under these conditions prices are firm: Ten and 12-inch dimensions, $21; 9-inch and under, $19; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is in quiet demand, with prices unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine is still in a strong position, with the demand quiet: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is in good request, with whitewood and quartered oak firm: Quartered oak, $66 to $68; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $43 to $45; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are steady and stocks not excessive, but the demand is rather light: Extra cedar, $3.60; clear, $3.00; second clear, $2.50; extra No. 1, $1.90 to $2; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards a nominally very firm: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are not as firm as last noted: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

FOR SALE.

Large Tract of Timber
In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

STANDING TIMBER FOR SALE, 700 ACRES about one mile from G. T. Railway, within a reasonable distance of Toronto. Apply THOS. MYLES SONS, Hamilton, Ont.

LUMBER WANTED

100,000 feet White Basswood
25,000 feet 2-inch Soft Elm.

MORRIS-FIELDS ROGERS Co., Listowel, Ont.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles, saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

The scarcity of cars for the shipment of lumber is seriously affecting the trade. Some manufacturers have orders booked for hundreds of cars, and much of this stock could be shipped but for the inability to obtain carriers. In other respects the situation at the mills is satisfactory. The retail demand is not large, but there is no difficulty in effecting sales. White pine stocks are light. A dealer who recently visited the Georgian Bay district states that not a single firm will carry over more than 10,000,000 feet of unsold lumber, and by far the greater number will have no stock for sale at the close of the season. In view of the competitive buying this year, we may expect that dealers will shortly place contracts in advance for their requirements of next season. Norway is very strong and likely to advance. Again this week we hear of mills shutting down earlier than usual so as to send the men into the woods.

Much talk is still heard regarding a further advance in the price of hardwood lumber. It seems that such a move has been held in check by the fear that it would stimulate the production of logs this winter to an excessive degree and possibly bring about a break in prices. With an average log input this winter hardwood prices are likely to continue firm next season.

Shingles and lath are steady and in constant demand for shipment to the Eastern States. In Toronto B. C. 6 to 2 inch shingles are selling at $3.

QUEBEC AND NEW BRUNSWICK.

Prices at Quebec for waney and square nber are unchanged, as no sales are king place. There has been, however, appreciation in the value of pine timr, and contracts for this winter's proiction are likely to be made at higher ices than were realized for the output the past season. There is abundant idence that spruce lumber is strong. ealers are showing a disposition to conact for the deal production of next year most regardless of price, while manucturers are disposed to hold on until ey are better able to judge as to the oit of the present advancing tendency. is safe to say that spruce lumber will be valuable asset in the early part of next ar at least. New Brunswick cedar ingles are a trifle easier. While a few eeks ago manufacturers were asking .65 for extras on Boston rate of freight, ey are now willing to accept orders at .60. It can hardly be expected that a ice above this figure can be permanentmaintained. Lath prices are steady at .40 for 1⅜ inch and $3.25 for 1½ inch, oston delivery. The mills are heavily ersold, which is likely to hold prices firm some time.

UNITED STATES.

The movement of lumber in some discts is active; in others it is rather quiet. the western country there is a heavy mand for barn and corn crib stock, and e supply of 4 and 6-inch No. 2 and No. 3 mmon strips has been materially reced. A scarcity of piece stuff and norhy lumber is reported from several arkets. On the whole, white pine prices e being well maintained. Sash and door anufacturers report that there is a growg surplus of No. 3 shop common. On erything above this grade, however, ices are strong and stocks comparativescarce, with little prospect for any lower lues for some time. Substitution of her woods has resulted in a lessened mand for No. 1 and No. 2 shop lumber sash and doors. At Duluth some sales lumber have been made for delivery in e shipping season of 1903. This is said be the earliest date that any sales for e coming year have been made in that arket. It forecasts active buying for ring delivery during the next two nths. Eastern spruce is firm, 10 and 12-h dimension bringing $18.50 to $19.50 Bangor. Hardwoods are gaining on e in point of activity. The lower grades e no longer a drug upon the market; in t, everything in the hardwood line sells adily. Frequent predictions are heard at there will be a decided advance in ices before the close of the year. If in e eastern market there is one class of nber that is not in line with the general de it is white ash. Inquiries for bassod are numerous, with the supply not ual to the demand.

GREAT BRITAIN.

There is a fair consumption of lumber in reat Britain and the market continues m, although quiet. Stocks are not avy and are firmly held for higher ices. The usual amount of house buildg is in progress, but the cabinet trade is a depressed condition. Prices of first ality pine deals continue to stiffen, one two parcels of specially wide average ving recently been sold at very high ures. The stock of pine sidings is almost hausted and prices are advancing. The me remarks apply to Quebec waney e timber and oak. Ash is slightly weaker, ranging from 1s 8d to 2s per cubic foot.

STOCKS AND PRICES.

No. 1 mixed lath is selling in Chicago at $3 to $3.25.

The Dominion government is taking tenders for the construction of four ice piers at Richmond, Que.

The steamer Santa Marina last week brought a cargo of 350,000 feet of lumber from Ashland, Wis., to Port Colborne, Ont.

F.E. Neale, representing F. Harrison & Company, of Liverpool, England, expects to ship this season 41,000,000 feet of lumber from the Miramichi and 16,000,000 feet from Restigouche, N. B.

Fuerstenburg Bros., of Saginaw, Mich., last week bought 1,000,000 feet of log run white pine from Edmund Hall. The stock was manufactured at Sarnia, Ont., and is reported to have been bought at $18.

In the Chicago market dry Norway piece stuff is scarce at $16 for short and $18 for long. Hemlock is in fair inquiry, prices at the mill ranging from $10.50 to $10.75 and in Chicago at from $12 to $12.25.

J. & T. Charlton are reported to have completed a deal whereby they become the owners of a timber tract of 170 square miles in the Spanish River territory, above Georgian Bay. The timber is composed mostly of white pine, and it is probable that a new mill will be constructed to manufacture it. It is understood to be the intention to operate the limits this winter.

The New Brunswick government will offer for sale on November 5th the following timber licenses: Six square miles on Young's Brook, branch of McCollum's brook; 3 miles on Alward's brook, branch of Canaan river; 2 miles on South Branch, Rider's brook; 3 miles at mouth North Branch, Cain's river; 3 miles on Lower Otter brook, Cain's river.

Wright, Graham & Company, of Glasgow, Scotland, quote the following prices in that market for Quebec deals and sidings: White pine deals, 1st quality, £34 to £37 16s 3d per standard; 11 in. £25 8s 9d to £28 10s; 7 in. to 10 in. £22 to £23 7s 6s; 7 in. and up by 6-9 ft., £18 11s 3d to £19 18s 9d. 2nd quality, broad, £22 to £23; 11 in. £20 to £21; 7 in. to 10 in. £15 16s to £16 10s; 7 in. and up by 6-9 ft. £13 to £14. 3rd quality, broad, £14 to £15; 11 in. £12 7s 6d to £13 5s; 7 in. to 10 in. £10 to £11; 7 in. and up by 6-9 ft. £8 5s to £9 12s 6d; 4th quality, broad, £10 13s to £11 6s 10d; 11 in. £10 to £10 10s; narrows, £8 5s to £9 5s. White pine sidings, £22 13s 9d to £24 15s per standard. Red pine deals, 9 and 11 in. by 3 and 4 in. £9 2s 6d to £9 12s 6d per standard; 7 to 10 in. by 3 in. £6 10s to £7 10s.

Messrs. S. P. Musson, Son & Company, under date of October 11, say of the Barbadoes market: "Only two small parcels of white pine lumber have arrived for the fortnight, one of 22,000 feet boards, which we placed at $20.05 mixed quality, and another of 16,000 feet from Gaspe, Que., of better quality, sold at $21.30. We value first cargo arriving in the neighborhood of $24.-50 for shipping and $18.50 for seconds. In spruce the "Success" brought 90,000 feet, of which 50,000 feet were placed at $19.10 round and balance at $19.62. A cargo arriving should, we think, bring about $21 for shipping and $17 for seconds. The schooner "Success" had 320,000 Long Gaspe cedar shingles, 35,000 of which, extra quality, brought $4.90 to $5; balance are being stored. She also brought 150,-000 dimension shingles, which sold at $4.-10 for 4 inch, $5.10 to $5.20 for 5 inch, $6.10 and $6.25 for 6 inch, and $7.25 for 7 inch; also 75,000 laying cedar, sold at $1.75.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Inquiry at the local railway offices reveals the fact that the shipment of lumber is slow, the scarcity of cars already reported still prevailing. This applies alike to Ottawa and lumber centers in the Ottawa Valley. One of the leading local yards is 200 cars behind in its orders. Business as a consequence of this difficulty in transportation and the scarcity of suitable stock, is quiet. It is generally acknowledged that the greater part of the present season's cut is off the market, the scarcity of cars alone delaying the shipment of that portion which is in shape for present movement.

Part of the cut of the Parry Sound mills is being forwarded over the Canada Atlantic Railway to points in New York and the New England States. This was contracted for or rather sold outright a year ahead. The completion of the spur line from the Canada Atlantic Railway into Parry Sound makes this route available this season for the first time.

An American buyer who was in the Capital recently, said that the scarcity of southern pine and cedar lath in Pennyslvania centres was the cause of the past year's brisk demand for the Canadian white pine article. The dealers pushed the alien lath for all it was worth, but the Ottawa visitor expressed a doubt whether or not the Canadian lath could retain possession of of the Pennsylvania field once the southern brands recovered a portion of it. The presence of gum in the Canadian white pine lath does not find it favor in the mining state. There is said to be no gum in the southern pine or cedar and for this reason a preference is expressed for it.

The Ottawa market quotations in THE LUMBERMAN were submitted to several dealers to-day, but none of them felt justified in making a change. Business which opened brisk in September has for reasons already mentioned suffered a decline. On account of the scarcity of cars it is highly problematic whether the time honored fall rush immediately preceding the close of navigation will cut much figure this year. If business does not improve then prices are not likely to advance. It seems to be pretty well understood that high grade stock in and about Ottawa which has not already been sold, is being held for the winter trade. On account of the many railway connections and the greater freedom of rolling stock, this winter movement will probably be active. Dealers six weeks ago anticipated much greater business than is being transacted to-day.

An advance of ten per cent. on British quotations on waney and square timber was recently reported. Questioned as to the causes for this marked advance a prominent exporter stated that they were manifold. In the first place, many of the limits changed hands within the past twelve months at greatly enhanced values. The new owners to protect themselves have been compelled to make a proportionate advance on the price of the product of the limits. The second reason for the advance is the condition of the labor market, dealt with in these columns several times already. It is difficult to secure skilled and competent square timbermen and wages in the year have advanced from twenty to thirty per cent.

All kinds of fodder and provisions, with the exception of hay and oats, have also advanced, and this advance contributed another cause for the ten per cent. increase in selling price of square timber. The increased demand in the British market is a fourth reason quite as important as the others. It is just possible that a further advance on pending sales may be made.

No sales of limits or manufactured lumber have been reported since the last list appeared in the LUMBERMAN. There are no limits on the market, and the holders of such property are not desirous of selling except at a fancy figure, for the reason

that lumber promises to be a good article for investment for several years to come. No sales are in contemplation and it can safely be asserted that the recent period of activity in limit transfers will be followed by one of calm.

Recent reports from the limits go to show that good progress is being made in the preparation of logs for next year's sawing. Natural conditions have so far been favorable, and the operators are looking forward to an open Fall. The scarcity of labor, however, is complained of in every quarter and it is now pretty well assured that this shortage will have a corresponding effect on the output of logs. The fact that several firms have resumed operations after a rest of years' duration, has placed an extra demand on the local labor market which it is impossible to satisfy. The natural result—men of all classes, and boys for that matter, are being engaged this season, who a few years ago would not have stood one chance in twenty of getting employment. No report of disease in the camps has been received so far, and the operators feel confident that vigilance will go a long ways towards preventing a repetition of last year's costly experience, when smallpox broke up whole lumber camps.

OTTAWA, October 21st, 1902.

The saw mill of Jardine Bros. at Rexton (formerly Kingston), Kent county, N. B., was destroyed by fire on October 27th.

Lumber firms who may propose sending men into the woods can learn, by applying at the office of this paper, where they may obtain the services of four bushmen and a cook.

The Morris-Field-Rogers Co., of Listowel, Ont., are advertising for a large quantity of white basswood and soft elm. The factory is running night and day to keep up with their rapidly increasing Canadian and European trade.

IT PAYS TO ADVERTISE IN THE LUMBERMAN.

Mr. S. O'Brien, Antigonish, Nova Scotia, writes: "I have had enquiries for my goods from Belfast, Glasgow and Tonawanda through the ad. in your good paper. I am very much pleased with it."

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 10th October, 1902. The names of the parties may be obtained from the publishers of this journal.

A London firm makes inquiry for Canadian firms manufacturing articles for tradesmen's equipment, such as butchers' blocks, alarm tills, bent-wood shop chairs, light two and four wheeled carts, barrows, ladders, etc.

Enquiry comes from a Yorkshire firm for houses in Canada from whom they can purchase maple wood lumber for wringing-machine rollers.

A Colonial merchant in London having a branch house in South Africa desires to get into touch with Canadian shippers of doors, sashes, windows, dimension-lumb and deals, with a view to large shipmer for South Africa.

TIMBER LIMIT TRANSFERS.

The Millar-McCool Lumber Company, of Pembroke, Ont., are reported to have purchased the township of Curtis, comprising 36 square miles of timber limits, chiefly white pine. This township lies along the limit they now own in the township of Whitman. The price is given as $140,000.

J. S. Emerson, of Vancouver, B.C., has just completed the purchase of several tracts of timber land up the coast, in addition to those he already possesses and will shortly commence the development of these on a large scale. Mr. Emerson has now fourteen miles of water front on Howe Sound and Hardy Island, owning about half the standing timber contained on the latter.

TIMBER STOCKS AT THE CLYDE.

The stocks of Canadian lumber in the Clyde on September 30th, 1902, were as follows : Quebec waney and square pine, 390,641 cubic feet ; elm, 197,242 cubic feet ; red pine, 25,683 cubic feet ; oak, 149,445 cubic feet ; ash, 74,715 cubic feet; maple, 9,422 cubic feet ; first quality pine deals, 167 standards ; second quality pine deals, 1,204 standards ; third quality pine deals, 616 standards ; fourth quality pine deals, 340 standards ; unassorted pine deals, planks and boards, 431 standards ; red pine, 1,196 standards : Quebec spruce deals and boards, 3,696 standards ; N. B. spruce, 3,369 standards ; N. B. pine, 1,544 standards; oak planks and boards, 6,692 cubic feet ; birch planks and boards, 75,646 cubic feet; ash planks and boards, 4,510 cubic feet.

THE BOSTON MARKET.

Spruce lumber at Boston is firm, while both the demand and the supply are small. Ten and 12-inch spruce is very scarce, and prices are firm : Ten and 12-inch dimensions, $21 and $22 ; 9-inch and under, $19 ; 10 and 12 inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $14 ; bundle furring, $17.

Hemlock is in quiet demand, but firm. Buyers wanting it have to pay well for it : Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern ; Pennsylvania, No. 1, $16 to $17.50 ; No. 2, $15 to $15.50.

Western pine is well held at full prices : Uppers, 1 to 2 in. $82 to $85 ; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70 ; 2-in. $72 ; 2½ to 3 in. $80 ; 4 in. $82; fine common, 1-in. $62 to $63 ; 1¼ to 1½ in. $65 ; 2-in. $67.50 ; 2½ to 3 in. $72.50 ; 4-in. $82.50 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber continues in fair request, with whitewood and quartered oak firm : Quartered oak, $63 to $75 ; plain oak, $42 to $47; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $43 to $45; sap and common, $30 to $35 ; brown ash, $41 to $44; white ash, $43 to $46 ; maple, $28 to $30 ; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles continue steady : Extra cedar, $3.60 ; clear, $3.00 ; second clear, $2.55 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards continue in very small offering, with the market very firm : Clear, $40 to $42 ; second clear, $37 to $39 ; extra No. 1, $22 to $32.

Laths are firm : One and five-eighth-inch, $3.40 to $3.45 ; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII — TORONTO, CANADA, NOVEMBER 5, 1902 — No. 40

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

A FARM, 9 x 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles, saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co., Que.

FOR SALE.

Large Tract of Timber
In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

STANDING TIMBER FOR SALE, 700 ACRES about one mile from G. T. Railway, within a reasonable distance of Toronto. Apply THOS. MYLES SONS, Hamilton, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The volume of trade reported by dealers and manufacturers is quite up to the average at this season of the year. Local orders have not been so numerous of late, but this is no more than could be expected, as the building season is drawing to a close. Enquiries continue to be received in large number for stock for shipment to the Eastern States and Michigan. From present indications it seems safe to predict that more American buyers will be in the market next year than was the case during the past season. We are advised that Michigan dealers who previously handled no Canadian lumber are now visiting Georgian Bay points with a view to securing a portion of their supply from this source. No buying of consequence for next spring has as yet been reported, but some important deals are expected to be closed at an early date. It is estimated that of next season's production in Western Ontario 150,000,000 feet will be shipped to Michigan points. So far operations in the woods have been satisfactory, apart from the difficulty of securing labor. There will be taken out this winter a larger quantity of hemlock than usual, but a market for this will doubtless be found without difficulty, as both lumber and timber of that variety are becoming more in favor each year.

QUEBEC AND NEW BRUNSWICK.

The only change in the spruce situation is a further stiffening of prices. New Brunswick spruce deals are selling from $13 to $14 a thousand delivered alongside the ship. This is between one and two dollars higher than last fall. Spruce clapboards continue exceptionally high on account of the scarcity of stock. When a buyer wants them he usually pays the price asked without argument. Laths are almost as high proportionately as clapboards. For some brands of "Extra" cedar shingles it is possible to obtain $3.60 for Boston delivery, but the prevailing price is about $3.55.

The scarcity of labor is curtailing operations in the woods. Another restricting influence is the price of stumpage, which has reached $4 on the St. John river. It is probable, however, that the log input this winter will be about as large as that of last season.

MANITOBA AND BRITISH COLUMBIA.

The mills supplying the Manitoba and North-West markets are still far behind

with orders. The buying, however, has slackened, and it would appear that dealers now have their stocks pretty well replenished for the winter trade. Operations in the woods will be very active in anticipation of a heavy demand for lumber next season. Prices of British Columbia lumber are likely to be advanced in the near future. A meeting of the association controlling the output for export in British Columbia and Washington was held recently in Seattle, at which it is understood a scale of prices above that now ruling was decided upon. The prices of logs continue to advance. No. 2 are now quoted at $5.50, merchantable at $8, and flooring logs at $10.

UNITED STATES.

The general conditions in respect to the lumber trade are satisfactory. If there is any disappointment it is in the fact that the expected impetus to the demand as a result of the settlement of the coal strike has not materialized. Business, however, is quite active. A report comes from Tonawanda that at no time this season has business been as brisk as that now prevailing. The demand upon wholesale dealers of pine has been of such volume that it is feared that the supply will not last through the winter. A rough estimate of the stock at Buffalo places it at 125,000,000 feet, which will be increased before the close of navigation. The manufacturing cities are consuming lumber in large quantities and the country demand is improving, although principally for barn and corn crib material. Inroads have been made upon the supply of No. 2 and No. 3 common strips and a scarcity may develop later on. No. 4 boards are showing more life and prices have firmed up materially. In the Chicago market short dry piece stuff is quoted at $16 delivered, and long at $18 to $18.50. Common inch ranges from $18.50 to $19.50. Hardwoods are being bought up liberally by manufacturers, who apparently fear that there will not be sufficient stock to carry them through until the new cut can be secured. Basswood is exceptionally strong, the demand far exceeding the supply, and soft elm is experiencing a better call than for some time. There is a run on 2-inch elm. The brisk demand for spruce continues and a premium is often paid for prompt shipment. The higher prices for hemlock are being maintained. Dealers state that they are unable to supply the demand and keep their stock within reasonable proportions. The base price at Buffalo is $15. Michigan hemlock is selling for the most part about $1 under Pennsylvania. A drop of five cents in the price of red cedar shingles is the only feature of note. The trade is steady, with few white pine shingles on the market.

GREAT BRITAIN.

The lumber trade of Great Britain is somewhat unsettled. The volume of business is moderate, but prices have not yielded. The chief uncertainty pertains to next year's business. There is a very general recognition of the fact that if the market next season should become depressed, importers contracting at the present asking prices would stand to lose heavily. For this reason reports from this side are watched with great interest. The course of trade for the first half of next year seems reasonably clear, but beyond that time few seem disposed to venture an opinion. The immediate condition of the market is very favorable. It is confidently expected that prices of spruce will further harden. At London 3 x 9 third quality spruce is practically unobtainable in the docks, although $10 per standard is offered for 12 to 13 foot lengths. The best quality of pine deals continue scarce and bring high prices, and values for the lower grade have recently shown some improvement.

STOCKS AND PRICES.

In the Chicago market No. 1 mixed lath brings about $3 by boat.

The steamer Sydenham has jnst sailed from Montreal for Newcastle with a cargo of deals.

Pittsburg prices are as follows: No. 1 white pine lath, $4 to $4.50; No. 2, $3.25 to $3.75; hemlock lath, $3.50; 16-inch hemlock shingles, $2.65; 18-inch, $3.05.

Thomas Wallace, of North Bay, Ont., has been given a contract to supply 175,000 ties for the construction of the Temiscaming and Northern Ontario Railway.

Rafting was completed October 30th at the Mitchell boom, Maugerville, N. B. About 75,000,000 superficial feet were rafted there,or a little over half of the up-river cut.

The Canada Wood Specialty Company, of Orillia, Ont., have received a contract to supply curtain poles, rings and other fixtures to the extent of $25,000 a year for the next five years.

It is understood that the Wolvin syndicate is making arrangements to enter into lumbering operations during the coming winter on the timber limits in the Lake Metapedia district recently acquired from King Bros., of Quebec.

Prices of slack cooperage stock at Buffalo rule as follows: First-class elm flour barrel staves, $7.75 to $8; mill run fruit barrel staves, $6 to $6.25; second class, $4.50 to $4.75; first class basswood heading, 5½ to 5¾ cents; mill run, 4¼ to 4½ cents; second class, 3½ to 3¾ cents; coiled elm hoops, $11 to $11.50 for 6 foot, $10.75 to $11 for 5½ foot.

Lumbering operations along the line of the New Brunswick Southern Railway will be quite active this winter. Haley Bros., of St. Stephen, are getting out timber for box-making purposes. J. A. Gregory will manufacture 1,500,000 feet at Lepreaux, and will also take out a large quantity of spool wood. T. A. Sullivan is also taking out spool wood. W. A. Quinton will take out over a million feet for his mill at Spruce Lake and J. E. Moore expects to secure 2,000,000 feet for his rotary mill near Lepreaux.

THE EXPORT LUMBER COMPANY IN DIFFICULTIES.

Within the past week it was announced that the affairs of the Export Lumber Company, of New York, had been placed in the hands of a receiver. The news was received with some surprise, as well as regret, in Canadian lumber circles, as the company has been a considerable factor in the shipment of Canadian lumber for some time past. The Supreme Court has appointed three temporary receivers, in the persons of W. A. Taft, vice-president of the company; E. J. Hathorne, expert accountant; and B. L. Fairchild. This was done on the application of a majority of the company's directors asking for a voluntary dissolution of the company. In this application they state that the assets of the company, although in excess of the liabilities, are in such complicated shape that they are not available for immediate use to meet liabilities. The liabilities of the company are stated to be $2,358,536 and the nominal assets $3,598,920. One item of the assets is $2,015,026, representing advances to other companies; another item $977,765, representing lumber, which it is understood had mostly been pledged as security for portions of the indebtedness. The company was associated with the Atlantic Coast Lumber Company, which has also become embarrassed.

The Export Lumber Company was incorporated in May, 1879, with an authorized capital of $150,000. In 1881 branches were established at North Tonawanda, N. Y., and Montreal. In 1882 the capital was increased to $500,000, in 1885 reduced to $250,000, and in February, 1886, again raised to $500,000. A branch was established at Ottawa. In 1894 the company became selling agent for several West Virginia concerns and was heavily interested in timber and lumber in Northern New York. The branch at North Tonawanda was discontinued a few years ago. The company did an extensive export business, particularly to South America and the West Indies.

The New York Lumber Trade Journal gives the following list of creditors: Bank of Montreal,$453,959,secured by lumber at Ottawa; Baring, Magoun & Co., $64,874, secured by lumber; Guaranty Trust Company, $22,151, secured by lumber; German Bank of London, $39,194, secured by lumber; James B. Ford, $91,821, secured by lumber; Meyer Rubber Company, $112,568, secured by stock of the Atlantic Coast Lumber Company and $75,000 on a note; First National Bank, $70,889, secured by stocks and bonds; Bank of America, $50,000; Chemical National Bank, $114,611; Importers and Traders' Bank, $65,000; National Park Bank, $64,867; Western National Bank,$60,000; Merchants' National Bank, $80,000; Seventh National Bank, $47,428; Corn Exchange Bank, $5,000; Merchants' and and Traders' Bank of Brooklyn, $10,000; Third National Bank of Philadelphia, $10,000; Industrial Trust Company of Providence, $25,110; State Bank of Tonawanda, $24,960; Manistique Bank of Manistique, Mich., $24,127; Albany Bank, $15,000; People's National Bank of Charleston, S. C., $27,886; Bank of Charleston, $11,391; First National Bank of Charleston, $26,786; Loan and Exchange Bank of Columbus, S. C., $26,143; Eastern Townships Bank of Sherbrooke, Que., $35,421; Massachusetts National Bank of Boston, $23,210; W. O. Gay & Co., Boston, $51,814; George O. Currier & Son, Boston, $19,343; Courtlandt, Babcock & Co., New York, $103,303; Meyer Rubber Company, $35,500; Atlantic Coast Lumber Company, $40,100; Georgian Bay Lumber Company, $13,682; Beaver Creek Lumber Company, $11,336; Marrett Lumber Company, Portland, $34,000; J. R. Booth, Ottawa, $23,524.

It is believed that the company will be safely piloted through the present difficulties. It is thought that for some time past the company has been making money, and that the trouble is that there was too little actual cash put into a plan originally contemplating a very heavy investment, but which actually required more money than was anticipated. It is probable that reorganization will be effected and the business continued without interruption.

DOORS AND MOULDINGS

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

HARDWOOD STOCK DEMAND.

One of the heaviest hardwood operators in the country, a man who is exceptionally well posted in regard to conditions in different sections, says that he believes it to be a well established fact that the stocks of hardwood lumber in the hands of manufacturers in the United States are at least 500,000,000 feet short of the amount so held a year ago.

In his view this means, says the American Lumberman, that next year the hardwood producers will be confronted with a dual demand. There will be the requirement for consumption and for re-stocking. That is to say, stocks in the hands of handlers have been brought to so low a point that business cannot much longer be successfully conducted with the supplies available and it will be necessary to put into yard, whether the yards be at the mill or at the distributing centres, larger and more complete stocks than now or for some time to come can be carried.

The season is at hand when the mill product is at its minimum. The northern mills cut very little hardwood in the winter and for various reasons the southern mills cut less than at other seasons. Consequently there can be no material replenishment of stocks, while the winter is an active consumptive season. The effect of this combination of light production, depleted stocks and heavy demand must be to maintain prices at their present level, and very likely to advance them in a good many lines, for practically a year to come, unless of course there should be some unlooked for and disastrous break in the general business condition of the country.

A year ago there was a good supply of hardwood lumber at the mills and buyers had no difficulty in finding what they wanted in any desired quantities; but now the supply does not exist. Hundreds of buyers have been taken off the road because they could not find enough lumber to warrant paying them salaries and expenses. What little they got had to pay so high a charge that it brought the price above a profitable figure.

The mills have probably never before been so closely cleaned out as at the present time. Some dealers have stocks of fair size and of good assortment, but in the main the markets are also rather lightly stocked. Whatever the exact figures may be the conclusion cannot be evaded that the hardwood market is in an impregnable position and that it will take many months of active mill operation under the most favorable circumstances to bring stocks to such a point that there can be any material lowering of values.

TIMBER LIMIT TRANSFERS.

A deal involving $328,000 and effecting a transfer of 80,000,000 feet of standing pine has just been oonsummated in Duluth. The limits are known as the Culligan tract and have been purchased by W. H. Cook, of Duluth.

The timber limits and mill properties in the province of Quebec, formerly owned by Gaynor Bros., are reported to have been purchased by John McClellan, of Syracuse, N. Y. The limits comprise 181 square miles and are located on the Pentecost river. It is reported to be the intention to operate the limits for saw logs and pulp wood.

THE BOSTON MARKET.

There is a firm market at Boston for spruce lumber, but the demand is not active. More of the mills are stopping work, with the result of still further restricting production. Nine-inch spruce is firmer: Ten and 12-inch dimensions, $21 and $22; 9-inch and under, $19 to $20; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3,2x4, 2x5,2x6,2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

There is a quiet demand for hemlock at firm prices: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Full prices are being paid for western pine, with a fair request: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a firm market for hardwood lumber, with a fair request: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $43 to $45; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are steady: Extra cedar, $3.55 to $3.60; clear, $3 to $3.10; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

Spruce clapboards are firm, with light offerings: Clear, $40 to $42; second clear, $37 to $39; extra No. 1, $22 to $32.

Laths are very firm: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, NOVEMBER 12, 1902 No. 41

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

FOR SALE

QUANTITIES OF BIRCH, ASH, PINE, RED Oak and Hemlock. Hemlock cut to order. Address JAS I. HARRIS, Day Mills, Ont.

WANTED

GOOD ALL ROUND MAN WITH FAMILY of boys to work in mill. Steady job. Can supply house at reasonable rent. JAS. I. HARRIS, Day Mills, Ont.

WANTED

A STOCK OF PINE LOGS, LONG AND short from two to three million feet. Will take them at any point on Georgian Bay where they can be rafted. Apply to MAITLAND, RIXON & Co., Owen Sound, Ont.

MUSKOKA SAW-MILL
FOR SALE CHEAP.

STEAM AND WATER POWER CIRCULAR Saw-Mill, capacity 25 to 30M per ten hrs., 5 Saw Double Edger, Trimmers, Slab Saw, Re-Saw, Nigger and Log Loader, Log Jack, Slush Chains, Filing Machine, Lumber Trucks, Rip Saw, Bracket Band Saw, Iron and Wood Lathes, Shaper, Mortiser, etc., all complete and in running order; yard capacity 2½ million feet, "High Tramways," together with about 100 acres of land, mostly wooded; a two-story Shingle Mill, with Boss Shingle Machinery, Blacksmith Shop, Barn, Office, six Dwellings, Yacht House Boat House, Storehouse and good Steamboat Dock. WANTED

750 Boom Chains, ⅝ and ¾, 10 to 12 feet long.

N. N. WRIGHT & CO.,
CUTLER. ONT.

FOR SALE.

Large Tract of Timber
In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

A meeting of the shareholders of Burton, Brine & Reed, timber merchants, London, England, has been called to consider the winding up of the company.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber movement in Ontario is not large, for the reason that shipping is practically tied up by the car famine. There is considerable stock waiting to be moved by rail, but the scarcity of cars has been a handicap to business. Some manufacturers have withdrawn their price lists and are refusing to accept orders until the prospects of being able to make shipment become more promising. The situation from the standpoint of demand is quite satisfactory. In the words of a prominent dealer, "business is good, and a fine winter trade seems assured." Mill men could sell more lumber if they had it, but it frequently happens that they are not able to supply the assortments wanted.

There is no shading of prices on hardwoods. The scarcity becomes more pronounced each week. Maple is less active and weaker than other woods. It is now seldom bought for furniture-making, which may account in part for its dullness. Basswood is as much sought after as ever.

MANITOBA AND BRITISH COLUMBIA.

The activity in the lumber and shingle business of Manitoba and British Columbia has moderated slightly, although manufacturers are still behind with orders. It is rumored that a further advance is about to be made in the price of British Columbia lumber for delivery throughout Manitoba and the Territories, and no doubt such an advance will be followed by similar action by the manufacturers of white pine. The mills of British Columbia have a great deal of lumber waiting shipment. It is estimated that the East Kootenay Lumber Company have orders on their books for 300 carloads, largely for shipment eastward. The supply of labor for logging operations is still inadequate and is greatly hampering the shingle production. The new list issued by the British Columbia Lumber and Shingle Manufacturers' Association makes an advance of about 15 cents per thousand on all grades of shingles for Ontario delivery. XXX, 5 butts to 2 inches, are now quoted at $3.45; XX, $2.65; XXX, 6 butts to 2 inches, $3; XXXX, 6 butts to 23-16 inch, $3.20.

UNITED STATES.

The lumber trade of the United States is firm, although rather featureless. There continues to be a steady movement of white pine into the hands of the consumer and a corresponding disposition on the part of dealers to replenish their stocks as completely as possible. The receipts of lumber at Tonawanda during October

were larger than for any other month this year. Our Buffalo quotations this week show an advance of one dollar in 1¼ and 1½ inch cutting-up stock, $2 in No. 2 moulding strips, and $3 in 6, 8 and 10-inch barn boards. At Albany trade is quiet, stocks light, and prices firmly held, with a tendency to advance if anything. There has developed a shortage of box cull or No. 4 boards, the box manufacturers stating that they are unable to pick up this grade in northern markets. Piece stuff assortments are also badly broken, with a general scarcity of long stock of all kinds, 2x12 joist and 4 and 6-inch No. 1 fencing strips. Very few dealers have any quantity of 12-inch boards. At Cleveland stocks of good lumber, such as fine common, selects and uppers,are scarcer than at any other time this year.

Our remarks last week regarding hardwoods pretty well cover prevailing conditions. Dealers report that stocks are running low whether in the hands of producers, dealers, or consumers. It has seemed difficult to advance hardwood prices on account of the scattered supply and the competition from the small mill. This is particularly the case in respect to maple, basswood and elm.

GREAT BRITAIN.

The position of the lumber market of Great Britain is not altogether satisfactory in respect to consumption, which has recently shown a decline. The business generally is in a sound condition and not likely to be affected by a temporary decrease in consumption. An active demand continues for the better qualities of pine deals and sidings, and prices have an upward tendency. A basis as high as that now ruling is likely to continue throughout the winter months. The shortage in the supply of pine and spruce from this side has become universally recognized and accounts for the strong tone now prevailing. One report regarding the spruce market received from London says: "If spruce were to experience a really bad year at home, and large quantities were pressed upon the European market at cheap and falling prices, it would have the effect of discouraging buyers to deal liberally with the Baltic timber; but at the present time there are no signs of this. On the contrary, everything points to an expensive spruce year, probably more trying than the season just passed." For best quality spruce as much as £9 per standard c.i.f. is being asked, and at an auction sale held by Churchill & Sim, London, third quality Quebec spruce, 3x9, realized £9 10s, and Miramichi spruce, 3x7 and 8, £7 10s. A quantity of Quebec first-class rock elm brought from 80 shillings to 102 shillings per load of fifty cubic feet. Birch sold at 1s. 7d. per cubic foot for first-class stock.

STOCKS AND PRICES.

William Cook, of Vancouver, B. C., is this winter conducting lumbering operations on Hardwick Island.

Furstenburg Bros., of Saginaw, Mich., are taking over one million feet of white pine stock which they recently purchased at Sarnia, Ont.

White pine shingles in the Saginaw valley are worth $4 to $4.25 for XXX stock and $3.25 for clear butts. Cedar shingles range from $2.75 to $3.75.

Some weakness has recently been reported in Washington red cedar shingles, which are now quoted in the Chicago market at $3.08 for 5 butt to 2 inches, and $2.60 to $2.65 for 6 to 2. This is a decline of ten cents within a month.

The Fredericton Boom Company have completed rafting operations for the season, having handled 130,000,000 feet of logs on the St. John river and tributaries.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., has contracted to cut for future delivery 15,000,000 feet of white pine lumber, the greater portion of which will be next spring's sawing.

M. McNair, of Armstrong, B. C., has been given a contract to take out 3,000,000 feet of logs for the Columbia River Lumber Company's mill at Kault. The logs will be cut on the Salmon river.

White pine prices in Chicago are based on $16 for short dry piece stuff, and $18 to $18.50 for long; $18.50 to $19.50 for common inch; $11 to $12 for hemlock piece stuff, according to quality; $12.75 to $13 for inch hemlock; $2.80 to $2.85 for white cedar shingles, and $3 for No. 1 mixed lath.

Under date of October 25th,Clairmonte, Mann & Company say of the Barbadoes market: "There has been no arrival with lumber during the fortnight, but owing to the dull state of trade there is little demand. Last sales of white pine have been made at $20 to $21.30 per thousand as it runs, for two small lots. A small lot of spruce was sold at $19.21. Long Gaspe cedar shingles have been marketed at $4.89 to $5.04 per M. The "Bravo" has arrived from Paspebiac, Que., with the following: 640,000 laying cedar shingles, sold at $1.82; 78,000 long cedar shingles, sold at $4.89, 4,000 at $5.04; 128,000 dimension shingles, seld at $4.01 to $4.10 for 4-inch, $5.10 to $5.22 for 5-inch, $6.10 to $6.22 for 6-inch, $7.22 for 7-inch, and $8.22 for 8-inch.

THE GLA GOW MARKET.

Messrs. Edmiston & Mitchells, in their last market report, review Glasgow conditions as follows:

Business has been fairly active during the month,a considerable number of transactions having been made in pitch pine and spruce, while for Canadian timber and deals there has been a steady demand at very firm prices. There have been rather more wide first pine deals coming in recently, but the import is still considerably under the market's requirements, and prices are as firm as ever. A cargo of Californian redwood has been imported into Glasgow during the month, and is expected to meet with a ready sale in view of the high prices asked for first quality white pine. The result will be watched with interest, as hitherto redwood has not taken well in this market.

Of American hardwoods the import for October has been unusually meagre, and values are on the whole well maintained, the weak spots being walnut logs and lumber and plain oak boards.

WHITE OR YELLOW PINE.—With the exception of a small parcel per liner to Glasgow, there has been no import this month. There have been some fair sales of both first and second-class waney at full price. Stock is moderate, and prices are likely to harden.

RED PINE.—There have been a few retail sales during the month, but the enquiry is very quiet. Stock is low, but ample for all requirements.

OAK.—There has been no further import during the month, and business has been fairly satisfactory. One or two good lines have been placed and general enquiries have been numerous. Prices range from 3s to 3s 9d for first-class, and 2s 6d to 2s 9d for second-class, according to specification.

ELM.—There has been a fair demand during the month, and several sales are reported at full prices. The stock is heavy and ample for all prospective requirements.

BIRCH.—Quebec—The import of logs this month has been trifling, and of planks about 190 loads, some of which was sold "ex quay" and balance stored. There is still a considerable stock of planks on hand, but of logs there has been a moderate consumption, and prices are reported to be rather firmer. Lower Port.—There are no imports this past month, and of old stock there is still a fair quantity in store, which is moving off very slowly.

ASH.—There have been no arrivals during October from Montreal, but from the States 332 logs have come forward, which have been disposed of from the ships' side at prices ranging from 1s 8d to 2s per foot. In Quebec ash the amount of business done has been trifling, but one or two small sales of 12-inch wood are reported at about 1s 6d per foot.

DEALS, &c.—Business during the month has been of a satisfactory nature, and deliveries from store and ship's side are well maintained. Imports still continue moderate, and stocks,while accumulating, are low. Prices of all kinds are firm. Current values are as under: Broad first pine deals, £31 to £34 per standard; 11-inch, £26 to £27; ends and non-dimensions, £20 to £22. Second pine deals.—11-inch and up, £18 10s to £21; non-dimensions, £12 10s to £15. Third pine deals.—11 inch and up, £12 to £13; ends and non-dimensions, £8 10s to £10 10s. Fourth pine deals.—11 inch and up, £10 to £10 10s; narrows, £8 to £9. Red pine deals —9 and 11 inch, £10 to £12; narrows, £8 to £9. First pine siding and strips.—9 and 10 inch average, £21 to £23; 11 to 12 inch average, £24 to £26; 13 to 14 inch average, £27 to £28. Spruce deals —9 inch and up, £8 10s to £9 10s; 7 and 8 inch, £7 5s to £8 10s. Lower port pine and spruce—9 inch and up, £8 5s to£9 5s; 7 and 8 inch, £7 5s to £8 5s.

DOORS AND MILL WORK.

The tone of the demand for doors and mill work over the country has shown continued improvement of late and this has been fully as noticeable in the opening days of November as during any similar period for some time. In some sections demand for a month past has been inclined to be dormant, but this condition, says the American Lumberman, has been materially emaliorated during the past few days at many points. Distributers generally report a tremendous quantity of orders for small lots of stock and odd work, with a fair intermixture of carload lots, but with no indication of speculative buying. Judging from appearances one would infer that retail dealers are anticipating a s ump in prices and are holding off in their buying until they are able to secure bargains. If this is what they are waiting for, the opportunity has probably already passed, as prices are in much better shape this week than they have been, especially on carloads; notwithstanding which they are still too low for the average carload jobber to interest himself in them to any extent. Most wholesalers are satisfied with doing a big business in small lots and for this class of trade they are getting good prices, in which there is a fair margin of profit. They do not care to dispose of stock work in carloads on which they cannot make a handling bill.

The report from the door and millwork factories at Buffalo, N.Y., is that they are running to the limit of their capacities and the feeling in regard to prices is much improved. One mill owner says that he is getting a dollar more to the door than he did early in the season. There is an immense amount of home demand, so that all the building that can be crowded in this winter will be done.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

Ludlam, for City Island, 109,663 ft. deals, by Stetson, Cutler & Co. Schr. Romeo, for New Haven, 24,218 ft. boards, 83,289 ft. planks, 42,955 ft. scantling, by A. Cushing & Co.

The New Brunswick government will offer for sale on November 19th two square miles of timber limits on Cumberland creek, applied for by W. J. Colwell, and two miles on Alward Brook, a branch of the Canaan River, applied for by H. A. Keith.

TIMBER BERTHS SOLD.

It is officially announced that the River Ouelle timber limits in the Province of Quebec belonging to the King Bros. Estate have been sold for $200,000 to a syndicate composed of Quebec capitalists, headed by Wm. Power, M.P. for Quebec West.

THE HALE AND MURCHIE LIMITS.

As a result of an order of the court in Hale vs. Murchie, the People's Bank of Halifax et al, timber limits in New Brunswick containing over 300 square miles were sold by public auction at St. John on November 6th. The limits were held by the bank as security for certain advances made, and comprised 300 square miles situate on the Tobique river and vicinity, a one-third interest in thirteen square miles held by Michael Welch, and the title or interest formerly belonging to Hale & Murchie in the licenses held by T. B. Winslow for F. H. Hale and Adams, Burns & Company. The bidding was quite lively, F. H. Hale, J. G. Murchie, John E. Moore, W. T. Whitehead and A. P. Barnhill being the principal participants. The limits were secured by J. G. Murchie with a bid of $72,000.

T. Whaley & Son, of Toronto, have recently made large purchases of lumber at Manitoulin Island points.

Last week two million feet of lumber was shipped from their Collingwood yards by J. & T. Charlton.

Elm	712,468	942,372	561,920
Ash	91,745	135,245	79,920
Basswood	241	464	....
Butternut	142	944	....
Tamarac	71	198	....
Birch and Maple	459,361	307,092	164,8?0

THE BOSTON MARKET.

Spruce lumber is in a very firm position at Boston, especially for 9-inch dimensions. Prices are steadily held at quotations: Ten and 12-inch dimensions, $21 and $22; 9-inch and under, $19 to $20; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is quiet but firm in price: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $16 to $17.50; No. 2, $15 to $15.50.

Western pine lumber is steady in price with the demand fair: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is in good request, especially maple and birch floorings: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $43 to $45; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are steady at quotations, with the demand fair: Extra cedar, $3.50 to $3.60; clear, $3.00; second clear, $2.55; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $2.75 to $3.80; 18-inch, $4.25 to $4.50.

There is a steady market for spruce clapboards: Clear, $40; second clear, $37; extra No. 1, $22 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, NOVEMBER 19, 1902 No. 42

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

WANTED

SMALL CARGO CEDAR POSTS ¾-4½ TO 6 inches, balance 6 inches and up, No. 1 strictly. The same to be delivered at Olcott, Niagara Co., N.Y., this month if possible. Also wanted 150,000 feet white basswoods, 1 and 1¼ inch delivered next spring. NEWFANE BASKET MANUFACTURING COMPANY, Newfane, N.Y.

FOR SALE

The undermentioned machinery at our Canoe Lake Mills, Algonquin Park, Ont., on O.A. & P. S. Ry.

One 750 h.p. horizontal slide valve engine 32 in. x 48 in. cylinder, with new Nordenburg automatic cut-off governor; one large rope sheave 14 feet diameter, grooved for 20 1¾ in. ropes, weighs over 20 tons, the driven 7 feet diam. Includes tension carriages, track and rope complete, also one large tubular heater.

One 250 h.p. horizontal slide valve engine 18 in. x 36 in. cylinder, with new Nordenburg automatic cut-off governor, 1 rope sheave 8 feet diam, grooved for 18 1 inch ropes, driven 40 in. fly wheel 12 feet diam., also one tubular heater.

Eight 54 inch x 14 feet tubular boilers, full fronts, 46 4-inch tubes and all connections

One 60 in. x 12 feet tubular boiler, half front, 52 4-in. tubes, all connections.

One steel smoke stack 7 feet 3 in. diam., 125 ft. high, with large spark arrester.

One left hand band mill, 9 feet wheels.

One Cunningham twin engine, steam feed, with large rope spool suitable for cutting long bill timber or lumber, 12 in. x 20 in. cylinders.

One steam nigger 10 in. and 12 in. cylinder extra heavy tooth bar.

Two large double edgers, 6 saws.

One 3-saw edger

One 2-saw trimmer, 4 chains.

Two overhead 5-saw slash tables.

One lath mill.

One bolter.

One equalizer.

One circular strip saw machine roller feed.

One twin circular saw rig complete.

One large burner, 35 ft. diam., 80 ft. high, with large spark arrester, grate and bearing bars complete.

Also a large quantity of cast iron rollers, 9 in. and 10 in. diam. with gearing, shafting from 2 to 8 in. diam., couplings, bolts and boxes, 160 iron pulleys from 6 to 9 in. diam. by 27 in face, 21 Dodge pulleys, 12 in. and up to 6 ft. diam., mitre and bevel gearing, wood and iron, paper and iron frictions, bevel, mitre and straight face, log-way chains, slab and sawdust chains, all sizes.

For prices and terms apply to

GILMOUR & CO., LIMITED,
Trenton, Ont.

WANTED—ONE INCH SPRUCE SUITABLE for manufacturing boxes. Can use 20,000 feet daily. Also pine deal ends. AUGER & SON, Quebec.

WE HAVE ABOUT ONE MILLION FEET choice hemlock which can be cut in any size or length. Can make rail shipment to North Toronto. SIMEON LEMON, Kettleby, Ont.

WANTED.

10 x 10 and 10 x 12 cedar. A. BRYCE & CO., 2 Toronto St., Toronto.

STANDING TIMBER FOR SALE, 700 ACRES about one mile from G T Railway, within a reasonable distance of Toronto. Apply THOS. MYLES SONS, Hamilton, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED

A STOCK OF PINE LOGS, LONG AND short from two to three million feet. Will take them at any point on Georgian Bay where they can be rafted. Apply to MAITLAND, RIXON & Co., Owen Sound, Ont.

RAILS AND CARS FOR SALE

FIFTEEN MILES 30 LB. STEEL RAILS IN good order, logging cars and locomotives; immediate shipment. For particulars apply to JOHN J. GARTSHORE, 83 Front Street W., Toronto.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

DRY PINE.

WE HAVE ABOUT 1,500,000 FEET DRY PINE in 1, 2 and 3 inch common and better, prefer selling in bulk. Will quote freight rate to Buffalo, Chicago or Toronto on application. Correspondence solicited. N.B.—Would like to correspond with consumers of hardwoods. ST. JOE ISLAND LUMBER CO., Sault Ste. Marie, Ont.

SPECIAL TO LUMBERMEN.

WITH A THOROUGHLY EQUIPPED PLANING Mill at Orillia, we solicit orders for resawing and planing of lumber, in any quantity; can match 26 inches wide; all work guaranteed first-class; prices on application. Address, NATIONAL BOX CO., Orillia, Ont.

WANTED

750 Boom Chains, ⅝ and ¾, 10 to 12 feet long.

N. N. WRIGHT & CO.,
CUTLER, ONT.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRICULTURAL implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles, saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co., Que.

WANTED

500,000 FEET DRY 1½ INCH LOG RUN SOFT Elm, mill culls out, delivered at Erie, Pennsylvania. Address C. G. & H. H. MCLAUGHLIN, Columbus, Ohio.

WANTED

PORTABLE SAW MILL TO CUT BY THE thousand, or will buy or rent. R. J. DOUGALL, Hallville, Ont.

HEMLOCK LOGS FOR SALE

ADVERTISER WILL CONTRACT TO TAKE out on the Georgian Bay this winter from one to ten million feet of hemlock logs. Apply Box No. 77, LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The activity of the lumber business, as reported from week to week, is reflected by the statement of exports to the United States. During September, the last month for which complete returns have been compiled, the quantity of lumber exported from Canada to that country was 96,227,000 feet, perhaps the greatest amount that has been sent over in one month for some years. Nevertheless, this quantity would have been greatly increased had it been possible to obtain cars to move all the lumber awaiting shipment. In Ontario white pine prices, while unchanged, show unmistakable evidence of hardening. A Georgian Bay manufacturer reports the sale of all his 1½ inch No. 1 cuts and better at $48 at the mill. The possibility of the log production being curtailed by unfavorable weather conditions is having its effect upon future prices. Some United States concerns have buyers now in the market, and we may shortly expect to hear of sales of next season's production being made. Birch and basswood lead the hardwoods in point of strength. It seems to be the opinion of the trade that both these lumbers must go higher, as manufacturers are compelled to pay from $1 to $2 per thousand more for their logs, and it has been found almost impossible to get a sufficient number of men for work in the woods. Very little stock is being carried into the winter; in fact, buyers have almost given up looking for basswood. While the supply of hemlock is relatively larger, prices continue firm. There seems little prospect of lower prices this winter, and consumers in need of stock may profit by buying at present prices.

QUEBEC AND NEW BRUNSWICK.

Within a short time it will be possible to give the figures of wintering stocks of lumber at Quebec, and it is believed that these will be shown to be smaller than last year. The low freight rates have enabled shippers to get their lumber across the water on very reasonable terms. Prices of spruce lumber are firm, the strongest item being clapboards, which have been in short supply for some time. Logging operations are now engaging much attention. So far there has been too much rain for successful work, and should snow fall before the swamps and ground are frozen it will make operations very difficult. A large operator on the St. John river states that on account of bad weather, high wages and the difficulty of obtaining men, the production of logs will be somewhat smaller than last year.

UNITED STATES.

The conditions of the lumber market are much the same as have prevailed for some time past. Each week has emphasized the scarcity of white pine stocks. Buffalo and Tonawanda have this season received a large quantity of lumber, but the demand has been so great that the supply in the hands of wholesale dealers is scarcely up to the average, and it is predicted that there will be a shortage before next spring. No. 1 cuts in 2-inch, 5-4 fine common and siding strips of good quality are scarce. At Tonawanda a slight advance has been made on some grades of fine common, selects and uppers, although the list as a whole is practically unchanged. Chicago is short of piece stuff and inch lumber. No. 3 boards are quoted there at from $14 to $15, and No. 4 boards at from $12 to $13. In point of strength hemlock stands out prominently. In the Eastern States stock is being shipped green from the saw in order to supply the demand. The shutting down of some of the water mills has caused a further hardening of spruce prices. Ten and 12-inch dimension is getting scarce and random spruce is a trifle stronger.

The reports received regarding the lath market are somewhat conflicting. In the Minneapolis district prices are said to be unsteady, and as the building season is about over lower prices are talked of. In the east, however, lath are very scarce and all offerings are quickly taken at current prices. Shingle prices are firm, the drop of five cents in the price of red cedars having been recovered, while white pine shingles have advanced about ten cents at Tonawanda.

GREAT BRITAIN.

For some time the exceptional strength of spruce lumber in the British market has been commented upon. While other classes of lumber have occasionally shown a tendency to weaken, spruce has remained firm. It was a surprise, therefore, when

about one week ago a slight weakness in spruce developed, at a time when the general market was strong. This weakness is confined to the narrow sizes, namely, 7 and 8 inch. The cause of the weakness seems to be the heavy stock of narnow sizes now in stock at Liverpool. As compared with one year ago the stock of New Brunswick and Nova Scotia spruce deals is 7,000 standards larger, and of this increase the greater portion is 7 and 8 inch. It Is believed, however, that the consumption will take care of the available stock, as during the month of October 12,470 standards were consumed in Liverpool, as compared with 8,550 standards in same month of last year. At London the dock stocks make a very different showing, spruce deals and battens being less than twelve months ago and the only class of lumber that shows a decrease. For square and waney timber there is steady demand and stocks are in such shape as to ensure a firm market for some months to come. At Liverpool square and waney pine, red pine, elm, birch, and ash all show a considerable decrease as compared with same time last year. This is also the case at London, the exception being oak timber, the stock of which is larger. Much attention is being directed to the prices which are likely to prevail for next spring delivery, but as no transactions have taken place, any opinions advanced are merely conjecture.

STOCKS AND PRICES.

The steamer Lovestaken is loading deals at Miramichi, N. B., for the United Kingdom.

No. 1 mixed lath are quoted in Chicago at $3 by water, with the demand fairly good.

Ritchie Bros., of Aylmer, Que., have recently sold 3,000,000 cull lath at $1.25 per thousand.

Pittsburg prices are as follows: 16-inch hemlock shingles, $2.65; 18-inch, $3.05; hemlock lath, $3.50.

The steamer Skuld sailed last week from Montreal for Hull with deals and grain, completing cargo at Three Rivers.

The Columbia Lumber Company which operates at Golden B. C., is planning to handle 5,000,000 feet of logs at that point this winter.

White pine shingles are scarce in the Saginaw valley and bring $4.25 for stocks. Clear butts are worth $1 less. Cedar shingles are selling at $2.25 to $2.90.

Ramsay township council is asking for tenders up to December 16th for supply of a large quantity of bridge timber. Particulars may be obtained from T. C. Foster, of Clayton.

The Imperial Veneer Company is in the market for 1,000,000 feet of hardwood logs delivered at any point between North Bay and Scotia Junction before the 1st of May, 1903.

Cockburn & Sons, of Sturgeon Falls, Ont., are reported to have recently sold 250,000 feet of common pine at $15 at the mill. The balance of their season's cut was sold last spring.

The barque W. W. McLaughlan is loading lumber at Bear River, N. S., for Buenos Ayres, Clarke Bros. being the shippers. The schr. Frank W. Pickles is loading at Annapolis, N. S., for the West Indies, the cargo being supplied by Pickles & Mills.

The United Lumber Company, of Halifax, N. S., shipped during the past season 12,000,000 feet of lumber to European and South American markets. They are preparing to take out 20,000,000 feet of logs this winter on the St. Marys, Gaspereau, and Jordan rivers.

J. & T. Charlton, of North Tonawanda, estimate that they will be able to manufacture about 175,000,000 feet of lumber from the tract of pine timber on the Spanish river recently purchased from Booth & Shannon, of Pembroke, Ont. The tract is traversed by logging streams in such a manner that the average haul will not exceed one mile.

Logging operations in the Dauphin district of Manitoba this winter are quite active. Camps are being established in the Riding Mountains by Ritchie Bros., Shaw Bros., and James Shoud, and in the Duck Mountains by Briggs Bros. The Northern Lumber Company, Hanbury Lumber Company, Swan River Lumber Company, Peter McArthur and Makenzie & Mann will operate their limits on Lake Winnipegosis.

The Sutherland-Innes Company, of Chatham, Ont., refer to the cooperage stock market as follows: "The manufacturers appear to be getting all the orders they want for stock, and the coopers getting all the stock they need. There is a little shortage in No. 1 stock, on account of the mills not being able to joint stock up fast enough, the weather having been very much against jointing stock. The demand for apple-barrel stock still continues, but not very lively. Prices remain practically the same as last month, with the exception of No. 1 staves, which are advancing a little on account of the scarcity already referred to. All the manufacturers want now is good drying weather, when they will be able to take care of their orders to good advantage. No. 2 staves still continue low in price, but the surplus is getting pretty well cleaned up, so that we look for a good price for No. 2 staves in the spring."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

At the court house here yesterday the British Columbia limits of the Maclaren Ross Lumber Company were sold as a sequal to the dissolution of partnership. Keen interest was shown in the sale, which was attended by both Canadian and American operators. The limits are 56942 acres in extent with a well equipped saw mill, and sold for $169,500. The property was sold in three separate parcels, two of which were bought in by Mr. J. C. Browne, lumber brocker, of Ottawa, and the third by Mr. H. J. Jenkins, head of the H. J. Jenkins Lumber Company, of Minneapolis.

The first parcel consisted of about 23,600 acres of timber land situated in the Seyward district, Vancouver Island. It was sold to Mr. Browne for $113,000, to which figure it advanced in the bidding from $50,000. The limit is accessible, compact and well wooded, and is considered a good bargain at the price paid.

The second parcel, also bought by Mr. Browne, contained in all 32,942 acres and sold for $24,000. The property is in the following lots: 9,280 acres in New Westminster district; 6,720 acres in the Chilliwack district, another of 15,900 in the same, and a third of 1,042 acres also in this district. These cover scattered territory and are not as well wooded as was the land in the first parcel, hence the difference in price.

The third parcel, the one secured by Mr. Jenkins, is not wooded. It contains about 400 acres situated on the Fraser river about three miles from New Westminster. On it stands a well equipped saw mill and accessory buildings.

It is understood that the American firm will take possession of the mill forthwith. Mr. Browne, however, will not operate his newly purchased limits just at present. He refused to express any intention, and said that he alone was interested in the deal.

Reports from the limits in the Ottawa district show that operations which are well under way were interfered with by the constant rains of October. On limits remote from the railways, the foremen are having trouble with deserters. Few days passed during the past month in which one or more men did not take French leave. To fill orders, local agents were forced this year to engage practically all the men and many youths who offered themselves for employment. The roaving class of spasmodic workers were well represented on the limits, with the work of which many were wholly unacquainted. It is this class that is giving trouble, the members taking advantage of the open season to get out from the remote limits before winter sets in and shuts them out from civilization for six months or more.

The swamps and lowlands are all full of water and the lumbermen are hoping for early frosts so that good "bottom" can be procured before deep snow comes, otherwise it will be difficult to transport logs.

Davidson & Thackray, of Ottawa, have secured a $15,000 order from South Africa where the firm recently sent a representative. The order called for sashes, doors etc.

There is no relief in the car famine and the shippers are sending out stock by barge. Several are loaded daily at the mills along the Ottawa river. Local dealers report a falling off in orders from American points. The inability to move stock has put a damper on business.

G.L. Burtis, the lumberman of Munising, Mich., is erecting a large mill at Thessalon, on the Georgian Bay. The mill will have an output of 25,000,000 feet. The car shortage has not been felt at Thessalon, as the shipments are mostly all made by water.

McLachlin Bros., large mill at Arnprior has closed for the season. Gillies Bros, mill at Braeside is still running. None of the Ottawa mills have closed down.

OTTAWA, November 13th, 1902.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

Lumber prices in nearly all grades have risen during the past week. Rough lumber now retails in Vancouver at $13.00 per thousand. The railway list has advanced, and it is probable that prices will be raised on nearly all grades shipped east to Manitoba, Ontario and all eastern points within the next few days. The principal cause of the advance is the rise in the price of logs. The demand has been active during the past summer, with the result that but few logs are in the water, and it is anticipated that there will be a scarcity owing to the camps not being able to run to their capacity during the wet weather of the winter months. Contracts are being let by the mills to jobbers at from $6 to $7 at the camp. Wages continue high and men are scarce, at wages ranging from $3 to $5 per day.

The shingle market remains good, and prices are firm with a tendency to advance. Some of the mills are refusing orders for next summer shipment, as prices of lumber, logs and shingle bolts will doubtless advance before spring.

Shipments to the Orient are active and prices remain firm. It is expected that new markets will open shortly in South Africa for Canadian producers. Not much lumber has been shipped there as yet, as the Australian. Japan and other countries have kept foreign shippers busy during the year.

NEW WESTMINSTER, Nov. 12th, 1902.

SOFT ELM WANTED.

Persons in a position to supply soft elm for the British market may learn of a prospective customer for large quantities by communicating with this office.

DOORS AND MOULDINGS

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

EXPORTS OF LUMBER.

Statistics compiled by the Treasury Department of the United States show that during the month of September of this year there were imported from Canada 96,227,000 feet of lumber, valued at $1,433,501. In September of last year the imports of lumber were 69,893,000 feet, valued at $943,667. The gain for this year is thus 24,334,000 feet. This gain is equally as marked when the first nine months are taken into consideration. During the first nine months of 1900 imports from Canada were 374,804,000 feet; during the first nine months of 1901, 388,533,000 feet; during the first nine months of this year, 518,180,000 feet.

For the fiscal years ending June 30th, for eleven years the imports were as follows:

Year.	Quantity, feet.
1892	663,226,000
1893	742,351,000
1894	514,461,000
1895	600,700,000
1896	786,001,000
1897	883,770,000
1898	353,134,000
1899	423,720,000
1900	680,069,000
1901	490,570,000
1902	664,751,000

The value of the lumber imported is higher than for any previous year. The value reported to the customs houses on which duty is paid is the buying price in Canada. The figures for the different years are as follows: 1892, $11.37 per thousand feet; 1893, $11.06; 1894, $11.92; 1895, $11.41; 1896, $10.82; 1897, $10.26; 18.98, $9.91; 1899, $9.88; 1900, $10.27; 1901, $12.93; 1902, $13.88.

For the month of September the value is given as $14.90 per thousand feet. This is an advance of $5 per thousand feet from the low price reached in 1899. It should be remembered also that much of the best lumber of Canada is shipped to Great Britain.

LONDON STOCKS.

Churchill & Sim give the stock of timber, deals, etc., in the public docks at London on October 31st as follows:

Foreign deals	2,570,000	pieces

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber at Boston continues in the very firm position previously noted, with prices steadily held at quotations: Ten and 12-inch dimensions, $21 and $22; 9-inch and under, $19 to $20; 10 and 12 inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

Hemlock is firmer, though rather quiet in demand: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $17.50 to $19; No. 2, $15 to $16.

There is a steady market for western pine lumber, with the prices firm and unchanged: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $38; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

There is no change to note in hardwood lumber, maple and birch floorings being especially active. Prices are steady: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are steady and unchanged: Extra cedar, $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

There is a steady market for spruce clapboards: Extra, $42; clear, $40; second clear, $37; extra No. 1, $30 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

SHIPPING MATTERS.

The brigatine Bertha Clay has been chartered by Clarke Bros. to load lumber at Bear River, N. S., for Buenos Ayres.

The following charters are reported: Barque Sunny South, Bridgewater, N. S., to Buenos Ayres, lumber $8, option Rosaria at $9; str. Cardiff, St. Margaret's Bay, N. S., to w. c. England, deals 41s 3d.

The freight market still continues weak, with little probability of any substantial improvement. It is predicted that lumber charters will be effected for next spring at very reasonable rates.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 24 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, NOVEMBER 26, 1902 No. 43

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in he current week's issue.

WANTED

PORTABLE SAW MILL, TO CUT BY THE thousand, or will buy or rent. R. J. DOUGALL, Hallville, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Owing to the car shortage, lumber salesmen have been taken off the road, as manufacturers and dealers consider it unwise to increase their obligations until they are able to discern when the stock now ready for shipment will be moved. The car famine has in large measure paralyzed the fall trade and caused great inconvenience to consumers in need of stock. Many retail dealers bought sparingly earlier in the year in the hope that prices might weaken. They are consequently in need of the stock that has been ordered. Under such conditions it is difficult to estimate the current lumber demand. The open weather has permitted out-door operations to be carried on without interruption and consumption of lumber locally is exceptionally large. Every factory for which lumber furnishes the raw material is operating to its maximum capacity, with orders booked far in advance.

The stocks held by manufacturers are lighter than for many years. The upper grades have practically passed out of first hands, and before the mills commence operations next spring the quantity of lower grades will be reduced to a very low point. Dimension of all kinds is in good demand, also lath and shingles, which are getting stronger almost every week.

Operations in the woods have thus far been expensive. The ground is soft and the swamps full of water and not frozen hard enough for teaming purposes. These conditions have greatly deterred successful work and increased the cost of logs, which in turn will be reflected in lumber prices.

MANITOBA AND BRITISH COLUMBIA.

The British Columbia Lumber and Shingle Manufacturers' Association have put into effect a new price list covering all points on the Canadian Pacific Railway and branches between Moose Jaw and Winnipeg. By this list many grades of fir and cedar lumber are advanced, the important increases being as follows: No. 1 clear red cedar finish, 1x8 to 12 inch, $5; 1x14 to 18 inch, $10; 1x20 to 24 inch, $16; clear squares, 3x6 inch, $5; 7 to 10 inch, $10; No. 1 clear siding, 1x6 inch, $4.50; ½x6 inch, $2; No, 1 clear ceiling, 1x6 inch, $4.50; fir finish, $1 advance on all sizes; ship-lap, $1; fir flooring, $2 on 1x4 or 6 inch edge grain and $1 on other kinds. On other items advances ranging from 50 cents to $1 have been made. It is believed that no difficulty will be met with in maintaining these prices, as the demand is unusually active. A shortage of logs as the result of unfavorable weather for operations in the woods is causing much anxiety, and some of the mills may be compelled to close down.

UNITED STATES.

The lumber demand throughout the United States is quieter, although no signs of weakness are displayed anywhere. Very little buying of next season's production has taken place, dealers evidently preferring to postpone the placing of contracts until after the turn of the year. Such sales as have been made indicate that there will be no break in the price of white pine. The steady appreciation in value of this class of timber is shown by the recent purchase of a large tract of standing timber in Minnesota at a stumpage value of $10.60 per thousand feet. Some items of pine lumber have advanced within the past week. The scarcity of 10 and 12-inch boards has tempted holders to advance their quotations, and in some cases the higher prices have been paid by buyers. Ameeting of wholesale dealers is shortly to be held in Cleveland, when it is thought that No. 2 shelving, No. 1 shop, A selects and uppers will be advanced. Buffalo reports a pronounced scarcity of 12-inch white pine box lumber, but the supply of other grades is fairly good and larger than at Tonawanda. Chicago prices are unchanged, $16 being the ruling quotation for cargo lots of short pine piece stuff, $18.75 to $19 for long timbers, and $19.50 to $30 for small timbers of good lengths. Hardwoods are showing pronounced strength. Prices have stiffened somewhat and advances are in prospect in the near future. Several dealers at Buffalo are asking $1 more for maple and claim to be unable to supply the demand for thick stock. Elm and basswood are also scarce. The tone of the hemlock market is stronger than for several weeks and the supply greatly broken. It is predicted that the base price at Tonawanda will reach $20 before next season.

GREAT BRITAIN.

A correspondent who usually takes a conservative view of trade prospects predicts that all things considered British

importers are now justified in looking upon the bright side of affairs. He believes that prevailing conditions indicate that present prices will be maintained for at least the first six months of next year, and advises buyers to contract at the prices now asked. The outlook for next year is hopeful, although, of course, circumstances may transpire in the meantime to change the present strong trend of the market. The import of sawn and planed timber by Great Britain for the first ten months of this year was nearly one million loads in excess of the import of last year. From Canada the import of hewn timber was 73,336 loads, as against 82,516 loads last year, a decrease of 9,180 loads. Of sawn lumber the import was 1,451,163 loads, as compared with 1,239,004, an increase of 112,159 loads. The effect of this increase in the quantity of Canadian sawn lumber is offset by the probability that next year a smaller quantity of Canadian lumber will be marketed in Great Britain. Spruce is firm and the weakness temporarily created at Liverpool by the abundaut stock of narrow sizes is passing away. No transactions for first-open-water delivery have as yet been reported, although one or two small contracts are believed to have been closed.

STOCKS AND PRICES.

The receipts of lumber by vessel at Tonawanda this season are estimated at 410,000,000 feet.

Albert Smith & Sons, of Amherst, N.S., have purchased from Charles Bent the timber on a lot at Fort Lawrence for $1,700.

Mutchenbacker Bros., of Rosseau Falls, Ont., expect to turn over between 6,000,000 and 7,000,000 feet of logs this winter, mostly hemlock.

At Manistee, Mich., pine piece stuff is selling at $16; inch white pine at $18 to $20.50; hemlock, $10 for short, and $12 to $18 for longer stock.

In Chicago lath are held at $3 and $3.50 for No. 1 mixed and No. 1 white pine respectively. In New York the prevailing price for No. 1 is $3.50.

The Arthur Hill Company, which has operated on the Georgian Bay the last eight years, cutting something like 250,000,000 feet of timber, is winding up its lumbering operations near Midland, having had about 15,000,000 feet manufactured this season.

At the Crown Land Office, Fredericton, N. B., the following timber berths will be offered for sale on December 3rd: Two square miles on North river, west of Intercolonial Railway, Hazen Crossman, applicant; 5½ square miles on Little Meransey Brook, branch of north-west Oromocto River, John Sheehan, applicant.

Under date of November 11th, Messrs. S. P. Musson, Son & Company say of the Barbadoes market: "There have been no arrivals of either white pine or spruce in the fortnight, but we learn that two cargoes of the former have been contracted for a $25.50 and $25.75 for shipping and $21 and $21.75 for seconds. In spruce the small lot mentioned in our last was sold at $19.22. As the season is approaching dealers show more willingness to operate, and first receipts should bring fair rates. We understand that a small cargo has been sold on C & F terms equal to about $22.50 landed, which we consider a very full price. Shingles have been sold at $4.89 to $5.01 or long, as to quality; $4.01, $5.22, $6.22 and $7.22 for 4.5, 6 and 7 inch respectively and $1.82 for cedar laying."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

A new lumber railway connecting with the Parry Sound branch of the Canada Atlantic Railway was completed last week. It is 15 miles in length and runs from Whitney Station on the Canada Atlantic Railway to Lake Opeongo, connecting the St. Anthony Lumber Company's mill at the station and its limits bordering on the lake. The construction of this road entails a saving of about 50 miles in the transportation of logs and naturally makes a big reduction in the time consumed. With the completion of the road, work on which was started 15 months ago, the company will be enabled to operate its mill all the year round. Two log trains a day will be run, assuring a steady supply. The road cost $200,000 and involved considerable rock cutting and trestle building. Several of the trestles are 400 feet in length. There are few of these logging railways in Eastern Canada, although they are common in the States and Western Canada. Mr. J. R. Booth has one running from his limits in the Madawaska district. It connects with the Canada Atlantic at Madawaska. By this road Mr. Booth has established a record of 24 hours from the "stump to the saw," whereas by the water route the movement of logs usually consumes six months and in dry seasons often a year or more. The St. Anthony Company, it is expected, will do equally as well. The new road runs through Algonquin Park, Ontario's natural reserve.

Unprecedented activity in the lumbering operations in the Kippewa district are reported. Mr. H. B. Shepard, President of the Shepard and Morse Lumber Company, and Mr. Peter Whelen, Canadian manager, who have just returned from the company's limits in that district, bear the news. This is the first year in five that this firm has carried on operations in that field. It has four large camps at work making logs and another engaged getting out square and waney timber. Other firms working in the district, several after an absence of years, are the Hull Lumber Company, Robert Hurdman, the Rideau Lumber Company and Edward Moore, of Ottawa, and McLachlin Bros., of Arnprior. Some are getting out logs and others square and waney timber. Fully 2,000 men are engaged, a great increase over last year's numbers. The weather so far has told against the work. A month ago snow fell and ice formed and it was concluded that winter had "set". Rain has fallen almost continuously ever since, however, and the streams are at the high level natural to spring. The low lands are soggy and afford but poor footing for men and horses. Early frosts are hoped for, as they guarantee good "bottom". The output of logs and square timber will be large.

The mills in the Ottawa district have either closed or are preparing to close for the season. An odd shipment of lumber is being made by barge and a few carloads are being shipped by the Canada Atlantic and Canadian Pacific Railways.

The high insurance charges placed on the St. Lawrence route has driven the export lumber trade in a measure from Montreal and Quebec to Portland and Boston. As a consequence lumber which was formerly shipped from Ottawa to the Canadian sea ports by barge is now forwarded by rail to the American ports.

The return of the western harvesters to Ottawa has afforded some relief to the labor market. Many of these men are being engaged for work on the limits and as they have had experience in past seasons they are welcome. Wages have advanced; the latest monthly schedule, board included, running from $26 for road makers to $32 for log makers.

OTTAWA, Nov. 22nd, 1902.

NEW BRUNSWICK CEDAR SHINGLES.

At the present time the demand for N.B. cedar shingles is rather light. Stocks in manufacturers' hands are also light. The retail yards throughout New England are just fairly stocked. There are but few shingles going into consumption at the present time, and the demand will, as a result of this, be rather slow until the yards commence to buy in anticipation of their spring requirements.

Prices seem to be firm, and as there is no excess of stock in the two higher grades anywhere in manufacturers' hands, there is every likelihood that the shingle producers will get present prices for all they have, if their courage holds good, for the shipments of the next six or eight weeks ought to clean out the entire stock left over from this season's operations. It is quite likely that the winter-cut shingles (which are not as good as the summer-manufactured article) may be sold during January and February at something less than present going quotations. Every indication, however, would point toward an early spring market that will take all the shingles that can be found, at prices certainly as high, and probably somewhat higher than the present market figures. There is a small surplus of Second Clears and Extra Ones, and on these grades we are inclined to believe there may be some shading in prices.

Present quotations F. O. B. cars Boston rate of freight are: Extras, $3.50; Clears, $3.00; Second Clears, $2.40; Clear Whites, $2.30; Extra Ones, $1.75. These figures are easily obtained when anyone is found who wishes the shingles. Any cut in these prices on the part of manufacturers would only tend to alarm the retail trade, and less shingles would be sold than if the above quotations are rigidly adhered to.

Indications are that the production of winter-sawn shingles will not be any larger, if as large, than the output of last winter. Such being the case, it is an absolute certainty that all shingles now on hand, as well as those made during the winter, can be marketed at present prices, provided, as above stated, that manufacturers do not get anxious and endeavor to force the market, which at the present time would seem to be the height of folly.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

There is no cnange to note in spruce lumber at Boston, the situation being fully as firm as previously noted, with the market rather quiet : Ten and 12-inch dimensions, $21 and $22 ; 9-inch and under, $19 to $20 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $14 ; bundle furring, $17.

Hemlock lumber is a little easier, with lower prices predicted. In fact, some dealers are already shading outside quotations : Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern ; Pennsylvania, No. 1, $17.50 to $19 ; No. 2, $15 to $16.

Western pine lumber is very firm, with a steady demand : Uppers, 1 to 2 in. $82 to $85 ; 2½ to 3 in. $87 to $38 ; 4-in. $90 ; selects, 1 in. $68; 1¼ to 1¾ in. $70 ; 2-in. $72 ; 2½ to 3 in. $80 ; 4 in. $82 ; fine common, 1-in. $62 to $63 ; 1¼ to 1½ in. $65 ; 2-in. $67.50 ; 2½ to 3 in. $72.50 ; 4-in. $82.50 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber is generally quiet, except for floorings, which are in active demand : Quartered oak, $63 to $75 ; plain oak, $42 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $45 to $47; sap and common, $30 to $35 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $28 to $30 ; end-dried white maple, $38 to $42; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is no change to note in shingles, the demand being steady at firm prices : Extra cedar, $3.50 to $3.55 ; clear, $3 ; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2½ inches, $4.50.

Spruce clapboards are steady at quotatious : Extra, $42 ; clear, $40 ; second clear, $37 ; extra No. 1, $30 to $32.

Laths are firm and unchanged : One and five-eighths inch, $3.40 to $3.45 ; 1½ inch, $3.25 to $3.30.

The Hazelmere Mill Company, Limited, Hazelmere, B. C., are selling out.

Freight rates on lumber from British Columbia rule as follows : To Sydney, 30s to 31s 3d ; Melbourne or Adelaide, 37s 6d ; Port Pirie, 36s 3d ; Fremantle, 47s 6d ; Shanghai, 35s ; Kiao-Chau, 35s to 40s ; Taku, 40s ; Vladivostock, 37s 6d to 40s ; West Coast S. A., 37s 6d to 40s ; South Africa, 57s 6d to 60s ; U. K. or Continent, 62s 6d.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, DECEMBER 3, 1902 No. 44

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contain interviews with prominent members of the trade, an character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subject areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

FOR SALE.

ALL THE PINE, CEDAR AND TAMARAC timber, over eight inches in diameter ten feet from the ground, on one hundred and forty acres, west of Brantford, ten miles from Railway Station, and never was lumbered on. Apply E. TODD, 131 Brant St., Brantford, Ont.

WANTED

SMALL CARGO CEDAR POSTS ½-4½ TO 6 inches, balance 6 inches and up, No. 1 strictly. The same to be delivered at Olcott, Niagara Co., N.Y., this month if possible. Also wanted 150,000 feet white basswoods, 1 and 1¼ inch delivered next spring. NEWFANE BASKET MANUFACTURING COMPANY, Newfane, N. Y.

Important Sale

—OF—

VALUABLE TIMBER LIMITS

UNDER INSTRUCTIONS FROM WM. HENDRIE, ESQ., of Hamilton, there will be offered for sale by Public Auction, at the Russell House, Ottawa, on WEDNESDAY, 17th DECEMBER, 1902, at 2 o'clock in the afternoon, the following valuable Timber Berths, under license from the Crown, subject to the regulations of the Crown Lands Department of the Province of Quebec, namely. Upper Ottawa Limits, Nos. 591, 592, 593, 594, 597, 598, 599, 600, 601, 602, 603 and 604, containing in all about 272 square miles. The limits will be sold in one lot.

Terms and conditions to be made known on the day of sale.

For further particulars, apply to

MacCRAKEN, HENDERSON & McDOUGAL,
Central Chambers. Ottawa,
Vendor's Solicitors.

WANTED.

TIMBER LIMIT, 8½ SQUARE MILES, LICENSE No. 204, season 1902-03, in the Township of Calvin, District of Nipissing, Province of Ontario, and Water Power Saw Mill on said limit, situated on the Amable Du Fond River and on the main line of the Canadian Pacific Railway, 1¾ miles east of Eau Claire. Apply to JOHN MACKAY, Renfrew, Ont.

WANTED

750 Boom Chains, ⅝ and ¾, 10 to 12 feet long.

N. N. WRIGHT & CO.,
CUTLER, ONT.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRICULTURAL implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles, saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que,

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber prices appear to have settled down to a winter basis, and the fluctuations for the next two months are likely to be very slight. Navigation is about closed, mills are shut down, and manufacturers are now in a position to estimate the quantity of unsold stock. That it will be found exceptionally small is admitted on all sides. The upper grades of pine are about out of the market, and before spring they will be very eagerly sought for. A large manufacturer informs the writer that there would be no difficulty in advancing the price of No. 1 and 2 cuts and dressing, but that it is not considered advisable to do so, as it would probably encourage the use of substitutes for white pine and when the supply had become greater there might be found to be less demand. There is a good enquiry for box lumber, considerable shipments being made to the Eastern States. Hardwoods remain high and firm. A shortage in supply prevails generally, but especially in basswood, elm and ash. Dealers are refusing orders for basswood on account of the scarcity of stock. In Toronto shingles are remarkably firm, although the consumption is not large. British Columbia shingles are likely to be advanced. The active demand for logs is a splendid indication of the strength of the lumber market. Manufacturers evidently fear a mild winter with its consequent effect upon logging operations and are endeavoring to protect themselves against such a contingency by arranging as far as possible for a supply of logs in advance.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is unusually scarce, but as the demand has slackened the prices generally remain unchanged. There has been a further slight appreciation in the price of clapboards, which are now selling on the basis of $42 to $42.50 for extras, Boston delivery. Shingles are steady although some of the smaller manufacturers are shading prices slightly.

The shipments from the St. Lawrence are practically completed for the season. It is believed that they have been lighter than last year, owing to the fact that the high insurance rates have caused shippers to export to a greater extent via the United States ports. Wintering stocks at Quebec are small.

MANITOBA AND BRITISH COLUMBIA.

In this issue will be found the price list adopted by British Columbia manufacturers on lumber for delivery at Manitoba points. Following this list comes the announcement, unofficially, that it is the intention of the British Columbia Lumber and Shingle Manufacturers' Association to advance the price of shingles ten cents per thousand, to take effect on April 1st next. This advance has become necessary on account of the increased price of logs and higher wages and insurance rates. The lumber demand throughout Manitoba and the Territories has slackened somewhat, but present indications point to a fair trade throughout the winter and an early and active spring demand. The recent fire at Norman by which 14,000,000 feet of white pine were destroyed has stiffened the price of that class of lumber.

UNITED STATES.

Receipts of white pine at distributing points have been quite large of late, and wholesale dealers will go into the winter with a larger supply than was anticipated one month ago. They continue to make heavy shipments to interior points, indicating that retailers do not regard their supply as more than ample to meet the requirements of their customers. Prices of pine have, if anything, strengthened during the week. No. 2 and No. 3 grades of shop common have been somewhat weak for some time past, but as the result of an investigation made by Minneapolis dealers the supply was found to be much smaller than estimated and accordingly prices have stiffened. In the Chicago market No. 4 and No. 5 boards are in excellent demand and within a month prices of No. 4 boards have advanced fully $1 per thousand. Factory lumber, especially in selects and better, is very firm. Numerous orders for door and mill work are reported from Chicago, where the wholesale trade is more than seasonably active. From Cleveland, Ohio, it is learned that hemlock and Norway piece stuff continues strong, this being particularly true of Norway in 2 x 12 of all lengths. The price of 18 foot lengths and under is $23, with steady buying at this price. Box manufacturers are making liberal purchases of No. 4 lumber.

The shortage in lumber stocks is forcibly illustrated by the supply at Alpena. The docks there will go into winter quarters with less than 2,000,000, feet as against 20,000,000 feet at the close of navigation last year.

GREAT BRITAIN.

Although the British lumber market is quiet, the undertone is strong. A statement has been issued by the Swedish Saw-Mill Owners' Association giving the basis of an agreement which has been reached for curtailing the log production this

winter. It appears that seventy-nine leading shippers in Norrland and Dalarne, representing an export of over one billion feet, have agreed to reduce the quantity of logs taken out by about 21 per cent. This has established a conviction that there will be no excessive supply next season and for this reason importers are more inclined to contract. Very little business has been done as yet in Canadian lumber, but prices are stiffening in all directions. It is reported that a London buyer recently offered £66 per standard for some first quality dry pine boards, landed on dock. Spruce prices are firmer, Recent sales reported include a quantity of second quality spruce deals, 3x9, at £9 15s per standard c.i.f. London, and some third quality at £9. For landed stocks agents are asking £10 10s for 3x9 seconds, £9 15s for thirds, and £8 15s for fourths.

STOCKS AND PRICES.

Manufacturers in the Minneapolis district are paying $6 to $7 a thousand for cutting timber and driving it to the boom company's reach.

The Bell Telephone Company are calling for tenders for poles, to be delivered next spring, for the building of a line from Sault Ste Marie to Thessalon.

Mershon, Schuette, Parker & Company will carry over in Ontario this winter over forty million feet of lumber and logs. They have not bought heavily for next season's stock.

A two square mile timber limit at Young's Cove, Grand Lake, N. B., was sold by the New Brunswick Government last week to the St. John Sulphite Pulp Company at $55 a mile.

Capt. Carter, of Maccan, and Albert Pugsley, of Athol, N.S., have purchased a block of timber land in Nova Scotia belonging to the estate of the late James Skidmore, of Canaan. The consideration was $4,600.

G. Strevel, of Winnipeg, Man., has secured the contract from the Canadian Northern Railway to take out 250,000 ties during the present winter. His camps will be located at Banning, about fifty miles from Fort Francis.

Shingle prices in the Saginaw Valley are said to be a little easier. Dealers are quoting $4.10 for XXXX white pine shingles and $3.10 for clear butts. Cedar shingles are worth $3.90 for 4 x 18 inch stocks and $2.90 for clear butts.

The Department of Interior at Ottawa is asking for tenders up to December 24th for a license to cut timber on Berth No. 318, situate in the Province of British Columbia, to the east of Harrison Lake. The berth contains an area of 1080 acres.

The saw mill at Trout Lake, B.C., has passed into the hands of a syndicate represented by W. Cowan and D. L. Kinman, who are calling for tenders for the cutting of 1,500,000 feet of logs to be delivered at Trout Lake before the opening of spring. The timber limit secured by the syndicate contains 600,000,000 feet of fir, spruce, cedar and hemlock timber.

The demand for slack cooperage stock has subsided, as a result of which there has been a slight decline in prices. At Buffalo jobbers quote 6-foot patent hoops at $11 to $11.25 and 5½ foot at $10.50 to $10.75. Heading is without change, 5½ to 5¾ cents for first class and 3½ to 3¾ cents for second-class. Staves are firm and somewhat higher, the quotation being $7.75 to $8 for first class elm and $4.50 to $4.75 for second-class. An effort is being made to advance the price of flour barrels.

TIMBER LIMIT TRANSFERS.

A.E. Alexander, of Campbellton, N. B., is announced to have disposed of his timber limits and mill property on the north shore to a syndicate, of which D. Richards, of Campbellton, is a member. This price is said to be $110,000.

A deal is reported to have been closed by which the timber limits and mill property of E.D. Davison & Sons, of Bridgewater, N.S., have passed into the hands of a New York syndicate. The limits comprise 210,000 acres and are claimed to be the most valuable timber property in Nova Scotia. The consideration is believed to be about one and one-quarter million dollars.

ADVANCE IN BRITISH COLUMBIA LUMBER.

Following is the new price list put into effect by the British Columbia Lumber and Shingle Manufacturers' Association for delivery at points on the C. P. R. and branches between Moose Jaw and Winnipeg :

FIR.

FINISH—S. 1 S. or S. 2 S., 1 and 2 clear stepping, 1¼, 1½ or 2 in. x 10 or 12 in. edge grain, $38 ; flat grain, $33 ; 1, 1¼, 1½ or 2 in. up to 12 in. wide, $32 ; from 14 in. to 20 in., $37. No. 1 and 2 clear, 2 x3, 2x4, 2x6 and 2x8 in., $30.50 ; 4x4 in., $33 ; 5x5 and 6x6 in., $35.50. No. 1 and 2 rabitted door and window jambs, $33. Above in lengths of 10, 11, 12, 13, 14, 15 and 16 feet. Add $1 per M for each additional 2 in. over 20 in. in width. Edge grain finish same price as edge grain stepping, but only in widths up to 12 in.

CASING AND BASE.—No. 1 and 2 clear, 5 or 6 in. casing, moulded to pattern, $33.50 ; ¼ round or O. G., $31 ; 8, 10 or 12 in. base, moulded to pattern, $32 ; ¼ round or O. G., $30. In lengths of 10, 11, 12, 13, 14, 15 and 16 feet. All casing and base ¾ inch in thickness. Special thicknesses $5 per M more. All mouldings according to B.C. moulding list, M 4,000. Edge grain casing, $2.50 per M extra. Edge grain casing, base, $5 per M extra.

SHIP LAP.—6, 8, 10 and 12 in., 10 to 16 ft. common, $21 ; 6 to 12 in., 10 to 16 ft. common boards, S. 1 S. (finished ¾ in.), $20 ; ⅜ in. common boards, $10 ; No. 4 and 5, 6 and 8 in. ship lap grade T and G. (flooring or siding), $22. When widths are specified, $1 per M extra.

FLOORING.—No. 1x4 or 6 in. edge grain, $33 ; flat grain, $29.50. No. 1 and 2, 1x 4 in. edge grain, $31 ; 1x6 in. edge grain, $29 ; 4 or 6 in. flat grain, $27 , 3, 4 or 6 in. edge and flat grain mixed, $26. Flooring 18 feet long, $1 per M extra. 1¼, 1½ and 2 in. flooring, $1 more than 1 in. per M. We do not keep a stock of No. 3, 1, 1¼, 1½ or 2 in., and therefore we can only fill in such quantities as may come out in running stock to make Nos. 1 and 2. Above in lengths 10, 11, 12, 13, 14, 15 and 16 feet.

CEILING. — No. 1 and 2 1x4 or 6 in. beaded or "V" joint, $27 ; No. 3 1x4 or 6 in., $25. No. 1 and 2 ⅝x4 or 6 in. finished ½ in. thickness, $23 ; No. 3 ⅝x4 or 6 in., $20. Above in lengths 10, 11, 12, 13, 14, 15 and 16 feet. Special patterns at same price in quantities of 2,000 feet or more. Ceiling worked two sides, $2 per M extra. Thickness less than 1 in. charged as 1 in.

WAINSCOTING.— No. 1 and 2 1x4 in, (only) beaded and "V" joint, 3 to 4 ft., $22.

SIDING.—No. 1 and 2 1x6 drop siding, $27 ; No. 3, $26 ; No. 1 and 2 ½x6 in. bevel, $19.50. 4 in. siding, $2 per M less. Above in lengths 10, 11, 12, 13, 14, 15 and 16 ft.. Thickness less than 1 in. charged as 1 in.

DIMENSIONS.—S. 1 S. and E., 2x4, 2x6 in., up to 16 ft., $19.50 ; 2x8, 2x10, 3x4, 3x6 in., up to 16 ft , $20 ; 2x12, 4x4, 4x6, 6x6 in., up to 16 ft., $21.50. Dressed ⅜ in. scant each way. 2x4, 2x6 in., up to 24 ft., $20 ; 2x8, 2x10, 3x4, 3x6 in., up to 24 ft., $21 ; 2x12, 4x4, 4x6, 6x6 in. up to 12x12 in., up to 24 ft., $22 ; 2x14 in. to 3x 14 in. up to 14x14 in., up to 24 ft., $23 ; 2x16 in. to 3x16 in. up to 16x16 in., up to 24 ft., $24.50 ; 2x18 in. to 3x18 in. up to 18x18 in., up to 24 ft., $25 ; 2x20 in. to 3x 20 in. up to 20x20 in., up to 24 ft., $25.50. From 25 to 35 ft. add $1. Dressed ¼ in. scant of size in rough each way. Dressed ⅛ in. scant, $1 per M extra. In the rough, $1 per M extra. From 31 to 35 ft. add $1.50. Above in lengths 36 to 40 ft., add $2 per M ; 41 to 45 ft., $2.50 ; 46 to 50 ft., $3.25 ; 51 to 55 ft., $4.25 ; 56 to 60 ft., $5.50; 61 to 65 ft., $7 ; 66 to 70 ft., $9.

LATH.—⅜x1⅜x4 ft., bundled in 50's, $4.

RED CEDAR.

FINISH.—S. 1 S. or S. 2 S., No. 1 clear, 1x8 to 12 in., 10, 11, 12, 13, 14, 15 and 16 ft. long, $45 ; 1x14 to 18 in., $55 ; 1x20 to 24 in., $68. 1¼ and 1½ in. more than 1 in., $1 per M ; 1¾x2 in., $2 ; 3 in., $3 ; ½x8 in. to 12 in. less than 1 in., $5 ; when widths are specified $2.50 per M extra ; when lengths are specified $2.50.

CLEAR SQUARES.—3x3 in. and 4x4 in., 7 to 16 ft., $47 ; 5x5 in. and 6x6 in., $49 ; 7x7 in. and 8x8 in., $57 ; 10x10 in., $62. When ordered all one of above lengths, $5 per M extra.

SIDING.—No. 1 clear, 1x6 in., 10, 11, 12, 13, 14, 15 and 16 ft., $42 ; 3, 6, 7, 8 and 9 ft., $30 ; ½x6 in., 10 to 16 ft. bevel, bundled, $26 ; 3, 4 to 9 ft., $20. 4 in. siding, $2 per M less. When ordered all one of above lengths, $2.50 per M extra.

CORNER BLOCKS.—4, 5 and 6 in., 3½c., 4c. and 4½c. respectively.

DOORS AND MOULDINGS

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

On November 28th fire broke out in the lumber yard of the Rat Portage Lumber Company at Norman, Ont., one of the largest yards belonging to the company. It soon got beyond control of the fire appliances and 14,000,000 feet of lumber, valued at $175,000, were destroyed. Six boats and several dwellings were also burned. It is reported that the lumber was insured for about two-thirds of its value.

THE BOSTON MARKET.

Spruce lumber at Boston continues in the firm position previously noted. The demand is only fair, but prices are steadily held: Ten and 12-inch dimensions, $21 and $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

The market for hemlock is easy at the recent decline, with a fair demand: Boards, 12, 14 and 16 feet stock, $14.50 to $15.50 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

The situation holds very firm in western pine, the demand being good for the season: Uppers, 1 to 2 in. $82 to $85; 2½ to 3 in. $87 to $88; 4-in. $90; selects, 1 in. $68; 1¼ to 1¾ in. $70; 2-in. $72; 2½ to 3 in. $80; 4 in. $82; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65; 2-in. $67.50; 2½ to 3 in. $72.50; 4-in. $82.50; barn boards, $23 to $33; coffin boards, $28 to $32.

Maple and birch floorings continue in good demand, otherwise the market for hardwood lumber is quiet, Prices are not changed: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $28 to $30; end-dried white maple, $38 to $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles hold firm with a steady demand: Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

Spruce clapboards are firmer, with a very small supply offering: Extra, $42 to $42.50; clear, $40 to $40.50; second clear, $37 to $38; extra No. 1, $30 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 21st November, 1902. The names of the parties may be obtained from the publishers of this journal.

A firm of bedstead makers is open to buy wood frames, of Canadian manufacture, for wire mattresses.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, DECEMBER 10, 1902 No. 45

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contain interviews with prominent members of the trade, an character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subject areespecially valuable to saw mill and planing mill mer and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

FOR SALE.

ALL THE PINE, CEDAR AND TAMARAC timber, over eight inches in diameter two feet from the ground, on one hundred and forty acres, west of Brantford. two miles from Railway Station, and never was lumbered on. Apply E. TODD, 131 Brant St., Brantford, Ont.

WANTED

SMALL CARGO CEDAR POSTS ½-4½ TO 6 inches, balance 6 inches and up, No. 1 strictly. The same to be delivered at Olcott, Niagara Co., N.Y., this month if possible. Also wanted 150,000 feet white basswoods, 1 and 1¼ inch delivered next spring. NEWFANE BASKET MANUFACTURING COMPANY, Newfane, N. Y.

Important Sale

—OF—

VALUABLE TIMBER LIMITS

UNDER INSTRUCTIONS FROM WM. HENDRIE, ESQ., of Hamilton, there will be offered for sale by Public Auction, at the Russell House, Ottawa, on WEDNESDAY, 17th DECEMBER, 1902, at 2 o'clock in the afternoon, the following valuable Timber Berths, under license from the Crown, subject to the regulations of the Crown Lands Department of the Province of Quebec, namely. Upper Ottawa Limits, Nos. 591, 592, 593, 594, 597, 598, 599, 600, 601, 602, 603 and 604, containing in all about 272 square miles. The limits will be sold in one lot.

Terms and conditions to be made known on the day of sale.

For further particulars, apply to

MacCRAKEN, HENDERSON & McDOUGAL,
Central Chambers, Ottawa,
Vendor's Solicitors.

WANTED.

CEDAR POSTS. GIVE PRICE, QUANTITY, freight, &c. J. R. PARK, Amherstburg, Ont.

SAW MILL MACHINERY AND FORTY horse power engine and boiler for sale, cheap; all in good condition. Apply "Saw Mill," CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED

SMALL BASSWOOD LOGS 8 TO 15 INCHES in diameter, 11 feet long. Can take unlimited quantities. Will give price per piece f. o. b. Write first instance, BOX 101, CANADA LUMBERMAN.

WANTED

A STOCK OF PINE LOGS, LONG AND short from two to three million feet. Will take them at any point on Georgian Bay where they can be rafted. Apply to MAITLAND, RIXON & Co., Owen Sound, Ont.

WANTED

500,000 FEET DRY 1½ INCH LOG RUN SOFT Elm, mill culls out, delivered at Erie, Pennsylvania. Address C. G. & H. H. McLAUGHLIN, Columbus, Ohio.

STAVES FOR SALE.

175,000 30" Elm Meal Barrel Staves.
500,000 30" " No. 2 "
300,000 28½" Birch and Maple Cement Staves.
For immediate shipment.

T. H. DeCEW & SONS,
Fenelon Falls, Ont.

FOR SALE

TIMBER LIMIT, 8½ SQUARE MILES, LICENSE No. 204, season 1902-03. in the Township of Calvin, District of Nipissing. Province of Ontario, and Water Power Saw Mill on said limit, situated on the Amable Du Fond River and on the main line of the Canadian Pacific Railway, 1¾ miles east of Eau Claire. Apply to JOHN MacKAY, Renfrew, Ont.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRICULTURAL implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

WANTED

Young, hustling, vigorous English and French speaking Woods Superintendent. Must thoroughly understand economic timber and pulpwood logging and capable of handling workmen to advantage. High-class wages to high-class man. Don't apply if not entirely qualified. Address Box 114, CANADA LUMBERMAN.

BISHOP & MONROE, St. John's, N. F.

CURRENT TRADE CONDITIONS.

ONTARIO.

With navigation closed and the mills shut down, the lumber business is settling down to a winter basis, although there is still considerable activity on account of the large quantity of lumber that must be shipped by rail to fill orders. The demand during the first week of December was unusually large, many inquiries for stock being received from the United States. While the general price list is unchanged, it is quite usual to hear of sales of special stocks at extraordinary prices. A statement has been given out showing that the cut of logs this winter on the Georgian Bay district is likely to be greater than last season. The statement might be regarded as sufficient to cause weakness in lumber prices, but it seems that the demand for Canadian white pine has become too well established to be so affected. There is, also, the uncertainty that weather and labor conditions may restrict the estimated cut. The prevailing weather, however, is about what is desired and operations in the woods are progressing satisfactorily. Operators who are taking out logs for sale report a large number of prospective buyers.

Toronto dealers are now doing a fair trade in both pine and hardwoods, but are compelled to refuse orders for certain classes of the latter on account of the scarcity of stock. Shingles are moving freely for this season of the year, white cedars being particularly active and in good demand for the Ameriean trade.

Tenders have just been taken for the annual supply of pine and hemlock lumber for the City of Toronto, and the result will probably be known this week.

QUEBEC AND NEW BRUNSWICK.

The figures of lumber shipments from the port of Montreal for the past season have been published and show an increase of 13,000,000 feet over last year. In addition to the shipments from Montreal there were exported to Great Britain by way of Boston over 25,000,000 feet of Canadian pine and spruce. The total shipments are larger than was generally anticipated and must leave very light stocks on this side. Manufacturers in the Maritime Provinces are asking very high prices for their next season's production of spruce deals. It is said that offers of $13.50 per thousand feet delivered on wharf have been refused, the manufacturers holding out for $14. They contend that this figure does not represent more than a fair margin of profit, as the cost of logging and manufacturing promises to be excessively high. In view of the uncertainty as to the prices which will rule in Great Britain next year, buyers are not disposed to contract heavily at the prevailing market price. Very few operators in New Brunswick are taking out birch this winter owing to the difficulty of handling the stock at a profit.

UNITED STATES.

Our price list this week shows a few changes in quotations. At Albany No. 3 cuts have been marked down to $25 to $30, while 2-inch shaky clear stock has been advanced to $45. In the Bay City and Saginaw markets 10-inch No. 1 barn boards have been reduced $1 to $24, 7 and 8-inch to $23, 10-inch No. 3 to $19, 9-inch to $18.50, and 4-inch to $16.50. Inch box lumber, 13 inches and up wide, has been reduced to $17, and 1¼, 1½ and 2-inch, 7-inches and up wide, to $18. These reductions do not indicate a weak market, but rather a re-arrangement of prices to conform with the winter stock held at the particular points. From Buffalo, for instance, comes the report that box lumber is so scarce that it must soon be advanced and that such action is likely to be followed by higher prices for barn boards and such grades. The movement of lumber throughout the Eastern States is entirely satisfactory. Export trade has been quite active and sales to retail dealers have been in excess of that of several previous weeks. Buying by wholesale dealers is pretty well at a standstill. In some quarters the opinion is advanced that prices of pine may shrink a little during the holiday season and that there will then be opportunities for picking up stock to advantage. Soon after the turn of the

year, however, there will doubtless be active buying for next season's trade. The condition of the hardwood market is reported to be greatly in favor of the seller. If the dealer has the lumber he can get almost any price he may ask. Dealers at Buffalo and Tonawanda are very short of basswood and thick maple.

Lath prices are firmer. At Albany both pine and spruce lath are quoted 15 cents higher at $3.40. Shingle prices are firm and expect to remain so throughout the winter.

GREAT BRITAIN.

While the British timber market is firm, it cannot be said that importers are showing much disposition to contract for next season's supply. In some quarters the prediction is made that there will be a further advance in the price of Canadian lumber; other members of the trade are equally certain that lower prices will be witnessed. The stock at the leading ports is sufficient for the requirements of the winter, and if the consumption should decline there would probably be some pressure to sell before the opening of navigation next year. Importers regard the prices asked by some shippers as excessive. This may result in postponing the placing of contracts until later than usual in order to determine to what extent present asking prices shall form the basis for first-open-water transact ons. Spruce and pine in the better grades are decidedly firm, while the poorer qualities are scarcely steady. Two sales of St. John spruce, to go forward by the "Head" line of steamers to Dublin, Ireland, have been made at £8 10s c.i.f., including one-third 7-inch. Square and waney pine timber is firm. The stock of square pine at West Hartlepool is low.

STOCKS AND PRICES.

In the New York market spruce lath is extremely scarce and is quoted at $3.50.

John McIver, of Cape Croker, Ont., purposes taking out 100,000 feet of maple logs this winter.

Montgomery Bros., of Buffalo, report a winter stock of about 15,000,000 feet, of which 1,000,000 feet is hardwood.

The Rathbun Company, of Deseronto, Ont., have five shanties operating on the line of the Central Ontario Railway.

Haines & Company, of Buffalo, have a cargo of pine en route from Little Current, Ont., to their yards. The freight rate on this cargo was $2.25.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., are this winter operating five camps on the Onaping river and one on the Vermillion river.

A.R. Mann is taking out 500,000 ties at Blais Pass, east of Fort Frances, Ont., for the Canadian Northern Railway. George Strevel, of Winnipeg, has a camp near Atikokan and will take out 300,000 ties.

D.E. Sprague, of Winnipeg, is this winter operating in the Lake of the Woods district. He will take out about 7,000,000 feet of logs, which will be transported to Winnipeg over the Canadian Northern Railway.

At a recent auction sale held by Churchill & Sim, London, England, a quantity of birch from Miramichi, N. B., sold at 8½d per cubic foot. Ten pieces of rock elm timber, 39-46 feet in length and 10½x12 inches in diameter, from Quebec, brought 95 shillings per load of 50 cubic feet.

From May 13th to September 14th of this year the Charlton Saw Mill Company, of Collingwood, Ont., manufactured 22,000,000 feet of lumber, 10,000,000 lath, 400,000 feet of tub bottoms, 50,000 feet of pail bottoms, and 150,000 setts of barrel heads.

Fire on November 29th in the yard of Smith, Fassett & Company, North Tonawanda, N. Y., destroyed nearly 300,000 feet of the better grades of white pine. The loss is estimated at $14,000 and is fully covered by insurance.

About nine million feet of logs will be taken out this winter in the vicinty of St. Martin's, N.B. The largest operators are: The O'Neill Lumber Company, 3,500,000 feet; Fulmer & Co., 3,000,000 feet; J. P. Mosher & Co. and J. McDonogh, about 1,000,000 feet each.

The Great Northern Lumber Company, Limited, who own saw mills at Conception and Mount Tremblant, Que., intend cutting about 4,500,000 feet of lumber at their Mount Tremblant mill during the coming season. The managing director of this company is Solomon Cole.

The Nepigon Railway Company are prepared to let contracts for supply of 30,000 cedar and tamarac railway ties, half of which is to be delivered before the 1st of March, 1903, also for 1,000 feet of logs, pine, spruce, tamarac and cedar, delivered east end of Lake Jessie by May 15th. Particulars may be obtained from A. McComber, Port Arthur, Ont.

During the past season F. E. Neale, of Chatham, N.B., representing Frank Harrison & Company, of Liverpool, England, made the following shipments of lumber: From Miramichi, 41,190,385 superficial feet; from Campbellton, 14,955,127 feet; from Jacquet River, 1,214,812 feet; making a total of 57,360,324 feet, or 28,970 St. Petersburg standards. Mr. Neale's total shipments from Miramichi for the last four years have been 125,000,000 feet.

The British Columbia shingle manufacturers have officially announced an advance of 10 cents in the price of shingles, to take effect April 1st. The demand for shingles is so great that in spite of new mills having gone up the supply is insufficient for the market. Thus the advance in price. It is expected that there will be heavy orders for goods to be delivered before the first of April. The prices of shingles, f. o. b. on cars, are as follows: XXX 6 to 2 inches, 160 lbs., $1.85; XXXX 6 to 2 3-16 inches, 170 lbs. $2.00, 5 x 5 to 2 inches, 180 lbs., $2.25; 2x 6 to 2 inches, 160 lbs., $1.35. For plain dimension shingles 50 cents is added to the above price, and for fancy butts $1 per thousand is added to the above price.

A Cardiff correspondent of Timber, of Liverpool, Eng., says: "The most important arrival this week has been that of the "Prince Louis" with a valuable cargo of British Columbian pine timber. The whole of her cargo is for Messrs. Robinson, David & Co., Ltd., who are the sole importers of British Columbian pine in the Bristol Channel. The firm received an experimental cargo of this wood last year, and they have had no reason to regret their enterprise, the whole of the wood having been practically cleared out at satisfactory prices. The specification per the "Prince Louis" is exceptionally fine, and embraces 288 sawn logs and 6,012 sawn planks, or altogether 1,567 loads. The logs range from 40ft. to 105ft. in length, and vary from 12in. to 24in. square, whilst the planks are from 11in. to 28in. in width, and up to 40ft. in length. The timber is clean sawn parallel throughout, and as it is not only free from sap, but a good deal of it does not contain a single knot, it is especially suitable for high-class work in which beams of exceptional length and size are required. It is also well adapted for deck planking, ship masts, spars, etc.

THE GLA GOW MARKET.

From the monthly report of Allison, Cousland & Co. we extract the following particulars regarding the Glasgow market:

Business during the past month has continued to be satisfactory. Imports, especially of white pine deals, have been very moderate. Yarded stocks have been largely drawn on, and stocks in public yards will probably be light by the end of the year. Prices all round have been very firm, with a gradual but steady advance. It must not, however, be overlooked that the general outlook is not overpromising. The shipbuilding and other allied timber consuming industries are now feeling the want of new orders. Merchants and saw millers hold fairly heavy stocks, and they complain that there is considerable difficulty in obtaining an adequate advance necessary for consumers.

WHITE PINE.—The stock of 1st class wood now in the market is very limited and prices are high. 2nd class wood is held firm at 2s. 6d. to 2s. 9d. per c. ft. Square.—Business is quiet. Prices remain unchanged.

RED PINE.—Stocks are light with a moderate consumption.

ELM.—There has been less inquiry. Prices for 1st class wood are easier. Holders seem more inclined to reduce stocks. Grey and soft are as unsaleable as ever.

OAK.—The demand keeps steady and prices are practically at last month's figures.

BIRCH.—The stock is small and prices are inclined to harden.

ASH.—Inquiries are few and the stock on hand is likely to meet all demands for some time to come. Prices keep low.

PINE.—Firsts—Stocks of all sizes are scarcer, and are practically all in merchants' hands. Parcels arriving are readily disposed of at good figures. Seconds—Have not advanced much in price; good broad deals are wanted, but undersized are less asked for. Quotations—Regular and Broad, £19 5s. to £22; Undersized, £13 15s. to £15 16s. 3d. per St. Petersburg standard. Thirds—Are in fair request. Prices are somewhat firmer. Quotations—Regulars, £12 14s. 4d. to £13 15s. Undersized, £10 6s. 3d. to £11 per standard. Fourths—The stock must now be very light, and although prices are firm there is but a very moderate inquiry. Quotations—Regulars, £9 19s. 4d. to £11. Undersized, about £8 18s. 9d. per standard.

RED PINE.—The import has not been large and prices are firmer for all sizes.

SPRUCE.—Prices are well maintained at £7 4s. 4d. to £9 12s. 6d. per standard.

N. B. BIRCH.—The stock of logs is small. Planks are not heavy in stock, but there is no great demand and prices are if anything easier. Quotations—£7 4s. 4d. to £7 18s. 1d. per standard.

DEALS, BATTENS AND BOARDS.—Business is but moderate and prices are little changed.

SPRUCE.—A large and steady business has been done and prices are firm. 2nd quality average is quoted at £7 4s. 4d. to £9 12s. 6d. per standard.

TIMBER LIMIT TRANSFERS.

Brown & Howie, of Vancouver, B. C., have just disposed of six square miles of leasehold timber limits, situated on the Upper Squamish river in British Columbia, to H. McDougall, of Seattle, representing certain American lumbermen. The limits contain a quantity of pine, cedar and fir, estimated at 62,000,000 feet. The consideration is reported to be in the neighborhood of $6,000.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THE DOOR TRADE.

In the Timber Trades Journal of November 29th we find the following reference to the British door trade :

We hear that a cablegram has been received from the Rathbun Company instructing their agents on this side to immediately withdraw all quotations for doors. Of late the demand for imported pine doors has been very brisk, and all the mills are months behind with orders. This, and the scarcity in the United States of pine in clear and other grades, has no doubt induced the Rathbun Company to stop selling for the present, although we imagine that this is merely preparatory to the issue of an advanced list. While readily admitting its merits, we hold no brief for the imported door, and, indeed, with the generality of the trade, would prefer that our joinery was made by British labour in this country. Of course, with the 6 ft. 6 in. x 2 ft. 6 in. x 1½ in. four panelled, squared-framed door in the neighborhood of 5s c.i.f., English manufacturers of steam made joinery have better chances of successful competition ; but we have much to learn from the up-to-date methods of organization which prevail in the door factories of Canada and the United States. Our correspondent "Snicker," in last week's issue confirms our statement that Swedish doors had been sold at a discount of 55 per cent., but regards this rate as being due to financial exigencies, and that 47½ per cent. would be the current discount, while next year this will probably be reduced to 45 per cent. With generally higher prices for doors, both pine and Swedish, it is obvious that English manufacturers have a better chance of recapturing this trade.

ONTARIO LOG PRODUCTION.

Reports have been received at the Crown Lands Department, Toronto, showing the estimated production of pine saw logs and square timber in Northwestern Ontario this winter. The quantities given for the respective agencies are as follows, in feet board measure :—Sudbury, 121,000,000 ; Parry Sound, 171,000,000 ; Biscotasing, 40,000,000 ; Whitney, 50,500,000; Webbwood, 150,000,000; Sault Ste. Marie, 130,000,000 ; Port Arthur, 13,000,000 ; Arnprior, 40,000,000 ; Pembroke, 100,000,000 ; Peterborough, 44,000,000 ; Rat Portage, 25,000,000. Total, 884,500,000.

In addition there will be a large number of railway ties, probably 1,500,000, as well as quantities of telegraph poles and fence posts, hardwood, hemlock, etc.

The quantity of pine cut in the same districts during the winter of 1900-01 was 658,000,000 feet, and during the winter of 1901-02 850,000,000 feet. It is apparent from the reports of the timber agents that the chief difficulty the lumbering firms are experiencing is scarcity of labor. Men are hard to get and wages are high. Provisions and other supplies are also dear, and the expenses of operating correspondingly greater. These conditions may prevent lumbermen from getting out the estimated quantity.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

There is a quiet demand at Boston for spruce lumber, but the supply is lighter and prices hold very firm : Ten and 12-inch dimensions, $21 and $22 ; 9-inch and under, $19 to $20 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $14 ; bundle furring, $17.

Hemlock is easy in price, with only a quiet demand : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18 to $19 ; No. 2, $15 to $16.

Western pine remains firm, with prices unchanged and a fair demand : Uppers, 1 to 2 in. $82 to $85 ; 2½ to 3 in. $87 to $38 ; 4-in. $90 ; selects, 1 in. $68 ; 1¼ to 1¾ in. $70 ; 2-in. $72 ; 2½ to 3 in. $80 ; 4 in. $82 ; fine common, 1-in. $62 to $63 ; 1¼ to 1½ in. $65 ; 2-in. $67.50 ; 2½ to 3 in. $72.50 ; 4-in. $82.50 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber is steady : Quartered oak, $63 to $75 ; plain oak, $42 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $45 to $47 ; sap and common, $30 to $35 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $28 to $30; end-dried white maple, $38 to $42 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are still firm, with the demand steady : Extra cedar, $3.50 to $3.55; clear, $3 ; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2¼ inches, $4.50.

Spruce clapboards are in small supply and prices hold very firm : Extra, $42 to $42.50 ; clear, $40 to $40.50 ; second clear, $37 to $38 ; extra No. 1, $30 to $32.

Laths are firm and unchanged : One and five-eighths inch, $3.40 to $3.45 ; 1½ inch, $3.25 to $3.30.

SHIPPING MATTERS.

Deal freights from St. John, N. B., to Great Britain by the winter liners are quoted at 35s 9d.

The ship Creedmore has been chartered to load lumber at Ship Island, N. S., for Montevideo at $10.

Two steamers, capable of carrying about 1,200 standards of deals, are reported to have been chartered to load in the Bay of Fundy for the United Kingdom in May or June next, at 35 shillings.

The ship Brabloch has just been chartered to load lumber at Chemainus, B.C., for Calcutta. Several large sailing vessels have been chartered by the Victoria Lumber Company, of Chemainus, for loading during the early part of next year.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

TWO GOOD TIMBER BERTHS IN ALGOMA. Area 36 sq. miles each. License covers all timber. THE NIPISSING LUMBER CO., LIMITED, Hamilton, Ont.

DESIRABLE FACTORY PROPERTIES FOR SALE

DESIRABLE FACTORY PROPERTIES ARE offered for sale in the thriving towns of Parry Sound and Wiarton, Ontario. Both are situated in excellent timber districts on Georgian Bay, with abundance of hardwood and softwood timber within easy reach.

The factory in Parry Sound is a first-class frame building, nearly new, on stone foundation and stone abutments, two storeys, 120×50 feet, with stone engine and boiler house 28×32 feet, containing a Wheelock engine of latest design, cylinder 11×28 inches, and suitable boiler built in and all ready for running, in use only four years and in perfect condition. Also an excellent steamboat wharf with twelve feet of water. With the factory are three acres of land on a public street with electric light and privileges of using town water, good fire protection.

The factory at Wiarton is also a frame building of two storeys, 50×26 feet, detached boiler house, on shores of Colpoy's Bay, with about three acres of land in the town of Wiarton. Full particulars furnished on application. Correspondence solicited. Apply to

KER & HARCOURT,
Parry Sound, Ont.

Rails and Cars for Sale

TEN MILES 30 LB. STEEL RAILS IN GOOD order for relaying; Three Locomotives and Fifty Logging Cars, immediate shipment. For particulars apply to JOHN J GARTSHORE, 83 Front Street West, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Despite the nearness of the close of the year there continues to be a steady movement of lumber by rail. The demand from industrial establishments keeps up remarkably well and indicates that the stocks held by consumers are not large. Present prices of white pine offer little incentive to buyers to place orders for future delivery, yet some orders of this character are being booked by Toronto dealers. Both the pessimist and the optimist are to be found in the trade. The former bases his convictions on the reported large crop of pine logs and the belief that the crest of the present era of prosperity has almost been reached. The optimist, on the other hand, points out that wages are so exceedingly high and labor so scarce that the cut of logs is likely to be restricted thereby, and that nothing short of a general business depression, which is not likely to reveal itself, could restrain prices from maintaining their present level. The balance of opinion favors the hopeful view and a satisfactory trade for 1903.

Whatever may be said of pine, it is generally admitted that higher prices for hardwoods are likely to rule next year, as the advance that has taken place has not been proportionate with the appreciation in the value of lumber of the coniferous variety. Inquiries for basswood, oak and birch are quite numerous. Shingles have recently fluctuated somewhat in price, but the bulk of the sales of XXX white pine have been made around $3.25 wholesale in Toronto. Dealers complain of the difficulty in securing a regular supply o white pine shingles owing to the smaller quantity now manufactured.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber has fallen off somewhat sharply, due in large measure to severe weather. The building requirement for the year, however, is largely supplied, and a continuance of quiet conditions may be expected for the next few weeks.

Manufacturers of British Columbia shingles have decided to discontinue night shifts in all mills and in addition to curtail the daily output by twenty-five per cent. By this means the shingle production of the province will be curtailed by fully sixty per cent. This has been found necessary on account of the present scarcity of logs and high price of timber. It is said that manufacturers have been turning over their output at little or no profit.

GREAT BRITAIN.

Reports from the British market emphasize the prevailing disposition to postpone the closing of contracts for lumber until a universal basis of prices has been fixed. Neglect to do this in the past has resulted disastrously. Importers regard the prices asked by shippers as excessive, especially in regard to Baltic timber. No business of importance has yet been concluded with the North of Europe exporters, although usually half the first-open-water stocks of the following year have been placed by December. Contracting for Canadian lumber has been on a smaller scale than usual, although there seems to be less opposition to the prices asked by shippers. This is probably due to the lighter stocks of Canadian pine and spruce that are held at one or two of the leading importing centres. In the Surrey Commercial Docks at London the stock of pine deals on November 30th this year was 596,757 pieces, as compared with 695,520 pieces one year ago. The corresponding figures for spruce were 557,003 and 752,750 pieces. Battens and ends also show a decrease. There has been good buying at recent auction sales, for the reason that it is possible to purchase stock at a lower cost than orders can be placed for delivery next spring. It is pointed out that current prices leave the importer but a very small margin of profit. Second quality Quebec spruce, 3 x 9, is being sold liberally at £10 5s. per standard. Indications point to lower prices for pit props. There is a continued enquiry for oak logs of large size, also for wagon planks.

UNITED STATES.

More interest is now centred in white pine dimension than in any other class of lumber. A short time ago the Mississippi Valley Lumbermen's Association declined to advance the price of dimension, on the ground that the conditions creating a scarcity were of an exceptional character and likely to be remedied in the near future. Nevertheless, individual firms are advancing their quotations. During the past season less dimension timber was manufactured than usual, for the reason that greater returns could be obtained by sawing the logs into inch lumber. Out of this unnatural ratio in prices grew the present shortage in dimension stock. In other respects the market is quiet and featureless. Upper grades are in good demand, while on the lower grades a concession of fifty cents per thousand is being offered by a few manufacturers who are anxious to realize. There has been very little buying of next year's stock and present appearances indicate that it will not start until after the turn of the year. A volume of business almost equalling that of the past season is generally predicted, and it is thought that prices of white pine will rule near the present basis. Hardwood prices, however, are expected to advance, as the stock at the mills is about 500,000,000 feet less than last year. Dealers are refusing orders for future delivery excepting on condition that the price then ruling is to be paid. There continues to be a strong demand for and marked scarcity of basswood. Efforts have been made to further advance the price of hemlock, but cutting of prices by some of the smaller concerns has discouraged this movement. The base price in New York city is $16.50.

STOCKS AND PRICES.

XXXX white pine shingles are selling in the North Tonawanda market at $3.75.

J. L. Black & Sons, of Sackville, N. B., expect to cut 4,000,000 feet of logs this winter.

The Hanbury Manufacturing Company, of Brandon, Man., are reported to have purchased timber limits in British Columbia.

Mershon, Schuette, Parker & Company have sold to Ontario parties all the lumber they had left on the mill docks at Midand, Ont., about 2,500,000 feet.

Watson & Todd, of Montreal, are reported to have secured the 1903 cut of McLachlin Bros.' mill at Arnprior. It will aggregate fully 40,000,000 feet, including white and red pine.

About eight hundred men are engaged this winter in the woods in the Port Arthur district, taking out saw logs, piles and ties. The North Shore Timber Company are not operating this season.

In Chicago prices of hemlock by carload are steady at $13.50 to $14,and sales from the yards are being made at $15 to $15.50 for ordinary lengths. In dimensions 2x12 and upwards the price at the yards ranges from $17 to $18.

The contract for scantling and curbing required by the City of Toronto during 1903 has been awarded to Reid & Company, of Esplanade street, as follows: 4x4 pine, $17.39 per thousand; 4x10 pine, $18.39; 4x4 cedar, $15.39.

Davidson & Thackray, of Ottawa, last week received a cablegram that the steamer Tartar Prince, en route from New York to Cape Town, had been burned at sea. This firm had on board the vessel a stock of doors, sash and flooring for South Africa, and are heavy losers through the fire.

During the past season there were received in the Saginaw river by water 60,247,059 feet of lumber, as compared with 100,000,0000 feet last year. Considerably over 100,000,000 feet of this stock came from Ontario. Two rafts of logs, aggregating 6,000,000 feet, were received from Canada, the timber being cut on deeded lands.

According to the National Coopers' Journal, prices of cooperage stock are likely to advance in the near future. Staves are firmer with a rising tendency, and it is predicted that No 1 staves will seek a higher level permanently before very long. Hoops are high in price and not likely to go back to former figures. Heading does not look so encouraging, but manufacturers are likely to take some action to secure a larger margin of profit. The corn crop of the United States is an important factor in bringing about and extending these conditions.

Messrs. S. P. Musson, Son & Company, under date of Movember 22nd, say that there have been no arrivals of either white pine or spruce within the fortnight, with the exception of 30,000 feet from the La-Have river, which was sold at $26.15 for shipping, and $21.65 for seconds. Both pine and spruce are wanted. Last sales of shingles have been made at $4.89 to $5.04 for Gaspe long cedar, $1.82 for cedar laying, and $1.65 to $1.70 for spruce laying.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The representative of the CANADA LUMBERMAN to-day discussed prices with several local dealers. A careful scrutiny of the latest quotations in the market page showed but one change, that on pine 8 up s. c. sidings quoted at $15 to $17 per M. Latest figures are $16 to $19, with few, if any, selling.

Lumber manufacturers are at present engaged stocking up, and aside from the fact that standing stock is not to be had, it is difficult to get a promise on future cut. The manufacturers are endeavoring to ascertain "where they are at,"and until they locate their bearings they will not hastily discuss contracts for future cuts. While some have already made contracts for next summer's cutting, they are quoting fancy prices simply to stand off would-be purchasers. Reliable reports show that a considerable quantity of the future cut was again secured by English buyers at standing prices. The demand coming from the Americans has and will continue to have a tendency to keep prices in Ottawa and district buoyant. Said one dealer, "As long as the Americans come over and purchase stock at the "must have it at any cost" figures, the market will be unhealthy. Lumber is bringing more than it is really worth on this side, but we must rest content to be governed in this matter from across the line. Until manufacturing conditions change and it is found inexpedient to pay the ruling high price for Ottawa lumber, the local supply will command its own price."

Inquiries in other quarters went to show that high grade lumber is not to be had and ordinary stuff continues firm. Lath and shingles are scarce.

The most significant feature of the rather dull market, however, seems to be contained in the fact that English buyers have renewed orders for next summer's cut at prices as high as reigned a year back.

The arrival of winter will give an impetus to the movement of supplies to the limits and assist the jobbers in getting their stocks of pulp wood to the stations. The fact that snow held off several weeks later this year than last, seriously inconvenienced the movement of supplies to the distant limits. The lakes and rivers have all "taken" since the recent cold snap and the lumbermen are happy.

W.H. McAuliffe has again secured the cut of spruce at the St. Anthony Lumber Company's mill at Whitney. He thus controls all the cut of spruce of 1903.

The Upper Ottawa Improvement Company, at its annual meeting held last week,decided to build a fleet of five boats, two large steel tugs, two alligator tugs, and one small tug, a propeller. These boats will be placed in commission on lake Temiscamingue and the Upper Ottawa. With them the towing business hitnerto carried on by Mr. Alexander Lumsden, ex-M.P.P., will be continued. This move will give the company entire control of the business on the Ottawa river. Debentures for $120,000 will be issued to meet the cost of the extension of operations. The company elected the following officers: President, Hiram Robinson; secretary, G. B. Greene; directors, J. R. Booth, Hiram Robinson, Alex. Fraser, C. Berkeley Powell and F.P. Bronson.

OTTAWA, December 15, 1902.

LUMBERING OPERATIONS AROUND LITTLE CURRENT.

[FROM AN OCCASIONAL CORRESPONDENT.]

Messrs. J. & T. Conlon closed down their mill at Litt'e Current about the 20th November, having cut out all their stock. This firm installed a band saw as auxiliary to their gang in the large mill and have also added an electric light plant. Their capacity for next season will be in the neighborhood of 20 million feet.

The W. & A. McArthur Company, Limited, closed their mill down about the 1st of November, having cut out their stock. They had a very successful season, cutting about 22 million feet by running day and night continuously from the 1st of May throughout the summer season without any hitch. They have 300 men in their camps at Beaverstone. At present they have four camps on their limit at Beaverstone, and expect to get out about 18 million of logs. They have also just closed a deal with Messrs. Sims Bros. for about 8 million feet more of high class logs, which they expect to get early in May. This will give them ample stock for their mill for the ensuing season.

The Anderson mill is now rented to Mr. C. Stewart, late of Honora, a practical mill man, who is open for contracts to saw. Messrs. Smith & Henderson will in all probability have their stock cut by Mr. Stewart.

Messrs. Sims Bros. have about 85,000 pieces on skids now and will get in over 100,000 logs. They have two camps and about 150 men employed.

Messrs. Smith & Henderson will probably get out one million feet of white pine, Norway and hemlock with one camp and 35 men.

Messrs. J. & T. Charlton are operating on McGregor Bay with one camp and 30 men, taking out cedar ties, posts and telegraph poles. This company also have a camp and about 60 men taking out pine logs north of Killarney. They will probably get out 3 million feet there for their Collingwood mill.

The McArthur Company have about 8 million feet on their dock, and J. & T. Conlon have about 2½ million of lumber to be shipped first thing in the spring.

DOORS AND MOULDINGS

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

Correspondence Solicited

THE LONDON MARKET.

The pine deal market in London was very firm during November, and for special sizes and qualities rates have been obtainable which, if they are to become normal, must tend to check the consumption of the article in the long run. Messrs. Churchill & Sim say that for spruce deals this market has also been quite steady, but the demand has not been very free and there is no further rise. Oak timber and birch planks have been in fair demand; the market for birch timber being adversely affected by the increasing supplies of the latter. For elm and ash timber there is no change to record. White pine timber has suffered in price whenever more than retail sales have been attempted.

From the St. Lawrence the import has been as follows:

	1902	1901
Pine deals	1,338,000 pcs.	1,811,000 pcs.
Spruce deals	2,704,000 "	3,743,000 "
Birch planks	112,000 "	97,000 "

From New Brunswick:

	1902	1901
Pine deals	357,000 pcs.	216,000 pcs.
Spruce deals	619,000 "	502,000 "
Birch planks	122,000 "	194,000 "

Current prices are as follows: St. Lawrence pine deals, 1st, bright and dry, regular sizes, £22 to £29 5s. per standard; oddments, £15 to £22 5s. 2nd bright and dry, regular sizes, £18 10s. to £23 5s; oddments, £13 10s. to £16 5s. 3rd, bright and dry, regular sizes, £11 10s. to £14 5s; oddments, £8 10s. to £11. 4th bright and dry, regular sizes, £10 5s. to £11 10s; oddments, £8 5s. to £9 10s. St. Lawrence spruce deals, 1st, regular sizes, £13 to £15 per standard; 2nd, regular sizes, £10 to £10 10s; 3rd, regular sizes, £9 15s. to £10; 4th, regular sizes, £9 to £9 10s; battens, £7 to £8 5s. New Brunswick spruce deals, £9 to £10 per standard; oddments, battens and fourths, £7 5s. to £9.

Quebec white pine timber, 82s. 6d. to 120s. per load of 50 cubic feet; oak, 85s. to 150s.; elm 120s. to 165s.; ash, 97s. 6d. to 155s.; birch, 120s. to 195s.

New Brunswick birch, 100s. to 160s. per load.

Canadian Northern Railway

The building of this line has attracted thousands of settlers to the West, and for the purpose of enabling Westerners to come home for Christmas, the Canadian Northern Railway has put in effect a round trip rate of $40.00, good for three months, from Winnipeg and other Manitoba points, to stations in Ontario and Quebec West of Montreal via St. Paul and Chicago. The popular route between the East and the West. With the closing of Lake season all shipments for Canadian Northern Railway stations west of Winnipeg must be routed all rail via Chicago. Through rates will be given on application to any agent of Grand Trunk or Michigan Central Railways or to the undersigned. Folder or Pocket Map of the Canadian Northern Railway will be sent upon application to

THE BOSTON MARKET.

While the demand at Boston for spruce lumber is quiet, the supply is very small and prices hold firm in consequence : Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards $18 to $20 ; out spruce boards, $14 ; bundle furring, $17.

Hemlock is quiet at steady prices : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18 to $19 ; No. 2, $15 to $16.

For western pine there is a fair demand, with a moderate supply and firm prices : Uppers, 1 to 2 in. $82 to $85 ; 2½ to 3 in. $87 to $88; 4-in. $90 ; selects, 1 in. $68 ; 1¼ to 1¾ in. $70 ; 2-in. $72 ; 2½ to 3 in. $80 ; 4 in. $82 ; fine common, 1-in. $62 to $63; 1¼ to 1½ in. $65 ; 2-in. $67.50 ; 2½ to 3 in. $72.50 ; 4-in. $82.50 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

There is a firm market for hardwood lumber, with maple and quartered oak especially active : Quartered oak, $63 to $75 ; plain oak, $42 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $45 to $47 ; sap and common, $30 to $35 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $28 to $30; end-dried white maple, $38 to $42 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are firm, with a steady request : Extra cedar, $3.50 to $3.55; clear, $3 ; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2¼ inches, $4.50.

Spruce clapboards are in small supply and prices hold very firm : Extra, $42 to $42.50 ; clear, $40 to $40.50 ; second clear, $37.50 to $38; extra No. 1, $30 to $32.

Laths are firm and unchanged : One and five-eighths inch, $3.40 to $3.45 ; 1½ inch, $3.25 to $3.30.

TRADE OPENINGS.

The following were among the enquiries relating to Canadian trade received at the Cnnadian Government Office in London during the week ending 50th December, 1902. The names of the parties may be obtained from the publishers of this journal.

Particulars are required of Canadian firms in a position to export hickory pick and handle handles ; ash, pine, spruce and basswood broom handles ; ash hay-fork and rake handles; shovel stems and D handles ; lawn mowers and hay forks.

DESIRABLE FACTORY PROPERTIES FOR SALE

DESIRABLE FACTORY PROPERTIES ARE offered for sale in the thriving towns of Parry Sound and Wiarton, Ontario. Both are situated in excellent timber districts on Georgian Bay, with abundance of hardwood and softwood timber within easy reach.

The factory in Parry Sound is a first-class frame building, nearly new, on stone foundation and stone abutments, two storeys, 120×50 feet, with stone engine and boiler house 28×32 feet, containing a Wheelock engine of latest design, cylinder 11×28 inches, and suitable boiler built in and all ready for running, in use only four years and in perfect condition. Also an excellent steamboat wharf with twelve feet of water. With the factory are three acres of land on a public street with electric light and privileges of using town water, good fire protection.

The factory at Wiarton is also a frame building of two storeys, 50×26 feet, detached boiler house, on shores of Colpoy's Bay, with about three acres of land in the town of Wiarton. Full particulars furnished on application. Correspondence solicited. Apply to

KER & HARCOURT,
Parry Sound, Ont.

WANTED.

WANTED.

A COMPLETE LINE OF PLANING MILL Machinery. Shafting, Hangers, Belting, etc. We would be pleased to hear from persons having Woodwork Machinery for sale. Apply Drawer 12, Hamilton.

CURRENT TRADE CONDITIONS.

ONTARIO.

As the year draws to a close and active business is cast aside for the purpose of taking the annual inventory, it is not possible to point to a weak spot in the lumber market. Prices have maintained a surprising degree of strength throughout the fall months, and as the winter goes by there seems little prospect of lower prices. Reports from the Ottawa Valley tell of active buying of the 1903 cuts for the British market. It is predicted that within three weeks the entire production of th ttawa Valley for that market will have been contracted for. Notwithstanding recent statements to the effect that prices were on a parity with those of last year, some of the largest manufacturers state that they have placed their stock at prices fully ten per cent. higher than ruled one year ago. In the Georgian Bay district buying has not yet become active, as dealers are reluctant to pay the high prices asked by manufacturers. This applies particularly to mill run; when a manufacturer is willing to dispose of the upper grades at reasonable figures he has no difficulty in finding a buyer. Of the past season's production good lumber has been scarce for some time, and recent buying of mill culls has greatly reduced the quantity of that grade in the hands of manufacturers. Red pine deals have strengthened and promise to command a better price next season. The car shortage is still of a serious nature. One manufacturer reports that he has 3,000,000 feet of lumber waiting shipment.

The hardwood situation is favorable to the holder of stock. The comparatively small advance that has taken place in the price of hardwood lumber and the high cost of labor and supplies has discouraged logging operators this winter, and consequently a very light stock will be taken out in some districts and not a large stock in any district. It is hoped that by restricting the log production it will be possible to advance the price of hardwood lumber to a higher basis.

MANITOBA AND BRITISH COLUMBIA.

The advances that have been made in the prices of British Columbia lumber and shingles for local consumption and for shipment eastward is likely to be followed by higher quotations on export lumber. It is proposed to issue a new classification and schedule which will mean an average advance of about $3 per thousand. This step has been rendered imperative by the high price of logs and the prospect that still higher prices will prevail. At the present time the ruling price on the coast for logs is from $7.50 to $8 per thousand, and it is expected that this will be increased by at least one dollar at the beginning of the new year. The fact that many manufacturers have their storage room filled up as the result of inability to secure cars to make shipments is given as a further reason in favor of curtailing the production of lumber and shingles. In point of demand the trade is in a very satisfactory position, and inquiries for spring delivery have been numerous of late.

UNITED STATES.

In some sections of the United States there have been heavy snow-storms within the past week, causing a temporary check to the demand for lumber. The incidents of the week, however, have been favorable to the market and have produced a feeling of hopefulness in a continuance of the prevailing prosperous conditions. Throughout Minnesota there is a decided scarcity of white pine dimension and a strong move has been taken by wholesalers to further advance the price. This has met with some opposition owing to the fear of hemlock competition. Individual firms are ignoring the association price list and are making an advance of fifty cents. No. 4 boards and strips are also scarce and in a position to be advanced in price. Norway is another lumber that meets with quick sale and for which an enlarged demand is anticipated in the spring. At Ashland, Wis., one of the largest holders of Norway has advanced the price fifty cents per thousand. Hemlock is firm, contracts being placed at $10 for delivery next season, on a stumpage basis of $2. Dealers in the Buffalo and Tonawanda markets report a fair local demand and considerable ship-

nents to the east. There has been an excessive demand for 12-inch box lumber, especially for export. This grade is quoted at $20 in Tonawanda, the highest price ever paid for it in that market. Hardwoods are firm, with a small supply. Ash is seasonably active, although orders are usually for small lots. The shingle market is somewhat stronger, the recent weakness having passed away. Lath is more plentiful. No. 1 pine sells in the Buffalo market at $3.75 to $4, and No. 2 at 50 cents less. There is considerable demand for cheap lath, but it is hard to find.

GREAT BRITAIN.

Dullness prevails in timber circles in Great Britain, and there is not likely to be much life to the market until after the holiday season. Prices have been well maintained. Canadian deals are decidedly firm, spruce being about ten shillings per standard higher than it was one month ago. Pine is also held at a slight advance owing to the fact that the quotations of shippers for spring delivery are above the autumn closing figures. Importers, however, are by no means unanimous in their opinions that shippers will be successful in obtaining asking prices. In another column will be found the results of an auction sale held in London, at which second quality spruce brought £10 10s per standard, against £10 5s one week earlier. A cargo of British Columbia pine from Chemainus brought splendid prices. It is a difficult proposition to analyze the British market at the present time. Shippers are holding prices very firmly, while importers are refusing to contract until a lower basis is reached. Which factor will be successful will depend to some extent upon the consumption during the next few weeks and upon the demand experienced from the Continent and South Africa. Germany has placed orders for some stock, but has not taken as much as usual.

STOCKS AND PRICES.

The Upper Woodstock Wood Manufacturing Company, of Woodstock, N. B., recently received an order for about 300,000 broom handles.

J. & W. Duncan, of Montreal, have purchased the cut of L. Villeneuve & Company's mill at St. Jerome, Que. It will be sawn for the New York market.

A timber berth of two square miles, situated on the north-west branch of Swan Creek, in New Brunswick, will be offered for sale by public auction at Fredericton on December 31st.

The East Kootenay Lumber Company, of Cranbrook, B. C., have secured the contract to supply the C. P. R. with 725,000 railway ties. This is one of the largest contracts for ties ever let in Canada.

The W. & A. McArthur Company, of Little Current, Ont., will put in about 30,000,000 feet of logs this winter. It is reported that they have sold fully one-half of the cut of the mill for next season.

The Edward Hinds Lumber Company are endeavoring to make arrangements to have 20,000,000 feet of logs sawn at Duluth, Minn., this winter. There is more winter sawing in the Duluth district this season than usual.

George Gordon & Company, of Cache Bay, Ont., had 3,000,000 feet of logs sawn at Little Current, Ont., the past season, in addition to that manufactured by their own mills. Their red pine was sold for export to England.

At the Crown Lands office, Fredericton, N. B., there were sold on December 17th a timber berth of 2½ square miles, situated between Little and Middle rivers, Gloucester county. The purchaser was J. H. Barry, of Fredericton, at $277 per mile, and the applicant was Frank J. Morrison. A two-mile berth at Lower Bay Du Vin was sold to M. Salter at the upset price.

Under date of December 6th Messrs. S.P. Musson, Son & Company say of the Barbadoes market: "There have been no arrivals of either white pine or spruce since we last wrote, and both are wanted. First receipts should command full rates. There is little or no inquiry for shingles, and no arrivals have taken place."

An advance of fifty cents on 16-foot hemlock boards was recently made at Buffalo. In New York City 50 cents was added to the price of 10 and 16-foot lengths No. 1 boards, 8, 10 and 12 inches, either rough, single surfaced, or tongued and grooved, which makes a difference now of $1 between the stock in question and 12 and 14-foot lengths.

The lumber cut on the St. Croix river, in New Brunswick, this winter will amount to about 27,000,000 feet. H. F. Eaton & Sons and James Murchie & sons will cut 6,000,000 feet each; Granville Case will cut 2,000,000 feet, and the Eastern Pulp Wood Company 3,000,000 feet. On the west branch Mercier & Sons are operating for Todd & Sons, and McLellan & Hill for Eaton & Sons.

J. Fred Ritchie is reported to have taken up a timber limit along the Arrow Lakes, in British Columbia, containing 150,000,000 feet of cedar, fir, spruce, and pine, with cedar largely predominating. The timber is easily accessible for logging purposes and can be floated down the Columbia river to Arrow Head, where a shingle mill will likely be built.

Messrs. Wright, Graham & Company, Glasgow, quote the following as ruling prices for pine deals and sidings:—White pine deals, 1st quality, broad, £33 to £35 15s per standard; 11 in., £26 10s to £28 10s; 7 in. to 10 in., £22 to £23 7s 6d; 7 in. and up by 6-9 ft., £18 11s 3d to £19 18s 9d. 2nd quality, broad, £21 6s 3d to £22 13s 9d; 11 in., £19 18s 9d to £20 12s 6d; 7 in. to 10 in., £15 2s 6d to £15 16s 3d; 7 in. and up by 6-9 ft., £12 7s 6d to £13 15s; 3rd quality, broad, £13 15s to £14 8s 9d; 11 in., £11 13 9d to £12 7s 6d; 7 in. to 10 in., £10 to £11; 7 in. and up by 6-9 ft., £8 5s to to £9 12s 6d. 4th quality, broad, £10 6s 3d to £11; 11 in., £9 12s 6d to £10 6s 3d; Narrows, £8 5s to £8 18s9d. Sidings—1½, 1¾ and 2 inch, £23 7s 6d to £26 2s 6d per standard. Red pine deals are quoted at: 9 and 11 in. by 3 and 4 in., £9 12s 6d to £11 13s 9d per standard; 7 to 10 in. by 3 in., £8 18s 9d to £9 5s.

PIECE STUFF AND BOARDS.

While there has not been much change in white pine prices in the last few weeks, there are some price features that are of interest. Good lumber, says the American Lumberman, seems to be steady with no particular advance, present or immediate prospect, and with no decline for that matter, but the scarcity of piece stuff, which has been a feature of the market during the year, is more accentuated and is leading to some serious discussion as to the advisability of a slight advance. In the Wisconsin valley there is noted decided strength in No. 4 boards and strips and an advance of $1 a thousand is being strongly recommended, but such action would only accentuate the anomalous condition of the piece stuff market and make an advance in the latter the more necessary.

It is said that in the Minneapolis district wholesalers who are short of this class of stock are actually paying a premium of from 25 to 75 cents and yet selling to the retail trade at the list prices, thus incurring a positive loss. Such a situation is intolerable and unless the official list is advanced it seems likely that individual lists will be gotten out recognizing the actual advance in the wholesale market on piece stuff of 14-foot and up in length—for there seems to be a plenty of the short.

The cause for the piece stuff shortage this year seems to be found in the disposition of the mill men to cut their coarse stock into boards rather than 2-inch, and the situation in low grade boards and strips in the Wisconsin valley would indicate a continuance of the practice.

Nevertheless there promises to be a larger output of piece stuff in proportion to the total cut next year than this. Almost certainly the yellow pine people will be influenced by the firm price of that part of their list this year as contrasted with the weakness in upper grades and dressed lumber. Again, the white pine people, especially in Minnesota, are cutting more closely than ever before. That might hardly seem possible, but everything that will make a 2x4 is likely to be brought in and that process will not be confined to pine but will extend to tamarack, spruce or anything else that is found upon the land.

There should be an easier situation in piece stuff in 1903 than there has been this year, and yet we have seen so many expectations fail of realization and the lumber market has so belied experience and attempt at control that it is hardly safe to predict with assurance the outcome of next year's operations.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

HENDRIE LIMITS WITHDRAWN.

Timber limits on the Upper Ottawa river, owned by William Hendrie, of Hamilton, and containing about 272 square miles, were offered for sale by auction at the Russell House, Ottawa, on December 17th. Mr. Peter Ryan wielded the hammer. The bidding started at $100,000 and advanced to $130,000, at which price the limits were withdrawn, the reserved bid not having been reached. The limits are located beyond Lake Temiskaming, and the time which would be required to float the logs to the Ottawa mills is believed to be responsible for the indisposition of lumbermen to acquire them.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber at Boston is in light supply, with only a moderate demand, but prices are fully maintained: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $14; bundle furring, $17.

There is a steady market for hemlock at unchanged prices: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

Western pine is in excellent demand at higher prices: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is very firm, with an active demand. Maple is especially strong, and higher prices are quoted: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $30 to $34; end-dried white maple, $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is a steady request for shingles at unchanged prices: Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Spruce clapboards are very firm, with only a small supply: Extra, $42 to $42.50; clear, $40 to $40.50; second clear, $37.50 to $38; extra No. 1, $30 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, DECEMBER 31, 1902 No.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contain interviews with prominent members of the trade, an character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subject areespecially valuable to saw mill and planing mill mer and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—1 INCH, 1¼ INCH AND 1½ INCH Soft Cork Pine 1sts and 2nds, also deal ends. Apply Box 20, CANADA LUMBERMAN.

WANTED—INCH CULL SOFT ELM AND Black Ash, also two-inch Birch, common and better. R. E. KINSMAN, Hamilton.

FOR SALE.

TWO GOOD TIMBER BERTHS IN ALGOMA. Area 36 sq. miles each. License covers all timber. THE NIPISSING LUMBER CO., LIMITED, Hamilton, Ont.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

DESIRABLE FACTORY PROPERTIES FOR SALE

DESIRABLE FACTORY PROPERTIES ARE offered for sale in the thriving towns of Parry Sound and Wiarton, Ontario. Both are situated in excellent timber districts on Georgian Bay, with abundance of hardwood and softwood timber within easy reach.

The factory in Parry Sound is a first-class frame building, nearly new, on stone foundation and stone abutments, two storeys, 120×50 feet, with stone engine and boiler house 28×32 feet, containing a Wheelock engine of latest design, cylinder 11×28 inches, and suitable boiler built in and all ready for running, in use only four years and in perfect condition. Also an excellent steamboat wharf with twelve feet of water. With the factory are three acres of land on a public street with electric light and privileges of using town water, good fire protection.

The factory at Wiarton is also a frame building of two storeys, 50×26 feet, detached boiler house, on shores of Colpoy's Bay, with about three acres of land in the town of Wiarton. Full particulars furnished on application. Correspondence solicited. Apply to

KER & HARCOURT,
Parry Sound, Ont.

WANTED.—Pair of Twin Engine Steam Feeds, 8" or 11" cylinders. State condition, size drum. Box 66, CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — BASSWOOD, COMMON AND Better, must be full inch, winter cut. Are open to contract for the season's supply. Apply Box 30, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED AT ONCE—SUPERINTENDENT for ground pulp and cardboard mill, capable of taking complete control; only first-class man acceptable, not over 35 years of age and sober; good prospects for right man; state wages expected and references. Address P. O. Box 20, Chicoutimi, P. Q.

Rails and Cars for Sale

TEN MILES 30 LB. STEEL RAILS IN GOOD order for relaying; Three Locomotives and Fifty Logging Cars, immediate shipment. For particulars apply to JOHN J GARTSHORE, 83 Front Street West, Toronto.

WANTED—TIMBER ESTIMATOR

AN AMERICAN FIRM WISH TO SECURE the services of a thoroughly competent and trustworthy man to cruise a certain lumber district and pass opinion upon the probable worth of the timber thereon. Address in first instance "RANGER," care CANADA LUMBERMAN, Toronto, Canada.

For Sale.

RED OAK IN THE LOG.

25 TO 30M FEET, CONVENIENT TO Railway. Parties wanting such timber can have a bargain. Owner has no use for same. Apply in first instance to "Red Oak," care of CANADA LUMBERMAN.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

WANTED

Young, hustling, vigorous English and French speaking Woods Superintendent. Must thoroughly understand economic timber and pulpwood logging and capable of handling workmen to advantage. High-class wages to high-class man. Don't apply if not entirely qualified. Address Box 114, CANADA LUMBERMAN.

WANTED—WHITE WINTER CUT MAPLE, must be straight in grain, 1¼ inch, 1½ inch and 2 inch. Are open to place orders now. Apply Box 40, CANADA LUMBERMAN.

WANTED—TO PURCHASE MACHINERY for Band Saw Mill, including boilers and engines, daily capacity about 40,000 feet. Apply THE NIPISSING LUMBER COMPANY, LIMITED, Hamilton, Canada.

WANTED — A MILL RUN OF FROM three to five million feet of White Pine, to be cut to order. Parties open for a deal of this kind, please write Box No. 450, care of CANADA LUMBERMAN.

FOR SALE

A QUANTITY OF 1 INCH ASH, ELM AND Basswood, cut 1902. Also Sawn Cedar Ties. Address P. O. Box 213, Almonte, Ont.

WANTED.

A COMPLETE LINE OF PLANING MILL Machinery. Shafting. Hangers, Belting, etc. We would be pleased to hear from persons having Woodwork Machinery for sale. Apply Drawer 12, Hamilton.

WANTED PROMPTLY

3 Carloads 3 inch S. Elm 1sts. and 2nds.
8 " 1 " " " S. Cull and Better.
Also can handle for later shipment a quantity of Ash, Basswood, Birch, Elm Oak and other hardwoods. Write us. Mention Bill No. 153.

TAYLOR & CRATE,
269 Elk Street. Buffalo, N. Y.

TO THE LUMBER TRADE.

In the February number of the CANADA LUMBERMAN will appear a compilation of statistics referring to the lumber trade of 1902. As in previous years, circulars have been sent to lumber producers throughout the Dominion, and it is hoped that they will assist us as heretofore by giving as much information as possible regarding the production and sale of lumber and the conditions which prevailed in the trade throughout the year. By means of their hearty co-operation we hope to present a review of much value to the lumber fraternity. Those who have not yet returned their circulars are respectfully solicited to do so as soon as convenient.

We shall be pleased to receive reports from different sections of the Dominion as to the production of lumber and quantity of unsold stock on hand at the close of the year. Persons sending such reports will confer a favor upon the publishers.

The brigatine Ethel Clarke is loading lumber at Bear River, N.S., for Cienfuegos.

A steamer has been fixed for four voyages from Miramichi, N. B., to w.c. England next spring at 40 shillings for deals.

Gillies Bros., of Braeside, Ont., manufactured during the past season 40,000,000 feet of lumber, 4,000,000 laths, 18,000,000 shingles, and 100,000 ties.

CURRENT TRADE CONDITIONS.

ONTARIO.

Business in lumber is of the kind that characterizes the close of each year. Except for urgent requirements buyers will not increase their obligations until they start into the new year. Little fault can be found, however, with the lumber situation. The number of inquiries which have been received by manufacturers and dealers is taken as a strong indication of an early and active spring trade. Pine mill culls were singularly active during December, and the quantity of unsold stock in mill yards is much less than was predicted two months ago. While prospects are bright for all kinds of lumber and present prices will doubtless be sustained for some months to come, there are evidences of a rise in the price of both hemlock and basswood lumber. The demand for hemlock is gradually expanding, whereas the production of logs this winter will not be above an average quantity. The cost of obtaining logs is fully $1 per thousand more than last season, and by many it is predicted that an advance of $2 in the price of lumber will follow. The main condition affecting basswood is the decided scarcity of that lumber. For some time dealers have found great difficulty, on account of the scarcity, in filling orders, and in some cases have been obliged to refuse large bills. Recognizing the situation, several dealers are quietly contracting with manufacturers for their 1903 production, the result of which promises to be severe competition and higher prices. Export trade is an important outlet for basswood, and during the past season several large shipments were made to Great Britain and Germany.

Reports from the logging districts tell of favorable conditions, and if there should be no setback the production of pine this winter will doubtless be as large as last season. Woodsmen are now more plentiful. A government official places the square timber output of the Ottawa Valley this winter at 2,000,000 cubic feet, as compared with 1,875,000 cubic feet last season.

QUEBEC AND NEW BRUNSWICK.

From every quarter comes the report of firmness in spruce lumber prices. Shippers have contracted for a considerable quantity of deals for export to Great Britian, and several mill cuts have been purchased for the American market. Local buying also is active for this season of the year, the farmers evidently being in good condition financially. Perhaps the condition which exerts a greater influence on prices

that anything else is the prospect of a shortage in the log supply. Owing to high wages, scarcity of labor, and weather conditions, it is predicted that the production of spruce logs in Quebec and New Brunswick will be much smaller than last winter. One manufacturer advises us that he expects to secure spruce enough to stock only one mill, whereas three mills were stocked last season. The supply of both lumber and shingles is so small that a material reduction in the log input this winter would be certain to result in higher prices next year.

UNITED STATES.

A meeting of the Mississippi Valley Lumbermen's Association is to be held this week to revise the price list on lumber. There are indications that an advance of fifty cents will be made on piece stuff, the supply of which is very short. No.4 boards are also showing strength and have been advanced one dollar per thousand by several manufacturers in the Wisconsin Valley. It is doubtful whether the stock of pine lumber on hand at the lake markets will be sufficient to take care of the winter trade, particularly as there continues to be a large demand from the east. In Chicago trade is active and building operations fully twice as large as at the corresponding date one year ago. Prices there are firm, based on $17.50 for short pine piece stuff delivered. Box manufacturers in the Eastern States are doing a splendid trade. Sales of 10-inch box lumber have recently been made in Buffalo at $19 to the consumer, which is considered a very good price. Hardwoods remain firm. Maple is strong and there is a movement of beech to take the place of it. The supply of basswood is so small that it is possible to obtain almost any reasonable price. Ash and elm are more plentiful than the other hardwoods.

Logging condititions in the Lake Superior district are excellent and every effort is being put forth to secure a large crop of logs. The east makes complaint regarding the continued warm weather, which in many place has spoiled the roads. Logging operators state that they are constantly visited by dealers wishing to purchase their logs with the idea of having them sawn to required specifications.

GREAT BRITAIN.

Agents of shippers have abandoned all efforts to secure business until after the Yuletide holidays. Buying for immediate requirements has been confined largely to the better class of lumber, the stock of which is much lighter than of the lower grades. Owing to the large import from the Baltic, a disposition is shown by sellers to moderate their asking prices. It is estimated that the quantity of Baltic rough boards in the London docks is sufficient to supply the requirements for the next nine months. These conditions do not apply to Canadian lumber, both pine and spruce deals being in lighter supply than one year ago. The unfavorable statistical position of Baltic lumber, however, is likely to exert a sympathetic influence upon Canadian stock. Recent public sales brought good prices for the regular sizes of pine and spruce deals, 8 inch and under showing a slight weakness.

The number of lumber cargoes received at Cleveland, Ohio, during the past season was 558, and the amount of lumber delivered 279,000,000 feet. Of the lumber received Michigan furnished 221 cargoes, Ontario 120, Wisconsin 122, and Minnesota 95.

STOCKS AND PRICES.

The quantity of lumber exported in 1902 from Montreal to South America was 863,000 feet.

Guilford V. Peck has purchased the lumbering property of Howard Stevens at Memel, N. B.

W. J. Trenouth & Bro., of Powassan, Ont., are only taking out about 1,000,000 feet of logs this winter, mostly hemlock and spruce.

B. W. Gagnon, M. P., of St. Stephen, N.B., states that the cut of logs in Charlotte county this winter will not exceed 10,000,000 feet.

In the Philadelphia market spruce plastering lath are stiff at $3.50 for eastern lath and $3.65 for West Virginia lath. Hemlock lath rule about $3.50.

The receipts of lumber at the Tonawandas by vessel this season were 407,922,933 feet, 44,673,487 feet less than in 1901 and 3,000,000 feet less than in 1900.

The timber limits formerly owned by the Bank of Ottawa and situated near Prince Albert, N.W.T., have been sold to Telford & Company, who are operating them this winter.

D. E. Sprague has commenced cutting logs near Sprague, Minn. He is also cutting logs along Rainy Lake, which will be shipped over the Canadian Northern road to his saw mills at Winnipeg.

Jacob A. Shaver, of Ancaster, Ont., has purchased for next season's sawing about 700,000 feet of logs, including 400,000 feet of white pine and 300,000 feet of white and red oak and some chestnut.

The Hamilton & Merriman Company, of Menominee, Mich., have disposed of their 1903 cut of lumber to Francis Beidler & Company, of Chicago. The cut will amount to 45,000,000 feet, and the consideration is about $750,000.

The Moyie Lumber Company, of Moyie, B.C., are operating four camps this winter. They have one at Swansea, one near Monroe Lake, and one on the Clark ranch. The East Kootenay Lumber Company have 150 men employed in lumbering operations this winter.

The following timber berths will be offered for sale at the Crown Lands office, Fredericton, N.B., on Wednesday, January 7th: Three square miles north of Canaan river, J. H. Barry, applicant; two square miles at Roberville Sett, Gloucester county, J. J. S. Hachey, applicant; two square miles north of Newcastle Creek, John P. Yeamans, applicant.

The Shepard & Morse Lumber Company, of Ottawa, after a lapse of five years have decided to resume operations. The company has several large camps at work on its own limits in the Kippewa district taking out logs. A contract has also been entered into with Alexander Lumsden, ex. M. P. P., whereby the Shepard & Morse concern will secure all of the better class of logs cut on the Lumsden limits this winter. It is expected that between six and seven million feet will be secured by this move alone.

The Department of Interior at Ottawa is asking for tenders up to January 14th for a permit to cut timber on Berth No. 1039, comprising section 30, township 2, range 12, in the Province of Manitoba, containing an area of one square mile; also until January 21st for licenses to cut timber on Berth No. 1037 on the north side of Bad Throat river, comprising ten square miles, and Berth No. 1036, comprising section 30, township 4, range 10, containing one square mile, both in the province of Manitoba.

Stocks at the present time, says the Mississippi Valley Lumbermen, are very evenly balanced in the lower grades, but in many instances are in bad shape in the upper grades, some of the items being out of stock almost altogether. A feature of the market is considerable buying by the Chicago and Kansas City packing houses of No.4 lumber for packing purposes and boxes. Lath is selling well, bringing the list price. Mixed of good quality are sold for $3, while the straight white pine lath brings $3.50. White pine shingles are rather an erratic sort of an article, selling in some instances 25 cents off the list and in other cases selling at the list prices.

THE LUMBER TRADE AT DULUTH.

In accordance with their annual custom, the inspectors and shippers of lumber at Duluth have prepared their annual statement of the production, shipments and other matters of interest of a statistical nature, relating to the mills on the Duluth-Superior harbour for the year ending December 1.

Early in the season it was expected that the production and shipments would both be less than in 1901, but, on the contrary, there has been an increase in both directions. The following comparative statements, December 1, 1901, to December 1, 1902, will be of widespread interest in the lumber trade:

	feet.
Production, 1902	442,585,000
Production, 1901	423,511,000
Shipments, 1902	465,230,000
Shipments, 1901	449,470,000
Total on hand, 1902	119,417,000
Total on hand, 1901	142,062,000
Total for sale, 1902	66,161,000
Total for sale, 1901	51,503,000

The production of lumber on the Duluth-Superior harbour was 19,074,000 feet greater than in 1901. Compared with stocks on December 1, 1901, there was 23,645,000 feet less lumber on hand on the same date this year, and there is an excess of 14,658,000 feet for sale as compared with a year ago.

The report states, also, that rail lumber shipments for water shipment will bring the total shipments by water from the head of Lake Superior to about 550,000,000 feet for 1902.

IT PAYS TO ADAERTISE IN THE LUMBERMAN.

Mr. J. S. O'Brien, of Antigonish, Nova Scotia, whose advertisement has appeared in the weekly CANADA LUMBERMAN for three months past, writes:—"I paid draft for advertisement, and I must say that I never felt that I got as good value for any money paid by me. I am astonished at the circulation your paper has. It seems to go everywhere. I don't want you to think I am giving you blarney. I am not. I say what I think. I look upon your paper as a friend. I wish you the success you most undoubtedly deserve."

EXTENSIVE TIMBER LIMIT SALE.

A dispatch from Ottawa says that it is learned on good authority that McLachlin Bros., of Arnprior, have purchased from Alex. Barnet, of Renfrew, a pine timber limit on the Petawawa river comprising one of the largest blocks of high grade pine tributary to the Ottawa river. The price is said to be in the neighborhood of $1,000,000.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The annual meeting of the Hardwood Manufacturers Association of the United States will be held at the Grand Hotel, Cincinnatti, Ohio, on January 27th and 28th, 1903.

REMARKABLE HARDWOOD SITUATION.

Perhaps we have made the observation before, but it will bear repetition, that in the hardwood business the present is a really wonderful condition. Probably never before, in proportion to the demand, has there been such a small amount of hardwood lumber available. The scarcity of dry stock affects everybody but the few heavy consumers and perhaps a few heavy dealers who contract their supply so far ahead that they are not affected by the conditions of a year. Not only is this so but all parts of the country are in substantially the same shape. There is no lumber worth speaking of anywhere at the mills or in the markets of the east or west.

The American Lumberman says that the scarcity is almost the same in all the diffe ent kinds of woods. Some are in more plentiful supply than others, but in none is there a satisfactory quantity. Not only are consumers and dealers looking for stock but manufacturers themselves. There are many heavy saw mill men who have their regular trade that they wish to supply. Being unable this year to meet the requirements of their customers from their own stocks they are in the market for additional supplies. Producers who never did such a thing before are now trying to buy. This is particularly noticeable with the quartered oak producers. Instances have been known where such people have within a week paid $4 a thousand more for common quartered oak than they would have had to pay four weeks ago and they are unable to find at any price the quantity that they want.

As to first and second quartered oak the market is almost bare and it is hardly possible to quote a price which will fairly represent the market. In Chicago there is a wide range, with its lowest limit at above $60. Red quartered is practically exhausted. An anomalous condition is seen in the prices of plain sawed red and white oak. They are almost as scarce as quartered sawed, but the price has advanced hardly at all within the last six months. One reason for this may be that the supply of plain sawed oak can be replenished with much ease as compared with quarter sawed, though, of course, in either case there remains the problem of drying.

In cottonwood there is an unheard of situation. Within a few weeks there was a sale of a considerable quantity of log run cottonwood at $17.50 on barge. We do not have to think back very far to the time when anything over $10 would have been a fair price.

Another wood of the same general class as cottonwood and poplar is bass-

wood. There is no market value to be attached to this wood because there is none of it.

Perhaps the most remarkable record of late has been made on birch and gum, which have been coming to the front rapidly. Both are substitute woods. Birch is being being heavily used in furniture factories and to a certain extent for interior finish, while gum in the lower grades and the sap stock is being used more freely than ever before for boxes, while the red is finding many uses in finish, furniture and various lines of manufacture.

CANADIAN LUMBER SHIPMENTS.

From Annapolis, N.S.: Schr. Edna, for West Indies, 350,000 feet lumber, by Pickles & Mills. Barque W. W. McLaughlan, for Buenos Ayres, 550,000 feet lumber, by Clark Bros., of Bear River.

From Halifax, N. S. : Str. Cheronea, for Manchester, 377,682 ft. spruce deals, 105,027 ft. spruce scantling, 305,443 pcs. hemlock deals, 13,633 ft. hemlock boards; for Garstone, 34,925 ft. spruce boards, 127,751 ft. scantling, 91,546 ft. ends, 505,885 ft. hemlock deals, 34,041 ft. hemlock ends.

From St. John, N. B.: Str. Alcides, for Glasgow, 46,000 feet deals, 1,344 bundles box shooks, by Schofield & Co.; 949,063 feet birch plank, 887 feet scantling, 10,113 feet ends, by Alex. Wilson; 576 bales wet pulp, by Hamelin & Ayers; 1,105 bundles spool wood, by Schofield & Co.; 20,000 feet deals, by Estate Frank Dudley. Str. Oronoco, for Grenada, 25,000 ft. pine boards, by A. Cushing & Co.

The planing mills of the Boake Manufacturing Co., at the head of Howland avenue, Toronto, were completely destroyed by fire on Friday last. Most of the lumber in stock was saved but a large quantity of finished products, such as doors, windows, sashes, mouldings, etc., was burned. The damage is estimated at $25,000, only about one-third of which is covered by insurance.

Canadian Northern Railway

The building of this line has attracted thousands of settlers to the West, and for the purpose of enabling Westerners to come home for Christmas, the Canadian Northern Railway has put in effect a round trip rate of $40 00, good for three months, from Winnipeg and other Manitoba points, to stations in Ontario and Quebec West of Montreal via St. Paul and Chicago. The popular route between the East and the West. With the closing of Lake season all shipments for Canadian Northern Railway stations west of Winnipeg must be routed all rail via Chicago. Through rates will be given on application to any agent of Grand Trunk or Michigan Central Railways or to the undersigned. Folder or Pocket Map of the Canadian Northern Railway will be sent upon application to

THE BOSTON MARKET.

There is a slight improvement at Boston in the demand for spruce lumber, with previous quotations fully sustained. The supply is small. The quotations are: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13; bundle furring, $17.

Hemlock lumber is quiet but steady at unchanged prices: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

There is an active demand for western pine lumber with the recent advances being easily obtained: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber continues very firm, with maple especially strong at the advance. Quotations are: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $30 to $34; end-dried white maple, $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are not changed in price, the demand being steady, with a moderate supply: Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

Spruce clapboards are very scarce and higher prices are being paid for extras and clears: Extra, $43 to $44.00; clear, $41 to $42; second clear, $37.50 to $38; extra No. 1, $30 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

WANTED—INCH CULL SOFT ELM AND Black Ash, also two-inch Birch, common and better. R. E. KINSMAN, Hamilton.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

WANTED--CEDAR SHINGLES

WE WISH TO CONTRACT THE OUTPUT of several mills manufacturing good quality of 16 in. or 18 in. Cedar Shingles, either or both lengths, all grades, or, if preferred, would take XXXX or Clears only in the 18 in. Season 1903. Address J. G. STRAIT & SON, Wolcott, N. Y.

DESIRABLE FACTORY PROPERTIES FOR SALE

DESIRABLE FACTORY PROPERTIES ARE offered for sale in the thriving towns of Parry Sound and Wiarton, Ontario. Both are situated in excellent timber districts on Georgian Bay, with abundance of hardwood and softwood timber within easy reach.

The factory in Parry Sound is a first-class frame building, nearly new, on stone foundation and stone abutments, two storeys, 120×50 feet, with stone engine and boiler house 28×32 feet, containing a Wheelock engine of latest design, cylinder 11×28 inches, and suitable boiler built in and all ready for running, in use only four years and in perfect condition. Also an excellent steamboat wharf with twelve feet of water. With the factory are three acres of land on a public street with electric light and privileges of using town water, good fire protection.

The factory at Wiarton is also a frame building of two storeys, 50×26 feet, detached boiler house, on shores of Colpoy's Bay, with about three acres of land in the town of Wiarton. Full particulars furnished on application. Correspondence solicited. Apply to

KER & HARCOURT,
Parry Sound, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — BASSWOOD, COMMON AND Better, must be full inch, winter cut. Are open to contract for the season's supply. Apply BOX 30, CANADA LUMBERMAN.

WANTED.

I HAVE MILL AND STANDING TIMBER, stock pine logs. Want partner with money. PRIVATE BOX 1 THESSALON, ONT.

WANTED.

ONE CAR DRY MAPLE 7 INCHES AND up by 2", 2½", 3" and 4". State prices f.o.b. Address PRICE BROS. & Co., Cape St. Ignace, P.Q.

LUMBER WANTED.

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, OWEN SOUND.

WANTED AT ONCE—SUPERINTENDENT for ground pulp and cardboard mill, capable of taking complete control; only first-class man acceptable, not over 35 years of age and sober; good prospects for right man; state wages expected and references. Address P. O. Box 20, Chicoutimi, P. Q.

Address HOLLAND & GRAVES, BUFFALO, N. Y.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The developments of the past week have but borne out the prediction that there would be a firm market for lumber throughout the winter months. We are told of the visit, even at this early date, of Chicago and eastern buyers to the mills in the Georgian Bay district for the purpose of picking up suitable lots of dry stock and of arranging for a supply for spring shipment. Already a large percentage of the white pine cut of the coming season has been placed under contract, and we have reason to believe that the prices have been very favorable to the seller.

The Ottawa Valley production of deals for the British market, which will be less in quantity than last year, has to a large extent been purchased by the middlemen. W. & J. Sharples have secured the Edwards and Hawkesbury cuts; Watson & Todd the Arnprior cut of McLachlan Bros.; Cox & Company the cut of Maclaren & Company, Buckingham; The McArthur Export Company the cut of Gillies Bros., Braeside; Duncan, Ewing & Company the cut of McLaurin & McLaren, East Templeton, and Dobell, Beckett & Company and W. & J. Sharpels the cut of the Three Rivers mills. The balance of the cuts are under negotiation and will no doubt be immediately contracted for. The price, in nearly every case, represents an advance on last year's figures.

In hemlock and hardwoods the market is steadily gaining strength and seems likely to reach a higher basis for the 1903 production. Some classes of hardwood lumber are so scarce that dealers have abandoned all efforts to find a stock sufficiently large to handle at a profit, and are devoting their attention to placing contracts for the new cut.

QUEBEC AND NEW BRUNSWICK.

Quebec spruce lumber is being contracted for quite freely, a large portion of the deal production having already been purchased at an advance on last year's prices. On account of the increased cost of logging there seems little probability that the cut will be any larger than last year, while by some it is predicted that the quantity of logs taken out for lumber will this season show a reduction. The increased cost of stumpage will also tend to sustain prices. The figures of the Miramichi lumber trade have been given out. The total shipments for the season were 122,000,000 feet, a decrease of 7,000,000 feet as compared with the previous year. The

winter stock shows a reduction of approximately 15,000,000 feet.

The lumbermen regard the outlook for spruce lumber in a very favorable light. Logging operations are progressing satisfactorily and most of the mills expect to secure a full stock of logs. In some parts of Nova Scotia, however, limited operations are the rule and loggers are giving more attention to cutting pulp wood.

MANITOBA AND BRITISH COLUMBIA.

Lumbermen of the west are in good spirits over the successful year just closed and the prospects for a continuance of the good times. In Winnipeg alone $2,395,000 was expended in 1902 in building operations, and at outside points there was corresponding activity, which called for a large consumption of lumber. During the current year farm building improvements promise to be an important factor in the lumber trade, and dealers are already stocking up to meet the demand. Prices remain about stationary, with a disposition to buy at present values in anticipation of an advance towards spring. In British Columbia the high price of logs overshadows every other feature of the lumber business. Record prices have recently been paid, with no prospect of an immediate change to a normal basis.

UNITED STATES.

The price list committee of the Mississippi Valley Lumbermen's Association at a meeting last week decided to make no advance in the price of dimension timber. One of the main objections was that the beginning of the year was no time to make such an advance, which might discourage prospective building operations. Fear of competition from yellow pine was advanced as another reason for continuing the price on the old basis. It was decided, however, to make an advance of $1 on No. 1 4-inch fencing in all lengths and No. 2 4-inch fencing in 16 foot lengths. Eight inch selects were made the same price as 10-inch, which is equivelant to an advance of $1. The statements given out at the meeting showed the white pine trade to be in a prosperous condition. While trade is light owing to weather conditions, there is a bright outlook for an active spring business. Box makers at Buffalo have advanced prices, in some cases equal to 10 per cent. Norway pine is scarce and other lumber is taking the place of it in many cases. Prices of hardwood lumber are steadily growing stronger, under the lead of quarter sawed oak. The scarcity of basswood has not been relieved, and it is remarkable that prices do not advance sharply. Black ash, elm and red birch sell freely, while maple is quieter. There continues to be an excellent inquiry for spruce. Clapboards are practically out of the market and there is an improved demand for laths, which have recovered the slight weakness which prevailed a fortnight ago.

GREAT BRITAIN.

In respect to business for the coming season little can be said, as there have been no new developments during the week under review. The buying tendency is exceptionally dull, buyers and sellers showing no desire to come together. Importers seem to fear a retrograde movement which would render unprofitable contracts closed at present prices. Still the prospects for the new year are fairly prosperous and business is sure to become more active in the immediate future. Prices for lumber in stock are very firm; 3 x 9 second quality spruce is quoted at £10 10s and third quality at £9 15s per standard. It is predicted that prices for next season will be 10 shillings in advance of 1902 contract figures. Of pine the Timber News says: Canadian pine is realizing unheard of prices, particularly the first quality broads and planks. The broad pine is unusually scarce; in fact, all pine is scarce, but the broads especially so. The last sale of a small line of 3 by 12/22 1st pine, 12/13 feet, was arranged at £33 10s per standard, but it is extremely doubtful if similar stocks could be had now even at this fancy figure. For the plank (3 by 11) £31 10s is being obtained, in small quantities, for good shipments. Second and third quality plank and deals are proportionately as dear.

STOCKS AND PRICES.

The city of Sherbrooke, Quebec, is asking for tenders up to January 20th for supply of 50,000 feet of lumber.

A. J. Seaman, of Port Arthur, Ont., has secured the contract to manufacture 1,600,000 feet of lumber at Nepigon, where he is setting up a portable mill.

The Ogilvie Flour Mills Company is taking tenders for the supply of 5,000 spruce, pine or tamarack piles for the construction of a flour mill and elevator at Fort William, Ont.

At North Tonawanda lath are as scarce as ever and dealers are just about cleaned out of this item. Shingles are a little more plentiful than usual, but they are held at good prices.

It is reported that Buffalo dealers will make a further advance in the price of hemlock lumber, which is now selling on the basis of $15. The demand, especially for boards, is strong.

McArthur Bros. have contracted with the Escanaba Woodenware Co., of Escanaba, Michigan, for 40,000 cubic feet of rock elm, to be shipped to London, Eng., by vessel early next spring.

The Turner Lumber Company, of Midland, Ont., are putting in 50,000,000 feet of logs this winter, 25,000,000 of which will be manufactured at South River and 25,000,000 feet at Midland. They also are holding over 10,000,000 feet of logs to be cut at Midland the coming season.

December business at Saginaw, Mich., was fairly good in box stuff, the demand holding up active, and there is a belief that box lumber will be a scarce commodity before spring. Some orders are placed for stock to be delivered early in the year.

In Chicago pine piece stuff is selling on the basis of $18.50 to $19; 1-inch A select stock, $70 to $75; 1¼ to 2-inch shop, $50; clear finish, $80; thick uppers, $90; No. 1 common stock boards in 8 and 10 inch widths, $23.50 to $24; No. 1 fencing, $28; 2x12 in 14 and 16 foot, $22.50; hemlock piece stuff, $15.50 and $16.

During the past season Buffalo received by lake 208,586,000 feet of lumber, as against 200,548,000 feet in 1901. The stock of white pine in that city is larger than one year ago, though this is not true of hardwoods. Bay City dealers report a good trade in hardwood lumber. Up the lines of railroad log run hard maple is quoted at $13 to $13.50, basswood at $20 and hemlock at $9.50.

Large quantities of pulp wood will be taken out this winter in the province of Quebec. In the St. Maurice river over 20,000 cords will be cut. The Laurentide Pulp Company expect to get out 50,000 cords in the Grand Mere district, and the E.B. Eddy Company will secure the same amount in the Gatineau district and the Temiscaming district. The Belgo-Canadian Pulp Company is figuring on securing at least 20,000 cords, while the export to the United States will be larger than usual.

Logs are so scarce in British Columbia that recently a buyer offered $8 per thousand feet for the contents of two booms which are lying at one of the up-coast inlets. Ordinarily the logs, which were fir, would not bring more than $4.50 or $5 per thousand, although for several months they have brought from $6.50 to $7 per thousand. These excessive prices are due to the labor famine. The wages of woodsmen have been higher during the past fall than for many years past. Competent men can secure almost any pay in reason.

John Kilburn, a large logging operator in Quebec, reports the outlook for the season's work to be very promising. The cut in Quebec this winter will be about up to the average. Mr. Kilburn will cut from 5,000,000 to 6,000,000 feet in Quebec, and on the American side about 1,500,000. The cut on the Allegash this winter will not be as heavy as last winter, but there will be a larger cut on Black River. John McConnell, of Marysville, will cut from 8,000,000 to 10,000,000 feet on the Black River, he being one of the heaviest operators. The output on the Tobique this season promises to be as large as last.

A. A. Scott, of McGregor, Ont., expresses the following views on the cooperage stock market: "No. 1 and sugar stock has been in good demand all season. The result is, I believe, there is little or no stock of this class in the hands of manufacturers. The price for this grade of stock has advanced from 50cents to $1 over last season's figures. There is, however, a large stock of No. 2 staves on hand which are being offered at a reduction of from 50 cents to $1. The demand for hoops has been good all season, and prices have advanced from 50 cents to $1. I am safe in saying that we need net expect a shrinkage in prices for either hoops, heading or No. 1 stavesd uring 1903.

ST. JOH LUMBER SHIPMENTS.

The shipments from St. John, N. B., to trans-Atlantic ports last year were as as follows:

Ports.	Sup. ft. deals, etc.
Liverpool	46,642,866
Birkenhead	2,005,242

HARDWOODS AT BUFFALO.

Of the hardwood market at Buffalo the American Lumberman says:

Demand is such that practically all dealers report a decrease of stock and no prospect of making up the deficiency right away. The scarcity of quartered oak is such that the present price, $66 to $68 for inch, is not considered enough. One dealer is certain that it will be $70 inside of two weeks. Others agree that the tendency is in that direction. The scarcity of oak is equaled by that of basswood and cherry. Basswood does not go up materially, as it is used in many branches of the business that cannot afford to pay a high price. Cherry makes its own price. Every dealer has his own and if the first customer fails to pay it the second takes it. There is some white ash on the market, but it is not in much demand. Black ash and elm sell well, and red birch is wanted everywhere. There is less call for maple than formerly.

DOORS AND MILL WORK.

The new year starts in with bright auspices for the manufacturers and distributers of doors and mill work. Scarcely any of the distributing houses have been actively canvassing the trade during the past two weeks, but their attention has been devoted mainly to closing up the work of the old year, inventorying of stock and preparations for an active prosecution of business starting in this week through the year. Still there has been a fairly good trade, many door men pronouncing the demand the past week as being of unusual volume and urgency for the holiday season and the general expression having been that December was, all things considered, one of the best months of the year. Door men usually expect very little business in December, but the past month was a record-breaker and carried with it a good augury for an active trade during the rest of the winter and spring.

The attention of Canadian lumber manufacturers is directed to the announcement of William Sutcliffe, Sons & Company, of Liverpool, England, on page viii of this paper. They wish to secure the British agency for a Canadian firm at present unrepresented on the other side.

WHOLESALE LUMBER
Montreal - - Canada
have at present for sale at various points of shipment, by either rail or water route, on the Ottawa River, pine cuttings of different grades from seasons 1900 and 1901. Will quote upon small lots or heavy blocks
Correspondence Solicited

TIMBER LIMIT TRANSFERS.

The sale by Alex. Barnet, of Renfrew, of his timber limits on the Petawawa river to McLachlin Bros., of Arnprior, has been confirmed. The logs taken out will be sawn at Arnprior.

The Exploits Lumber Company, composed of Nova Scotia parties, have sold their timber property and saw mill on the Exploits river, Newfoundland, to Wood, Barker & Co., of Boston and New York, who will operate the property on an enlarged scale. The timber areas comprise 1,146 square miles, running along both banks of the river. The property was secured a few years ago by the late Hon. A. R. Dickey, Rhodes, Curry & Co., and others of Amherst, who erected a mill with a daily capacity of 100,000 feet.

CANADIAN LUMBER SHIPMENTS.

Canadian Northern Railway

The building of this line has attracted thousands of settlers to the West, and for the purpose of enabling Westerners to come home for Christmas, the Canadian Northern Railway has put in effect a round trip rate of $40.00, good for three months, from Winnipeg and other Manitoba points, to stations in Ontario and Quebec West of Montreal via St. Paul and Chicago. The popular route between the East and the West. With the closing of Lake season all shipments for Canadian Northern Railway stations west of Winnipeg must be routed all rail via Chicago. Through rates will be given on application to any agent of Grand Trunk or Michigan Central Railways or to the undersigned. Folder or Pocket Map of the Canadian Northern Railway will be sent upon application to

R. H. BELL, Trav., Freight & Pass. Agent, Room 205 Merchants Bank Bldg., Montreal, Que.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

The market for spruce lumber at Boston is very firm, with a small supply. The demand is light, but sufficient to prevent any accumulation. The quotations are: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13; bundle furring, $17.

The demand for hemlock lumber is quiet, but prices are steady and unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

Western pine lumber holds very firm, with a further advance possible should the demand for seasoned lumber absorb the supply available: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There continues to be a firm market for hardwood lumber, with maple and birch floorings in demand: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $30 to $34; end-dried white maple, $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are generally steady. Prices are unchanged: Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

Spruce clapboards are steady at the advance, with the supply very light. Extra, $43 to $44; clear, $41 to $42; second clear, $37.50 to $38; extra No. 1, $30 to $32.

Laths are firm and unchanged: One and five-eighths inch, $3.40 to $3.45; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JANUARY 14, 1903 No. 50

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—1 INCH, 1¼ INCH AND 1½ INCH Soft Cork Pine 1sts and 2nds, also deal ends. Apply BOX 20, CANADA LUMBERMAN.

WHITE PINE FOR SALE

ONE AND A HALF MILLION FEET OF one, two and three inch White Pine Lumber, Mill Run, from good large Logs. PINE LUMBER COMPANY, Cartier, Ont., Canada.

WANTED--CEDAR SHINGLES

WE WISH TO CONTRACT THE OUTPUT of several mills manufacturing good quality of 16 in. or 18 in. Cedar Shingles, either or both lengths, all grades, or, if preferred, would take XXXX or Clears only in the 18 in. Season 1903. Address J. G. STRAIT & SON, Wolcott, N. Y.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5 000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE — FIFTY THOUSAND THICK No. one cuts and better. Apply Box 1, LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — BASSWOOD, COMMON AND Better, must be full inch, winter cut. Are open to contract for the season's supply. Apply Box 30, CANADA LUMBERMAN.

WE WILL PAY SPOT CASH FOR 10 TO 20 cars of seasoned 2-inch hard maple; will take delivery any time between now and next May. GOLD MEDAL FURNITURE MANUFACTURING CO, Hamburg Ave., Toronto.

LUMBER WANTED.

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, OWEN SOUND

WANTED AT ONCE—SUPERINTENDENT for ground pulp and cardboard mill, capable of taking complete control; only first-class man acceptable, not over 35 years of age and sober; good prospects for right man; state wages expected and references. Address P. O. Box 20, Chicoutimi, P. Q.

ABOUT 8000 FEET WHITE OAK CUT OVER 1 year ago, perfectly dry, 1, 1½ and 2 in. thick. Apply to M. MCKINNON, Box 424 Parry Sound, Ont.

Wanted

A FIRST-CLASS FILER, FOR COMING season, commencing 15th April; circular saws used; highest wages paid for a good man. For further particulars apply to JAMES H. SANDERSON, Lumber Merchant, Prince Albert, Saskatchewan.

CURRENT TRADE CONDITIONS.

ONTARIO.

The most noticeable features of general market conditions are the strength of prices and the marked degree of hopefulness as to the outlook for spring business. There does not seem to be an unfavorable indication. Architects throughout the province have a large volume of work in their hands, with instructions to proceed with building operations as soon as possible in the spring. This branch of industry promises to consume fully as much lumber as during the past year, when a very satisfactory trade was done. In the face of the present price of lumber and other materials, the bright outlook for building is regarded with significance.

There is not the slightest indication of a break in lumber prices. Manufacturers report that the number of buyers visiting their mills is increasing almost daily, and that they show a willingness to contract for stock at current prices. A few manufacturers are accepting $18 for log-run pine, while others are holding for $20. There is very little dry stock to be obtained. It is not uncommon to learn of manufacturers who cut as much as 20,000,000 feet the past season having less than 1,000,000 feet of unsold stock in their yards.

Everyone in the hardwood trade is looking for an advance in prices. They point out that the appreciation in hardwoods has not been in proportion to that in pine, and that it is each year becoming the more difficult to secure hardwood logs. For mill-run birch from $17 to $18 at the mill is being asked. Dealers are endeavoring to purchase hardwood logs so as to ensure a supply of lumber.

QUEBEC AND NEW BRUNSWICK.

The statement of the wintering stocks at Quebec has been issued and shows a decrease in many items as compared with one year ago. Although the supply of waney pine was 1,830,120 cubic feet, or 400,000 cubic feet more than one year ago, the stock carried over is 100,000

cubic feet less. These figures indicate a materially larger export. Of square pine the stock is 200,000 cubic feet less, resulting largely from a decreased supply. In the hardwoods birch and elm are in lighter stock, while oak and ash are heavier by 60,000 and 25,000 cubic feet respectively. Spruce deals are represented by 8,000,000 feet, a light stock, although 1,300,000 feet more than one year ago. The present outlook is for a strong market in the spring.

In Quebec and New Brunswick logging operations are active, although until recently mild weather prevented successful work in Nova Scotia. The log production will not be excessive. Manufacturers are holding firmly to prices, and from the number of inquiries received expect to have no difficulty in disposing of their season's production at good prices. New Brunswick shingles and laths are still scarce.

MANITOBA AND BRITISH COLUMBIA.

The present quiet season in the lumber trade is welcomed by manufacturers, who will thus be enabled to reduce the number of unfilled orders on their books. The building trade throughout the west was so active last year that in the fall there developed a great scarcity of building material, as the result of which many buildings, especially in the city of Winnipeg, remain in an uncompleted state. Weather conditions until the close of the year were favorable for outdoor work, but it was found impossible to secure material. Every effort will be made to resume work early in the spring, and the movement of lumber in anticipation thereof may be expected shortly. Prices of British Columbia lumber continue firm, with no indication of a decline.

UNITED STATES.

From point of demand from retailers and consumers the past week has been quiet. Prices on all classes of lumber, however, have been maintained. Buyers are now contracting for the 1903 cut, and in many cases the prices paid are higher than one year ago. Fear of a further advance in the spring has stimulated business and brought into the market buyers who intended to defer purchasing until the spring. The outlook for the new cut is very bright, although it is believed that manufacturers will discourage further advances, on the ground that if prices can be kept normal the consumption will be larger. The box shook trade is active and there may be an advance in box material in the near future. At Buffalo and Tonawanda there is a great scarcity of 2-inch cuts, which have been marked up to $55 to $57 for No. 1, and $43 to $45 for No. 2. A price record was recently made in Boston, when upwards of $100 was paid for wide widths of white pine.

Hardwood lumber is stiffening in price, the scarcity of dry stock being almost without a parallel. Considering the light supply, prices should advance still further. There is no supply of basswood.

The shingle market is a little quiet but stocks are small. In the Saginaw Valley white pine are worth $3.10 and $4.15.

GREAT BRITAIN.

Statistics of stocks on hand on December 31st last have been received as yet only from the port of Glasgow. These clearly explain the high price of first-quality pine deals, the stock of which is but 456 standards, as compared with 713 standards one year ago. Of second-quality pine the stock is but 1,186 standards against 507 standards at same time last year. It is difficult to account for the disparity between the two stocks, and many importers are of the opinion that the lower prices for second-quality pine will stimulate consumption. There is a slightly larger stock of third and fourth quality pine, but red pine is less than one-third that of last year. Quebec spruce deals is in heavier stock, the supply being 5,054 standards, against 3,752 standards one year ago. It is not known how far these figures reflect the stock situation at other British centres, but it will probably be found that London and Liverpool have a lighter stock comparatively. The stock of red pine is so light that there should be a favorable opportunity for early imports in the spring. The stock of oak logs is considerably increased from last year, although prices have advanced and now range about 3s. 6d. to 3s. 9d. for logs 48 feet long and 12 inches in diameter. Prices of elm are a shade weaker, while birch shows a firmer tendency. Ash is dull, partly on account of the unsatisfactory condition of the furniture trade. Prices range from 18s. 6d. for 22-inch average up to 23s. for 15-inch.

STOCKS AND PRICES.

W. W. Carter, of Fesserton, Ont., has five camps in operation at Uhthoff and will have a large stock of logs for next season.

W. H. Higgins, of Vancouver, B. C., who already has two logging camps up the coast, is opening up a third camp at Malaspina Inlet.

The city of Winnipeg, Man., is asking for tenders up to February 3rd for the supply of from 1,000 to 1,500 cords of cedar paving wood.

In the Tonawanda market better prices are being obtained for spruce than for some time, Nos. 1, 2 and 3 being quoted at $28, $23 and $20 respectively.

The Holland & Graves Lumber Company, of Byng Inlet, Ont., are employing between 800 and 1,000 men in the woods this winter and expect to put in 60,000,000 feet of logs.

S. O. Fisher, of Bay City, who is operating near Blind River, Ont., has thirteen camps going and nearly 25,000,000 feet of logs on the skids ready for hauling. He expects to get in 30,000,000 feet.

The stock of lumber at Cleveland, Ohio, is about the same as at this time last year, although there is a lighter supply of lath and shingles. Stocks are as a rule much greener. Dry lumber is out of the question unless it be kiln-dried.

Timber berths will be offered for sale at the Parliament Buildings, Fredericton, N. B., on January 21st as follows: 16 sq. miles on Cain's river, Thamas W. Flett, applicant; 5 sq. miles on Portage river, Kent county, J. & T. Jardine, applicants; 4½ sq. miles on Cain's river, Thos. W. Flett, applicant.

A scarcity of No. 1 elm staves is reported. The second-class staves for apple barrels were not all used up, so an increased amount of this grade is being put into flour barrels. First-class elm flour barrel staves are worth $8.50 to $8.75; basswood heading, 5¾ to 6 cents; hoops, $11.25 to $11.50 for 6-foot coiled and $10.75 to $11 for 5½-foot.

In the Chicago market retail prices on pine piece stuff range from $17.50 to $18.50 for short narrow stock up to 2x8, and from $19 to $21 for 18-foot and upwards. No. 1 common boards are quoted at $20.50 to $21.50, No. 2 at $18.50 to $19, and No. 3 at $16. No. 1 shop and better hold exceedingly firm, thick shop being quoted at $50 f. o. b. yards.

Under date of December 20th Messrs. S. P. Musson, Son & Company say of the Barbadoes market: "Arrivals have been the "Dixon Rice" from Weymouth, N. S., with 219,000 feet spruce and white pine; the "Lillian Blauvelt", from Tusket, N. S., with 225,000 feet white pine and spruce; and the "Lewanika," from St. John, N. B., with 312,000 feet white pine. These cargoes had all been contracted for and will give sufficient for immediate wants, but further supplies will be needed. We could readily place a cargo of spruce at about $22 to $22.50 for shipping and $18 to $18.50 for seconds. The only arrival of shingles is 168,000 Laying Cedar by the "Lewanika," now on offer. There is very little inquiry at this season, but we hear that a cargo of this description is expected."

Although hardwoods advanced fully 25 per cent. in 1902 the tendency, the Mississippi Valley Lumberman says, is still towards better values, and the market is strong, with active trading. White quartered oak brings $60 to $65 in car lots, and red sells at $50. Basswood is a ready sale at $30 and upward and cottonwood shows a jump of $10 within a year. There was no let-up in the general inquiry for all kinds of hardwoods the past few days and the point has been raised as to how large consumers are to get along, especially those who have no surplus stock to run for the next five months. Buyers are in the market right along and the trade is above the average for the opening of the year. There are no new features in any wood. All are having a good sale and the trade is gradually becoming accustomed to a higher level of values.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The Prairie Lumber Company have purchased the lumber businesses of H. J. Jickling at Carman, Man., William Sellers at Holmfield, Man., John McGuirl at Moosomin, N. W. T., and Wiebe & Friesen at Winkler, Man.

THE OTTAWA VALLEY LOG PRODUCTION.

The estimated output of logs for 1902-1903 is the largest on record. A reliable record shows that on the Spanish, Nipissing and Ottawa rivers, including the Lower Ottawa, probably 9,500,000 logs will be taken out and about 500,000 pieces of cedar, including ties and poles.

The total quantity of square timber and waney timber for export from Quebec next summer will reach 2,500,000 cubic feet.

Reports from the limits show that the work is progressing satisfactorily, although a scarcity of teams is reported from some districts. Trouble was experienced up to a week ago getting supplies in at certain points on the Upper Ottawa, as the ice was either absent entirely or insecure. Supplies had to be taken across by ferry at a cost five times increased over normal conditions. The intense cold of the past few days has, however, remedied this trouble.

All the deals of the cut of 1903 have been sold, and the ten per cent. advance over last year's prices mentioned on the first sales made early in the Fall has been maintained. A reference made in a recent letter to a similarity in prices between the two years referred to small lots of lumber picked up for the local or the American markets.

Inquiry at the local railway offices goes to show that lumber shipments are very slow at present. Car shortage and the lull natural to the turn of the year are held responsible for this. There is practically no manufactured lumber on the market.

OTTAWA, January 12th, 1903.

The Sprague Lumber Company, Limited, and the John Arbuthnot Lumber Company, Limited, Winnipeg, Man., are applying for incorporation.

TIMBER LIMIT TRANSFERS.

Timber limits in the Maritime Provinces are changing hands quite actively. In Restigouche County, N. B., the Shives Lumber Company have acquired the Muskoka property; the Wm. Richards Company, of Miramichi, now control the Alexander property and Hilyard Bros. and Geo. McKean, of St. John, have just purchased the timber properties of Geo. Moffatt, of Dalhousie. The limits include 450 square miles in Restigouche county and a large tract in Quebec, and in addition large milling privileges. The price is said to be $200,000.

C. J. Willis & Company, of Sackville, N. B., have purchased the timber limits and mills in Newfoundland held by the St. George's Lumber Company, which is composed almost entirely of New Glasgow parties. The limits are situated between Bay St. George and the Bay of Islands, and consist of several alternate lots which are intersected by the Reid Railway, and comprise some 300 square miles or about 197,000 acres of virgin timber land. There are splendid saw mills in conjunction. Owing to the lateness of the season only about 8,000,000 feet of logs will be taken out this winter, but it is Mr. Willis' intention to cut from 15,000,000 to 20,000,000 feet each year.

A syndicate of Halifax capitalists headed by Mr. Davidson have secured control of the St. Croix timber properties of Mr. T. G. McMullen, of Truro, and the South Maitland property of the same gentleman ha passed into the possession of Mr. Herbert Crowe, of Dartmouth, and Mr. C. E. Crowe, of Old Barns, Colchester county. In addition to the limits it includes a large modern mill at South Maitland Station. The purchase price of this property is not announced, but it is thought to be over $50,000. The new firm will take over the outstanding contracts of the former owners, together with about one million feet of logs now in the mill pond.

The Tobique Manufacturing Company, of which Mr. F. H. Hale, M. P., was the originator, are reported to have disposed of their timber limit holdings to Donald Fraser & Sons, of Fredericton, N. B.

The following charters are reported: Str. Arecunia, St. John, N. B., to w. c. England, deals, 35s; two steamers, capacity 1,000 standards each, Halifax, N. S., to w.c. England, deals, 35s, May and July.

THE BOSTON MARKET.

Spruce lumber at Boston is very quiet, but as stocks are small, prices show little variation. The quotations are : Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $13 ; bundle furring, $17.

Hemlock lumber is quiet, though prices are steadily held : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18 to $19 ; No. 2, $15 to $16.

For western pine lumber the market is fully maintained, with only moderate offerings : Uppers, 1 to 2 in. $84 to $87 ; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78 ; 2½ to 3 in. $84 ; 4 in. $86 ; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

Hardwood lumber holds very firm, especially for choice selections of maple and birch flooring, which are in demand : Quartered oak, $63 to $75 ; plain oak, $42 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $45 to $47 ; sap and common, $30 to $35 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $30 to $34 ; end-dried white maple, $42 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50 ; elm, $29 to $31.

Shingles are in steady demand at unchanged prices : Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2½ inches, $4.50.

There continues to be a very firm market for spruce clapboards, with a light supply and a moderate demand : Extra, $43 to $44 ; clear, $41 to $42 ; second clear, $37.50 to $38; extra No. 1, $30 to $33.

Laths are firm and unchanged : One and five-eighths inch, $3.40 to $3.45 ; 1½ inch, $3.25 to $3.30.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JANUARY 21, 1903 No. 51

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in he current week's issue.

WANTED—1 INCH, 1¼ INCH AND 1½ INCH Soft Cork Pine 1sts and 2nds, also deal ends. Apply BOX 20, CANADA LUMBERMAN.

WANTED—A MAN CAPABLE OF RUNNING a house finishing factory, also a man capable of taking charge of finished lumber yard who can classify and swing lumber. Both men must be strictly temperate and first class in their line. Apply to W. CURRIE COMPANY, Campbellton, N. B.

WANTED--CEDAR SHINGLES

WE WISH TO CONTRACT THE OUTPUT of several mills manufacturing good quality of 16 in. or 18 in. Cedar Shingles, either or both lengths, all grades, or, if preferred, would take XXXX or Clears only in the 18 in. Season 1903. Address J. G. STRAIT & SON, Wolcott, N. Y.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE.

A QUANTITY OF ROCK ELM TO BE CUT this winter, prefer cutting it into timber 8 X10 or 10 X 12, any lengths. Apply to M.B., care CANADA LUMBERMAN.

WANTED—A MILL RUN OF FROM THREE to five millions of white pine to be cut to order. We are open to buy any kind of white pine lumber. Will contract for ten million white pine lath. Please write us. CANADA LUMBER MFG. CO., North Tonawanda, N.Y.

LUMBER WANTED.

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, OWEN SOUND

Wanted

A FIRST-CLASS FILER, FOR COMING season, commencing 15th April; circular saws used; highest wages paid for a good man. For further particulars apply to JAMES H. SANDERSON, Lumber Merchant, Prince Albert, Saskatchewan.

Rails and Cars for Sale

EIGHT MILES 30 LB. STEEL RAILS IN good order for relaying; Three Locomotives and Fifty Logging Cars, immediate shipment. For particulars apply to JOHN J GARTSHORE, 83 Front Street West Toronto.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

WANTED

Young, hustling, vigorous English and French speaking Woods Superintendent. Must thoroughly understand economic timber and pulpwood logging and capable of handling workmen to advantage. High-class wages to high-class man. Don't apply if not entirely qualified. Address Box 114, CANADA LUMBERMAN.

Second-Hand Machinery For Sale

IN LOTS TO SUIT PURCHASER.

ILANSING WATER WHEEL, 60 INCH, and the following: Leffel wheels: One 56 inch; three 48 inch, one 40 inch, two 35 inch, two 30 inch, one 20 inch—all complete with crown wheels. Also one each of the following: Engine, 18x24 cylinder, slide valve, 6 inch shaft, 9 ft. fly wheel, with two iron 8 ft. pulleys; pair Upright Engines 14 x 20, slide valve; Circular Saw Frame, carriage with receding knees, Boss dogs, double friction rope feed, 120 feet track; Circular Saw Frame and Carriage to cut 30 ft.; one Perkins' Shingle Machine; two Saw Jointers; Sapping Saw, Drag Saw, and a quantity of Pulleys and Shafting, assorted sizes; two Slab Saws; two Double Edgers; two Saws with attachments; one large Force Pump. THE DICKSON CO., Peterborough, Ont.

FOR SALE—A CIRCULAR RE-SAW AS good as new. J. KAUFMAN, Berlin, Ont.

WE WANT TO CONTRACT FOR 16 AND 18 pine and cedar shingles Address J. W. THOMPSON COMPANY, Bay City, Mich.

WANTED — BASSWOOD, COMMON AND better, must be full inch, winter cut. Are open to contract for the season's supply. Apply Box 30, CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—WHITE WINTER CUT MAPLE, must be straight in grain, 1¼ inch, 1½ inch and 2 inch. Are open to place orders now. Apply Box 40, CANADA LUMBERMAN.

WANTED.

4/4 LOG RUN BASSWOOD, DRY; WILL PAY Spot Cash. COLONIAL LUMBER CO., Cleveland Ohio.

Milling business in good agricultural centre Western Ontario, including Planing Mill and Sash Factory, with good lumber business in connection. Saw mill capacity 10,000 per day. Good feed grinding outfit with good patronage, 20 h.p high speed engine and 80 h.p. boiler all in good repair. A thorough going concern and a money maker. May [illegible] may not include flax-mill with necessa[illegible] machinery and electric lighting plant. Must be sold to close an estate Apply Box 55, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Sales of the coming season's cut are becoming more frequent. Numerous buyers are visiting the leading producing points and taking an inventory of stocks on hand and to be cut. Where excessive prices are not asked a disposition is shown to close contracts, as in some quarters it is predicted that there will be an early advance in some of the lower grades of pine lumber. It is clearly evident that dealers are accumulating stocks at every opportunity in anticipation of an active spring trade. After the spring requirements are supplied, there may be a slight weakening in prices, but no person looks for any decline before midsummer. If trade should expand to the extent that now seems probable, the demand would likely be sufficient to sustain the present range of values well through the year. Pine culls are moving more freely. The shingle market is steady, with the demand somewhat quiet. No new features have developed in the hardwood market. The number of enquiries received is daily increasing, indicating a decided shortage of stocks in the hand of dealers and consumers. Before the new cut is ready for the market there will doubtless have developed a famine in stock such as has not been known for some time, and a higher range of values seems imminent. Satisfactory progress is being made with logging operations.

QUEBEC AND NEW BRUNSWICK.

The buying of spruce lumber has indicated that present prices are likely to be maintained. Dealers have bought quite heavily for export to Great Britain, and the cuts of the leading mills have passed out of first hands. The lower grades have come into prominence on account of increased buying by box concerns and for shipment to the Eastern States. Shippers are asking increased prices for square and waney timber. They anticipate a good demand and strong market throughout the year. There is no particular change in New Brunswick stock. Cedar shingles are rather quiet, but the price of $3.50 for extras on Boston rate of freight is still the average selling figure. Laths are slightly weaker on account of lower quotations from New York.

MANITOBA AND BRITISH COLUMBIA.

Many of the dealers are now visiting the lumbering producing points for the purpose of purchasing their supplies for the coming season. It is predicted, even at this early date, that the mills will be unable to supply the demand for lumber in the west. Arrangements are being made to

commence building operations early in the spring, and it is believed that the rush for lumber will result in at least a temporary advance, with a strong probability of a higher range of values continuing throughout the year. Dealers are looking towards British Columbia to supply a large proportion of the season's requirements, many new mills having recently been erected in that province.

UNITED STATES.

The market has shown greater activity. Dealers are looking for opportunities to buy lumber, and while there is some complaint that manufacturers have set their figures too high, there is reason to believe that dealers will have to meet them. The statement of production and stocks on hand, referred to elsewhere, shows that the supply of white pine at the close of last year was nearly 300,000,000 feet less than at the close of 1901. Hardwoods make a still more favorable showing, the stock at the northern mills being about 40 per cent. less than one year ago. These figures offer little ground on which to base the expectation of a decline in lumber prices. At Buffalo white and Norway pine is very firm. The box trade is in better position than at almost any other similar time, and an advance in the price of box lumber is looked for. At Cleveland there has been of late an unusually heavy demand for 6, 8, 10 and 12 inch No. 3 common boards, and on this grade prices have stiffened. The wholesale price is $20 for 6, 8 and 10 inch, and $22.50 for 12 inch. The quantity of lath in the yards in that city at the close of the year was found to be less than anticipated, resulting in very firm prices. No. 1 brings $4.25 and No. 2 $3.75.

The lumber that is now being purchased by retail dealers is largely for factory use, as building lumber has not yet commenced to move. While actual advances on hardwoods are not reported, dealers are in many instances selling above list quotations. Dealers have almost suspended efforts to locate any quantity of basswood, consequently the price is nominal. While the shingle trade is quiet, prices are firm, and dealers are picking up suitable lots wherever they can be found.

GREAT BRITAIN.

The Board of Trade returns show that during the year 1902 the import of lumber into the United Kingdom was slightly larger than in the previous year, the figures being 6,676,726 loads and 6,281,000 loads respectively. From Canada the import was 1,639,668 loads in 1902 and 1,517,234 loads in 1901. The consumption was about equal to the import, as the quantity of stock on hand is nearly the same as one year ago. Representatives of Quebec shippers are canvassing in the usual channels for orders and have met with some success, although there seems to be a deep-seated conviction that shippers' prices are too high. Nevertheless, there is no pressure to sell and it is believed that buyers will yield. Prices for lumber in stock are unusually firm. At a recent auction sale several lots of Quebec fourth quality spruce, 3x9 inches wide and 12 feet long, brought £9 per standard, which is said to be the highest price ever obtained under the hammer for this quality. For winter shipments the c. i. f. price is about £7 10s. From another quarter comes the report that spruce deals and battens lying in the docks are selling at £10 5s for 3x9 second quality, £9 15s for 3x9 third quality, and £8 for 3x8. The square timber trade is steady, with prices of birch logs advancing.

STOCKS AND PRICES.

D.L. Mather, of Keewatin, Ont., is taking out about 500,000 ties on Eagle Lake, New Ontario.

Ayton Cromwell, of Cookshire, Que., has taken a contract to cut 200,000 shims for railroads, to be 2 feet long, 6 inches wide and 3 inches thick.

Word has been received that the schooner Carrie Belle has been abandoned at sea. The schooner sailed from St. John, N.B., on January 8th for City Island, with a cargo of 283,543 feet of deals, shipped by Stetson, Cutler & Co.

H.J. Beemer, contractor for the Ottawa, Northern & Western Railway extension to Maniwaki, has been unable to secure sufficient ties from contractors, and has decided to open up a camp in the woods to take out 75,000 ties for the completion of his contract.

It is expected that the cut of logs on the Tobique River, in New Brunswick, this winter will be about 20,000,000 feet. Among the operators are the Tobique Manufacturing Company, Hilyard Bros., R.A. Estey, Donald Fraser & Sons, Senator Baird and A.J. Beveridge.

The Edward Hines Company, of Chicago, are reported to have sold 35,000,000 feet of lumber to the Mills-Gray Carleton Company, of Cleveland, Ohio. The stock is to be cut as Ashland. It is rumored that the Hines Company have completed another sale of 25,000,000 feet to Celveland parties.

The Department of Railways for the Transvaal and Orange River Colony is calling for tenders for the supply of 250,000 deals, 50,000 cubic feet of baulks and scantlings, 5,000,000 lineal feet of ceiling and flooring boards, 1,000,000 lineal feet of skirting, moulding, etc., 9,500 doors, 4,900 windows and 1,750 mantles. The time for the receipt of tenders was January 7th, but the Canadian Commissioner writes that the date will likely be postponed long enough to permit of Canadian firms tendering if they desire.

Under date of January 3rd Messrs. S.P. Musson, Son & Company say of the Barbadoes market: "The only arrival of white pine to note since our last is the "Olinda" from Halifax, N.S., with 140,000 feet to our address, also a small lot of hemlock. This cargo we placed at Demerara on C. F. terms. The market is in a fair position and white pine could be sold at about $25 or over for shipping and $20.50 for second quality. In spruce there has been no further receipts, but we understand another cargo has been placed for prompt shipment at about same rates as previously advised, and we have placed 100,000 feet of hemlock for future shipment on private terms. The lot of Laying shingles referred to in ours of 20th ultimo was sold at $1.82."

THE GLASGOW MARKET.

In reviewing the timber trade of the Clyde, Messrs. Calder, Henderson & Livingston, Glasgow, say of Canadian timber:

WHITE PINE—WANEY.—There was a full import during the year with a fair demand, and although the stock carried over shows an increase as compared with this time last year, it is by no means too heavy. Prime wood has been in demand and values have reached a high level. 19 to 20 inch string of long average has been selling from 3s 5d to 3s 9d; short girthy timber from 3s 1d to 3s 3d; second class, 2s 3d to 2s 9d per cubic foot. SQUARE— There has been fair demand and what was imported has gone well into consumption. It leaves the stock very similar to last year. Quotations are at 2s 5d to 2s 10d for first-class 35 to 45 feet average; 21d to 2s 2d per c. ft. for good fair average.

RED PINE.—This has been imported more freely than for some years back, but it has gone well into consumption and stocks are moderate. Prime wood of large size only is in demand, and it has been selling at from 1s 10d to 2s 3d per c. ft.

ELM.—While the import has been an average one it has consisted very largely of soft elm. Prime rock elm has been well taken up at prices ranging from 2s 9d to 3s 1d per c. ft for 40 to 50 feet average. Soft elm is practically unsaleable and is quoted at from 18d to 2s per c. ft.

OAK.—There has been a heavy import and as the demand has only been an average one it leaves us with increased stocks. Prime wood 70 to 75 feet average is quoted at 3s 6d to 3s 9d, and second-class from 2s to 2s 8d per c. ft.

ASH.—The import has been much too heavy. When the decreased demand is taken into account, stocks show a material increase. Some parcels have been cleared at very low figures, but current quotations are at 20d to 2s per c. ft. for 14 to 15 inch average.

BIRCH.—The import has been small. Stocks have been reduced and prices are very firm at 20d to 22d per c. ft. for 16 inch average. A noticeable feature this year has been the import of planks, but the business has been overdone, and prices have gone to a low figure. They are quoted at from £9 to £11 per St. Petersburg standard.

DEALS, BATTENS AND BOARDS.—The opening of the year found us with a very low stock of deals of all qualities, and while this had the effect of forcing the merchants to contract for early shipment it had also the effect of making business very free when the Canadian season opened. A good tone has been noticeable throughout the season with a gradual improvement on values, particularly in the higher qualities. Pine—Firsts—The import has never been able to keep pace with the demand, and prices are firm. Quotations are as follows: Broad deals, £28 17s 6d to £35 according to quality and average width: 11 inch, £26 15s to £28 17s 6d. Undersizes, £20 12s 6d to £23 10s. Good sidings, 1¼, 1½ and 2 inch of 10 to 11 inch average width, £24 to £26 15s. Strips, 4 to 7 inch wide, £19 to £21 5s per St. Petersburg standard. Seconds—The quantity of these that has gone into consumption this year has been much above the average, the demand being stimulated by the scarcity of first quality. Broad deals are low in stock and are quoted at £20 12s 6d to £22 10s; 11 inch at £18 10s to £20; undersizes at £13 15s to £15 10s per St. Petersburg standard. Thirds—A good business has been done, but prices show very little advance. 11 inch were quoted throughout the year at from £12 5s to £12 15s; undersizes, at £10 10s to £11 10s per St. Petersburg standard. Fourths—There has been a fair demand for 11 inch and wider, but narrow deals are slow of sale. Quotations are at £9 5s to £10 for 11 inch and wider; £8 5s to £9 for undersizes.

RED PINE—The stock has been greatly reduced, but is still ample. Values are inclined to improve and quotations are at £9 5s to £12 10s per St. Petersburg standard, according to quality and specification.

ENQUIRIES FOR LUMBER.

The Curator of the Canadian Section of the Imperial Institute, London, England, has received the following enquiries concerning lumber :

1. A timber merchant wishes to arrange to obtain supplies from Canada for direct shipment to South Africa if he can obtain same at prices to compete with the Baltic. The classes of goods in Red Baltic deals are 3x9 principal sizes, also 3x6, 2x6, 2x 4½, 3x4½, 4x11, 3x11, 4x9, 2x9, average length 16/17 feet per cargo. Red floorings tongued and grooved 1x6½, average length per cargo 15/16 feet. Double moulded doors all sizes, sash doors, front and French casements all sizes, also mouldings of every description and skirtings, shelvings, clear pines and hardwood.

2. A firm of merchants possessing houses both in London and Natal wishes to hear from Canadian manufacturers of deals, doors, mouldings, shelvings and similar lines, who may desire to develop direct trade with South Africa.

3. A firm in Cornwall write that they require the subjoined specifications of timber. Same could be shipped via either Liverpool or Bristol direct and quotations made on that basis. It is understood that these shooks are required regularly.

One thousand boxes each 27¾x20½x9½ in., 9/16 inch timber throughout.

9x2 inch triangular corner pieces all planed inside and out and grooved and tongued.

Five hundred boxes each 38x19x15. 9/16 inch timber except for ends, which must be ¾ inch, all planed inside and out, dovetailed, grooved and tongued.

One hundred boxes each 26x26x20 in. 9/16 timber throughout, 2x2 in. triangular corner pieces, grooved and tongued, planed inside and out.

LUMBER PRODUCTION AND STOCKS.

Statistics show that the production of pine lumber in the states of Michigan, Wisconsin and Minnesota has steadily declined since 1892, when the cut reached 8,594,222,802 feet. The cut of 1902 was 4,294,395,000 feet, a decrease of 42,000,000 as compared with the previous year.

An interesting showing as to the condition of pine stocks at the present time is found by comparing the percentage of stocks to the lumber product in 1902 with the figures of previous years. For nine years beginning with 1894 the average stock carried at the mills at the end of the year was 54½ per cent. of the year's product. At the end of 1902 the stock at the mills was only 40 per cent. of the product of that year. The quantity on hand was 2,112,719,000 feet, a decrease of 275,000,000 feet as compared with 1901.

The shingle production in the states named was 1,665,757,000 in 1902 and 2,471,627,000 in 1901, and the stock on hand 397,811,000 and 345,545,000 respectively for the two years. The quantity of lath produced was 1,467,017,000 in 1902 and 5,267,166,000 in 1901, and the stock on hand 495,176,000 and 386,048,000 respectively.

Statistics of hardwood show a remarkable reduction in the quantity of stock on hand. In 1901 711 mills reported a production of 790,592,000 feet, with a stock at close of the year of 422,376,000 feet. In 1902 621 mills reported a production of 730,315,090 feet and a stock on hand of 256,622,000 feet, are duction of 39 per cent. as compared with the previous year. This plainly illustrates the general situation in the hardwood market.

The production of northern hemlock was 1,277,814,000 feet in 1902 and 1,264,943,000 feet in 1901. The stock on hand at the close of the year was 441,634,000 feet, a decrease of over 130,000,000 feet as compared with the previous year.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber at Boston is still very quiet, though some improvement is noted in the inquiry. One order has been placed during the week for 125,000 feet matched spruce plank at a little above association prices. The supply in this market is not large, and promises to be still further reduced by the fact that some of the mills in eastern Maine have been obliged to shut down owing to the prevalence of smallpox among the mill hands. Some of the manufacturers have been obliged to return orders unfilled on this account. The quotations are: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13; bundle furring, $17.

Hemlock lumber is quiet but steady: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

Western pine lumber is very firm, with a fair demand and only a moderate supply: Uppers, 1 to 2 in. $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber holds very firm, especially for choice selections of flooring. Quotations are not changed: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $30 to $34; end-dried white maple, $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are steady at unchanged prices: Extra cedar, $3.50 to $3.55; clear, $3; second clear, $2.50; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

There is a firm market for spruce clapboards with a light supply and a moderate demand: Extra, $43; clear, $40 to $42; second clear, $37.50 to $38; extra No. 1, $30 to $33.

Laths are easier with a better supply: One and five-eighths inch, $3.35 to $3.40; 1½ inch, $3.20 to $3.25.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VIII. TORONTO, CANADA, JANUARY 28, 1903 No. 52

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in he current week's issue.

WANTED—1 INCH, 1¼ INCH AND 1½ INCH Soft Cork Pine 1sts and 2nds, also deal ends. Apply BOX 20, CANADA LUMBERMAN.

WANTED—A MAN CAPABLE OF RUNNING a house finishing factory, also a man capable of taking charge of finished lumber yard who can classify and swing lumber. Both men must be strictly temperate and first class in their line. Apply to W. CURRIE COMPANY, Campbellton, N. B.

WANTED--CEDAR SHINGLES

WE WISH TO CONTRACT THE OUTPUT of several mills manufacturing good quality of 16 in. or 18 in. Cedar Shingles, either or both lengths, all grades, or, if preferred, would take XXXX or Clears only in the 18 in. Season 1903. Address J. G. STRAIT & SON, Wolcott, N. Y.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE.

A QUANTITY OF ROCK ELM TO BE CUT this winter, prefer cutting it into timber 8 X10 or 10 x 12, any lengths. Apply to M.B., care CANADA LUMBERMAN.

WANTED—A MILL RUN OF FROM THREE to five millions of white pine to be cut to order. We are open to buy any kind of white pine lumber. Will contract for ten million white pine lath. Please write us. CANADA LUMBER MFG. CO., North Tonawanda, N.Y.

LUMBER WANTED.

FOR EXPORT DURING THE SEASON OF 1903, 40 to 50 carloads of 1" Soft Elm Lumber suitable for coffin boards stock. Will pay spot cash at any station in Canada. For prices and specifications address J. S. FINDLAY, OWEN SOUND

Wanted

A FIRST-CLASS FILER, FOR COMING season, commencing 15th April; circular saws used; highest wages paid for a good man. For further particulars apply to JAMES H. SANDERSON, Lumber Merchant, Prince Albert, Saskatchewan.

Rails and Cars for Sale

EIGHT MILES 30 LB. STEEL RAILS IN good order for relaying; Three Locomotives and Fifty Logging Cars, immediate shipment. For particulars apply to JOHN J. GARTSHORE, 83 Front Street West Toronto.

IMPORTANT SALE

A FARM, 9 7 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

WANTED

Young, hustling, vigorous English and French speaking Woods Superintendent. Must thoroughly understand economic timber and pulpwood logging and capable of handling workmen to advantage. High-class wages to high-class man. Don't apply if not entirely qualified. Address Box 114, CANADA LUMBERMAN.

Milling business in good agricultural centre Western Ontario, including Planing Mill and Sash Factory, with good lumber business in connection. Saw mill capacity 10,000 per day. Good feed grinding outfit with good patronage, 20 h.p high speed engine and 80 h.p. boiler all in good repair. A thoroughly going concern and a money maker. May may not include flax-mill with necessa machinery and electric lighting plant. Must be sold to close an estate Apply BOX 55, CANADA LUMBERMAN.

DOBIE & CO., THESSALON, ONT., ARE taking out a stock of Birch Lumber. Open for offers.

FOR SALE.

TWO MILLION FEET OF 1902 CUT Spruce, Birch, Hemlock, Maple and Basswood. 1000 M 16" Cedar Shingles XXX, C, B., and XX. Apply 175 Cooper St., Ottawa, Canada.

WANTED TO BUY.

BIRCH, MAPLE AND BASSWOOD LOGS or lumber for cash, delivered to Cincinnati. Address, R. E. BECKER CO., Cincinnati, Ohio. Correspondence solicited.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is not possible to chronicle an actual advance in prices of white pine, but from the standpoint of the manufacturer such a circumstance has transpired. By this statement is meant that the prices which the manufacturers have established as the basis on which to sell the 1903 production represent an advance on what was figured upon one month ago. These prices have not met the views of the buyers. Some are acceding to the demands of the manufacturers and contracting for their season's supply as nearly as it can be estimated; others are holding back and watching the situation with great interest. The situation is an interesting one, but it seems that the manufacturers hold the whip hand, particularly as their action is justified in a large measure by the increased cost of producing lumber. The average asking price of log run pine is perhaps about $20; for a specially fine lot of logs as high as $22 has been asked, but we have heard of no sales at that figure. The American buyers are an aggressive factor in the white pine market, and the competition thus engendered makes the position of the manufacturer a comparatively easy one.

The movement of hardwoods is large considering the supply and the season of the year. Dealers and consumers are anxious to increase their stocks and to arrange for a reasonable supply for the spring and summer, but it has been found difficult to make much headway in that direction. Higher prices are predicted before spring.

QUEBEC AND NEW BRUNSWICK.

There is a strong demand in the Eastern Provinces for all classes of timber and lumber. Our Quebec list this week has been advanced to correspond with the general appreciation in the value of square and waney timber. Doubtless the present winter's production will pass from the producer to the shipper at prices heretofore unheard of. Spruce deals are in steady inquiry. For delivery at St. John $15 per

thousand is being paid for a specification of 20 per cent. 11 inch, 45 per cent. 9 inch, and balance 8 and 7 inch. The statement of the St. John river cut published in another column indicates a lighter crop of logs in New Brunswick than last year. The market for New Brunswick cedar shingles is quiet, with a slight tendency towards weakness. The large manufacturers are holding out for $3.50 for extras on Boston rate of freight, but in some instances this price has been shaded about ten cents.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade of the western provinces continue to look for an unusually active season. Preparations are being made to meet the increased demand for lumber which will arise not only from extensive building operations but also on account of the steadily increasing number of settlers. A new wholesale list for white pine is about to be put into effect, which will show advances of from $1 to $5 per thousand. Dimension stock will be marked up $1 and finishing stock and selects $5. This advance will be general throughout the west so far as Canadian manufacturers are concerned. Representatives of United States mills who are now in Winnipeg are said to be cutting prices and refusing to act in harmony with the Canadian manufacturers.

UNITED STATES.

It is necessary to look beyond the movement of stock to discover the real strength of the lumber market. Trade is not particularly active, being restricted by the usual winter conditions. Prices, however, are surprisingly strong. At Tonawanda there has been an advance in Nos. 1 and 2 cuts, uppers, selects and fine common, with indications of a further advance as stock diminishes. In the Lake Superior district several sales of white pine have been made at prices about $2 per thousand above those which ruled one year ago. There is renewed agitation for an advance in the price of dimension stock, but no action is likely to be taken before the annual meeting of the Mississippi Valley Lumbermen's Association next month. Retail dealers in the Eastern States are believed to be carrying light stocks, and as soon as they become convinced that prices are not likely to decline an active trade may be expected. Hardwoods show no signs of depression. Since the first of the year they have continued to be in good demand. The feature is the strength of plain and quartered oak. In the Buffalo market the range for inch quartered white oak is $66 to $70. Maple has come into greater favor and is being used as a substitute for white ash, which is regarded as too high in price for general use.

The shingle market is stiff. Advice comes from Tonawanda that an advance of ten cents on white pine shingles has taken place, attributed to their growing scarcity at the mills. Lath is quoted in that market at $4 for No. 1 and $3.50 for No. 2, with 25 cents less for Norway.

GREAT BRITAIN.

The British timber trade has reached a partial deadlock, and very little business for the coming season has as yet been closed for North of Europe lumber. The prices asked by shippers have reached such a high level that importers decline to purchase. The latter claim that the condition of the trade does not warrant the advanced values. In respect to Canadian lumber the situation is much more favorable the advance being proportionately moderate. Representatives of Quebec shippers are endeavoring to establish an advance of 10 shillings per standard on last year's prices and have already closed some contracts on this basis. It is believed that no difficulty will be encountered in placing the entire stock of spruce at £9 10s and £9 c.i.f. for 3x9 second and third quality spruce respectively. The parcels of spruce per regular liners from St. John, N.B., are being sold on the basis of $7 10s. c.i.f. Prices of pine are correspondingly high, with little prospect of any drop in the market in the near future. At a recent aution sale in London both pine and spruce sold readily and brought fair prices. For 2x6 third quality spruce £7 was obtained, and for 2x5 £6 10s. Small lots of 3x11 third quality were taken at the high figure of £9 15s, and some fourth quality at £8 5s. Attention has been turned to spruce on account of the high price of Baltic whitewood. The Bristol Channel ports import annually a large quantity of 2x3, 2x4 and 3x4 whitewood, but this year much of it will be replaced by spruce scantlings, which can be purchased at £7 2s 6d or £7 5s c.i.f.

STOCKS AND PRICES.

It is understood that the Rat Portage Lumber Company will greatly increase their cut of lumber during the coming season.

The New Brunswick Government will offer for sale on February 4th a timber berth of 2 square miles on the east and west branches of Turtle Creek, the applicant for which is M. Dryden.

—The Dominion Government is asking for tenders by February 4th for a license to cut timber on Berth No. 323 lying to the west of Harrison Lake, in British Columbia, and containing 960 acres.

Jobbers at Buffalo quote dry elm staves at $8.50 to $8.75 for first-class, basswood heading at 5¾ to 6 cents, and hoops at $10.75 to $11.25 for 5½ foot and $11 to $11.50 for 6 foot.

Lumbering in the vicinity of St. Martin's, N.B., is quite active. Townes & White are cutting for Carson Bros. Other operators in the vicinity include the O'Neill Lumber Company, Burchill Bros. and the Prescott Lumber Company.

The schooner "V.T.H." sailed last week from Annapolis, N.S., for the West Indies. The "Brigatine" is loading lumber at Bear River, N.S., the "Edward D" at Annapolis, and the "Aldine" at Weymouth, all for the West Indies.

The Steamer Pretorian sailed from St. John, N. B., on Monday last for Liverpool, her cargo including 400 standards of deals. The steamer Indreni sailed on same day for Glasgow with 125 standards of deals, 100 tons of pulp and other cargo.

William Whitmer & Sons, of Philadelphia, have discontinued the lumber yard which they have conducted on Tonawanda Island for some years. The remainder of their stock, about 1,000,000 feet of white pine, was sold to L.H. Swan & Co., of North Tonawanda.

It is reported that Moore, Keppell & Company, of Port Wing, Wisconsin, have sold the entire stock of their mill this year, amounting to about 17,000,000 feet of Norway and white pine, the purchasers being the Nicola, Stone & Myers Company and Potter, Teare & Company, of Cleveland, Ohio.

It is a significant fact that the market at St. John, N. B., for English deals is now quoted very firm at $14.75 f. o. b. vessel at St. John, which is a clear advance of from $2 to $2.50 per thousand over the ruling price of one year ago. Lath are quite steady at $3.20 to $3.25 for one and one-half-inch, and $3.45 for one and five-eighth-inch, Boston delivery. Clapboards are scarce and very firm at previous figures.

During the week ending January 17th W. H. Gilbert of Duluth, Minn., sold about 20,000,000 feet of log run lumber. As an indication of the advance, this stock brought between $17.50 and $18, compared with $16 for the same quality last year. The Red Cliff Lumber Company, Mitchell & McClure and others have also sold a considerable quantity of lumber at prices from $1.50 to $1.75 better than one year ago.

NEW BRUNSWICK CEDAR SHINGLES

Eastern cedar shingles are a trifle easier, though the large operators and shippers of standard grades are holding out for a basis of $3.50 for extras; it is admitted on all sides that this price is being shaded somewhat, though it is current belief in the market that shingle values will work back to a strong basis before the spring orders commence to come in. The logging operations in the north and east are progressing favorably, with a fair supply of snow at nearly all points for getting logs over to the streams. It is conceded that the input of logs will be limited only by the number of woodsmen which it is possible for the operators to secure for their crews. Up-to-date tbey have been seriously handicapped by the unusually small number of capable men available, but now that the water mills are all closed the mill employees have gone into the woods, thus materially improving the situation.

THE ST. JOHN RIVER LOG PRODUCTION.

The cut of logs on the St. John river and its tributaries in New Brunswick this winter will be less than last season. Last year 141,000,000 was rafted and came through the booms, and 10,500,000 was rafted below the booms. Of the cut of last year the logs were largely American. This year there will be more province logs than last. The estimated cut this year is 134,000,000.

The season has been very favorable and the men have been able to do good work. The estimate of the cut by the parties on the different streams is as follows:

	Feet.
W.J. Noble, Baker Branch	6,000,000
H. A. Atkinson, South West	5,000,000
John Kilburn, North West	7,000,000
J.A. Morrison, Depot Stream	3,000,000
Flavien & Chiounard, Black River	2,000,000
John Sweeney, Brown Bank	3,000,000
Clair & Leveque, Chimintook	4,000,000
Charles Jones, Little Black River	2,000,000
Neil McLean, Little Black River	1,500,000
Thos. Clair, new and old, Little Black River	4,000,000
John R. McConnell, Little Black River	6,000,000
Oliver Studdy, Little Black River	1,000,000
John R. McConnell, St. Francis	1,500,000
Holmes Morrison, St. Francis	6,000,000
Thomas Clair, St. Francis	1,000,000
W.H. Cunliffe Sons, Allegash	9,000,000
J. McAllister Bros., Allegash	3,000,000
John Stevens, Allegash	2,000,000
Sye Dickey, old logs, Allegash	3,000,000
Deucet Landry, main St. John	1,000,000
R.A. Estey, Baker Branch	1,000,000
Oliver Gavette, Madawaska	1,000,000
R.A. Estey, Rockway	4,000,000
James Lynch, Green River	1,000,000
Purvis & Murchie, Green River	2,000,000
Randolph & Baker, Grand River	4,000,000
Patterson Co., Salmon River	4,000,000
Hilyard Bros., Tobique	10,000,000
Tobique Mfg. Co., D. Fraser & Sons, Tobique	10,000,000
R.A. Estey, Tobique	3,000,000
Geo. T. Baird, Tobique	1,000,000
Price & Scott, Keswick	5,000,000
Smaller parties on main river below Grand Falls, hemlock, spruce, and hardwood	10,000,000
In addition to the above the St. John River Lumber Company will get out	7,500,000
Total	134,000,000

A representative meeting of lumbermen from different parts of Nova Scotia was held in Truro on January 21st. The object of the meeting was to place before the railway officials a petition for reduced freight rates for lumber. Messrs. E. Tiffin, general manager, and D. A. Storey, district freight agent of the I. C. R., were present, but could not make any definite promises to the lumbermen. A committee was appointed to draw up a petition, stating in full the request of the lumbermen, and to present it to the railway department.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, FEBRUARY 4, 1903 No. 51

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in he current week's issue.

For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

McEachren & Connor, lumber dealers, Alvinston, Ont., have dissolved partnership. The business will be continued by Mr. McEachun.

CURRENT TRADE CONDITIONS.

ONTARIO.

The situation in respect to white pine is becoming an interesting one. This week we chronicle an advance in the Ottawa quotations for several of the common grades, with more liberal buying than has been reported for some time. The hesitation of buyers which was in evidence in early January has given place to a strong desire to contract for stock at late quotations, but in some instances manufacturers are putting out new lists showing a substantial advance. The recent mild weather is responsible in part for the higher values. In certain logging districts the snow has almost entirely disappeared and efforts to get logs out of the woods have been abandoned, temporarily at least. Should these conditions continue for any length of time the result will be serious to lumbermen, most of whom have many logs yet to haul to the streams. Much higher prices for the season's cut of lumber may be expected in case there should be a shortage in the log input.

Many buyers are in the market for mill cuts. Some have conceded the demands of the manufacturers and closed contracts at $20 for log run. Others are still negotiating in the hope of making a better bargain. The price of log run, however, has become quite firmly established at $20 for logs averaging ten to the thousand feet and $22 for an average of eight to the thousand. The latter figure is by no means the maximum, as we are advised of the sale of an entire season's cut of log run at $30 f.o.b. rail of vessel Georgian Bay point. The particulars have not been learned, but it is safe to assume that the logs are exceptionally large and of excellent quality.

Hardwood lumber continues in good demand. There is very little bartering over price, the buyer usually being willing to accept the manufacturer's quotation whenever he finds suitable stock. The tendency of prices is upwards.

QUEBEC AND NEW BRUNSWICK.

There is practically no change in spruce lumber, which continues firm, with some manufacturers holding out for an advance in price. The cedar shingle market is still somewhat depressed. Some sales of extras have been made for Boston delivery as low as $3.35, with other grades in proportion. The current price, however, might be given as $3.40, at which figure the large manufacturers are endeavoring to hold the market. Opinions differ as to the future course of prices. Some dealers contend that the bottom has been reached for the present, while others hold tha

prices will go lower for the next month or two. The latter argue that the local yards throughout New England bought heavily in the fall on the belief that prices were going to be higher, and that they have now a large stock of shingles on hand. Further, the mills will probably make large cuts during the spring and summer. These conditions may bring about lower prices, bnt if they do they will be only temporary, as the demand will pick up shortly. Prices of New Brunswick shinges have doubtless been influenced by the recent break in Washington red cedars.

MANITOBA AND BRITISH COLUMBIA.

While the movement of lumber throughout the West is not heavy, dealers are figuring on large orders for the coming season, and the prospects are considered to be very bright for an active trade. Conditions generally are satisfactory, the only drawback being the policy of cutting prices which has been resorted to by representatives of Minnesota manufacturers. The new price list on white pine will shortly be put into effect.

If prospective building operations may be taken as the criterion of the lumber trade, the mills will be taxed to their utmost to supply the demand. Many new buildings are projected in Winnipeg, and in the country districts there promises to be considerable activity. It is announced that the North-West Elevator Company will build forty-one grain elevators throughout Manitoba and the Territories, at an approximate cost of $1,700,000. These alone will call for a large quantity of lumber. In British Columbia lumber and shingles are in good demand. A large quantity of lumber is being consumed in the construction of new canneries. Prices are steady.

UNITED STATES.

The only important news affecting white pine comes from Minneapolis, where there is a strong disposition to advance the price of dimension The situation in respect to that grade is especially strong, particularly in view of the advance made by the southern manufacturers, and at the Association meeting to be held on Febuary 17th, an effort will be made to advance the price at least 50 cents per thousand. All grades of white pine are firm and there is no doubt that the available dry stock will be required before the new cut is ready for the market. Buffalo and Tonawanda dealers are purchasing quite heavily in the vicinity of Duluth, prices being about as recently quoted. In the Buffalo market there is an increased shortage of cuts and better. The supply of 12 inch box is practically exhausted, having been used largely in place of No. 3 barn, which is selling at $23. There is every prospect of an active spring demand for white pine, with probably higher prices as the supply of dry stock becomes depleted.

Another week has brought increased strength to hardwoods of all kinds. At the annual meeting of the National Hardwood Manufacturers' Association, held in Cleveland last week, the prices of oak, ash, elm, poplar and other hardwoods were advanced quite sharply, but it seemed to be the opinion of those present that the advances were fully warranted by the conditions. With dry lumber it is not a question of price so much as where the stock can be found. Birch is a good seller and in light supply, while basswood has been out of the market for some time.

GREAT BRITAIN.

The timber market of Great Britain has been strengthened by the recent attitude of Scotch buyers, who are showing a desire to purchase quite heavily at current quotations. As a result prices of whitewood have been advanced at least five shillings per standard. In the London market there continues to be a deadlock between shippers and importers, and up to the present time a very small percentage of the North of Europe production has been placed. Representatives of Canadian shippers have been more successful, although some importers refuse to pay £10 for second quality spruce c.i.f., and £9 5s for third quality 3x9, which prices are being asked. They are endeavoring to force shippers to reduce these figures by at least five shillings per standard. There is, however, a just appreciation of the strong statistical position of Canadian pine and spruce, as in the last issue of the Timber Trades Journal we find the folliowng : "The position in Canadian woods and the sales made, perhaps, may throw some light on the position as regards other ports. Red pine, has been sold at £12 10s. c.i.f., and the advance in white pine is even greater. First quality ends and 7 to 10 in. have been sold at £22 f.o.b.; and the same percentage of advance applies to all other qualities and sizes with, possibly, the exception of second quality, of which sales have been made c.i.f. at £19 10s. for 11 inch, 12 to 16 ft., and £14 10s. for 7 to 10 in., 10 to 16 feet. Third regulars have been sold at £13 c.i.f. As the stock in Great Britain of red and white pine is probably at least 5,000 Petersburg standards short of what it was this time last year, and the stock in Canada is reported to be even lighter than the small stock wintering last season, the position would appear to be very strong." Birch Timber is strong, the average price at a recent auction sale being 20d for 14½ inch.

STOCKS AND PRICES.

In the Saginaw Valley maple logs are selling readily at $7 to $8.50 at shipping points.

A steamer cleared from St. John, N. B., last week for Barcelona, Spain, with, 1,650,000 feet of deals.

The sale is reported at Milwaukee, Wis., of 5,000,000 feet of log run basswood, to be cut this year, at $19 per thousand.

The Victoria Terminal Railway and Ferry Co., of Victoria, B.C., is in the market for 500,000 ties, 7 x 8 inches and 8 feet long.

The Department of Railways and Canals at Ottawa is asking for tenders up to February 10th for the supply of 1,500 cedar poles for the Welland canal.

It is estimated that the cut of logs on the Miramichi river, in New Brunswick, this winter will be about 117,000,000 feet, which is slightly less than last year.

According to the estimate of E. F. Stephenson, the Rat Portage Lumber Company sold 60,000,000 feet of lumber in Manitoba and the Territories last year, and the Keewatin Lumber Company 20,000,000 feet.

Under date of January 7th, Messrs. S. P. Musson, Son & Company say of the Barbadoes market: "There have been no arrivals since our last. The market is only lightly stocked with both white pine and spruce, and receipts of either will command full rates. We understand that our neighbors have tried to place another cargo of spruce on C. & F. basis, but we do not think they have done so up to the present time. There have been no receipts of shingles, but all that were imported for the Imperial Government contracts have been sold to one of the dealers." Current prices are as follows: White pine, $25.75 per M for first quality and $21.25 for second quality; spruce, $22.50 for first and $19.50 for second quality; Long Gaspe cedar shingles, $4.89 to $5.04; cedar laying, $1.82; spruce, $1.65 to $1.70.

BIRCH SQUARES AND SEATS

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.

The even tenor of the Ottawa lumber market has been broken, and the advance which was predicted in these columns before the New Year has made its appearance. This advance is unlike others of the past year, as it is confined to the plebian culls and other lower grade lines. Moreover, the advance is not confirmed to standing stock, it applies as well to next summer's cut, over which there is brisk bargaining, at least that part of it that has not already found a customer before it has left the tree. There's a lesson in this latest advance, and it would be well for all interested to take note. It furnishes proof, if further be necessary, that no break may be looked for in the lumber market before next autumn at the earliest. Jobbers are searching in all directions for future cut, and long before the saws commence their song the big end of the cut will be off the market.

A glance over to-day's quotations in THE LUMBERMAN tells the tale in figures more forcibly than words could do it. Pine good shorts, 1¼ in. and 1½ inch, have advanced to $28 to $30, the old figures being $24 to $28. Same stock 2 inch has advanced to $30 and $35 from $27 and $32. No. 1 dressing sidings pine, former quotations on which ran from $20 to $24 per M, are now placed at $24 to $28. No. 1 dressing strips pine are selling from $18 to $24, former figures being $16 to $20. No. 1 dressing shorts pine have advanced from $14 to $16 to $16 to $20. Shingles also show an advance, clear butt 18 inch pine selling from $2.25 to $2.40 and XXXX pine from $3.00 to $3.25 per M.

Railway officials and jobbers report an easier and better movement of lumber from Ottawa and Ottawa district points. Two causes are combined in this increased activity. In the first place the lethargy of the holiday season has given away to the activity of the first month of a promising year. Equally important and welcome is the freer offering of rolling stock. The Canada Atlantic Railway is not as heavily taxed by the grain traffic as it was during and immediately following the season of navigation, and it accordingly has more cars for the movement of lumber. The prospects for a brisk movement for many weeks to come are bright.

Jobbers have picked up several lots of lumber which failed earlier to secure purchasers for some reason or other. Building operations in many points in the States show increased activity, and this has given an impetus to the Canadian market, and in a measure induced an advance in prices.

All eyes are turned towards the limits, and reports therefrom confirm the statement that this will be a "big year." Thanks to the precautions taken by the Provincial Government and lumber operators, there has been no outbreak of smallpox which last year closed several camps and crippled others. While there is a scarcity of teams, this handicap in transportation facilities is offset by the frost and snow, which have made good roads.

While operations in the Temiscaming district are not as brisk as they were in recent years, there is a boom on in the neighboring Kippewa territory. Camps have been established in the latter by J. B. Grier, Montreal, Robert Anderson, Rideau Lumber Company, Edward Moore, Shepard & Moore and Hull Lumber Company, of Ottawa, and Alex. Lumsden and McLachlin Bros., of Arnprior. The output of square timber and logs promises to be as large as was predicted.

The Upper Ottawa Improvement Company is making active preparations for the assumption of the towing operations on the lakes and rivers of the upper country, but the season will be well advanced before the company will be in a position to assume control. Two steel side-wheel boats and a steel tug built in Toronto are now on their way to Temiscamingue, where they will be placed in shape for the water. A couple of alligator boats will be added to the fleet. When everything is in shape, the company will extend its operations from its present terminus at Des Joachims, near Pembroke, to the head of Lake Temiscamingue. Only the

movement of logs and pulpwood will be attended to. The shipment of freight and of passengers as heretofore rests with Mr. Alex. Lumsden, who formerly had charge of the towing operations as well.

Work is progressing favorably on Fraser & Company's new mill at Aylmer, Quebec, near Ottawa. This company has established a depot this season in the Pontiac district which was cut over several years since. The growth of timber in the last fifteen years, however, has been such as to warrant a resumption of operations.

Mr. Robert Hurdman, the veteran lumberman, is personally supervising operations on his limits in the Kippewa district as in past seasons.

Ottawa, January 31st, 1903.

LUMBER SUPPLY FOR HAMILTON.

Tenders are desired by February 17th for the annual supply of lumber for the city of Hamilton. The specifications are as follows: 3,000 feet 1 in. boards, 10 and 12 in. wide; 2,000 feet 2 x 4 in. scantling, 12 feet long; 10,000 feet 2 in. plank, 8, 10 and 12 in. wide, 6 feet long; 50,000 feet 2 in. plank, 8, 10 and 12 in. wide, 12 feet long; 15,000 feet 3 in. plank, 12 in. wide, 12 feet long; 25,000 feet 3 in. plank, 6 in. wide, 16 feet long; 40,000 feet 4 x 4 in. scantling, 12, 14 and 16 feet long (must be straight); 6,000 feet 4 x 8 in. timber, 12 feet long; 20,000 feet 4 x 12 in. timber, 12 feet long.

The lumber must be perfectly sound, cut from live pine timber, free from dead sap, wanes, dead knots and knotholes, and of full dimensions and evenly cut, and be delivered in the City Yard, Wellington Street North, as required and not later than June 15th.

HARDWOOD LUMBER PRICES.

The National Hardwood Manufacturers' Association of the United States, at its first annual meeting held at Cincinnati last week, made some important advances in the prices of hardwood lumber. The new list is to take effect February 10, 1903, and fixes the following prices, Ohio River points taking 19 cent rate to New York or ten cents to Chicago:

Ash—1sts and 2nds, 1 inch, $38; 1¼ inch, $40; 1½ inch, $40; 2 inch $42; 2½ and 3 inch, $45; 4 inch $49.50. No. 1 Common, 1 inch, $24; 1¼ and 1½ inch, $26; 2 inch $28.50; 2½, 3 and 4 inch, $31. No. 2 Common, 1 inch, $13; 1¼ and 1½ inch, $15; 2 inch $16; 2½, 3 and 4 inch, $17.50.

Plain White Oak—First and Seconds, 1 inch, $37; 1¼ inch, $39; 1½ inch, $40; 2 inch $41; 2½ inch, $47.50; 3 inch $50, 4 inch, $52.50. No. 1 Common, 1 inch, $26; 1¼ inch, $27, 1½ inch, $28; 2 inch, $29; 2½ inch, $35; 3 inch, $36; 4 inch, $37.50 No. 2 Common, 1 inch, $15; 1¼ inch, $16, 1½ inch, $17; 2 inch, $18; 2½ inch, $21; 3 inch, $23; 4 inch, $26.

Quartered White Oak—1sts and 2nds, ⅜ inch, $35; ½ inch, $42.50; ⅝ inch, $50; ¾ inch, $57.50; 1 inch, $64, 1¼ inch, $66; 1½ inch, $67.50; 2 inch, $68.50; 2½ inch, $70; 3 inch, $72.50; 4 inch, $75. No. 1 Common, ⅜ inch, $23; ½ inch $28; ⅝ inch, $33; ¾ inch, $37; 1 inch $42; 1¼ inch, $46; 1½ inch $46; 2 inch $47.50; 2½, 3 and 4 inch, $50.

Soft elm, $17.50; soft maple, $20.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

There has been a better demand for spruce lumber in the Boston market during the past week, principally yard orders, the dealers wishing to stock up against the spring trade. There is no change to note in quotations, prices being firm at: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13; bundle furring, $17.

Hemlock lumber is quiet but steady: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

Western pine lumber cotinues very firm, though prices are not further advanced. The demand is steady: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common. 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a firm market for hardwood lumber, with a good demand, especially for best flooring. Prices are unchanged: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $45 to $47; sap and common, $30 to $35; brown ash, $41 to $44; white ash, $43 to $46; maple, $30 to $34; end-dried white maple, $42; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are quiet and unchanged at the recent decline: Extra cedar, $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

Spruce clapboards are quiet, with a small supply and prices steady: Extra, $43; clear, $40; second clear, $37 to $38; extra No. 1, $30 to $33.

Laths are quiet but steady: One and five-eighths inch, $3.35 to $3.40; 1½-in. $3.20 to $3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, FEBRUARY 11, 1903 No. 2

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

BUSINESS NOTES.

Banbury, Gourlay & Banbury, lumber, Wolseley, N. W. T., have been succeeded by Banbury Bros.

A. Boughner, manufacturer of hoops and staves, Aylmer, Ont., has sold out to H. Balcomb & Son.

H. W. Hilliard, lumber dealer, Minnedosa, Man., is opening a branch at Clan William, Man.

The schooner "Joseph Hay" has been chartered to carry lumber from Weymouth, N. S., to Havana, at $5.75.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market, from the standpoint of the manufacturer, is all that could be desired. Prices are high and the demand good. Confidence is expressed universally that the coming season will witness a large consumption of lumber, perhaps sufficient to sustain the present strength of the market. The range of prices both for dry stock and the new cut is slightly wider than usual. For No. 1 cuts of last year's stock as high as $52 at the mill is being asked, while purchases have been made recently as low as $46. This discrepancy is accounted for in part by the different grading of mills. For 4, 5 and 6 inch mill run $20 is being asked, and for 8 inch $21. The price of 12 inch is nominal, as there is practically no stock that has not passed out of first hands.

The large number of entire mill cuts that have already been placed under contract is surely an indication of the great strength of the market. Dealers are evidently anxious to make arrangements for their season's supply in order that they may be in a position to meet the wants of their customers. The prices paid this winter for log run are, we believe, unprecedented in the history of the lumber trade. Interviews with a number of the leading manufacturers indicate that the range of prices for log run is from $19 to $25, with few sales above $22. It is learned that one operator is asking $19 for his logs delivered at the river bank.

Within the past month there has been an advance of $1 in the price of hemlock lumber, for which wholesale dealers are now paying $14 f.o.b. cars Toronto. Four stocks on the Northern Division of the Grand Trunk Railway aggregating over 3,000,000 feet recently changed hands at $11.50, which is the average price at the mills.

It is difficult to review the hardwood market. There has developed such a scarcity of certain dry stock that prices are largely in the hands of manufacturers. Such advances as have taken place, however, have been of a conservative nature. The outlook for the new cut is promising.

QUEBEC AND NEW BRUNSWICK.

Manufacturers in the Eastern Provinces are looking forward to a good season. Many of them have already sold a considerable portion of their estimated cut, and the price received has in most instances been above the average price of last year. The shingles market remains practically unchanged, although the price of $3.40 for extras is being paid more willingly by buyers.

UNITED STATES.

Another week of very satisfactory condition in the lumber trade has gone by. Any disappointment in regard to activity is offset by firm prices and sanguine expectations of a heavy spring demand. Prices at wholesale points are not yet in line with the prices at the mills, but are being steadily brought to that point. Our Albany list this week shows an advance of two dollars in 3-inch uppers and of one dollar in inch common, barn and box stock. Buffalo dealers are about to advance prices on new stock. Reports from that centre tell of a scarcity of box and Norway pine. Dealers have bought quite heavily in the Lake Superior district, especially of box and other low grades, as they believe that there will be an unusally good season and probably higher relative prices in these grades. The retail dealers of Cleveland have adopted a new list, it having been discovered that the quantity of inch No. 3 common boards in 6, 8, 10 and 12 inch was much less than was thought to have been in stock before the inventory was taken on January 1. In Chicago sentiment regarding the coming season remains good, the prospects for building operations being of the best. Retail dealers are buying freely at present prices, which they fear will be advanced in the near future.

The scarcity of stock is the one drawback to a larger movement of hardwood lumber. The demand is excellent and prices are gradually hardening. Some Michigan mills are asking $22 for log run basswood. Oak and birch will also be higher than last year. Mill prices for the three grades of maple are $20, $14 and $8.

GREAT BRITAIN.

The British market is exhibiting a little more life. Shippers and importers are getting closer together in their ideas as to prices, and some contracts have been closed. The movement of stock on hand is about as large as usual at this season of the year. There has been an improvement in the oak trade. For logs the asking price is about 1s. 6d. per cubic foot. First quality quartered oak boards, 1x6 inch, bring 3½d. to 3¾d. per cubic foot, and 1x4 inch from 2¼d. to 2½d. A large business has been done in plain oak, at prices ranging from 1s. 11d. to 2s. per cubic foot. Consignments of inch boards would probably find a ready market.

STOCKS AND PRICES.

In Toronto XXX British Columbia red cedar shingles are selling at $3.25 retail.

The city of Quebec is asking for tenders up to 18th inst. for the annual supply of deals and other lumber.

The Cleveland-Sarnia Saw Mill Company, of Sarnia, Ont., are taking out 20,000,000 feet of logs on the Spanish river.

It is rumored that the Cook & Bros.' Lumber Company, of Spragge, Ont., have sold the entire output of pine mill culls for the coming season. Ths price is given as $10.

It is reported that N. N. Wright & Company, of Cutler, Ont., have sold all the white pine lumber they will manufacture this season, which will probably be about 45,000,000 feet.

The South River Lumber Company are making extensive improvements to their mill at South River, Ont. Last season they cut 6,000,000 feet of lumber, and during the coming season expect to cut about 25,000,000 feet.

The Turner Lumber Company, of Midland, Ont., are reported to have sold all the lumber they will manufacture at Midland this season at an advance of $3 over last year's price. They have on the skids and hauled 10,000,000 feet of white pine logs of excellent quality.

At the Crown Lands office, Fredericton, N. B., a two-mile timber berth on Turtle Creek was sold last week to Mr. Dryden at the upset price of $8 per mile, and a two mile berth on Teague Brook, Gloucester County, to J. H. Barry at $364 per mile. The latter price is the highest ever paid to the New Brunswick Government.

Elm staves and basswood heading are strong and higher in price, while coiled hoops are lower. At Buffalo jobbers quote No. 1 elm flour barrel staves at $9.25 to $9.50; No. 2, $5 to $5.25; No. 1 basswood heading, 5¾ to 6 cents; No. 2 3¾ to 4 cents; coiled hoops, $10.25 to $10.50 for 6 foot, and $10 to $10.25 for 5½.

As pine values have been hardening throughout the winter, hemlock has also strengthened considerably, although not in proportion. There is a fairly good supply of hemlock in the Chicago yards, and while demand has been excellent through the winter, there is still a good assortment left for spring trade. The prospects are that there will be a large cut of hemlock logs in the northern forests this winter and a correspondingly good supply of lumber at the mills next summer, but in view of the great scarcity of pine it will probably all be needed to replace that wood. Hemlock manufacturers are therefore counting upon an excellent demand the coming season. Of late prices have been rather irregular, but a meeting of manufacturers is to be held at Milwaukee on Tuesday of next week and doubtless more uniform quotations will be attained when the manufacturers get together and find out what their brethren are doing.—American Lumberman.

LUMBER EXPORTS.

The United States government has compiled a statement showing the imports of lumber from British North America for the calendar year of 1902, the greater portion of which was received from Canada. The leading items are as follows:

	Feet.	Value.
Logs and round timber	80,901,000	$ 693,053
Boards, planks and other sawed lumber	734,665,000	10,6655,137
Shingles, pieces	763,673,000	1,532,292

The quantity of lumber exported from Canada last year was greater than any previous years excepting 1896 and 1897, when the exports were 786,001,000 feet and 883,770,000 feet respectively. The value of exported lumber, however, was the highest in the history of the trade, this being due to the increased value of white pine lumber.

STATISTIC OF PINE STOCKS.

The Bureau of Grades of the Mississippi Valley Lumbermen's Association and the Wisconsin Valley Lumbermen's Association have compiled a stock sheet of the pine lumber held by manufacturers and wholesalers in the St. Croix, Mississippi, and Chippewa Valleys, Northern Minnesota and tributary districts on the first day of January of this year. The total stock aggregates 1,147,946,863 feet, as against 1,156,113,758 feet for the year before, and 1,404,187,209 feet on January 1, 1901. It will be seen that the stock of lumber on hand varies but little from the previous year. This remark also applies to shingles, but there is a considerable increase in the quantity of lath. Notwithstanding the larger consumption of lath in building during the past year the production seems to have been greatly accelerated and stock on hand at the beginning of the year is nearly twice as large as it was a year ago and about a sixth larger than on January 1, 1901.

Some of the most interesting details are given below, the quantity of lumber being in feet b.m.:

MILL AND WHOLESALE STOCKS IN MISSISSIPPI VALLEY AND TRIBUTARY DISTRICTS.

CANADIAN LUMBER SHIPMENTS.

From St. John, N.B.: Steamer Alcides, for Glasgow, 10,000 ft. oak lumber, by Schofield & Company; 1524 bundles box shooks, by Haley & Son; 163,262 feet deals, 4,038 feet ends, by Donald Fraser & Son. Steamer Salacia, for Glasgow, 16,748 feet pine plank, 30,417 feet spruce plank, by A. Cushing & Company; 69,934 feet deals by Donald Fraser & Sons; 169,530 feet deals, 7,995 feet ends, by W. M. Mackay; 1,464 bundles box shooks, 1,661 bundles pine boards, by Schofield & Company. Steamer Lake Champlain, for Liverpool, 40 pieces of birch timber, 9,536 bundles of maple flooring, 1,039 pieces pine deals, 1,465 bundles shooks, by Troop & Son; 454,525 feet deals, 39,196 feet scantling, 58,913 feet ends, 2,000 feet boards, 313 tons birch timber, by W. M. Mackay; 1,530 bundles shooks, by A. Cushing & Co.; 5,907 doors by Troop & Sons. Steamer Numidian, for Liverpool, 163,541 feet deals, 40 pieces ends, by W.M. Mackay. Steamer Montfort, for Cape Town, South Africa, 12,000 feet deals, 146,000 feet scant ing, by Troop & Son.

LUMBER IN MANITOBA.

E. F. Stephenson, crown timber agent, Winnipeg, reports as follows on the lumber sold in Manitoba during the 12 months ending June 30, 1902. From careful compilation it is found that the following quantity of lumber was disposed of, principally in Manitoba, during the year, the sales having been effected by the following manufacturers:

	Feet, B.M.
The Rat Portage Lumber Company, Rat Portage	60,000,000
The Keewatin Lumber Company, Keewatin	20,000,000
The Savanne Mills Lumber Company, Savanne	5,000,000
The Pigeon River Lumber Company, Port Arthur	10,000,000
Vigars & Co., Port Arthur	4,000,000
Wabigoon Lumber Co., Wabigoon	2,500,000
Mills in British Columbia	20,000,000
Mills in Manitoba operating on Crown lands under license	22,784,783
Mills in Manitoba operating on Crown lands under permit (approx)	5,000,000
Mills in Manitoba, cut on homesteaders' free permits (approx)	3,000,000
Sawn lumber imported from the United States	13,228,000
Total	165,512,783

An effort is being made to induce the lumber denlers in Manitoba and the Territories to purchase their spring supplies of lumber at once, so that the lumber can be delivered in good time. Canadian Pacific Railway officials have taken the initiative in this matter. They say that there will be a larger spring demand for lumber than is usual, owing to the large immigration which is confidently expected. The rail-

way company, according to the Winnipeg Commercial, is anxious to handle this lumber now, as later on, when the immigration rush starts, and especially toward the opening of navigation, there will be a heavy movement of traffic, and cars will then be very scarce. Lumber dealers have not been in the habit of placing their orders until April or May. Railway officials have been in negotiation with officers of the Western Retail Lumbermen's Association over this matter, and Mr. Isaac Cockburn, secretary of the Association, has made a trip through the ceuntry and personally interviewed many of the dealers. The retail dealers throughout the country, of course, object to ordering their supplies long before they require the stock for the accommodation of the railway, as this would mean that they would have to pay out the cash at once for the freight, and would also have to pay for the lumber one or two months earlier than usual. Negotiations are now in progress to try and arrange a basis by which the lumber can be ordered now without necessitating the payment of freight, etc., earlier than usual. The retailers are willing to place their orders now, providing they shall not be called upon to pay the freight before April 1, and the invoice for the lumber not to be dated earlier than April 1, the usual time to be given from that date. This would simply be following the custom of the mercantile trade in several lines, in which orders are shipped in advance, and the invoices dated some time later. Negotiations are being carried on mainly with British Columbia manufacturers.

A lot of lumber and shingles are brought into Manitoba and the Territories from Pacific coast and interior British Columbia mills. The haul is a long one, and the railway company does not want to send the cars away to British Columbia in the spring for lumber when they will be needed so badly in Manitoba, if the lumber can be carried now. Besides this, there are a number of cars at the coast which have gone out with grain and flour to Vancouver, and these could be employed to haul the lumber eastward. British Columbia lumber invoices are usually dated three months from date of purchase. If the manufacturers will agree to date April 1, three months, and the railway company will agree to wait two months for the freight, dealers will place their orders at once.

There is almost a certainty that there will be an unusually large spring demand for lumber, which, under ordinary weather conditions, will set in earlier than usual. The Commercial was only the other day shown a letter from a land corporation in the United States which will send a lot of settlers into this country, inquiring as to the supply of lumber in the district where the settlers will be located. Lumber dealers throughout the country should be prepared for this demand.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The saw and chopping mill of James A. Secord, at Thamesville, Ont., was completely destroyed by fire on Tuesday last. The loss, including logs stored, is about $2,500. There is no insurance.

HARDWOOD LUMBER.

The situation in respect to hardwoods is very clearly set forth by the Mississippi Valley Lumberman, from which we quote below:

Never have things looked so bright in the hardwood market as at the present time. The prospects are such as to arouse every dealer's enthusiasm. High prices are now asked for various kinds of hardwood. Everything indicates that prevailing conditions will continue all through the year and that prices may be even higher next winter than this if the consumption of hardwood lumber keeps up the way it has during the winter. Last year and the few preceding years conditions were just the reverse. There was too much lumber on the market, and this, with a demand that was not proportionate, resulted in prices that were altogether too low. But conditions have changed materially. The dry stock of hardwood lumber has almost entirely disappeared from the market. A heavy demand for green lumber has set in and the prospects are that if the demand keeps up at the present gait, not only dry but green lumber will be very scarce next winter. The call for hardwood lumber, considering the time of the year, is fairly good from the retail lumbermen and the factories, and everything points to an excellent business. Another new element in the hardwood market is the wholesaler himself appearing in the role of buyer. He foresees that the high prices now prevalent will continue throughout the year and everything tends to boost them even higher, so he intends to get in on the ground floor and is buying hardwood lumber wherever he can get snaps. The hardwood saw mills in the northwest are now operating, as is their custom, in the winter time, but they cannot possibly dry their cuts till late next summer. The consumers will either have to use the green article or go without. Hardwood prices are all the way from five per cent. to 25 per cent. higher than last year at this time. Most of the items in the hardwood market are extremely scarce, but there are a few that are in plentiful supply. But these are what are least desired by purchasers. Elm stocks are low and are bringing good prices. Birch is in poor demand and is only bringing fair prices. But owing to its well balanced stocks prices will advance some when the spring trade opens up. Quarter sawed oak both red and white is practically out of the market. The demand for basswood is strong but stocks are in a depleted condition. Hardwood logging operations in both the south and north are being curtailed by Dame Nature; in the south with too copious flows of rain, and in the north by the labor conditions, men preferring to work in the pineries unless offered higher wages as an inducement.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., have placed under contract twe-thirds of the estimated cut of lumber of this season.

ORDERS PROMPTLY FILLED

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber at Boston is in a little better inquiry, especially for frames, though as yet not many are being placed. There is a fair yard trade. Prices hold firm: Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13; bundle furring, $17.

Hemlock lumber is quiet, with prices unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

There is no change to note in western pine lumber, the market being firm with a steady demand: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $83; fine common. 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is firmer, with some grades higher. The market, however, is rather quiet, though indications point to an early and lively spring trade: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $49 to $55; sap and common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

Shingles are quiet and unchanged at the recent decline: Extra cedar, $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

Spruce clapboards are quiet, with prices steady: Extra, $42; clear, $40; second clear, $37 to $39; extra No. 1, $30 to $33.

Laths are quiet but steady: One and five-eighths inch, $3.35 to $3.40; 1½-in. $3.20 to $3.25.

WANTED

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, FEBRUARY 18, 1903 No. 3

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

WANTED—1 INCH, 1¼ INCH AND 1½ INCH Soft Cork Pine 1sts and 2nds, also deal ends. Apply BOX 20, CANADA LUMBERMAN.

WANTED, BLACK BIRCH LOGS IN SHORT lengths 9 to 12 inches in diameter. Address Box P., care CANADA LUMBERMAN.

WANTED—150,000 FEET OF 1 IN. SOFT Elm, log run, mill culls out, any lengths and any widths; would buy it either green or dry. Quote f. o. b. nearest station. Address, H. BOURGOUIN, 718 St. James Street, Montreal, Quebec.

FOR SALE

Two Stationary Saw Mills complete, capacity 10 to 15 M. per day, 40 h.p. Both are bargains at the price, $800 each f.o.b. either G.T. or C.P.R. Also one direct action Portable Mill complete, capacity 8 M. per day, now running in good location. Price $600. Terms cash and immediate possession given if mill remains where it is till spring. Address J. R. DUFFUS, BOX 156, Thamesville, Ont.

FOR SALE

Milling business in good agricultural centre Western Ontario, including Planing Mill and Sash Factory, with good lumber business in connection. Saw mill capacity 10,000 per day. Good feed grinding outfit with good patronage, 20 h.p high speed engine and 80 h.p. boiler all in good repair. A thoroughgoing concern and a money maker. May may not include flax-mill with necessary machinery and electric lighting plant. Must be sold to close an estate Apply Box 55, CANADA LUMBERMAN.

WANTED

Young, hustling, vigorous English and French speaking Woods Superintendent. Must thoroughly understand economic timber and pulpwood logging and capable of handling workmen to advantage. High-class wages to high-class man. Don't apply if not entirely qualified. Address Box 114, CANADA LUMBERMAN.

FOR SALE—A CIRCULAR RE-SAW AS good as new. J. KAUFMAN, Berlin, Ont.

WANTED—ELM AND ASH LUMBER 1¼" and 2", 8, 10 or 12 ft.; also Red Oak. Apply to LACHUTE SHUTTLE CO., Lachute Mills, Quebec.

WANTED—2X4 AND 2X6 HEMLOCK thoroughly seasoned, inch Birch, Black Ash and Chestnut. R.E. KINSMAN, 17 King St. West, Hamilton.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—WHITE WINTER CUT MAPLE, must be straight in grain, 1¼ inch, 1½ inch and 2 inch. Are open to place orders now. Apply Box 40, CANADA LUMBERMAN.

FOR SALE

VENEERS—SINGLE PLY OR GLUED UP stock. INTERNATIONAL LUMBER CO., LIMITED, Sault Ste. Marie, Ontario, Canada.

FOR SALE

SPRUCE SPILES, ANY LENGTH. HAVE also a large quantity of butternut, can cut to order. Apply FARLEY BROS., Hull, Que.

WANTED.

A QUANTITY 1"x6" DRY WHITE PINE and Spruce Strips, 12 feet lengths preferred, also one inch Spruce and Hemlock, random widths Box 44 CANADA LUMBERMAN.

FOR SALE.

WELL EQUIPPED SAW AND SHINGLE Mill, with all the limits and dams on river. Also about 15,000 spruce and cedar logs, cut this winter. For information address BOX 29, CANADA LUMBERMAN, Toronto, Ont.

LOOK HERE!!!

Do you want any small Bill Timber, Joisting or other Lumber? We can saw it for you on short notice. PINE LUMBER COMPANY, CARTIER, ONT.

WANTED:—TO MAKE A CONTRACT FOR next season's cut, whole output of a mill's cut, about 1,000,000 to 1,500,000 ft White Pine; would also take Hemlock, Birch, Cedar and Spruce; about 2,000,000 ft. in all. Also Black Ash wanted in carload lots cut to order. Freight rate not to exceed 13½c. to Berlin, Ont. J. KAUFMAN, Berlin, Ont.

WANTED—WE ARE ALWAYS OPEN TO contract for all kinds of hardwood lumber. Please state price F. O. B. your nearest station, quantity and quality of the different kinds you will have to sell during 1903. We also require a large amount of Dimension stuff, particulars of which will be furnished, on application, by the KNECHTEL FURNITURE CO., of Hanover, Ont.

LIMIT FOR SALE

A TOWNSHIP WITH GOOD RED AND White Pine. About 50,000 Logs now cut and a portion hauled Mill on the ground. Best shipping facilities. Location on C. P. R. main line. PINE LUMBER COMPANY, Cartier, Ont.

HARDWOOD LUMBER WANTED.

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

WANTED — BASSWOOD, COMMON AND Better, must be full inch, winter cut. Are open to contract for the season's supply. Apply Box 30, CANADA LUMBERMAN.

WANTED.

ONE AND A HALF MILLION OF MILL RUN, White Pine; also one million feet of Hemlock, cut to order. We are also in the market for 40,000 Cedar Fence Posts, 8 ft. THE BLONDE LUMBER & MANUFACTURING CO., LTD., Chatham, Ont.

FOR SALE.

TWO MILLION FEET OF 1902 CUT Spruce, Birch, Hemlock, Maple and Basswood. 1000 M 16" Cedar Shingles XXX. C, B., and XX. Apply 175 Cooper St., Ottawa, Canada.

WANTED—A MILL RUN OF FROM THREE to five millions of white pine to be cut to order. We are open to buy any kind of white pine lumber. Will contract for ten million white pine lath. Please write us. CANADA LUMBER MFG. CO., North Tonawanda, N.Y.

WANTED TO BUY.

BIRCH, MAPLE AND BASSWOOD LOGS or lumber for cash, delivered to Cincinnati. Address, R. E. BECKER CO., Cincinnati, Ohio. Correspondence solicited.

WANTED

Birch Ends in multiples of 16" lengths, size 7" x3" or 4". Lowest price for 200,000, to HEAL & SONS, LTD., Orkney St., Battersea, London, England.

IMPORTANT SALE

A FARM, 9 x 40 ARPENTS, WITH AGRIcultural implements complete; flour mill, modern door and sash factory, saw mill complete, shingle mill, planers; all these mills are operated by water power, and are situated on the river bank; booms; 16 miles of timber limits, of which 10 miles are well wooded with cedar and spruce; dams; camp with sleighs; horses, vehicles, saws, chains, cooking utensils, also private residence. For particulars apply to JOSEPH ROY, Riviere Blanche, Matane Co. Que.

FOR SALE

The undermentioned machinery at our Canoe Lake Mills, Algonquin Park, Ont.

One 750 h. p. horizontal slide valve engine 32" x48" cylinder, with new Nordenburg automatic cut-off governor, 1 large rope sheave 14' diam, grooved for 20 1¾" ropes, weighs over 20 tons, the driven 7' diam., includes tension carriages, track and rope complete, also one large tubular heater.

One 250 h. p. horizontal slide valve engine 18" x36" cylinder with new Nordenburg automatic cut off governor, 1 rope sheave 8' diam., grooved for 18 1" ropes, driven 40", fly wheel 12' diam., also 1 tubular heater.

One large double edger, 6 saws.
One 3-saw edger.
Two 2-saw trimmers.
One overhead 5-saw slash table.
One Lath Mill, Bolter and Equalizer.

One Twin Circular Saw Rig with 6 saws, Prescott steam feed cylinder 7" diam., 38' 6" long, with carriage and set works complete, shafting from 2" up to 8" diam., including boxes, couplings, and pulleys from 6" diam. up to 9'x27" face. Mitre and bevel gearing, wood and iron, paper and iron frictions, mitre, bevel and straight face frictions, sawdust and slab carrier, all sizes.

One large burner 35' diam., 80' high, with spark arrester, balcony and ladder, including grate and bearing bars complete.

One Double Combination Safe, outside and in, 32"x68"x51".

GILMOUR & CO.,
Trenton, Ont.

Canadian Forestry Association.

The Annual Meeting will be held at Ottawa on the 5TH AND 6TH MARCH. Subjects of special interest to the lumber industry will be considered. Members will be allowed single fare on railways. Further particulars may be obtained from the Assistant Secretary, R. H. CAMPBELL, Department of Interior, Ottawa.

FOR SALE CHEAP TO CLOSE AN ESTATE: planing mill, house, barn and office; always done good business; good point for retail lumber yard; good farming community; sell with or without the house. Apply to Estate of HUGH STEWART, Hagersville, Ontario.

FOR SALE

The undermentioned machinery can be seen at our Trenton Mills.

Four tubular boilers 40" diam., 12' long, 22-3" tubes, full fronts, stop and safety valve.
Three tubular boilers 40" diam., 15' long, 38-3" tubes, fronts and grate bars.
One 10"x15" horizontal engine.
One 5"x6" vertical engine.
One steam pump 8"x4"x9".
One double plunger pulley pump.
One single plunger pulley pump.
One tie machine with 2 inserted teeth saws, never was used.
One 2 saw trimmer for trimming ties, never was used.
One steam cut-off circular saw rig.
One 10 block shingle machine (Challener & Sons,) only used two seasons.
One shingle saw grinding machine (Challener & Sons,) only used two seasons.
One shingle bolter and sapper, only used two seasons.
One large double surface planer 26"x6".
One roller feed rip circular saw machine.
Four band saw carriage axles, vee and straight face wheels with Prescott offset.
One heading machine, can be either used for box lumber or for cutting barrel heading out of slabs.
One band re-sawing machine, nearly new, "Mershon Build"; bevel mitre and spur gearing; iron pulleys, various sizes; paper and iron mitre frictions; also a lot of rope sheaves, various sizes.
Six search-light dynamos, manufactured by the C. G. E. Light Co., Peterboro, 8,000 C. P., 50 volts.
Six iron poles and all wire connections.
Five reflectors.
Five vamps.
Five ammeters.
Five tighteners.
One 36" horizontal turbine water wheel, "Ross Pattern"; wrought iron case 7' diam. x 6' long; cast iron heads; draft tube 9' long; steel girder frame, also governor; the above water wheel only ran a few months under 54' head and is nearly as good as new.
One portable circular saw rig, can cut 30' long, including 2 43" saws.
One portable engine and boiler 20 h. p., 8"x14" cylinder, boiler 10' long, shell 3' diam., fire box 4' 4" x 2' 6"—33 2" tubes.
One pair dredge engines with drums, gears and housings on cast iron frame bed plate, cylinders 8" x 14".
One loco' fire box boiler for above; shell 42" x 12', with 51 brass ferruled steel tubes 2½".
One travelling crane and tracks, with boom 35' long.
One large waggon "Buffalo Make".
One heavy bob-sleigh with pole and neckyoke; a large quantity of chains, various sizes, also ¾" and ⅞" steel wire cable.
One upright boiler.
One fire box boiler 45, 2" and 2½" tubes; fire box 3' x 2½' x 6' on skids.
One horizontal engine 6" x 12" cylinder.
Two platform cars.
Five wheel road scrapers.
Six dump carts.
One 16" x 24" locomotive engine and tender complete in good running order.
One steam hammer, 1000 lbs., in good running order.

GILMOUR & CO.,
Trenton, Ont.

LOGS WANTED—BASSWOOD AND SOFT Elm, any size and length. THOMAS BROS., LIMITED, St. Thomas, Ont.

FOR SALE — LARGE QUANTITY BIRCH and Hemlock ; can be cut to order at short notice. CLARIDGE & HILLOCK, South River, Ont.

WILL REQUIRE ON THE OPENING OF Navigation Hemlock, Spruce and Pine Lumber, 1", 2" and 3", by the cargo. Address VIGARS & Co., Port Arthur, Ont.

WANTED.

I WOULD LIKE PRICES ON PINE MILL Cull Boards in car or car lots, delivered either at Battle Creek or at Port Huron. Write at once. L. B. CLAPP, Battle Creek, Mich.

WANTED.

AT ONCE, IN CAR LOTS, DRY SOFT ELM, 1", 1½" and 2", also 1" Basswood ; quote lowest price and grade of stock. Also party to cut and ship when dry 100,000 feet 1" and 1½" Soft Elm. Address TAYLOR & LOUNT, Markham, Ont.

For Sale.

PLANING MILL, SASH FACTORY AND Sawmill, with good lumber, etc., business in connection ; in good agricultural centre ; western Ontario ; 25 h. p. engine, 35 h p. boiler in good order , a good opening for a contracting building and general supply and retail business. Also a self-acting iron frame, shingle machines and jointer, pulleys and drive shaft. Satisfactory reasons for selling. Apply Box 600, care of CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

As each week goes by the lumber market gathers additional strength. In compiling the report of stocks of pine lumber on hand, the secretary of the Ontario Lumbermen's Association finds that the coarser grades have been disposed of more largely than was generally anticipated. The market will thus be in good shape to receive the new cut, and no decline in prices in anticipated during the next six months at least. There has recently been some heavy buying of lumber by American companies in the vicinity of Sudbury. Log run pine is held at exceedingly high prices. It is learned that the cut of a particular mill which recently changed hands at $30 was secured by a firm of Quebec exporters. Another lot of logs on the Georgian Bay running five to the thousand is being held at $35, this probably being the maximum figure that has yet been asked. For 1 to 2 inch uppers $72 is being asked by some manufacturers. Box lumber ranges from $13 to $16, the latter for 12-inch and wider. Dry mill culls are held around $12.

Owing to expensive logging, the production of hardwood logs this winter has been light, and it is probable that prices will gradually work higher. For elm, basswood, and ash logs $16 is being offered for delivery at the mill. Birch logs are worth about $15, and maple $14.

UNITED STATES.

Lumber conditions in the United States are steadily improving. The consumption, owing to severe weather, is not large, but the buying for future delivery has been heavy and indicative of a disposition on the part of dealers and consumers to arrange for the season's requirements as early as possible. Higher prices are predicted for box lumber. Buffalo is scarce of that grade, and at Ashland, Wisconsin, there is a tendency to advance prices beyond the current figure, which is the highest for some years. No. 4 boards are selling there at from $10.50 to $11.25 per thousand for next season's cut, and No. 5 boards at $6 to $6.50. Yard dealers in the Saginaw Valley predict that before April 1st prices will have advanced from 50 cents to one dollar per thousand. The lower grades have recently shown more strength than the upper grades, probably due to the fact that the advance in the price of the former has been less relatively than on the better qualities. An advance in dimension is in prospect. Norway lumber is growing in favor and has now reached a price where competition from southern pine is felt quite keenly. The latter is about $2 cheaper, and the question has arisen whether it will be possible to maintain the present price of Norway. With about 15 per cent. of 12 inch the average quotation is in the neighborhood of $14.50 There is a further improvement in hemlock, which is meeting with a large demand in the east. The North-western Hemlock Manufacturers' Association, at its annual meeting in Milwaukee last week, advanced the price of 2x4, 2x6, 2x8, and 2x10 in 16-foot lengths 50 cents per thousand. According to the new list the range on No. 1 piece stuff is from $10 for 2x4 in 8-foot lengths to $16.50 for 2x12 in 12, 14 and 16-foot lengths. Hemlock lath was reduced from $3 to $2.75.

Hardwoods are in excellent demand. For quartered oak $73 to $75 is easily obtainable in New York and $72 in Buffalo. Maple is slightly higher, especially thick cuts, of which the supply is very light.

GREAT BRITAIN.

The British timber market is exceptionally quiet for this season of the year. The tone is firm, although importers are strongly opposing the advance in prices that has been made by shippers. It is understood that sales of Canadian pine have been made at an advance of from 10 to 15 per cent. over last year's prices. The wintering stock is small, and dealers recognize that it may be absolutely necessary to meet the demands of the shipper in order to secure the stock. As an instance of the strength of pine, $22 per standard was recently realized at an auction sale for a small lot of 7-inch first quality. For Quebec spruce shippers are asking £10 for seconds and £9 5s. for thirds c.i.f. London and Liverpool. This represents an advance of more than 10 shillings as compared with last year's figures, as a result of which less than the usual quantity of spruce has been disposed of. The conditions, however, favor the sellers, and it is believed that they will be successful in placing their stock at the higher values fixed upon. During the past two months the stock on hand has been considerably reduced. The feature of the square timber trade is the scarcity of first class waney pine, of which there is practically none in first hands. Birch and elm are in good demand.

STOCKS AND PRICES.

Taylor, Scott & Company, Toronto, are buying large quantities of first and second quality spruce boards.

Quotations on box lumber in car lots at Buffalo are as follows: White pine box, 12-inch, $20; white pine box, 6 to 12-inch, $17.50 to $19.50; white pine cull, $15; poplar shipping culls, $17 to $18; basswood shipping culls, $16.

By order of the underwriters 451,000 feet of spruce boards and scantling, now stored in the warehouse of the Halifax Dry Dock Company, is to be sold. Tenders will be received by H. D. MacKenzie, Halifax, up to 20th inst.

It is reported that the Michigan Land and Lumber Company, of Blind River, Ont., have sold their entire cut of logs running about 13 to the thousand at $22.25 f. o. b. vessel. The logs will be sawn by J. & T. Conlon, of Little Current.

The Shier Lumber Company, of Bracebridge, Ont., are taking out 6,000,000 feet of hemlock logs this winter. Their birch stock will probably not exceed 100,000 feet, whereas last year they cut 600,000 feet.

The Turner Lumber Company, of Midland, Ont., write us as follows: "We beg to call your attention to an item in your paper of February 11th, wherein it is stated that we have sold all of the lumber we are to manufacture at Midland this coming season, and makes mention of 10,000,000 feet of white pine logs of excellent quality belonging to this company. We have sold 24,000,000 feet to be manufactured at Midland, but still have unsold the 10,000,000 feet of white pine logs referred to, which are also to be manufactured at Midland. We have also sold 25,000,000 feet to be cut at South River. This is the 25,000,000 feet referred to in the same paper as the quantity which the South River Lumber Company expect to manufacture this season at their new mill. We have just contracted a large quantity of mill culls 4 to 11 inches in width at $11 f.o.b. rail of vessel here."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

"Not in the history of the local lumber trade has stock been bought up so close as it is for the mill cut of 1902," remarked a dealer to-day. "Everything in the better grades is off the market with the exception of a few odds and ends. While the stock is out of the hands of the manufacturers a portion is still offered for sale by dealers, but a small portion only. It is safe to say, moreover, that between one-third and one-half the mill cut of 1903 has already changed hands."

The above sums up the lumber situation in Ottawa and the Ottawa Valley as far as the yard end of the business is concerned. Good sidings, strips and shorts and shipping cull strips and shorts are out of the manufacturer's hands. The same applies to shingles, and lath are scarce. Present negotiations between manufacturer and dealer are on next summer's cut, and the Ottawa quotations on the market page represent the former's estimate of the worth of his future output. Movement of lumber is only fair this month.

Will the present season's cut of logs all be cleared before the break-up of winter? This is the question that is agitating the lumber mind. Amongst Ottawa operators it is the impression that the first week in March will see a cessation of teaming operations that will compel the mill men and others, reluctant though they may be, to leave part of their log cut on the limits over another year. There is plenty of snow, but the ground beneath is free of frost, and the first spring rains will play havoc with the roads. Reports show that early snow-falls prevented the ice on the lakes and rivers attaining the usual thickness, and an earlier break-up than usual may be expected on water. Moreover, teaming has been retarded, as the log loads on account of the uncertainity of the ice have had to be reduced. The different firms report the loss of teams almost weekly on this account. The writer while in Pembroke this week made enquiries and learned that the logs cut along the Petawawa will probably all be taken out before the "break-up."

An old and experienced lumberman who returned from the Kippewa district to-day said that the predictions of an early spring would fall flat. "I never saw two early springs in succession yet," he remarked, "and I would not be surprised if winter holds on till April. While the ice is not very thick, there is plenty of snow and teaming will be carried on for many weeks yet."

Ottawa lumber operators who are getting out square and waney timber now regret that the 10 per cent. selling advance made in the early part of the season was not increased to twenty per cent. Unforeseen difficulties have increased the cost of production fully thirty per cent. over former seasons, and a second advance may be looked for on future sales.

Trouble has been caused by the inexperienced class of labor placed in the camps by the Ottawa employment agencies, and desertions are of daily occurrences. It is said that some camps resemble rural public schools from the fact that youths are strong in number, particularly in the road-making squads. While more square timber is being taken out this season than last, the quantity forwarded to Quebec by water will be considerably less. All the square timber being manufactured in the Kippewa district will be forwarded by rail, a branch of the Canadian Pacific making such a means of transportation convenient.

From a reliable source it is learned that the production of pulpwood along the Ottawa and its tributaries will be one-third greater than it was last year. Early sleighing made the movement easy and the stock will probably all reach the rivers and railways before the snow goes. A large quantity of pulp wood is being taken out this season on the Canadian Pacific Railway branch between Sudbury and Sault Ste Marie. Considerable poplar is being secured on the line around Warren Station, where settlers are busily engaged clearing land.

The latest quotations on spruce and poplar pulp wood are $2.75 per cord, delivery being made at the railway.

OTTAWA, February 16, 1903.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THE GLASGOW MARKET.

Edmiston & Mitchells' Monthly Timber Circular reviews the Glasgow market as follows:

Business has been rather quiet during the month, but this is invariably the case at the beginning of the year, owing partly to the holidays and the fact that buyers are inclined to look into their stocks before making further commitments. A fair amount of business has been done in pitch pine and spruce deals, and there are also some transactions reported in Waney Boardwood. Prices continue to be well maintained all round, and the position of the market is healthy. Broad 1st pine deals and sidings continue to be enquired after, and the few shipments which come to hand from time to time via United States in all classes find buyers at satisfactory prices, while American Hardwoods are also in demand, and shipments are being well absorbed.

WHITE OR YELLOW PINE.—Business has been quiet during the month. There have, however, been a few good lines cleared in Waney Deckwood and F. A. Square Pine, 400 loads of the former and 7/800 loads of the latter having been sold. The prices are firm, and in view of the high prices asked by shippers are likely to continue.

RED PINE.—We hear of no sales during the month. Stock is small but ample.

OAK.—There have been a few enquiries, but no sales as far as we can learn. Stocks are fairly large. Prices are firm.

ELM.—There has been a fair enquiry for 1st class rock, and a few sales have been made at prices round about 3s. to 3s. 1d. for 9/1000 feet perpage. A few pages of soft elm have also been sold at about 1s. 3d. per cubic foot.

BIRCH.—Quebec logs. The stock on hand is now considerably reduced, and the comparatively small amount on hand unsold is being held for firm prices. 16 inch has been selling in retail lots at from 21d. to 22d., and 18 inch at 22s. "ex store." Lower Port.—The stock on hand is now practically exhausted, the balance of the old Pictou wood, which has lain so long, having been sold recently at 18d. for 15½ inch average. Planks—The position of the market is no stronger than it was, the stock of Lower Port being still heavy. Prices range from 10d. to 11d. per foot yarded.

ASH.—The market continues in a very lifeless condition, very little business being done, and only then at unsatisfactory prices. The stock on hand consists mostly of old timber, and of more or less indifferent quality. Prices, which are nominal, are round about 1s. 6d. for small wood, up to 2s. for 14 inch.

DEALS, ETC.—A fair amount of business has been done. Parcels of broad first pine deals and sidings arriving per liners via Portland, &c., have found a ready sale "ex quay" at enhanced prices. Spruce deals arriving via St. John have in most cases had to be stored, and prices are a grade easier. Current values are as under:—Broad first pine deals, £32 to £34; 11 inch, £28 to £29; ends and non-dimensions, £21 to £23. Second pine deals—11 inch and up, £19 to £21; ends and non-dimensions, £13 to £14 10s. Third pine deals—11 inch and up, £13 to £14 10s.; ends and non-dimensions, £10 to £11. Red pine deals—9 and 11 inch, £11 to £12; narrows, £8 10s. to £9 10s. First pine sidings—9 and 10 inch average, £22 to £24; 11 to 12 inch average, £25 to £26; 13 to 14 inch average, £27 to £29. Spruce deals—9 inch and up, £8 10s. to £9 10s.; 7 and 8 inch, £7 5s. to £8 5s. Lower port pine and spruce—7 and 8 inch, £7 to £7 15s.; 9 inch and up, £8 5s. to £8 10s.

Steamer Parisian, for Liverpool, 24,672 feet deals, 14,844 feet scantling, 54,571 feet ends, by W.M. Mackay; 6 tons birch timber, 1 ton ash timber, by George McKean. Schooner Abbie Keast, for Vineyard Haven, 700,000 laths, by Stetson, Culter & Company.

TRADE OPENINGS.

The following where among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 14th February, 1903. The names of the parties may be obtained from the publishers of this journal.

A London firm of wholesale and export cabinet-makers are desirous of being placed in direct touch with Canadian exporters of timber suitable for their trade.

A business house in Tunis is making inquiry for Canadian firms prepared to ship lumber, canned goods, &c., for which it is open to take up the agency.

TIMBER LIMIT TRANSACTIONS.

Henry Pedwell, of Thornbury, Ont., has closed a deal with the executors of the late Hon. G. W. Allan by which he becomes the proprietor of six hundred acres of magnificent timber land on the shores Kempenfeldt Bay, close to the town of Barrie, known locally as the Allan estate. The purchase price was $25,000 cash.

H. Gauvreau, of St. Sauveur, Que., has purchased Mr. Roger's mill and timber limits on Sixteen Island Lake for the sum of $20,000.

The negotiations for the sale to American capitalists of the timber property of E. D. Davison & Sons, Bridgewater, N. S., are about concluded. Messrs. Davison will continue to operate the lower mill and the Alpena mill until the logs in the stream are cut.

S. P. Benjamin, of Wolfville, N. S., has bought a half interest in tracts of timber land in the vicinity of Hamilton Inlet, Labrador, held by Wm. Muir, Andrew Muir, James A. Calder, and Hugh A. Calder. The price is understood to be in the vicinity of $100,000.

Dobell, Beckett & Company, of Quebec, have secured the contract for the supply of Canadian timber to the Imperial Government.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

There is an improved demand for spruce lumber for the yard trade in Boston. Frames especially are selling better and tending up. Trade is some hampered by the interruption to transportation caused by the recent severe snow storm in Maine. Prices hold firm : Ten and 12-inch dimensions, $21 to $22; 9-inch and under, $19 to $20 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $12 ; bundle furring, $17.

There is no change to note in hemlock lumber : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18 to $19 ; No. 2, $15 to $16.

Western pine lumber is firm with a fair demand : Uppers, 1 to 2 inch $84 to $87 ; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78 ; 2½ to 3 in. $84 ; 4 in. $83 ; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

There is a very firm market for hardwood lumber, though the demand is rather quiet still : Quartered oak, $63 to $75 ; plain oak, $42 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $49 to $55 ; sap and common, $38 to $45 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $33 to $37 ; end-dried white maple, $46 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50 ; elm, $29 to $31.

Shingles are steady and unchanged : Extra cedar, $3.35 to $3.45 ; clear, $2.85 to $2.95 ; second clear, $2.30 to $2.40 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2½ inches, $4.50.

Clapboards are very firm with only moderate offerings : Extra, $42 ; clear, $40 ; second clear, $37 to $39 ; extra No. 1, $30 to $33.

Laths are lower, with only a fair demand : One and five-eighths inch, $3.15 to $3.25 ; 1½-inch, $3.20 to $3.25.

WANTED

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, FEBRUARY 16, 1903 No. 3

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

Also a self-acting iron frame, shingle machines and jointer, pulleys and drive shaft. Satisfactory reasons for selling. Apply Box 600, care of CANADA LUMBERMAN.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Viewed from any standpoint, the lumber market exhibits exceptional strength. Buyers who deferred placing orders in the hope that prices might weaken have now entered the market, only to find that a large portion of the production of both pine and hardwood lumber has been contracted for. Manufacturers are experiencing no difficulty in obtaining the advance over last year's prices which has been fixed upon as the result of the higher cost of production. The buying of the new cut has not been confined to the upper grades, but has included the full range down to mill culls. On the north shore of the Georgian Bay an average grade of mill culls, with dead culls out, readily brings $10, while on the south shore similar stock is held at from $11 to $12. In the Sarnia district the price is $12, with an extra dollar for 10 and 12 inch. Norway lumber is a little stronger, and as the production this season is not likely to be large, a further improvement is expected. For 2x6 and 8 inch, 12 to 16 feet in length, $14 at the mill is asked. No. 1 pine lath is worth about $3.00 at the mill, and No 2 $2.75. There is steady buying of the new cut of hardwoods. Slightly higher prices are reported for basswood, but other classes remain unchanged.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is firm but quiet. Manufacturers have sold less than the usual quantity of deals for shipment to Great Britain, as European buyers have not responded to the increased price which it has been necessary to ask on account of the greater cost of production. The asking prices are £10 to £10 10s. c.i.f. for 11x3, and £9 for 9x3. Contracts are being closed almost daily for shipment to the United States and South America. A South American specification of 12 inch spruce, 12 to 16 feet in length, recently brought $20 for firsts and $18 for seconds.

Owing to the great depth of snow in the woods in New Brunswick slow progress is being made with logging operations, and it is estimated that the cut on the Upper St. John will be twenty per cent. less than was anticipated at the beginning of the season. In some districts there is over six feet of snow.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade of Western Canada are anticipating the season's requirements by purchasing heavily in advance. It is believed that the demand will tax the capacity of the mills to meet it. Several dealers in the North-West have recently visited the Coast and arranged for early shipments. Prices are firm and likely to be further advanced in the near future. The recent wholesale pine list shows an advance ranging from fifty cents to five dollars per thousand.

UNITED STATES.

There is no exception to the pronounced strength which characterizes the lumber market of the United States. The movement of lumber has been restricted in some districts by a scarcity of cars, but the buying has been none the less urgent. Dealers recognize that there is no probability of a break in prices at least before the spring demand is supplied, and by many it is predicted that there will not develop the usual midsummer weakness. Substitutes for the upper grades of white pine are being purchased to some extent, but the trade is not seriously concerned as to any inroads upon pine that may result from this source. A large percentage of the cut of the coming season has already passed out of first hands. In Chicago prices are strong and the stocks of dealers somewhat broken. Piece stuff is held at $17.50 f.o.b. Chicago. Buffalo dealers have a light supply of 2 inch No. 1 cuts, for which a price of $60 is predicted.

There is no accumulation at any point, the demand being sufficient to absorb offerings. Hardwood lumber shows improvement as each day passes. The dealers and large consumers are placing contracts freely with the mills, and while the outlook is for a large production, it is quite probable that the demand will keep pace with it. The stocks of dealers are so low that a large quantity of lumber will be required to restore them to their normal volume. In Chicago $35 is paid for inch firsts and second white ash. Thick maple is especially strong.

GREAT BRITAIN.

Reports from Great Britain are of a more encouraging character. Russian shippers, during a recent visit to London, held a conference to discuss prices; and it was predicted by importers that a general lowering of quotations would result. The reverse was the case, however, a decision being reached to strenuously maintain the present range of values. The effect of this decision has already been felt, several contracts having been closed at shippers' prices. The demand from Germany, France and South Africa has improved, and on the whole the outlook is much better than at last writing. Stocks of Canadian deals are moderate for the season of the year. Pine deals are held in strong hands, as it is realized that, in view of the high prices asked for new stock, it would not be wise to dispose of present holdings except at a fair margin of profit. A few large orders have recently been placed for spruce deals. Second quality, 3x9 inch, is held at £10 10s. per standard, and third quality at £10. Birch and oak timber meet with a heavy sale.

STOCKS AND PRICES

Cowan & Company, of Prince Albert, N.W.T., expect to take out 80,000 logs this winter.

George Shearer, of Truro, N. S., expects to cut 1,100,000 feet of spruce and hardwood lumber this season.

Tenders are wanted by March 1st for the supply of lumber required for waterworks purposes in the City of London, Ont.

James Sanderson, of Prince Albert, N. W. T., has 70 men in the woods and expects to cut 3,000,000 feet of logs this winter.

The timber limits formerley operated by Moore & Macdowall, of Prince Albert, N.W.T., are being worked this winter by a Mr. Telford.

Tenders for the supply of lumber for the Road Department of the City of Montreal will be received by L.O. David, City Clerk, up to March 5th.

The Toronto & Niagara Power Company, of Toronto, is asking for tenders up to March 2nd for the supply of 1,750,000 feet of dimension timber.

Job McFarlane, of Dover, N.B., and Chipman McFarlane, of Salisbury, have purchased a timber limit in Albert county and commenced operations.

The tender of H.S. Brennan & Sons has been accepted for supply of lumber for the city of Hamilton, at the price of $19.20 per thousand. McAllister & Thompson tendered at $19.70.

The City Council of Stratford, Ont., has accepted the tender of James Bennock for supply of lumber, at the following prices: 2x10 pine, $20.50 per thousand; 2x12, $21.50; 4x4 cedar, $15.50.

Matthew Doody, of Cobourg, Ont., recently cut 400 pieces of square timber on a farm near Peterboro. The timber is 20 to 80 feet in length and will be rafted to Quebec for export to England.

The Niagara Falls Power Company has purchased 3,000,000 feet of redwood timber to be used in construction work. It was purchased in California and is to be delivered at Buffalo by July next.

A timber berth of 2-½ square miles at the mouth of the Salmon river, in Queens County, N.B., will be sold by the Government at Fredericton, N. B., on Wednesday, March 4th. The applicant is W. E. Cadwallader.

The Waddle Land Company, of Regina, N.W.T., recently purchased 2,000,000 feet of lumber from manufacturers at Vancouver, B.C. The purchase price is given as $50,000. It is understood that the lumber is to be shipped to Regina immediately.

The Corporation of Chamby Canton, Que., requests bids by March 14th for supply of the following quantities of lumber, to be delivered by June 1st: 58,164 feet of first class spruce, 3 inches x 8, 9 or 10 inches (the whole of the same width); 478 stringers of first-class red pine, 4 inches x 12 x 18 feet long; 60 stringers of first-clsss red pine, 6 inches x 12 x18 feet long; 116 pieces of first-class red pine, 3 inches x 6 x 18 feet long.

Of the cooperage market Messrs. Sutherland, Innes & Company, of Chatham, Ont., say: "As fare as the market is concerned, anybody that has dry stock, No. 1 quality, can dispose of it readily, as there is a good demand for No. 1 dry stock. No. 2, of course, is slow at this season of the year, but no doubt will look up in the course of a month or so. It is just between the seasons now, so that very little can be said on the state of the market."

The annual review of white pine market conditions, compiled by the Mississippi Valley Lumbermen's Association, contains the following: There has been a decrease in the percentage of piece stuff during the year, due to the higher list on inch lumber. At the beginning of the year 1901 the percentage of dimension in the total stock on hand was 31.6 per cent. At the beginning of 1902 this was reduced to 28.6 per cent and at the beginning of this year the stock sheets show a percentage of 27.2 per cent. in the Mississippi valley. On the other hand, the increased percentage of low grade inch has been cleared up by a brisk demand which prevailed all the fall. There

has been an increase in the amount of No. 3 shop lumber on hand, and it has been suggested that the specifications of this grade be made a trifle more restrictive. There has been some further increase in the cost of manufacture. Operations in the woods this winter will be considerably more expensive than ever before. Features of supply and demand may make some readjustment of prices necessary during the year. We are independent with our upper grades, but should recognize the growing competition with yellow pine, hemlock and western lumber. There is an increasing percentage of low grade stock in each season's cut of northern pine, but the shortage of upper grades increases the call for the lower, and the condition corrects itself.

BRITISH TIMBER SALE.

Canadian deals, etc., realized the following prices at an auction sale held by Churchill & Sim, London, Eng., on February 12th:

PINE.—Ex. Everingham, from Quebec—15-16 ft. 3 x 11 in. third quality, £12 15s. per standard. Ex. TIMBER LIMIT TRANSACTIONS.

George McKeen, of St. John, N.B., is reported to have sold to a Nova Scotia syndicate his large timber property on the Nouville river, Quebec. The price paid was in the vicinity of $100,000.

James F. Kimball, a prominent lumberman of Medway, Me., Wilson Crosby, of Bangor, and others have sold to the William Richards Company, Campbellton, extensive timber lands situated in parish of Stanley and other parts of York and Northumberland counties. The price paid for these lands was $100,336.12.

Peter Ryan, of Toronto, recently purchased from C. K. Eddy & Sons, of Saginaw, Mich., eighty-three square miles of timber limits on Lake Penage, on the north shore of Lake Huron. The purchase price is thought to have been in the neighborhood of $1,000,000. It is reported that Mr. Ryan has since disposed of the limits to the Victoria Harbor Lumber Company.

A GOOD SALESMAN.

Messrs. Farley Bros., of Hull, Que., write: "Please discontinue our advertisement in CANADA LUMBERMAN of spruce p les and butternut lumber, as we have more enquiries than we can fill."

BIRCH PRICES IN ENGLAND.

A. F. & D. Mackay held an auction sale of birch at Liverpool, England, on February 6th, when 520 logs from St. John, N. B., were disposed of. The bidding throughout was brisk, and the average price realized was 20d per cubic foot for an average depth of $14\frac{7}{10}$ in. The following is the result in detail :

14	logs,	20 in. deep	and up....	30½d
10	"	19 and 19½	in. deep ..	22¾d
15	"	18½ in.	deep.....	22½d
18	"	18	"	21¾d
17	"	17½	"	21¼d
17	"	17½	"	21¼d
16	"	17	"	21d
16	"	17	"	21d

30	"	14½	"	17½d
36	"	14	" and under	17d
Balance of birch.....				20d
Maple, ash, elm, beech				15½d

In addition to the birch logs a parcel of Miramichi birch planks and St. John spruce boards were offered. The former elicited a bid of £6 2s 6d per standard, at which price they were withdrawn. No reasonable bid being forthcoming for the spruce boards they remained unsold.

CANADIAN LUMBER SHIPMENTS.

From Bear River, N.S. : Brigatine Bertha Grey, for Cienfugos, cargo lumber, by Clarke Bros.

From Halifax, N.S. : Steamer Parisian, for Liverpool, 120,559 feet deals, value $1,516. Schooner Palma, for Providence, Rhode Island, 117,847 feet boards, value $1,065,693,900 laths, value $1,005.

From St. John, N.B. : Steamer Lake Ontario, for Liverpool, 55,337 feet deals, 21,372 feet scantling, 185 feet ends, 199,574 feet birch plank, 3,127 1 foot ends, by W. M. Mackay, 1,660 bundles maple flooring, by Troop & Son. Steamer Lake Erie, for Liverpool, 493,552 feet deals, 110,742 feet scantling, 60,425 feet ends, 4,972 feet boards, 21,660 feet birch plank, 4,083 feet birch ends, 140 tons timber, by W. M. Mackay; 5,152 pine doors, by Troop & Son. Steamer Monterey, for London, 234,763 feet deals, by George McKean; 73,213 feet birch plank, 12,695 feet birch ends, by W. M. Mackay.

Mr. C. W. Spencer, general superintendent of the C. P. R., writes the Harbor Commissioners of Montreal that his company have been requested by a number of timber shippers who handle a large quantity of timber to transport it into Montreal instead of Papineauville, as heretofore. Arrangements have been made with Mr. J. Doran for rafting the timber from Montreal to Quebec. Mr. Spencer will be requested to furnish plans of what he requires, and he will be informed that no exclusive privilege has been given Mr. Doran to raft into Montreal.

GILMOUR & COMPANY, LIMITED
TRENTON, CANADA

THE BOSTON MARKET.

Both the mills and the trade in spruce lumber are hampered by the recent storms which have seriously interfered with transportation. Prices are easier on dimensions, but otherwise steady: Ten and 12-inch dimensions, $21; 9-inch and under, $18.50 to $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is steady at previous quotations: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18 to $19; No. 2, $15 to $16.

There is a very firm market for western pine lumber, with a fair demand for the season: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $83; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber continues firm with the demand rather quiet, except for certain grades of hard finish and flooring stock: Quartered oak, $63 to $75; plain oak, $42 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $49 to $55; sap and common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is no change to note in shingles, the demand being quiet at steady prices: Extra cedar, $3.35 to $3.45; clear, $2.90 to $3.00; second clear, $2.35 to $2.45; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2½ inches, $4.50.

There is still a very firm market for spruce clapboards, with both offerings and demand light: Extra, $42; clear, $40; second clear, $37 to $39; extra No. 1, $30 to $33.

Laths are quiet at the demand noted a week ago: One and five-eighths inch, $3.15 to $3.25; 1½-inch, $3.00 to $3.10.

WANTED

MESSRS JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MARCH 4, 1903 No. 5

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. I CAN USE ALL KINDS OF LUMBER, Shingles, Ties, Poles, Etc., I can place large or small tracts of timber and mining properties, etc. Your lowest price and terms with description solicited. Call on or address CHAS. S. WAKEFENCE, Wholesale Lumber, Etc., Watertown, N. Y.

FOR SALE

The undermentioned machinery can be seen at our Trenton Mills.

Four tubular boilers 40" diam., 12' long, 22-3" tubes, full fronts, stop and safety valve.
Three tubular boilers 40" diam., 15' long, 38-3" tubes, fronts and grate bars.
One 10"x15" horizontal engine.
One 5"x6" vertical engine.
One steam pump 8"x4"x9".
One double plunger pulley pump.
One single plunger pulley pump.
One tie machine with 2 inserted teeth saws, never was used.
One 2 saw trimmer for trimming ties, never was used.
One steam cut-off circular saw rig.
One 10 block shingle machine (Challener & Sons,) only used two seasons.
One shingle saw grinding machine (Challener & Sons,) only used two seasons.
One shingle bolter and sapper, only used two seasons.
One large double surface planer 26"x6".
One roller feed rip circular saw machine.
Four band saw carriage axles, vee and straight face wheels with Prescott offset.
One heading machine, can be either used for box lumber or for cutting barrel heading out of slabs.
One band re-sawing machine, nearly new; "Mershon Build"; bevel mitre and spur gearing, iron pulleys, various sizes; paper and iron mitre frictions; also a lot of rope sheaves, various sizes.
Six search-light dynamos, manufactured by the C. G. E. Light Co., Peterboro, 8,000 C. P., 50 volts.
Six iron poles and all wire connections.
Five reflectors.
Five vamps.
Five ammeters.
Five tighteners.
One 36" horizontal turbine water wheel, "Ross Pattern"; wrought iron case 7' diam. x 6' long; cast iron heads; draft tube 9' long; steel girder frame, also governor; the above water wheel only ran a few months under 54' head and is nearly as good as new.
One portable circular saw rig, can cut 30' long, including 2 43" saws.
One portable engine and boiler 20 h. p., 8"x14" cylinder, boiler 10' long, shell 3' diam., fire box 4' 4" x 2' 6"—33 2" tubes.
One pair dredge engines with drums, gears and housings on cast iron frame bed plate, cylinders 8" x 14".
One loco' fire box boiler for above; shell 42" x 12', with 51 brass ferruled steel tubes 2½".
One travelling crane and tracks, with boom 35' long.
One large waggon "Buffalo Make".
One heavy bob-sleigh with pole and neckyoke; a large quantity of chains, various sizes, also ¾" and ⅞" steel wire cable.
One upright boiler.
One fire box boiler 45, 2" and 2½" tubes; fire box 3' x 2½' x 6' on skids.
One horizontal engine 6" x 12" cylinder.
Two platform cars.
Five wheel road scrapers.
Six dump carts.
One 16" x 24" locomotive engine and tender complete in good running order.
One steam hammer, 1000 lbs., in good running order.

INTERNATIONAL LUMBER CO., Limited,
Sault Ste. Marie, Ontario, Canada.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.
There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.
Maps and plans and further particulars can be had by applying to
W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business of the past week has shown evidence of buying for the spring trade. Retail dealers have placed orders with the object of building up their stocks to a point which they consider will meet the heavy demand which is confidently looked for. In Toronto business was more active during February than in the corresponding month last year, all grades of pine and hardwoods being called for to some extent. Should there be an early spring still higher prices for lumber are looked for, as the building requirement will be large and the new cut of lumber will not be ready before June. By some an early advance in the price of shingles is predicted.

The weather of late has been favorable for logging operations, and a large in-put of logs is the result. There is no fear, however, as to a surplus of lumber, as American firms have recently bought very heavily. It is estimated that over 50 per cent. of the Georgian Bay production will find a market in Michigan and Ohio.

QUEBEC AND NEW BRUNSWICK.

Transactions in spruce lumber nave been quite heavy of late, and a large percentage of the production of deals has been contracted for. It is understood that the Charlemagne company have placed their first quality deals with a Liverpool firm at about ten shillings advance over the prices which ruled in 1902. Heavy transactions in waney and square timber have also taken place at enhanced values. The production of the Maritime Provinces has not sold so well, and some of the best cuts are still on the market. Manufacturers refuse to reduce their asking prices, however, which they claim are warranted by the cost of production. New Brunswick cedar shingles are still somewhat unsettled, although investigations go to show that prices are likely to be higher in the near future. Sales are being made around $3.40 for extras on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Indications point to a very active demand for lumber this year throughout Western Canada. The building season is opening early, and Winnipeg architects have plans under way for a large number of buildings both in the city and at provincial points. It is already questioned whether the supply of lumber will meet the demand, and for this reason higher prices seem probable. In British Columbia the removal of the United States duty on shingles is being discussed, but in our opinion such an action is not likely to be taken. The saw and shingle mills of the Coast are busy, with large orders booked in advance.

UNITED STATES.

The past week has witnessed more activity in the buying of lumber than has any previous week this year. Dealers have apparently become convinced that there is a shortage in the supply of lumber and that prices are not likely to recede. In the Duluth district there is a scarcity of many sizes of piece stuff, for which manufacturers are now asking $15 at the mill, whereas one year ago the price was $13.50. In Chicago there is a scarcity of 6-inch strips and 12-inch No. 1 boards, while the buying for box concerns has reduced the supply of No. 4 and 5 boards to a low point. Hemlock has recently come into much prominence by showing more strength in comparison than any other class of lumber. Cargo lots delivered at Chicago bring $12.50, the average price on the mill dock being about $11. Hardwoods continue to improve, the buying of the lower grades being a feature of late transactions. Maple is stronger and has advanced about one dollar. Manufacturers' quotations are $20, $12 and $8 for firsts and seconds, common aud cull respectively f.o.b. shipping point. The approach of spring has brought about more activity in shingles, with prospects of slightly higher prices.

GREAT BRITAIN.

Considering the nearness of the importing season, it must be said that much indifference is shown on the part of British importers in respect to placing contracts for their supply of lumber. The opinion is gaining ground, however, that the import of the coming season will be very moderate, and consequently more activity in closing negotiations may be expected in the near future. The position of Canadian pine and spruce is extremely firm. The Timber News reports a transaction at £34 per standard c.i.f. Glasgow for first quality broad pine deals, and £31 is asked for 11x3. For third quality pine £13 per standard for the usual specifications is being asked by shippers. Pine boards in shipping cull qualities have been disposed of at £11 to £11 10s. Red pine deals are in good demand, especially four inch thick, at about 10 shillings advance on the best figures of last year.

Shippers are asking £9 5s for 3 x 9 spruce and £8 10s for fourths, while for 7 and 8 inch of unsorted quality the asking quotation is £8. There appears to be a fair stock of fourth quality and cull spruce, and any advance that may take place this season will probably be confined to the higher grades. At a recent auction sale 3x9 third quality spruce brought £9 15s and fourth quality £9. These prices, it will be observed, are only 10 shillings higher than the quotations of shippers, and do not leave a reasonable margin of profit for the importer. First quality red pine at the same sale brought £15 15s for 1x9 to 14 inches, which is considered comparatively cheap.

The appreciation in square and waney timber continues. Prices have now reached 3s 6d to 3s 7d for first class 18 inch and 3s for second class 18 inch waney pine c.i.f. Liverpool. Oak is held at 3s 4d to 3s 5d and rock elm at 3s 1d to 3s 2d c.i.f. These prices are probably the highest ever known.

STOCKS AND PRICES.

David Lynch, of St. John, N.B., is in the market for 400 spruce futticks and crooks, 10 to 12 feet long and sided up to 11 and 12 inches.

Cameron & Company, of Ottawa, last week purchased 200,000 feet of hardwood lumber from the Estate of E. N. Hurtubise & Company, Aylwin, Que.

The contract for piles for the Ogilvie mill at Fort William, Ont., has been awarded to the Lake Superior Timber Company. The contract calls for 4,000 piles to be delivered in the spring.

J. & T. Conlon, of Thorold, Ont., have been given contracts for all the logs which they can saw this season by there two mills at Little Current. It may be found necessary to operate the miles day and night part of the season.

In Chicago last week a sale was made of 500 lard tierces at $1.15. In slack stock No. 1, 30-inch elm staves are quoted at from $8 to $8.50 and flour staves about $8. There is said to be a small margin between the raw material for cooperage purposes and the finished product.

The Dominion Government is asking for tenders up to March 25th for a license to cut timber on Berth Nos. 11, 12, 14, 15, 16 and 18, situate in the province of Manitoba, along the shore of Lake Winnipegosis. The limits comprise a total of 225 square miles and were formerly owned by thelate P. Kelly. The Government also desires tenders by March 18th for a license to cut timber on Berths No. 332 and 333 in province of British Columbia, the former containing 640 acres and the latter 23 square miles.

Four timber berths were sold at the Crown Dands office, Fredericton, N.B., on February 25th, as follows: Three square miles, south of Clifton Station, Caraquet River, to P. G. Mahoney, at $115 per square mile; four square miles on Portage River, Kent county, to R. O'Leary, at the upset price of $8; eight square miles on Polley's and Murphey's Creek, Kouchibougnac, and 10 square miles on Black River and Murphy's Creek, to R. O'Leary, at the upset price of $8 per mile.

Under date of February 14th, Messrs. Clairmonte, Man & Company say of the Barbadoes market: The arrivals with lumber during the fortnight have been small, and our yards are barely supplied. During our crop season, just commenced, there is always a good demand. Last sales for local use are as follows—White pine at $26. per M for first quality and $21 for second quality; spruce, $23.00 per M for first and $20 for second quality.—Cargo is to arrive from Bear River. Shingles—Gaspe long cedar, last sale at $5.04 to $4.89 per M; Cedar laying, last sale $1.82; Spruce Laying, worth $1.65 to $1.70. Cypress, sawn saps $3.80 for 6-inch, $3.50 for 5-inch, and $3.20 for 4-inch.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN).

Reports received from the lumber limits this week give every assurance of a late spring. Should this be a reality, log and timber hauling will not be interfered with. From the Kippewa Country, which is the banner scene of operations this year, comes reports of fear of further snow falls even at this advanced stage of winter. While there has been an abundance of the "fleecy" it has been light, and hence has not impeded operations. More snow, however, will certainly have this effect.

It looks as if the British bound square and waney timber will "reach its destination" much sooner this year than last. It is nearly all being taken out in the Kippewa district, and arrangement have

been made whereby it will be handled over the branch line of the C. P. Railway from Gordon Creek. At Papineauville, on the Ottawa river midway between Ottawa and Montreal, the bulk of the timber will be placed in the river and rafted for movement to Quebec City. By this rail and river arrangement the tedious all river trip from the limits to the seaport will be cut down considerably both as regards time and distance. The timber should reach the British market weeks if not months before the time of arrival of former years. This will be very desirable to both buyer and seller. The sooner the timber reaches Quebec the sooner the manufacturer gets his money. By the adoption of the rail route the timber will be saved the battering which was experienced in previous seasons in the all river route, a battering which meant a deterioration in value. Mr. Wm. Wade of Grenville, Que., a man of many years experience, will have charge of the rafting of the timber from Papineauville to Quebec.

Every stick of square and waney timber manufactured in the season of 1902-1903 has been sold at an advance ranging from ten per cent. in September to twenty per cent. later on.

Talk about advances in the value of lumber. A lot of good white pine logs were sold in Ottawa this week and the price was a dollar more per M., log measure, than the lumber in the logs would have brought three years ago after being sawn, seasoned and selected. However, when it comes to a matter of advances lath heads the list. In the last four years it has more than doubled in value, showing an increase of over 100 per cent. Four years ago No. 1 white pine lath begged buyers at 95 cents and $1.00 per M, whereas present quotations for the same stock—where it can be had, are $2.50 to $2.75 and even higher.

While the estimate on the portion of the mill cut of 1903 already out of first hands is placed at 50 per cent. it must be remembered that this applies to quantity only. When it comes down to a question of value fully seventy-five per cent. represents the part sold. This is accounted for by the fact that the demand for the high grade timber is, and has been, much better than for the medium and low grades, and hence has sold easier.

The 1903 output of the Ottawa district mills will, providing the movement of logs during the summer continues free, reach fully 36,000,000 feet, an increase of ten million on the figures for 1902. Every available log will be cut, for the high price of sawn lumber is a great incentive to mill activity.

The movement of lumber from Ottawa district yards to American points is quite active at present, but car scarcity is complained of. A local man who made a state trip through New York last week reports many inquiries for Canadian lumber. If the railway companies were in a position to move the lumber freely the activity would be even more pronounced than it is.

A local lumberman who returned this week from the Sault Ste Marie district states that the lumber activity thereabouts is unprecedented. Hardwood limits which went a begging a few years ago at $3 to $5 an acre are now selling at figures rang-

ing from $25 to $50 per acre. The increase in popularity of hardwoods for furniture, flooring and office fittings has given an impetus to the demand which in some sections is hard to fill.

The Ottawa lumber firms are already arranging for the movement of supplies for next year's camps. In previous years this was left to a large measure in the hands of the jobbers, but this year more than one firm, through with logmaking, has placed parties of men at work moving in supplies to the "stopover" stations, the idea being to take advantage of the river roads and sleighing.

Despite the fact that record wages were paid this year or rather as a natural result of this, the firms have had continuous trouble with their new men, who are either changing or throwing up jobs almost daily even at this late stage. The great drawback to work on the limits this season in fact, was the scarcity of high class labor, a problem that money failed to solve.

The Shepard & Morse Company have made extensive improvements to the Mason mill in the west end of the city. It is now one of the most up-to-date mills in the district. New edgers and setters have been installed, and one of the band saws has been changed to a double cutter. This mill will have a large output this year.

Work is progressing satisfactorily on Fraser & Company's new mill at Deschenes near Ottawa, and it is now expected it will be sawing lumber by Dominion Day.

Speaking about new mills it may be remarked that the first of the machinery for the new Booth mill at the Chaudiere is expected to arrive in Ottawa in a week or so. Until the heavier parts are installed work will not be proceeded with on the superstructure. The latter will probably be built of brick, although stone is spoken of.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber is in moderate supply at Boston, with some of the mills about completing the season's run. Prices are steady, with an improved tone to the market: Ten and 12-inch dimensions, $21; 9-inch and under, $18.50 to $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Pennsylvania hemlock is quoted 50c. higher; eastern is unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Hardwood lumber is generally firmer, with quartered oak and whitewood, advanced in price: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $51 to $57; sap and common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $29 to $31.

There is a steady market for shingles: Extra cedar at $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

There is a firm market for spruce clapboards, with both offerings and demand light: Extra, $42; clear, $40; second clear, $37 to $39; extra No. 1, $30 to $33.

Laths are quiet: One and five-eighths inch, $3.15 to $3.25; 1½-inch, $3.00 to $3.10.

Charles E. Beckman and C. A. Chisholm are about to build a saw and shingle mill at Vancouver, B. C.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MARCH 11, 1903 No. 6

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED.

QUANTITY OF 10 x 10 RED OR WHITE Pine, and White Oak 4x8 and 8x8, 10 feet long. A. BRYCE, 2 Toronto Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—IMMEDIATELY, THREE CARS 4/4 Black Ash, "common and better;" two cars 4/4 Maple, "common and better"; three cars 4/4 Birch, "common and better"; one car 8/4 Maple "common" or "mill run," all dry. For particulars apply to the KNECHTEL FURNITURE CO., Limited, Hanover.

WANTED.

I CAN USE ALL KINDS OF LUMBER, Shingles, Ties, Poles, Etc. I can place large or small tracts of timber and mining properties, etc. Your lowest price and terms with description solicited. Call on or address CHAS. S. WAKEFENCE, Wholesale Lumber, Etc., Watertown, N. Y.

WANTED

ABOUT 1,500,000 PIECES CYLINDER Sawn White Staves, 20⅜", 19¾", 18½", 17", 14½", 13¾", 12½" and 10" long and 3", 2½" and 2" wide and 7/16" thick.

75 per cent. in 3" wide.

Address Box 77, CANADA LUMBERMAN.

WANTED BY A LUMBER FIRM.

A FIRST-CLASS ENGINE OF 150 H. P., or two engines of 75 H P. each and a first-class boiler of 250 H.P. Mention prices for cash and when they can be delivered. Address: P. O. Box 619, Montreal.

FOR SALE

15,000,000 feet White Pine Lumber. 5,000,000 White Pine Lath.
A large portion of same is Cork Pine.
About 5,000,000 feet lumber already sawn and on sticks.
About 500,000 Laths already manufactured.
Mill now running. Location Sault Ste. Marie, Ontario.
22 feet water at loading dock.
For full information apply to the

INTERNATIONAL LUMBER CO.,
Limited,
Sault Ste. Marie, Ontario, Canada.

CURRENT TRADE CONDITIONS.

ONTARIO.

A visit to the lumber offices this week found everybody still taking a very hopeful view of the outlook for lumber. The general opinion is that prices are likely to remain near the present mark for some months yet. Reports from outside points are equally sanguine of a large demand and firm market. The demand has been accelerated during the past week by milder weather. Dealers who are fortunate enough to have any unsold stock on hand are making good profits, as the high prices asked for the new cut facilitate sales of old stock. The number of inquiries for lumber for manufacturing and building purposes is steadily increasing, and to meet the demand the retail dealers are buying quite liberally. A large per-

centage of the best grades of white pine has passed out of the hands of manufacturers, and of late a greater disposition has been shown by buyers to take the lower grades. Nearly three months will elapse before the new cut will be in marketable condition, and in the meantime there is certain to be a shortage in many items.

In some districts milder weather has put an end to the hauling of hardwood logs, although until recently operations were conducted under favorable conditions. The crop will not be larger than can be easily taken care of. Birch lumber is meeting with more favor and the stock is comparatively low. Elm and maple are steady, with some manufacturers asking an advance of one dollar over recent quotations. Hemlock continues to stiffen in price.

QUEBEC AND NEW BRUNSWICK.

The chief interest of the lumber trade of the Maritime Provinces is centred on logging operations. Throughout the greater part of New Brunswick the snow is so deep that great difficulty has been found in hauling logs from the yards to the landings, while in some sections logging operations have been abandoned altogether. A large operator says that yarding has ceased, with only 75 to 80 per cent. of the usual quantity of logs in. Teams are scarce and operators are paying 25 per cent. higher wages than usual for hauling to the landings. As a result of these conditions the logs will be secured at greatly increased cost, which cannot but have an appreciable effect upon the price of manufactured lumber. Buyers who have been holding off in the hope of obtaining price concessions are likely to find that in order to obtain the stock it will be necessary to meet the ideas of manufacturers.

MANITOBA AND BRITISH COLUMBIA.

The prospective activity in building operations in the West is regarded as very favorable to the lumber trade. In Winnipeg the year is expected to be the most active in this respect which has ever been experienced, and the same may be said of many western points. The demand for lumber is increasing and prospects are bright. The new white pine list for Winnipeg shows sharp advances in finishing material and smaller advances in other items. British Columbia lumbermen have booked large orders for heavy timbers and rough lumber for railway work, as well as for shingles. Some manufacturers fear that they will be compelled to refuse orders in the near future.

UNITED STATES.

The situation in the United States in respect to the purchase of mill cuts does not correspond with that in Canada. There has been less buying since the first of the year than during the same period for many years, although the strength of the market has been maintained. The prospects for a fair supply of lumber this season are good, and as the supply at wholesale centres is considered sufficient for the trade until the new supply is available, there have been few strong inducements to purchase heavily in advance. Nevertheless, those who have closed contracts acted wisely, as there has been a slight stiffening of prices. In some quarters a weaker market is anticipated later in the year, and some dealers are disposed to delay the closing of contracts in expectation of this result. Buffalo has a fair supply of white pine, but the stock of common and box is light. The high price of good pine has resulted in a larger consumption of the lower grades. Firmness characterizes the hemlock situation. In New York the price of the Pennsylvania product was last week advanced 50 cents, making the basis $17. In Buffalo the base price is $15.50, and in Chicago $14.50. There have been reports of a scarcity in the supply of Michigan hemlock. No change of importance has taken place in the hardwood market. There is really no stock at the mills, while the demand continues to expand. Some eastern manufacturers of maple flooring recently made a cnt in prices, but this has been adjusted and prices restored to the former basis.

GREAT BRITAIN.

It is difficult for anyone to forecast the immediate future of the British timber market. Compared with previous years very few contracts for the season's supply have been closed, as importers cannot see their way to pay the prices asked by shippers. They fear that the higher values will check consumption and are in hope that shippers will eventually make concessions. The high cost of new stock has strengthened the price of lumber on hand and made it comparatively easy to effect sales. First and second quality pine deals are in light stock and sell very readily. At recent auction sales high prices were obtained for spruce, second quality 3x9 bringing £10 5s. per standard and third quality £9 15s. It is predicted that £10 15s. and £10 will be reached under the hammer for second and third quality spruce deals before the arrival of new goods. Importers are holding back and hope to eventually contract for spruce at £9 10s. for second quality and £9 for third quality, 3x9, c. i. f. London. A few sales have transpired for third quality at a shade below £9 5s. c.i.f. There is a good demand for waney pine timber, but square is quiet.

STOCKS AND PRICES.

Robert Gass, of Shubenacadie, N. S., expects to cut 5,000,000 feet of lumber this season.

Graham, Horne & Company will supply the lumber required by the Corporation of Fort William, Ont.

At Cleveland, Ohio, the list price for hemlock piece stuff is $16 for 12, 14 and 16 foot, $17 for 18 foot and $18 for 20 foot.

J. C. Baker, of Richford, Que., has 80,000 logs at South Bolton ready to be rafted down the Missiquoi river in the spring.

Mr. McGinnis, of Rockland, Ont., has been awarded the contract of rafting the logs at Gatineau Point for the Hawkesbury Lumber Company.

The De Laplante & McBurney Lumber Company, of North Tonawanda, N.Y., have already purchased 38,000,000 feet of lumber to supply their trade of the coming season.

A two-mile timber berth on the Southwest Miramichi river below Doaktown, N. B., will be offered for sale at the Crown Lands office, Fredericton, N. B., on March 18th. The applicant is W. L. Tibbitts.

T. Prefontaine & Company have secured the contract for the supply of spruce planks required by the Road Committee of Montreal, at $30 per thousand. The Montreal Lumber Company will supply tongued and grooved white pine at $19.50 and rough white pine at $18. Tamarac floats will be furnished by G. A. Grier at $14.50.

The St. Croix Lumber Company, which recently purchased from T. G. McMullin, of Truro, N. S., a valuable saw mill and thirty thousand acres of timber land at St. Croix, Hants county, expect to market 6,000,000 feet of lumber this season.

At Ashland, Wis., all kinds of box lumber are high and cannot be had even at the prices asked, due to the fact that all of last season's cut has been sold and a large amount of the cut of this year contracted for at prices ranging from $10.75 to $11.25 for No. 4 boards and $5.50 to $6.50 for No. 5 boards. Some dealers claim that $12 for No. 4 boards will be reached this year. Lath are in good demand with a fair supply on hand, No. 1 white pine selling at $3.25 and No. 2 at $2.75.

At Buffalo there is a very firm feeling in slack cooperage stock. The supply is light and not likely to be large right away if ever, so that the producer and jobber find it necessary to hold firm, especially as they know that the limit has been about reached in substitute package until something new is discovered. The city demand for barrels is called light, though some of the shops are running pretty strong. Jobbers quote first-class dry elm flour-barrel staves at $9.25 to $9.50, first-class basswood heading at 6 to 6½ cents and coiled hoops at $10 to $10.50 for 6-foot and $9.75 to $10.25 for 5½-foot. Stocks are rather light here at present, but promise to increase steadily.

Secretary Mixer, of the Buffalo Lumber Exchange, has just completed the statistics of the lumber trade of that city for the past year and is able to make a fine showing. He finds that the lake receipts of lumber were 208,586,000 feet, an increase of 8,128,000 feet, and of shingles 188,068,000, an increase of 36,225,000. The rail receipts, all reckoned as lumber, were 155,563,000 feet, an increase of 23,663,000 feet. This total of 391,095,000 feet is practically doubled by the shipment of 389,638,000 feet to customers direct that did not come to Buffalo, making a grand total of 780,733,000 feet. The amount on hand at Buffalo at the beginning of the year was 196,707,000 feet, all reckoned as lumber, an increase of 6,406,000 feet. The increase in white pine was 11,578,000 feet, and there was a small increase in hardwoods but norway and hemlock fell off.

The Rat Portage Lumber Company have sold their retail yard in Winnipeg to Alex. Black, who will carry on the business in future. The company will confine itself hereafter to its wholesale trade.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

The Nova Scotia Lumbermen's Association recently held a conference with Hon. A. G. Blair, Minister of Railways and Canals, on the subject of freight rates lumber. As a result the Minister decide not to introduce the proposed increase on spruce, which was to go into effect on April 1st, but to allow the present tariff to remain as it is until August 31st in order to allow those who had made contracts to deliver them without loss on account of increased rates.

NEW BRUNSWICK SPRUCE.

The present f.o.b. quotations for spruce deals at St. John, N.B., are $15 per thousand feet for specifications of not less than 20 per cent. 11 x 3, 40 to 45 per cent. 9 x 3, and the balance 7 and 8 x 3. Concerning these prices the Timber News says: "These high figures are being considerably discounted by recent repeated sales at much less figures which are coming forward weekly to Glasgow, Liverpool, and the Manchester Ship Canal in 2/300 standard steamer lots, and being freely sold at £7 2s. 6d. to £7 7s. 6d. c.i.f. basis. A Halifax shipment of bright clean deals of fair specification was recently disposed of at Liverpool at £7 2s. 6d. per standard ex. quay; but, apart from this, some thousands of standards of St. John deals, largely 7, 8, and 9 x 3, have changed hands at £7 2s. 6d. to £7 5s. c.i.f. West Coast. From these results it will be apparent that only wide average 1st class shipments, including 20 to 30 per cent. of 11 x 3 deals, can have any chance, even with existing depressed freights, in bringing out anything like £6 f.o.b. Narrow widths, especially 7 x 3, are a heavy drug on the West Coast, and are being freely sold in retail quantities at £6 15s. to £7 per standard ex quay and yard. With no closed season and constant steamer arrivals, stocks are quite sufficient. A marked decline in the building trade, coupled with a fear-and-trembling policy amongst shipowners, prohibits the slightest chance of improvement in values within a measurable distance."

TIMBER LIMIT TRANSACTIONS.

The Rathbun Company, of Deseronto, Ont., are announced to have sold to A. Barnet, of Renfrew, a timber limit situated near Grand Lake, on the Upper Ottawa river. The limit is 75 miles in extent and contains a considerable quantity of white pine and other woods. The consideration was in the neighborhood of $50,000.

H. Lovell & Son, of Coaticook, have disposed of their timber property and mills located in the vicinity of Gaspe, Que. The property comprises 34,000 acres of timber lands, mills and all equipment. The price is $100,000. The purchasers are Americans, who are largely interested in pulp wood. The logs cut during the winter remain the property of Lovell & Son, but will likely be taken over by the new company in the spring at a price to be agreed upon.

Last week Alfred Dickie and John A. Gillis, of Lower Stewiacke, N.S., purchased the entire timber property of the Grand River Pulp & Lumber Company in Labrador. They are now the sole stockholders in this company.

Minnesota capitalists have purchased the timber property of the Fred Robinson Lumber Company, of Revelstoke, B.C. The transaction covers the mills at Revelstoke, Comaplix and Camborne, a shingle mill at Wigwam, stores and other buildings, with about 100 square miles of timber limits. The limits are situate on Fish Creek and the Columbia River and are mainly located in the Dominion belt. The new proprietors propose to increase the capacity of the mills.

TRENTON, CANADA

THE BOSTON MARKET.

The market for spruce lumber at Boston is firm, with more inquiry from yard men. The mills are nearing the time when many of them must shut down on account of the scarcity of logs. Prices are steady and unchanged : Ten and 12-inch dimensions, $21 ; 9-inch and under, $18.50 to $19 ; 10 and 12-inch random lengths, 10 feet and up, $20.50 ; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50 ; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50 ; 5-inch and up, merchantable boards, $17 ; matched boards, $18 to $20 ; out spruce boards, $13 to $14 ; bundle furring, $17.

There is no change to note in hemlock lumber, prices being steady with a fair demand : Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern ; Pennsylvania, No. 1, $18.50 to $19.50 ; No. 2, $15 to $16.50.

Western pine lumber holds very firm at unchanged prices : Uppers, 1 to 2 inch, $84 to $87 ; 2½ to 3 in. $92 to $97 ; 4-in. $96 to $100 ; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78 ; 2½ to 3 in. $82 ; 4 in. $84 ; fine common, 1-in. $67 ; 1¼ to 1½ in. $69 ; 2-in. $72 ; 2½ to 3 in. $80; 4-in. $82 ; barn boards, $23 to $33 ; coffin boards, $28 to $32.

There is a firm market for hardwood lumber with prices tending upward. The supply is getting smaller in the South-west : Quartered oak, $75 to $83 ; plain oak, $45 to $47 ; common and rejects, $20 to $25 ; red oak, plain, $43 ; whitewood, $51 to $57 ; sap and common, $38 to $45 ; brown ash, $41 to $44 ; white ash, $43 to $46 ; maple, $33 to $37 ; end-dried white maple, $46 ; birch, $27 to $30 ; birch, 75 per cent. red, $45 to $50 ; elm, $29 to $31.

Shingles are steady at the decline : Extra cedar at $3.35 to $3.45 ; clear, $2.85 to $2.95 ; second clear, $2.30 to $2.40 ; extra No. 1, $1.75 to $1.80 ; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60 ; 18-inch, five butts to 2 inches, $4.25 ; five butts to 2¼ inches, $4.50.

There is a firm market for spruce clapboards, with a light demand : Extra, $42 ; clear, $40 ; second clear, $37 to $39 ; extra No. 1, $30 to $33.

Laths are quiet : One and five-eighths inch, $3.15 to $3.25 ; 1½-inch, $3.00 to $3.10.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MARCH 18, 1903 No. 7

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

ABOUT 1,500,000 PIECES CYLINDER Sawn White Staves, 20⅜", 19¾", 18½", 17", 14½", 13¾", 12½" and 10" long and 3", 2½" and 2" wide and 7/16" thick.
75 per cent. in 3" wide.
Address Box 77, CANADA LUMBERMAN.

WANTED BY A LUMBER FIRM.

A FIRST-CLASS ENGINE OF 150 H. P., or two engines of 75 H.P. each and a first-class boiler of 250 H.P. Mention prices for cash and when they can be delivered. Address: P. O. Box 619, Montreal.

HARDWOOD LUMBER WANTED.

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED—A BURNER FOR SAW-MILL, about 24 ft. in diameter, by 40 ft. high, must be in good condition. Apply P. O. Box 23, Hamilton.

FOR SALE — LARGE QUANTITY BIRCH and Hemlock; can be cut to order at short notice. CLARIDGE & HILLOCK, South River, Ont.

WANTED.

QUANTITY OF 10 x 10 RED OR WHITE Pine, and White Oak 4x8 and 8x8, 10 feet long. A. BRYCE, 2 Toronto Street, Toronto.

FOR SALE

SAW MILL, LATH MILL, PLANING MILL, main line C. P. R., near Sudbury, Ont. Particulars on application to CHARLES MCCREA, Barrister, Sudbury, Ont.

FOR SALE.

3 Cars 1, 1¼, 1½ and 2 inch good White Pine.
3 Cars 2 and 3 inch Oak suitable for wagon works.
3 Cars 1 inch White Oak.
All been cut from 6 to 15 months.

S. S. MOOTE, Dunnville, Ont.

LIMITS FOR SALE CHEAP

59 SQUARE MILES ON THE BONNECHERE River for $10,000. Inspection invited at once. Also Mill and Water if desired with the limits at 4th Chute. JOHN KNIGHT. Renfrew P.O., Ont.

FOR SALE.

TWO PRESCOTT BAND MILLS, ONE RIGHT hand and one left hand, both in good condition; two second hand carriages, one right and one left hand; also the following shingle machinery: One Perkins shingle machine; one Boss shingle machine, jointers, edgers and packing boxes, one drag cut off saw, one slabber. Address HOLLAND & GRAVES, Buffalo, N.Y.

CURRENT TRADE CONDITIONS.

ONTARIO.

It would be difficult to conceive of conditions more favorable to the lumber trade than those which now exist. Lumber, whether white pine, hardwood or hemlock, practically sells itself. Dealers are booking large orders in advance of production and anticipate a steady trade throughout the year. In some instances orders for dry stock have been turned down on account of the scarcity in the supply of certain grades and sizes. There is no change to report in prices, for the reason that manufacturers as a whole are not taking advantage of every opportunity to boost values. Individual advances have been made on some lines, but the general policy seems to be to keep prices near the present basis and thus prevent, if possible, a curtailment in consumption. The outlook for building operations is favorable. In Toronto and Hamilton a number of large buildings are projected. In some quarters fear is expressed that labor difficulties may interfere with building to a slight extent, but on the other hand there seems to be a disposition on the part of employers to meet all reasonable demands. Considering the large percentage of the white pine lumber production of this province

which has already been contracted for by United States buyers, it seems certain that the demand this season will be large enough to consume all available stock. In sympathy with the United States market, lath prices are no more than holding firm. Shingles are exhibiting the usual strength incident to the approach of the spring season.

QUEBEC AND NEW BRUNSWICK.

The strength of the spruce market is due largely to the active demand for lumber for shipment to the Eastern States. Spruce has to some extent replaced white pine, and it is anticipated that more than the usual quantity will this year find a market in the United States. By some it is predicted that prices will advance sharply before the new cut is in shipping condition. European trade is still somewhat uncertain. Shippers are indisposed to pay the high prices asked by manufacturers until they are more certain that prices in the British market will be maintained. Some purchases of South American specifications have recently been made at good figures. Present indications point to an early resumption of sawing operations. With a continuance of favorable weather conditions logs will be in the brooks and driving operations started by the first of April.

MANITOBA AND BRITISH COLUMBIA.

Remarkable activity characterizes the lumber industry of Western Canada. The prediction is made that the mills will not be able to supply the demand, but it does not seem probable that a dearth of lumber will be experienced. The large number of new mills that have been erected in British Columbia would seem to be sufficient to supply the increased demand arising from settlement in Manitoba and the Territories. Some fear is expressed that building operations will be hampered by labor difficulties, the carpenters of Winnipeg having already submitted an ultimatum to the contractors notifying them of a demand for an increased scale of wages.

UNITED STATES.

A heavy demand from Chicago for low grade white pine boards has developed. Buying in the Minneapolis district has reduced the supply to such a point that box manufacturers fear a famine in dry stock suitable for their purposes. Reports from manufacturers indicate that they are short of almost everything except No. 1 and No. 2 boards. This somewhat unexpected demand for the lower grades has created additional confidence in market conditions and brought about a buying movement on the part of dealers. Inquiries for stock to be shipped upon the opening of navigation have increased in number, notwithstanding that prices are about two dollars higher than at the opening of navigation one year ago. It is claimed that prices at eastern wholesale centres are still low when compared with the figures asked by manufacturers. A Buffalo dealer gives the following prices at which he sells inch white pine: Uppers, $80; selects, $70; fine common, $58; No. 1 cuts, $42; dressing, $38; 12-inch No. 1 barn, $32; No. 2 barn, $27; No. 3 barn, $23; 12-inch box, $20. These prices are said to represent no more than a fair margin of profit.

The hardwood market is in a very satisfactory condition. Inch quartered white oak has sold at unprecedented prices. Basswood leads in point of strength and scarcity, followed closely by elm. Maple is in moderate supply only, thick sizes being quite scarce.

Lath is slightly weaker and offerings are more plentiful. In the Saginaw Valley No. 1 pine lath are held at $3.75 and No. 2 at $3.25. In Chicago quotations are $3.50 for No. 1, $3 for No. 1 Norway, and $3.15 to $3.25 for No. 1 mixed.

GREAT BRITAIN.

The deadlock between the shippers and the British importers still exists. Much less than the usual quantity of stock has been contracted for. It is considered only a question of a short time before sellers and buyers will come together, although it is difficult to judge as to which side will give way. The conditions seem to favor the shippers, and particularly in respect to the Canadian supply, which will be unusually light on account of the large demand at home and in the United States. There is no change to report in white pine deals. A considerable quantity of red pine deals, 3x9, 4x9 and 3 x11, have been placed for shipment from Montreal. The spruce market is steady. The stock of spruce deals in the Surrey Commercial Docks, London, is under half a million pieces. Agents of Canadian exporters are holding out for £9 15s c.i.f. London for 3x9 second quality spruce, £9 5s for third quality and £8 15s for fourth quality. It is reported that in one or two instances these prices have been shaded slightly, but this has been due to the inferior quality of the stock offered. At recent public sales second quality 3x9 spruce brought £10 5s, third quality £9 15s and second quality 3x7 £8.

STOCKS AND PRICES.

The Brompton Pulp & Paper Company took out about 12,000,000 feet of logs this season for their pulp mill at Brompton Falls, Que.

At Thomson Station, N. S., lumbering operations this season are unusually brisk. About 3,000,000 feet of lumber is now ready for shipment.

White pine shingles are held in the Saginaw Valley at $4.35 for XXXX and $3.25 for clear butts. White cedar 18-inch XXXX are quoted at $4 and butts at $2.75.

The Ontario Power Company, of Niagara Falls, Ont., is using California redwood for the construction of its penstock. It is estimated that 6,000,000 feet will be required.

Considerable logging has been done this winter on the Salmon river in British Columbia, and some 3,000,000 feet of logs are now awaiting high water for transportation to the Columbia River Lumber Company's mill at Kualt.

Reports from the lumber camps in the Riding and Duck Mountains of Manitoba are to the effect that the past winter was the most favorable for years for getting out logs. The number of men engaged in the camps was double that of other years, and the output of logs will be the largest in the history of the district.

O. E. Elsemore, of Bay City, Mich., has recently been in the Sudbury district and reports that the following quantities of logs have been banked on the north shore in Spanish River waters: Saginaw Lumber & Salt Company, 28,000,000 feet; N. N. Wright & Co., 30,000,000 ft.; Victoria Harbor Lumber Co., 10,000,000 ft.; Turner Lumber Co., 8,000,000 ft.; Spanish River Lumber Co., 12,000,000 ft.; Edmund Hall, 15,000,000 ft.; Holland & Graves, 25,000,000 ft.; Cleveland & Sarnia Saw Mills Co., 20,000,000 ft.; Moulthrop Lumber Company, 8,000,000 ft.

The Edward Hines Lumber Company, of Chicago, last week closed negotiations at Marinette, Wis., for the purchase of 80,000,000 feet of lumber, represented by two transactions. The first purchase consisted of the cut of the two mills of the N. Ludington Company, aggregating 50,000,000 feet of white pine lumber, 15,000,000 shingles, and 20,000,000 laths, the purchase price being approximately $1,000,000. The second purchase was the cut of the Marinette mill of the H. Witbeck Company comprising 30,000,000 feet of white pine lumber. These purchases comprise practically two-thirds of the combined output of the Marinette and Menomimee mills.

Under date of February 28th Messrs. Clairmonte, Man & Company say of the Barbadoes market: We note two arrivals with lumber during the fortnight, a schooner from Annapolis, N.S., with 173,000 feet white pine, spruce and hemlock, and a schooner from Belleveau Cove, N.S., with 160,000 feet spruce. The cargo of the former was sold to arrive at $26 for first and $21 for second quality white pine, and $23 and $20 for spruce. The cargo of the latter brought $22.50 for first and $19.50 for second quality spruce, and 28,000 long hemlock shingles brought $2.40. Our yards are still barely supplied, as during our crop season, just commenced, there is always a good demand. There has been no arrival of shingles since October. Last sales were made at $4.89 to $5.04 for Gaspe Long Cedar and are now worth more. Cedar Laying are selling at $1.82 and Spruce Laying at $1.65 to $1.70.

LUMBERING OPERATIONS IN NEW BRUNSWICK.

R. A. Estey, of Fredericton, has completed his season's operations on the Tobique river, also a successful season's work on the Rockaway, Madawaska county. Mr. Estey's season's cut will be about 7,000,000 feet.

Herbert Hay, of the firm of W. A. & J. H. Hay, of Millville, has just completed operations on the Beccaguimac river, where he cut 1,500,000 for A. H. Sawyer, of Hartland.

Josiah Hallett, of Millville, has finished his season's operations on the Nashwaak, where he cut 2,000,000 for the Alexander Gibson Company.

Hilyard Bros., of St. John, have taken out about 6,000,000 feet.

J. J. Hale, Donald Fraser & Sons, and other large lumber operators on the Tobique are already hauling supplies into their camps for next season and are experiencing considerable difficulty on account of the heavy condition of the roads. The Burns Company, of Bathurst, are hauling supplies through from the Tobique to the Bathurst river.

H. M. Craig, of Perth Centre, who has been operating for the Tobique Manufacturing Company, on Sisson Brook, cut 2,000,000 feet this winter.

TRADE OPENINGS.

The following where among the enquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 14th February, 1903. The names of the parties may be obtained from the publishers of this journal.

A London importer wishes to get into touch with a Canadian shipper of wood chimney pieces, etc.

BIRCH SQUARES AND SEATS.

A large buyer of Birch chair seats and of Birch squares is open to contract with a mill for their output. Also open for Broom Handles and Dowels in large quantities. Write in first instance to "Finance," care of CANADA LUMBERMAN.

THR HEMLOCK SITUATION.

Western manufacturers of hemlock, according to the American Lumberman, are reporting flattering conditions prevailing in the various departments of their industry and from all accounts the coming season promises to be one of the most active that the manufacturers have ever enjoyed. Dry stocks are exceedingly low and broken in assortment. Shippers are greatly bothered by the scarcity of cars, which, while annoying, should in a measure conduce to the strengthening of market values. The volume of sales is steadily increasing as the season advances, although operations are at a standstill in some sections owing to the bad condition of the country roads.

A manufacturer who has made a careful survey of the situation confidently predicts that there will be a substantial increase in the quantity of hemlock sold during 1903, which he thinks will be greater than for any year previous to this, estimating the expected increase at from 25 to 35 per cent. over previous seasons. He gives as a reason for this that stocks are already in favorable demand, that norway piece stuff is scarce and will continue so, and that the spread in prices is greater in comparison with other woods used for construction purposes than it has ever been since accurate data on the subject have been secured. Occasionally it is noted that some of those who are selling hemlock on a commission basis are able to find a soft spot here and there, but no particular attention is paid to this by the larger manufacturers, as they are able to dispose of their stocks without difficulty to the country trade at list prices, and the surplus, when any exists, is well cared for in Chicago and the larger markets. More hemlock is going into the country trade this spring than had been counted on and but for the temporarily low prices that are being made on yellow pine dimension hemlock would doubtless find no difficulty in reaching territory that heretofore has been regarded as a natural absorbent of the southern stock. Even as it is, hemlock distribution is steadily expanding through the western and middle states, and its position for future development is regarded as entirely satisfactory by hemlock manufacturers in all sections.

FIRES.

The saw mill of Higgins Bros. at Metcalfe, Ont., was destroyed by fire on March 9th. The loss is $3,000, with no insurance.

The shingle dry kiln of the Royal City Mills at New Westminster, B. C., was burned recently, together with a quantity of shingles.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

TIMBER LIMIT TRANSACTIONS.

It is announced that the Rat Portage Lumber Company has purchased the timber limits and saw mill of W. L. Tait at Vancouver, B.C., the consideration being $100,000.

H. M. Whitney, of Boston, and B. F. Pearson and H. J. Crowe, of Halifax, N. S., are organizing a lumber company to be capitalized a $2,000,000. The field of operation will be Newfoundland, where timber limits and saw mills have been purchased.

THE GLASGOW MARKET.

From Edmiston & Mitchell's monthly timber circular we extract the following: Business during the month of February has been fairly active at firm prices, and the few shipments of pine and spruce deals which came to hand via St. John and Portland were for the most part promptly disposed of from the ships' side. The position of the market as regards pine is very strong, and a fair amount of business has been done in contracting for delivery during the coming season, but in spruce there has not been the same activity, buyers not responding as readily to shippers' prices as in the case of pine. Sidings continue scarce, and are in active demand, and the same remark applies to broad 1st quality pine deals.

In American hardwoods a steady business has been passing, and values of poplar and quartered oak lumber continue firm, a remark which equally applies to good walnut and oak logs.

Deliveries from stock have been well maintained during the month, and everything denotes general activity in the trade.

The Clyde shipbuilding returns show that 29 vessels aggregating about 42,000 tons were launched, compared with 16 vessels, of about 41,000 tons, in February, 1902. In new work it is gratifying to state that several vessels have been placed within the past few weeks, and, now that the threatened strike has been averted, the prospects of this important industry are more satisfactory.

In housebuilding there is also considerable activity in the city and neighborhood.

WHITE OR YELLOW PINE.—Business during the month has been fairly active, and quite a number of big parcels have changed hands during the month. We hear of 80 logs 1st class waney, about 2300 feet per page, having been sold to a shipbuilder at 4s. 3d. per cubic foot; about 400 loads 2nd class waney, about 1200 feet per page, at 2s. 7d. per cubic foot; and 3-400 loads 1st class square, 40-feet average cube, at 2s. 7d. to 2s. 8d. per cubic foot. The stock of waney in first hands is low, but there is an ample supply of square wood.

RED PINE.—There have been no sales to report, as stock in first hands is exhausted. An early consignment of good-sized wood would meet with a ready sale.

OAK.—There has been very little enquiry during the month, and no transactions of importance. Stock is ample, and is moving off slowly.

ELM—There have been a number of enquiries during the month, and several lines of 1st class rock have been placed at prices round about 3s 1d to 3s 2d per cubic foot. We hear also of a parcel or two of soft elm having been cleared at 1s 3d per cubic foot.

BIRCH—Quebec — There has been no import so far this year of either logs or planks, but it is reported that there are some logs due shortly via Portland, which have been sold to arrive. The position of the market is firm, and values about 19d for 15-inch up to 2s for 17 to 18-inch average. There is little or no demand for small wood, but several enquiries for 16-inch average. Lower Port—There is no stock of logs on hand and the nominal value is round about 17d to 18d for 15-inch average. Planks—Stocks are heavy and prices are unaltered at about 11d per foot for ordinary Halifax planks.

ASH—There is nothing of importance to report, the only movement being an occasional retail transaction in logs and lumber. Prices are round about 1s 6d for 12½ inch up to 2s for 14½-inch average.

DEALS, ETC. — Business during the month has been of a fairly active character and deliveries from the public yards are well maintained. First pine deals and sidings are much enquired for, and those arriving per liners are keenly competed for by buyers. Current values are as under:—Broad First Pine Deals, £32 to £34; 21-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second Pine Deals—11-inch and up, £19 to £21 10s; ends and non-dimensions, £13 to £14 10s. Third Pine Deals—11-inch and up, £13 to £14 10s; ends and non-dimensions, £10 to £11. Red Pine Deals—9 and 11-inch, £11 10s to £12 10s; narrows, £8 10s to £9 10s. First Pine Sidings—9 and 10-inch, £24 to £25; 11 to 12-inch, £26 to £28; 13 to 14 inch, £29 to £31. Spruce Deals—9-inch and up, £8 15s to £9 10s; 7 and 8 inch, £7 5s to £8 5s. Lower Port Pine and Spruce—7 and 8 inch, £7 to £7 15s; 9-inch and up, £8 5s to £8 15s.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

Spruce lumber at Boston is firm with little change in prices, though higher prices are being asked on 9-inch frames. Some of the spruce mills have shut down, and there is less competition for trade. A good spring business is looked for. Prices are steady and unchanged: Ten and 12-inch dimensions, $21; 9-inch and under, $18.50 to $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is in fair demand, with prices firm and unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is still a firm market for western pine, with a good demand: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwood lumber is very firm, especially for quartered oak and whitewood. The supply is not large and the demand is good. Prices are firmly held at: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $51 to $57; sap and common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $45 to $50.

Shingles are steady, without change in price: Extra cedar at $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

There is a firm market for spruce clapboards, with a light demand. Stocks are very small: Extra, $42; clear, $40; second clear, $37 to $39; extra No. 1, $30 to $33.

Laths are quiet: One and five-eighths inch, $3.15 to $3.25; 1½-inch, $3.00 to $3.10.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, MARCH 25, 1903 No. 8

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

Address HOLLAND & GRAVES, Buffalo, N.Y.

HARDWOOD LUMBER WANTED.

3-inch Common and Better Soft Elm.
2-inch 1's and 2's Soft Elm.
Also all grades Ash, Basswood, Birch and Elm. Send us list of any hardwood lumber you have for sale.

BRIGGS & COOPER CO., LIMITED,
Saginaw, Mich.

From British Columbia comes the report of the following recent charters: British ship Bardowie, Chemainus, B C., to Capetown, lumber; British ship William Mitchell, Hastings, B. C., to South Africa, lumber.

CURRENT TRADE CONDITIONS.

ONTARIO.

The indications of an early spring have created a heavy demand for lumber for building purposes. Retail dealers who have been carrying light stocks in the hope that a decline in prices might result have suddenly entered the market and are accepting the seller's quotations. Such changes in prices as have taken place within the past week have been towards a higher level, although in no case exceeding one dollar per thousand. Most of the lists issued by manufacturers show very moderate changes. Box lumber is slightly higher. Several orders have recently been placed by United States firms, and these have absorbed a large proportion of the available supply. Culls are also moving freely at an average of $11 at the mill. Special bill timber is another variety that is in steady enquiry. There has been a further improvement in hemlock. On account of the light supply it has been comparatively easy to advance prices, and some sales have recently been made at $14 at the mill.

Of the hardwoods, plain red and quartered white oak lead in point of demand, the supply being insufficient to meet the wants of the trade. Basswood, elm and birch are also active. Mill men and dealers are holding for higher prices, and the indications are that their demands will be met by buyers. The supply of thick hardwood is unusually light.

The early break-up of winter has caught several operators. In the Ottawa Valley most of the saw-logs had reached the streams, but a considerable quantity of square and waney timber has been left in the woods. Saw-log operators in the Georgian Bay district have been less fortunate. On the French river and in Algoma hauling was in progress when the break-up occurred, and as the result many logs will not reach driving waters this year. Some disappointment is also expressed as to the small input of hardwood logs. While the lumbermen prefer to get all the logs cut out of the woods, the conditions that have arisen will have a beneficial effect upon the lumber market.

QUEBEC AND NEW BRUNSWICK.

Exceptional strength characterizes the market for square and waney white pine timber. For square pine, 40 to 45 feet average, prices at Quebec are 47 to 53 cents per cubic foot. First-class Ottawa waney of 18-inch average ranges from 58 to 63 cents, while for 19 to 21 inch average a maximum price of 65 cents is quoted. These figures represent an advance of 5 cents per cubic foot over the prices

ruling in the early winter. Spruce lumber has made no decided move. Buying of British deals is still restricted by the uncertainty which prevails as to the course of prices in the Mother Country, although shippers seem to be gaining confidence that in the end they will be able to obtain the prices now demanded. New Brunswick cedar shingles are steady at a range from $3.35 to $3.45 for Boston delivery.

UNITED STATES.

Developments of the past week have been in the direction of a firm lumber market. Buying for spring trade has been clearly in evidence, and on account of the short supply of certain sizes of white pine, some orders have been turned down by wholesalers. This applies particularly to long dimension stock. There is also a scarcity in the upper Lake Superior district of 16-foot boards, especially No. 1 and better. Throughout the Eastern States there is a most hopeful feeling. In some sections of Pennsylvania mill cull boards and No. 2 plank are in strong demand and promise to advance in price. Buffalo and Tonawanda have a light supply of box and barn boards. According to width, box lumber ranges from $15 to $22 and barn boards from $17 to $23. Our Albany list this week shows an advance in the price of 1 to 2 inch uppers, 2½ inch selects, 1 to 2 inch fine common, bracket boards, narrow dressing boards and 12-inch No. 1 barn boards.

All kinds of hardwoods are moving freely and the outlook for trade for several months seems to be promising. The situation in respect to prices is a peculiar one. Oak, cottonwood and cherry have advanced materially of late. There has been more activity in white ash and prices have stiffened slightly. Maple is in good demand, but it has been difficult to advance prices to a much higher basis. White and red birch, it will be observed, have been marked up $2 per thousand.

GREAT BRITAIN.

As far as the different reports can be weighed, the British timber market is exhibiting a little more confidence. The importers have not yet acceeded to the demands of the shippers, but prices of lumber on hand have improved. One circumstance assisting in this improvement is the number of inquiries that have been received for lumber for shipment to South Africa. Prices of pine deals have hardened and recently contracts have been closed for several shipments at an advance.

At a recent public sale prices of spruce showed a slight appreciation. For 3x10 third quality Quebec spruce £9 5s per standard of 1980 feet was realized. Several lots of 3x7 second quality spruce brought £7 15s to £8 per standard, and 3x6 third quality £7 5s.

A correspondent in Ireland advises that Quebec shippers are asking an equivalent to 85 cents per cubic foot c.i.f. for 17-inch waney pine. This price is being opposed by importers, who consider that it is higher than the conditions will stand, contending that consumers will use cheaper substitutes.

STOCKS AND PRICES.

The steamer Pawnee is loading deals at St. John, N.B., for the United Kingdom.

It is estimated that 100,000,000 feet of lumber will be manufactured at Midland, Ont., the coming season.

The Town Clerk of Glace Bay, N.S., has been instructed to secure prices for 500,000 feet of sidewalk plank

In the Chicago market No. 1 white pine lath are quoted at $3.50, No. 1 Norway and hemlock at $3, and No. 1 mixed at $3.15 to $3.25.

The City of Kingston is asking for tenders up to noon of 26th inst. for supply of 200,000 feet of pine plank and 40,000 lineal feet of 5x4 cedar sleepers.

The Department of Interior at Ottawa will receive offers up to April 8th for a license to cut timber on Berth No. 1,056 in the district of Alberta, containing 760 acres.

Tenders for a license to cut timber on Berth No. 335, in the Province of British Columbia, will be received by the Department of Interior at Ottawa up to April 8th. The area is 24 square miles.

H. Birtless, of Bradford, England, writes that 2,000 British settlers will locate in the vicinity of Battleford, N.W.T., this spring, and that there will be a demand for saw lumber and planed flooring.

From Buffalo comes the report of a slow movement of slack cooperage stock. Prices are firm, however. First-class elm flour-barrel staves are selling to consumers at $9.25 to $9.50; basswood heading 6 to 6½ cents, and coiled hoops $9.75 to $10.25 for 5½ foot and 10 to $10.50 for 6-foot.

At present dry stocks of maple, elm, birch and basswood, says the Chicago Hardwood Record, are very much shorter than at a year ago. The close of navigation last season saw the mill yards swept clean of stocks in Michigan, and by the time navigation opens again the city yards will be swept clean also. Wisconsin is also bare of dry stock, or very nearly so, and by the time winter cut stock begins to move the customers will be glad to get it. The situation in northern hardwoods is certainly strong, and with the present prospect for a season's cut it seems that prices on this class of stock must go higher rather than lower.

The foreign shipments of lumber from British Columbia since January 1st, 1903, are given herewith :

From	For	Cargo—Feet.
Hastings	Plymouth	817,317
Hastings	Natal	1,165,095

Robert J. Armstrong has erected a large saw mill at Red Rapids, in the Tobique district of New Brunswick. He expects to make a large cut during the coming season.

THE LONDON MARKET.

Concerning Canadian lumber at London, Messrs. Churchill & Sim say:

There is no change to report in the pine deal market. Progress is being made in sales for arrival of a small supply at very high rates. For spruce, the demand in London has been a good deal restricted during February; prices seemed to be dragged as high as they will go here and they are maintained with difficulty, falling below current quotations whenever buyers get a chance. Yet they are not nearly high enough to please shippers who are buoyed up with the continued demand from the United States. Very considerable sales of red pine deals, 3 by 9, 4 by 9, and 3 by 11 inch, have been made for shipment from Montreal for the Cape market. There is no change to report in the market here for oak, birch, or white pine timber. Elm and ash have fallen out of demand.

The stock of timber, deals etc., in the public docks at London on February 28th, 1903, was as follows :

Foreign deals	1,732,000	pieces
Battens	2,753,000	"
Boards	10,850,000	"
Wainscot logs	15	"
Oak timber	2,409	loads
Fir timber	2,341	"
Colonial pine deals and battens (White)	827,000	pieces
Colonial pine deals and battens (Red)	200,000	"
Spruce ditto	1,056,000	"
Oak timber	1,120	loads
Birch timber and planks	3,937	"
Elm and ash timber	977	"
White pine	353	"
Red pine	399	"
United States pitch pine timber	15,475	loads
Pitch pine deals	58,000	pieces
East India teak	8,106	loads

Price of deals rule as below:

QUEBEC pine deals, per std.				
1st quality, regular sizes	£22	to	£29	5s
" " oddments	15	to	22	5s
2nd " regular sizes	18 10s	to	23	5s
" " oddments	13 10s	to	16	5s
3rd " regular sizes	11 10s	to	14	5s
" " oddments	8 10s	to	11	
4th " regular sizes	10 5s	to	11	10s
" " oddments	8 5s	to	9	10s
QUEBEC spruce deals				
First quality	£12 15s	to	£15	
Second "	9 15s	to	10	10s
Third "	9 10s	to	10	
Fourth "	8 15s	to	9	10s
Battens	7	to	8	
N. B. spruce deals	£ 8 15s	to	£10	
Oddments, battens and fourths	7	to	9	

SHIPPING MATTERS.

Lumber freights from British Columbia points rule as follows: To Sydney, 32s 6d to 36s 3d; Melbourne or Adelaide, 40s; Port Pirie, 37s 6d; Fremantle, 47s 6d to 50s; Shanghai, 37s 6d to 40s; Kiao-Chau, 40s; Taku, 45s; Vladivostock, 40s; West Coast S. A., 32s 6d to 35s; South Africa, 52s 6d to 56s 3d; U. K. or Continent, 50s.

The following charters for eastern shipments are reported: Barque Leviathan, Tusket, N. S., to Buenos Ayres, lumber, $7.75; steamer Victory, Dalhousie, N. B. to w. c. England, deals, 38s; barque Valetta, Campbellton, N. B., to Beunos Ayres, lumber, $8.

WHITE PINE LUMBER PRICES.

Stiffening prices on lumber have not tended to increase the demand to any extent and in many instances building operations have been known to be deferred in the hope that prices will go lower. This expectation, however, seems hardly justified by the conditions, for there is a big void to fill in stocks all over the country before any surplus can arise that would be of sufficient proportions to bear the market. It is conceded that the lumber cut in the north at mills where there is any timber available will be large, but so many of the big mills have gone out of commission during the past year and so many have a restricted output of logs for this season's sawing that on the whole it is doubtful whether the cut this year will be as large as last, in which case there is hardly to be expected a surplus in view of the demand in sight. As against an actual scarcity of lumber, there is visible no feature that could cause or induce lower prices, unless there should be a general collapse of all values, which, considering the great industrial activity all over the country, is not to be regarded within the bounds of probability.—American Lumberman.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in first instance to "Empire," CANADA LUMBERMAN.

William Powers, of Midway, B. C., has recently disposed of his lumber business at that place to the Kettle River Lumber Company.

TRADE OPENINGS.

The Secretary of the Canadian Manufacturers' Association, Toronto, has received the following trade enquiries. The names and addresses may be obtained by applying to the publishers of the CANADA LUMBERMAN.

DOORS, WINDOWS, ETC. — A correspondent in Constantinople desires to get in touch with a shipper of the above and has at the present time a small order to place.

HANDLES, BIRCH SQUARES AND TABLES. —A correspondent in New York writes for the names of manufacturers of handles for picks, shovels, sledges; birch squares for chair seats and folding tables of hardwood.

LUMBER.—A business house in Tunis is making enquiry for Canadian firms prepared to ship lumber, etc., for which it is open to take up the agency.

WOOD PULP.—A firm in Glasgow desires to secure the representation of a wood pulp mill.

WOOD PULP, SULPHITE PULP GREY BOARDS.—A Manchester box manufacturer desires names of Canadian manufacturers of the above.

TIMBER.—A London firm of wholesale export cabinet makers are desirous of being placed in direct touch with Canadian exprters of timber suitable for their trade.

TIMBER LIMIT TRANSACTIONS.

It is reported that R. A. Klock, of Montreal, formerly of Klock Bros., Aylmer, Que., has purchased from the Chisholm Estate, of Hamilton, a timber limit situated on the east branch of the Lievre river, the consideration being about $60,000. It is about 200 square miles in extent and will give logs suitable for the manufacture of square and waney timber.

Further particulars are to hand regarding the purchase by the Rat Portage Lumber Company of the timber limits and saw mill of W. L. Tait, of Vancouver B.C. The timber lands involved contain about 6,000 acres, and the logging plants and mill are included in the bargain. The sale was effected through G. W. Campbell, of Winnipeg. The Rat Portage Lumber Company will market the product of the mill throughout Manitoba and the North-West Territories.

S. A. Fisher, of the Michigan Land & Lumber Company, is reported to have sold his timber holdings and interest in the plant of the company at Blind River, Ont., to Alexander McEwan and R. B. Dolsen, of Bay City. The mill has a stock of 20,000,000 feet of logs for the coming season.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Lumbermen in Ottawa and the Ottawa Valley are all discussing the early and unexpected break-up of winter in the Gatineau, Coulonge, Kippewa and other districts adjacent to the Ottawa river and its tributaries. Inquiry shows that while nearly all the season's cut of logs has been deposited at the streams, a considerable portion of the output of square and waney timber will have to be left over on the limits until next season. One operator, who took chances on a long land haul to avoid a longer drive, is left with over one thousand sticks in the bush. In order to diminish the chance of being "stuck," other operators only delayed their timber at the stump long enough to trim two sides. They hauled it almost as rapidly as it was thus treated, leaving the finishing touches for the stream side or railway siding. They "are out of the woods," to quote the popular expression.

Up in the Kippewa district, where winter was hard and fast a fortnight since, the weather prophets all called a late spring. A sudden change with hot sun and steady rains, however, broke up snow roads and ice, which were not of the best at any stage of the season.

Several firms have been caught in the inward movement of their supplies to their "keepovers," which, in itself, is a serious matter, as it was the intention to commence cutting operations early in August.

Another limit sale was reported this week. From the Chisholm Estate, of Hamilton, Mr. R. A. Klock, of Ottawa, purchased a tract of pine land, 200 square miles in extent, situated on the east branch of the Lievre river, in the upper country. The purchase price was in the neighborhood of $60,000. The limit is said to contain both log and timber making trees of good girth. Mr. Klock, who was a member of the old lumber firm of Klock Bros., Aylmer, Que., will start work on the newly purchased limit this coming summer. He is not likely to erect a mill.

The negotiations between the Rideau Lumber Company, of Ottawa, and the firm of A. & P. White, of Pembroke, for the purchase of the latter's mill and limits, have fallen through. The cause is understood to have been the failure to agree on terms.

The employment agencies are in a bad way for eligible men for the log drives which will soon be under way. While the city is swarming with shantymen, only a comparative few are willing to go back for the driving season. Wages run as high as $25 and $30 and board. Gangs of Indians are being secured from the Caughnawaga reserve.

During the past winter the Booth mill turned out large quantities of hardwood lumber for future shipment. The large supply of pine logs brought by rail from the Madawaska limits are on the ice at the mill, and will serve for the early summer cutting.

No changes have occurred in the local lumber market as regards prices since last letter. Movement of stock is fairly active. Dealers are busy fitting up their yards. Millmen are overhauling their equipment preparatory to a busy season.

A local lumber manufacturer predicted recently that prices would suffer an unexpected break within a year. He based his pessimistic prophecy on the belief that in the matter of production the business was being overdone. Inquiry, however, shows that he is alone in his opinion. It was pointed out by one dealer that the unexpected break-up of spring caught some logs and their non-arrival at the mills next summer will curtail the output anyway. However, a market is to be expected for all that can be cut.

OTTAWA, March 23rd, 1903.

CANADIAN LUMBER SHIPMENTS.

From Chemainus, B. C.: Steamer Tasmania, for Liverpool, 900,000 feet lumber.

GILMOUR & COMPANY, LIMITED

TRENTON, CANADA

THE BOSTON MARKET.

There is a firm market at Boston for spruce lumber, and a premium would have to be paid for prompt delivery. It is reported that logs have sold down east at very high prices, and the outlook is for an advance in lumber shortly. Here quotations are firm at: Ten and 12-inch dimensions, $21; 9-inch and under, $18.50 to $19; 10 and 12-inch random lengths, 10 feet and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, 10 feet and up, $17 to $17.50; all other randoms, 9-inch and under, 10 feet and up, $18 to $18.50; 5-inch and up, merchantable boards, $17; matched boards, $18 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is in fair demand, with prices firm and unchanged: Boards, 12, 14 and 16 feet stock, $14.50 to $15 for good eastern; Pennsylvania, No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

There is a firm market for western pine, with a good demand: Uppers, 1 to 2 inch $84 to $87; 2½ to 3 in. $92 to $97; 4-in. $96 to $100; selects, 1 in. $76; 1¼ to 1¾ in. $76 to $78; 2-in. $78; 2½ to 3 in. $84; 4 in. $86; fine common, 1-in. $67; 1¼ to 1½ in. $69; 2-in. $72; 2½ to 3 in. $80; 4-in. $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Whitewood is very firm, with prices advanced; quartered oak holds firm at the advance: Quartered oak, $75 to $83; plain oak, $45 to $47; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $54 to $60; sap, $43 to $48; common, $38 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end-dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; elm, $34 to $37.

Shingles are steady and unchanged: Extra cedar at $3.35 to $3.45; clear, $2.85 to $2.95; second clear, $2.30 to $2.40; extra No. 1, $1.75 to $1.80; British Columbia red cedar, 16-inch, five butts to 2 inches, $3.50 to $3.60; 18-inch, five butts to 2 inches, $4.25; five butts to 2¼ inches, $4.50.

Spruce clapboards are steady with a light demand. Prices are not changed: Extra, $42; clear, $40; second clear, $37 to $39; extra No. 1, $30 to $33.

Laths are quiet: One and five-eighths inch, $3.15 to $3.25; 1½-inch, $3.00 to $3.10.

WANTED

MESSRS. JOSEPH OWEN & SONS, Ltd., of Liverpool, Eng., are open to treat for regular supplies of large quantities of HARDWOOD LUMBER, and will be glad to hear from holders who have to offer WHITE ASH, WHITE OAK, SCALY BARK and SECOND GROWTH HICKORY, POPLAR and WALNUT, in logs, planks and boards, also prime fresh BIRCH LOGS of large dimensions.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 28 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, APRIL 1, 1903 No. 9

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Address HOLLAND & GRAVES, Buffalo, N.Y.

CURRENT TRADE CONDITIONS.

ONTARIO.

For some time it has been freely predicted that lumber prices would experience no recession before midsummer at the earliest, and that the strength of the market might continue throughout the year. Recently natural conditions have combined to strengthen this view. The most important of these conditions, perhaps, is the early break-up of winter and the consequent cessation of logging operations. In the Georgian Bay district large quantities of logs have been left on the skids, one firm alone having five million feet thus hung up. It is estimated that there will be an average shortage from this cause of 10 per cent. from the output calculated on for the season, while the possibility of a further shortage through low water for driving purposes has still to be reckoned with. The early spring created a larger demand than usual for lumber during March, and stocks are now running low, some grades and sizes of white pine being almost out of the market. A few mills which carried logs over are already resuming operations, but the product will not be in shipping condition for at least two months. In the meantime dealers are finding difficulty in filling orders, which are daily increasing. As might be expected under such conditions, prices are irregular. Where a buyer finds a quantity of a certain grade of lumber which he is actually in need of to supply a customer, he usually accedes to the demands of the seller, even if his price is above the market quotation. There is, however, no desire on the part of the lumber trade to advance prices to an abnormal basis, although conditions alone may bring this about.

Several orders have recently been placed for box lumber, which is scarce in the Eastern States. Manufacturers are asking $13 at the mill for 1x10 box and mill culls, $14.50 for 14 inch, and $13.50 for 1½x12 inch. An improvement in the demand for Norway lumber is reported. Common and dressing, 2x6 and 7 inch, brings $13.50 at the mill, and 2x8 inch $15 for 12 to 16 foot lengths. For 10 and 12-inch $16.50 is asked.

The hardwood market has been a repetition of past weeks. There is good buying wherever dry stock can be located and no small amount of contracting for the future cut. Mill run maple and birch are held around $16. There are no signs of weakness on account of the approach of the sawing season.

QUEBEC AND NEW BRUNSWICK.

A noticeable improvement in the spruce lumber market is reported. Manufacturers are receiving numerous inquiries for stock. A heavy demand from South America has offset the slight falling off in British trade. Deals have brought as much as $14 alongside ship for a specification of fifty per cent. 7 and 8 inch and fifty per cent. 9 inch and up. There has been an advance of about $2 per thousand in the price of spruce clapboards for shipment to the Eastern States. Local trade is also picking up. It is said that the yards have not been so bare of stock in twenty years. Box shooks find a market as readily as manufactured. Shingles are exhibiting more activity, and with this activity has come a slightly better tone to the market. While sales of extras for Boston delivery are still reported as low as $3.35, all the large manufacturers are refusing to contract below $3.40, and some sales are said

to have been made at $3.45. The conditions would seem to be in favor of higher prices for shingles.

MANITOBA AND BRITISH COLUMBIA.

Lumber manufacturers and dealers catering to the North-West market are experiencing some difficulty in meeting the demand for lumber. Not that there is an inadequate supply, but with the early spring has come a rush of orders for immediate shipment which is taxing the capacity of the yards to handle. Car shortage is still a serious drawback. Manufacturers have many orders on their books for lumber and shingles, and if it had been possible to secure cars for making shipments, they would now be in much better position to cope with the spring trade. From the standpoint of orders and prices no complaint can be made. Business is good, with indications of the best year yet experienced. The pending labor difficulties at Winnipeg and Vancouver will, it is believed, be satisfactorily settled at an early date, and there will then be removed almost the only obstacle to an active building season.

UNITED STATES.
